Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Arquitectonica International Corporation 401(k) Profit Sharing Plan and Trust (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2014 financial statements.

Basis for Disclaimer of Opinion on the 2014 Financial Statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D, which was certified by John Hancock Life Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the 2014 financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee, as of and for the year ended December 31, 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion on the 2014 Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2014 Financial Statements paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2014 financial statements. Accordingly, we do not express an opinion on the 2014 financial statements.

Other Matters—Report on Supplemental Schedules and Report on 2013 Financial Statements

The supplemental schedules of Schedule H, Part IV, Line 4(i) – Schedule of Assets (Held at End of Year) as of or for the years ended December 31, 2014 and 2013, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2014 Financial Statements paragraph, we do not express an opinion on the supplemental schedules for the year ended December 31, 2014.

We have audited the accompanying statement of net assets available for benefits of the Plan as of December 31, 2013, and in our report dated October 6, 2014, we expressed our opinion that such financial statement presents fairly, in all material respects, the net assets available for benefits of Arquitectonica International Corporation 401(k) Profit Sharing Plan and Trust as of December 31, 2013, and changes in its nets assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Form and Content in Compliance With DOL Rules and Regulations for 2014 Financial Statements

The form and content of the information included in the 2014 financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A. Description of the Plan

The following description of the Arquitectonica International Corporation ("Company") 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company who have satisfied two months of service and are age twenty-one or older. Upon death or disability, the accrued benefits of the participants will be paid to the beneficiaries as designated by the participants.

In March 2014, the plan sponsor replaced Paychex, Inc. which served as the custodian of records and Merrill Lynch, which served as the money manager with John Hancock Life Insurance Company, which became the trustee of the Plan. The Plan also obtained third-party services from The Pension Studio, LLC to serve as the Plan's third party administrator.

Management of the Company controls and manages the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is also intended as a plan described in Section 401(k) of ERISA.

Contributions

Each year, participants may make elected deferrals up to one hundred percent (100%) of their pretax annual compensation and bonus, subject to Internal Revenue Service limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct their contributions into various investment options offered by the Plan. The Plan currently offers thirty (36) mutual funds, and one (1) stable value fund as investment options for participants. The employer matching contribution is discretionary. During 2014 and 2013, the Company contributed 50% of the first 5% of base compensation that a participant contributed to the Plan. Additional amounts may be contributed at the option of the Company's board of directors.

Participant Account

Each participant's account was credited with the participant's contribution and allocation of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and employer contributions is based on years of continuous service. On January 1, 2014 the Company changed their vesting schedule from participants being immediately fully vested in employer match and profit sharing contributions to a 5 year graded vesting schedule. Participants hired prior to January 1, 2014 are immediately fully vested in all sources. Participants hired on or after January 1, 2014, are subject to a 5 year graded vesting schedule. Prior to the five years of service, a

participant is entitled only to the Company's matching and employer contributions in accordance with the following schedule:

Years of Service	Vesting %
Less than one year of service	0%
After one year of service	20%
After two years of service	40%
After three years of service	60%
After four years of service	80%
After five years of service	100%

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent (50%) of their vested account balance. To receive a participant loan, a participant must sign a promissory note along with a pledge or assignment of the portion of their account balance to be used as security for the loan. The loans bear interest at 2% above the prime interest rate, which was commensurate with local prevailing rates at the time the loans were initiated. Periodic repayments are required for the participant loans and must be payable generally within five years, 10 years for the purchase of a primary residence. Principal and interest loan repayments are made through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant could elect to either lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a specified period not to exceed the life or life expectancy of the participant. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. All amounts allocated to participants who elected to withdraw from the Plan as of December 31, 2014 and 2013 were paid prior to year-end.

Forfeitures

Forfeitures of unvested employer contributions and matching from terminated participant accounts are used to first pay Plan expenses and then to offset future employer contributions and matching contributions.

Note B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract

value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Cash

Cash represents a combination of unallocated participant funds, see Note K, and forfeitures on deposit in the Plan's interest bearing cash account. The amounts on deposit are not insured by the Federal Deposit Insurance Corporation. At December 31, 2014 the balance of the Plan's cash account was $17,603.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices were used to value investments. Shares of mutual funds were valued at quoted market prices, which represented the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions

During the years 2014 and 2013, excess employee contributions for the 2013 and 2012 plan years, respectively, were distributed to the highly compensated participants correcting the failure of the discrimination test that compares the percentage deferred by "highly-compensated" to "non highly-compensated" participants.

Note B. Summary of Accounting Policies – continued

Payments of Benefits

Benefits are recorded when payment is made to the participant or beneficiary.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2015, the date the financial statements were available to be issued. There have been no material subsequent events that would require recognition in these financial statements or disclosure in the notes to financial statements.

Note C. Stable Value Fund

During 2014 the Plan invested in the John Hancock Stable Value Fund (the "Fund"), which is a stable value fund that is invested primarily in benefit responsive contracts issued by the state regulated insurance companies and banks. The Fund seeks to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term. The Fund is invested primarily in benefit responsive contracts issued by state regulated insurance companies and banks, including but not limited to John Hancock Life & Health Insurance Company. In addition, each insurance company either contractually guarantees or obtains contractual guarantees from third parties insuring against the loss of principal deposited into the Fund and providing that individual participant withdrawals will be paid promptly at book value even if the Fund's total book value exceeds the market value of its underlying securities. However, if the book value of the Fund exceeds the market value of underlying securities, the stabilizing agreements provide that the payment of certain withdrawals may be delayed for up to 12 months unless the plan or the participant requesting the withdrawal elects to accept such payment subject to a market value adjustment.

In accordance with ASC 962 Plan Accounting – Defined Contribution Pension Plans (formerly FASB Staff Position AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit Responsive Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans), the stable value fund is included at fair value in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis.

Note D. Investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company, the Trustee for the Plan, has certified as to the completeness and accuracy of all the investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2014, the supplemental Schedule H, Part IV, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2014, and the related investment activity reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014.

Fair Value Measurements

The Financial Accounting Standard Board Accounting Standards Codification provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level l

Inputs to the valuation methodology are unadjusted quoted prices for identical unrestricted assets or liabilities in active markets that the Plan has the ability to access. An active market for the assets or liability is a market in which the transaction for the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;

Note D. Investments – continued

Fair Value Measurements – continued

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments that are measured at fair value on a recurring basis, such as money market funds, mutual funds, and equity securities are generally classified within Level 1 of the fair value hierarchy. The fair values of these investments are based on quoted market prices in active markets. The Plan also invests in a stable value fund held within a guaranteed investment contract for which the valuation is based on the value of the underlying investments. Based on the nature of the underlying investments in the guaranteed investment contract, the investment asset has been classified as Level 2. The stable value fund has an investment objective to maintain a constant net asset value while generating a slightly higher yield than the money market fund. Generally, there are no restrictions on a participant's ability to redeem their investment in the guaranteed investment contract at the investment's net asset value (NAV). However, withdrawals prompted by certain events (e.g., termination of the managed income portfolio, changes in laws and regulations) may restrict a participant's ability to redeem the investment at its NAV.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Notes Receivable from Participants: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note D. Investments – continued

Fair Value Measurements – continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 4,932,741	$ -	$ -	$ 4,932,741
Stable Value Funds	-	-	7,130	7,130
Notes Receivable from Participants	-	-	67,426	67,426
Total assets at fair value	$ 4,932,741	$ -	$ 74,556	$ 5,007,297

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 4,502,244	$ -	$ -	$ 4,502,244
Notes Receivable from Participants	-	-	74,505	74,505
Total assets at fair value	$ 4,502,244	$ -	$ 74,505	$ 4,576,749

Note E. Benefits Paid to Participants

During 2014, several terminated participants with larges balances in their accounts withdrew their funds, therefore resulting in significant increase in benefit payments in 2014.

Note F. Related Party Transactions

For the Plan years 2014 and 2013, there were no related party transactions between the Plan and the sponsor, plan administrator, or the employer.

Note G. Bonding Requirements

The Employee Retirement Income Security Act of 1974 requires fiduciaries of qualified benefit plans to be bonded with a bond equivalent to the lesser of 10% of the assets held in the plan at the beginning of the year or $500,000. As of December 31, 2014, the plan was covered by a fidelity bond in the amount of $457,675. The amount of the bond held by the fiduciary is in compliance with the requirements.

Note H. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time. Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note I. Reconciliation of Financial Statements to Schedule H of Form 5500

The following are reconciliations of net assets available for benefits per the financial statements to Schedule H of Form 5500 for the years ended December 31,

	2014	2013
Net Assets available for benefits per financial statements	$ 5,042,963	$ 4,546,712
Amounts of contributions receivable per financial statements	(25,827)	(1,549)
Amounts of contributions receivable per Schedule H of Form 5500	2,958	-
Amounts of excess contributions payable	7,764	31,586
Net Assets available for benefits per Schedule H of Form 5500	$ 5,027,858	$ 4,576,749

The following are reconciliations of contribution revenues per the financial statements to Schedule H of Form 5500 for the years ended December 31,

	2014	2013
Contributions received per financial statements	$ 1,022,144	$ 464,879
Add: contributions receivable beginning of year	1,549	17,065
Less: contributions receivable end of year	(25,827)	(1,549)
Add: Amounts of contributions receivable per Schedule H of Form 5500	2,958	-
Contributions received per Schedule H of Form 5500	$ 1,000,824	$ 480,395

Note J. Tax Status

The plan originally obtained a determination in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the plan's financial statements.

Note K. Contingencies

In March 2014, at the time of the conversion from Merrill Lynch to John Hancock, a participant's account balance was inadvertently allocated to a cash account instead of investment funds, as a result during the period from March to December 2014 the participants account did not earn income. The Plan Administrator and the Trustee are, as of the date of the financial statements, calculating the earnings due to the participants account for this period. The amount due is not deemed to be material by the Plan Administrator.

Note K. Contingencies - continued

There were no unusual or infrequent events or transactions occurring subsequent to the balance sheet date that might significantly affect the usefulness of the financial statements in assessing the plan's present and future ability to pay benefits.

Note L. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. During the year ended December 31, 2014 and 2013, the fair value of investments appreciated by $220,736 and $591,605, respectively, due to market volatility related to economic conditions. Due to the level of risk associated with certain investment securities, it is reasonable possible that change in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

The Plan provides investment options that hold securities of foreign companies, which may involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S. companies.
