INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Pet Food Express 401(k) Profit Sharing Plan
Oakland, California

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Pet Food Express 401(k) Profit Sharing Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2014, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Standard Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the 2014 financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment and notes receivable from participant assets and executes investment and notes receivable from participant transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2014 financial statements. Accordingly, we do not express an opinion on the 2014 financial statements.

Emphasis of a Matter - Early adoption of ASU 2015-12

The Plan early adopted *Accounting Standards Update ("ASU") 2015-12 - Plan Accounting* issued by the Financial Accounting Standards Board ("FASB") in July 2015. The early adoption of the ASU allowed for fully benefit-responsive investments to be presented at contract value, eliminated the disclosure requirement for investments greater than 5% of total investment balance, and permitted disclosure of investments by general type. The 2014 and 2013 financial statements are presented to conform to the new disclosure requirements per ASU 2015-12.

Other Matter - Supplemental Schedules

The supplemental schedule of (1) Schedule H, Part IV, Line 4(a) - Schedule of Delinquent Participant Contributions and (2) Schedule H, Part IV, Line 4(i) - Schedule of Assets (Held at End of Year), as of or for the year ended December 31, 2014, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Other Matter - 2013 Financial Statements

The financial statements of the Plan as of December 31, 2013 were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the custodian. Their report, dated October 11, 2014, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the custodian, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Adjustments to Prior Period Financial Statements

The financial statements of the Plan as of December 31, 2013 were audited by predecessor auditors, whose opinion dated October 11, 2014 on those statements was modified because of the matter discussed above. As discussed in Note 11, the Plan has restated its financial statements during the current year to record receivables related to 2013, in accordance with accounting principles generally accepted in the United States of America. The other auditors reported on the financial statements before the restatement.

As part of our audit of the financial statements, we also audited adjustments described in Note 11 that were applied to restate the financial statements. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review, or apply any procedures to the financial statements of the Plan other than with respect to the adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 2013 financial statements as a whole.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the 2014 financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the Pet Food Express 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, a defined contribution plan sponsored by Pet Food Express (the "Company"), pursuant to Section 401(a) and related provisions of the Internal Revenue Code ("IRC"), was established effective January 1, 1995. The Plan is designed to provide participants with a means to defer a portion of their compensation for retirement and to provide benefits in the event of disability, death, termination or financial hardships. The Plan covers all employees of the Company who meet certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent laws.

Plan administration

The Company is the administrator of the Plan and, as such, carries out the duties imposed by ERISA. The Company has delegated certain responsibilities for the operation and administration of the Plan. Custodial and recordkeeping services are provided by Standard Insurance Company, or one if its affiliates ("Standard"). Certain administrative expenses of the Plan are paid by the Company. Investment fees, which may vary according to the individual funds selected, are paid out of the assets of the Plan. Participants should refer to the prospectus of the individual investment funds for further details on individual investment fees.

Eligibility

Employees covered under the Plan include all employees, except those covered by a collective bargaining agreement, nonresident aliens and leased employees. Employees become eligible to make elective deferral contributions and receive employer matching contributions on the January 1st, April 1st, July 1st or October 1st after reaching the age of 21 and completing one year of service as defined. Employees become eligible to receive employer profit sharing contributions on the first day of the Plan year after reaching the age of 21 and completing one year of service as defined.

1. Description of the Plan (continued)

Participant contributions

Participants may elect to contribute through payroll deductions amounts up to a maximum amount allowed by the IRC. Maximum allowed deferral amounts were $17,500 for 2014. Participants over the age of 50 may contribute an additional $5,500 catch-up contribution to the Plan for 2014. Participants are allowed to rollover contributions from other qualified retirement plans. The Plan allows for automatic enrollment of newly eligible employees with a contribution of 3% of eligible compensation, unless the employee affirmatively elects otherwise.

The Company is allowed to make matching contributions equal to a uniform percentage of salary deferrals. For the year ended December 31, 2014, the Company made a contribution equal to 20% of the participant's contributions not to exceed 5% of eligible compensation, as defined. The provisions of the Plan also provide that the Company may make a profit sharing contribution to all employees employed on the last day of the year based on annual eligible compensation integrated for social security. The amount of the contribution is at the discretion of the Company and cannot exceed limits established by the Internal Revenue Service. For 2014, the Company made a discretionary non-elective contribution to the Plan in the amount of $175,804.

Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant accounts

Each participant's account is credited with the participant's contribution or rollovers and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations of investment earnings are based strictly on the participant's selection of investments and timing of purchase. Other allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary and rollover contributions and actual earnings thereon. Vesting in employer matching and profit sharing contributions is based on years of credited service, as defined. A participant is 100% vested in matching and profit sharing contributions after six years of credited service. In the event of death, disability or attaining normal retirement age, participants are immediately vested in all Company contributions.

1. Description of the Plan (continued)

Notes receivable from participants

Under the terms of the Plan, participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the value of their vested account balance. The duration of the loan is not to exceed 5 years, except for loans used to finance the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of 3.25%, which is commensurate with local prevailing rates at the time the loans were made. Principal and interest are paid ratably through biweekly payroll deductions.

Payment of benefits

Distributions and withdrawals are payable upon retirement, termination, financial hardship, disability or death. If a participant's account balance is equal to or less than $1,000, the balance is distributed immediately in a lump-sum cash payment unless a direct rollover into another qualified benefit plan is requested. If the account balance is over $1,000, the participant can consent to either a distribution paid in the form of a lump-sum cash payment, a direct rollover into another qualified plan or postpone payment to a later date and remain in the Plan as described in the Plan documents.

Forfeitures

At December 31, 2014 and 2013, forfeited non-vested accounts totaled $17,020 and $19,060, respectively. In accordance with the provisions of the Plan, nonvested account balances of terminated employees can be used to offset employer contributions or administrative expenses. Forfeitures of $9,416 was allocated to employees entitled to a 2013 profit sharing and $8,783 was used to offset employer contributions with no amount used to pay administrative expenses for the year ended December 31, 2014.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of benefits

Benefits are recorded when paid.

Accounting change

The Plan elected to early implement the provisions of the *FASB ASU 2015-12 - Plan Accounting* that was issued in July 2015. Under ASU 2015-12, employee benefit plans are allowed to simplify certain disclosures about plan investments. The Plan has simplified the 2014 and 2013 investment disclosures presented herein under the provisions of ASU 2015-12.

2. Summary of Significant Accounting Policies (continued)

Subsequent events

The Plan has evaluated subsequent events through October 15, 2015, the date the financial statements were available to be issued. No subsequent events have occurred that would have a material impact on the presentation of the Plan's financial statements.

3. Information Prepared and Certified by Custodian

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Standard certified information regarding the cost and fair value of all investment assets held at December 31, 2014 and 2013 and all investment transactions entered into during the year ended December 31, 2014, which was used in the preparation of the accompanying financial statements and supplemental schedules.

4. Fair Value Measurements

The Plan defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines the fair values of its assets and liabilities based on a fair value hierarchy that includes three levels of inputs that may be used to measure fair value (Level 1, Level 2 and Level 3). The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are as follows:

- Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Valued at its daily net asset value (NAV) based on the market value of its underlying investments. While the majority of the underlying asset values are quoted prices, the net asset value of the pooled separate accounts are not publicly quoted.

Group annuity contract: Valued using the income approach at contract value, which approximates fair value, by discounting the related cash flows based on the current yield (see Note 5).

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents investments categorized by fair value measurement input at December 31, 2014:

Description	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$7,544,100	$ -	$7,544,100
Group annuity contract	-	-	669,093	669,093
Total investments measured at fair value	$ -	$7,544,100	$669,093	$8,213,193

The following table presents investments categorized by fair value measurement input at December 31, 2013:

Description	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$6,306,253	$ -	$6,306,253
Group annuity contract	-	-	641,734	641,734
Total investments measured at fair value	$ -	$6,306,253	$641,734	$6,947,987

4. Fair Value Measurements (continued)

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2014:

	Total
Balance as of January 1, 2014	$641,734
Purchases	62,488
Interest income reinvested	8,925
Sales	(44,054)
Balance as of December 31, 2014	$669,093

5. Group Annuity Contract

The Plan has an unallocated investment contract with Standard. Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Because the unallocated investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits at contract value. Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Because the contract is fully benefit responsive and participants can transact at contract value, contract value approximates fair value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value was $669,093 and $641,734, which approximates fair value, at December 31, 2014 and 2013, respectively. The crediting interest rate is set by Standard using a process similar to that used by banks or other insurance companies for similar products. Every month a crediting rate is declared for the coming month.

Certain events limit the Plan's ability to transact at contract value with the issuer. Such events include (1) termination of the contract, (2) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs) that cause significant withdrawals from the Plan, (3), retirement incentive programs, or (4) the liberalization of plan withdrawal or transfer rule. The Plan management believes that the likelihood of the occurrence of events that would cause the Plan to transact at less than contract value is not probable.

The unallocated investment contract does not have a maturity date. Standard may terminate the contract with 30 days advance written notice to the contract owner for reasonable cause. Upon termination by Standard, a market value adjustment or other withdrawals restrictions may apply.

5. Group Annuity Contract (continued)

The average yields earned by the unallocated investment contract are as follow:

Average yields as of December 31:

	2014	2013
Based on actual earnings	1.52%	2.28%
Based on interest rate credited to participants	1.52%	2.28%

6. Income Tax Status

The Plan has adopted the Standard Insurance Company Volume Submitter 401(k) Profit Sharing Plan. The Internal Revenue Service has informed Standard by a letter dated March 31, 2008, that its volume submitter plan is designed in accordance with applicable sections of the IRC, and that any employer adopting this form of the volume submitter plan will be considered to have a plan qualified under applicable sections of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and is tax-exempt.

U.S. GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon an examination by the IRS. No uncertain positions have been identified that would require the recognition of a tax liability (or asset) or disclosure in the financial statements as of December 31, 2014 and 2013. The Plan is subject to routine audits by applicable taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for 2010 and prior years.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Party-In-Interest Transactions

Certain Plan investments are managed by Standard, the custodian, or one of its affiliates. As the Plan custodian, these transactions qualify as exempt party-in-interest transactions.

9. Commitments and Contingencies

The Company noted certain operational defects related to the Plan's application of the definition of compensation, as defined by the Plan, related to the year ended December 2014. The Company is in the process of calculating the Qualified Nonelective Contribution ("QNEC") and lost earnings needed to correct these errors. The Company believes that the defects will not adversely affect the Plan's qualified status or have a material impact on the Plan's Net Assets Available for Benefits.

10. Prohibited Transactions

The Company failed to remit to the custodian certain employee contributions and loan repayments of $530,611 and $76,530, respectively, within a timely manner for the year ended December 31, 2014. As of the date of this report, plan management is in the process of determining the lost earnings on the contributions due to the delays in remittance.

11. Prior Period Adjustment

The previous auditors did not reflect the receivable balances related to employee contributions, employer match, profit sharing contributions and QNEC contributions in the financial statements as of December 31, 2013. These amounts were $18,858, $2,818, $200,000 and $19,052, respectively. A prior period adjustment of $240,728 was made to increase the employer contribution receivable and net assets available for benefits at December 31, 2013.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2014 and 2013:

	2014	2013
Net assets available for benefits per the financial statements	$8,692,926	$7,374,990
Less CY contributions receivable	(257,585)	(236,612)
Net assets available for benefits per the Form 5500	$8,435,341	$7,138,378

The following is a reconciliation of contributions received per the financial statements for the year ended December 31, 2014 to Form 5500:

Contributions to Plan per the financial statements	$902,564
Plus contributions receivable at December 31, 2013	236,612
Less contributions receivable at December 31, 2014	(257,585)
Contributions to the Plan per the Form 5500	$885,707
