Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of **BLS Limousine Service of New York, Inc. Salary Deferral Plan,** as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplementary schedule on pages 8 through 12 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Report on the Financial Statements

We have audited the accompanying financial statements of **BLS Limousine Service of New York, Inc. Salary Deferral Plan,** which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

BLS LIMOUSINE SERVICE OF NEW YORK, INC. SALARY DEFERRAL PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the BLS Limousine Service of New York, Inc. Salary Deferral Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General The Plan, which was begun February 1, 2001, is a 401(k) Plan covering all eligible employees of BLS Limousine Service of New York, Inc., BLS Limousine Service of Los Angeles, Inc., BLS USA, Inc., and BLS Limousine Service of Las Vegas, Inc. ("Companies") who have one year of service. The custodians of the Plan are Morgan Stanley, Citigroup/Smith Barney, and Nationwide Financial Services, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions For 2012, participants may contribute up to 15% of pretax annual compensation, as defined in the Plan. Until October 2008, the Company matched up to 100% of each employee's contribution that does not exceed 3% of compensation, plus 50% of each employee's contribution that exceeds 3% but is less than 5% of compensation. Subsequently, the Company ceased matching employee contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain Internal Revenue Code limitations.

Participant Accounts Each participant's account is credited with the participant's contribution, and Plan earnings, and charged with an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting Participants are vested immediately in their contributions plus actual earnings thereon. The Company's contribution portion of their accounts also vests immediately.

Participant Loans Participants may borrow from their accounts up to a maximum of $50,000 or 50 percent of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at the then local prevailing rates, ranging from 4.0% to 9.250%. Principal and interest are paid ratably through payroll deductions.

NOTE 1 – DESCRIPTION OF THE PLAN – (Continued)

Payment of Benefits Benefits start on a participant's normal retirement date if the participant is no longer an employee and has a vested account under the Plan. The participant may choose to have benefits paid on this date even if the participant is still an active employee.

Normal retirement means the first day of the month after the participant reaches age 65.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties
The Plan invests in various securities. Investments in securities are exposed to various risks due to market fluctuations, interest rates and credit fluctuations. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities could occur and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The Plan transacts certain of its investment operations with a registered securities broker-dealer. Transactions and business with a securities broker-dealer are regulated by the Securities and Exchange Commission, the SEC, and protected by SIPC, the Securities Investor Protection Corporation.

The Plan deposits its cash in banks which are insured by the Federal Deposit Insurance Corporation ("FDIC") for up to $250,000 per bank. The Plan's cash balances did not exceed insurable limits during the year ended December 31, 2012.

Investment Valuation and Income Recognition The Plan's investments are stated at fair value. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (continued)

Expenses Administrative expenses of the Plan are paid by either the Plan or the Plan's Sponsor, as provided in the Plan Document.

Payment of Benefits Benefit payments to participants are recorded when paid.

Subsequent Events Management has evaluated events and transactions through June 4, 2015, the date at which the financial statements were available to be issued, noting no events which affect the financial statements as of December 31, 2012.

NOTE 3 – INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31, 2012 and 2011:

	2012	2011
Berkshire Hathaway Inc. CL B	$ 35,880	$408,968
Apple, Inc.	482,680	165,644

During 2012, the Plan's mutual fund investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $46,984.

NOTE 4 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will receive all amounts in their accounts.

NOTE 5 – FEDERAL INCOME TAX STATUS

The Plan files an annual return report in compliance with regulations of ERISA and the Internal Revenue Code ("IRC"). The Plan has a determination letter from the Internal Revenue Service, dated January 28, 2004 stating that the plan and related trust are designed in accordance with applicable sections of the IRC.

NOTE 6 - FAIR VALUE MEASUREMENTS

The Plan applies the provisions of Fair Value Measurements and Disclosures (FASB ASC 820) to its valuation of financial instruments. In accordance with FASB ASC 820, the fair value of financial instruments is estimated based on market trading information, where available. Absent published market values for an instrument or other assets, management uses observable market data to arrive at its estimates of fair value.

Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, FASB ASC 820 establishes a three level fair value hierarchy that prioritizes the inputs used to measure fair value. The three levels of inputs used to measure fair value are as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted price for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methodologies used for assets measured at fair value at December 31, 2012 are as follows:

Common stocks and mutual funds are valued at the closing price reported on the active market on which the individual securities are traded.

The pooled separate accounts are valued at the amounts certified to by the trustee.

NOTE 6 - FAIR VALUE MEASUREMENTS (continued)

The foregoing methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Plan believes that its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following sets forth by level, within the fair value hierarchy, the Company's assets at fair value as of December 31, 2012:

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Common stocks and mutual funds	$1,165,487	$ -	$ -	$1,165,487
Pooled separate accounts	-	-	814,421	814,421
Participant loans	-	-	209,311	209,311
Total investments at fair value	$1,165,487	$ -	$1,023,732	$2,189,219

There were no level 2 investments during the year ended December 31, 2012.
