1. Description of the Plan

The following description of the CMG Financial Services 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is as a defined contribution 401(k) profit sharing plan covering all of the employees of CMG Financial Services and its related entities (the "Plan Sponsors"). Employees are eligible to participate in the Plan providing they are at least age 21 and have completed three months of service. Participants may begin deferring a portion of their compensation into the Plan on the first day of the month following eligibility. Nonresident aliens with no US source income are not eligible to participate in the Plan.

The Plan is subject to the provisions of Section 401(a) of the Internal Revenue Code and the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan Administrator Committee.

Contributions to the Plan

Participants may contribute a portion of their eligible annual compensation into the Plan subject to certain non-discrimination restrictions and to an annual limitation of $17,500 for 2014 ($23,000 for those participants who are age 50 or over). Roth elective contributions are also permitted.

The plan sponsor has the discretion under the Plan to make matching contributions. For 2014, the plan sponsor matched 40% of the first 100% of participant's contribution, up to a maximum of $2,500 per participant. Matching contributions are determined on a pay period basis.

The plan sponsor is also permitted to make a discretionary profit sharing contribution. Only those participants who have completed a year of service (12 consecutive months) and who are employed with the plan sponsor on the last day of the plan year are eligible for an allocation of the profit sharing contribution. For 2014, the plan sponsor elected to forgo a profit sharing contribution.

Participant Accounts

The Plan's assets are invested, as directed by the participant, as pooled funds. A participant's account balance in the Plan is derived through an allocation of these pooled investments. Each participant's account is credited with the participant's contribution, plan sponsor contributions, and related investment earnings pursuant to the participant's investment allocations. Allocations of income are based strictly on the participant's selection of investments and timing of purchase. Participant accounts are also charged with an allocation of administrative expenses that are paid by the Plan.

Vesting and Forfeitures

Participants are immediately vested in their contributions and related earnings at all times. Participants vest in plan sponsor contributions (matching and profit sharing) in ratable installments of 20% per year after the first year of service. Participants are 100% vested in the event of death, disability or attainment of normal retirement age (later of age 65 or six years in the Plan). Forfeitures are used to offset the current year's matching and profit sharing contributions and to pay for Plan expenses. At December 31, 2014 and 2013, forfeitures available to offset future plan sponsor's contributions were $23,352 and $30,219, respectively. During the year ended December 31, 2014, forfeitures in the amount of $6,354 were used to reduce employer contributions and $441 was used to pay Plan fees.

Payment of Benefits
The Plan provides for the payment of benefits to the participant (or, if applicable, the beneficiary) at retirement, death, disability, financial hardship, or termination of employment. In-service distributions are also available, providing the participant is at least age 59½. Participants who qualify for retirement benefits and withdrawals will receive their benefits in the form of a lump sum payment. Benefits under the Plan shall be distributed solely from the assets of the trust. The benefit to which a participant is entitled is the benefit that can be provided directly from the participant's vested account balance. Participants who separate from service and have vested account balances of $5,000 or less are subject to an administrative lump sum distribution at the discretion of the plan administrator. Retired participants must begin receiving a distribution from their account balance no later than April 1 following the calendar year they turn age 70½.

Notes Receivable from Participants
Participants may obtain a loan from the Plan up to the lesser of $50,000 or 50% of the participant's vested account balance. The minimum loan amount is $1,000 and participants may only have 2 loans outstanding at a time. Loans bear an interest rate of 1 percent above prime rate determined on the date of the advance by the plan administrator. All loans have a term of not more than five years (unless the loan is used to acquire a principal residence) and are payable through regular payroll deductions. Loans are segregated investments, and to the extent a participant borrows, his or her account will not share in the earnings and gains in value attributable to other plan investments. The interest that participants pay on their loans will be directly credited to their accounts. The loans are secured by the balance in the participant's account and in the event of default, the unpaid loan principal will be offset against the participant's vested account balance.

Plan Amendments

Effective January 1, 2014, the Plan was amended to change the matching formula to 50% of the first 5% of participant contribution up to $2,500.
Effective January 15, 2014, the Plan was amended to change the matching formula to 40% of the first 100% of participant contribution up to $2,500.
Effective February 18, 2014, and March 21, 2014 the Plan was amended to change the Plan Administrator.
Effective June 2, 2014, the Plan was amended to allow participant loans for any reason.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting and in accordance with ERISA. Contributions from participants are recorded when withheld from the participant. Plan sponsor contributions are recorded when approved by the plan sponsor. Benefit payments are recorded when paid. The financials are presented at contract value. As of December 31, 2014 and 2013 contract value equaled fair value.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value as determined by the plan custodian (see Note 3). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 4 for discussion of fair value measurements. See Note 6 for discussion of fully benefit-responsive investment contracts reported at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from the participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events through October 12, 2015, the date the financial statements were available to be issued.

3. Certification of Assets

Transamerica Financial Life Insurance Company ("Transamerica") serves as the custodian of the Plan's assets. In that capacity, Transamerica holds the Plan's investment assets and executes investment transactions. The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). As permitted under such election, the plan administrator has obtained certifications from Transamerica as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that all investment information supplied to the plan is complete and accurate. Other than the fair value of the guaranteed investment contract and notes receivable from participants, certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2014 and 2013, and interest, dividends and net appreciation in fair value of investments for the year ended December 31, 2014, was obtained or derived from the certified information. The contract value of the guaranteed investment contract was certified by the custodian.

4. Fair Value Measurements-unaudited

Assets at Fair Value as of December 31, 2013:

	Level 1	Level 2	Total

Total	$ 7,032,407	$ 1,348,357	$ 8,380,764

The framework for measuring fair value provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements.) The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets and or liabilities in active markets that the Plan has the ability to access.

Level 2
Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.
Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Valued at the quoted net asset value of shares of the underlying investments held by the plan at year-end.

Guaranteed investment contracts: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit–worthiness of the issuer (See Note 6). Because the participants transact at contract value, fair value is determined annually for financial reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contract, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investments - unaudited

The following investments equaled or exceeded 5% of the net assets available for benefits of the Plan at December 31, 2014 and 2013:

	2014	2013
Transamerica Partners High Yield Bond Ret Acct	$ 701,149	$ 595,438
Transamerica Partners Stock Index Ret Acct	*	443,694
Goldman Sachs Mid Cap Opportunities Ret Acct	793,790	653,927
American Funds New Perspective Ret Acct	*	430,750
Transamerica Stable Value Comp	909,397	1,348,357

* Less than 5%

For the year ended December 31, 2014, the Plan's investments (including gains or losses on investments bought and sold, as well as held during the year) appreciated in value by $590,522 as follows:

Pooled separate accounts	$ 586,047
Stable Value Comp	4,475
	$ 590,522

6. Investment Contracts

The Plan invests in a fully benefit-responsive investment contract with Transamerica Financial Life Insurance Company ("Transamerica"). Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Since the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The investment is included in the financial statements at contract value as reported to the plan by Transamerica. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. As of December 31, 2014 and 2013 contract value equaled fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was $909,397 and $1,348,357, respectively. As of December 31, 2014 and 2013, contract value equaled fair value. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Transamerica. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contract are as follows:

	2014	2013
Average yields:		
Based on actual earnings	0.50%	0.50%
Based on interest rate credited to participants	0.50%	0.50%

7. Tax Status

The plan sponsor has adopted the Transamerica Volume Submitter plan. The Volume Submitter plan received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the submitter plan

is designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since the opinion letter, the Plan sponsor and administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, the plan sponsor and administrator believe that the Plan is qualified and its related trust is exempt from tax.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. Plan Termination

Although it has not expressed any intent to do so, the plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all non-vested account balances would become 100% vested.

9. Related Party Transactions

Transamerica Financial Life Insurance Company currently serves as the custodian of the Plan's assets. Accordingly, all investment managed by Transamerica Financial Life Insurance Company and related entities qualify as party-in-interest transactions.

Fees incurred by the plan for investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As describe in Note 2, the Plan made direct payments totaling $5,941 to the third party administrator, which were not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the plan's operations.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with these securities and the level of uncertainty related to changes in the value, it is at least reasonably possible that changes in the various risk factors will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying financial statements.

11. Prohibited Transactions

During the year ended December 31, 2014, the Plan sponsor did not remit certain participant contributions to the Plan in a timely manner as defined by ERISA. See the Schedule of Delinquent Participant Contributions. The Plan sponsor will compensate participant for any lost earnings resulting from the delay in contributions. These contributions are considered nonexempt party-in-interest transaction subject to an excise tax that the company intends to pay.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 to Form 5500:

	2014
Net assets available for benefits per the financial statements	$ 11,383,889
Employer contributions receivable	(5,879)
Participant contributions receivable	(42,654)
Net assets available for benefits per the Form 5500	$ 11,335,356

The following is a reconciliation of contributions per the financial statements to Form 5500 for the year ended December 31, 2014:

Total contributions per financial statements	$ 3,589,587
Total contributions receivable	(48,533)
Total contributions per Form 5500	$ 3,541,054

13. Subsequent Events

Effective January 1, 2015, the plan sponsor adopted the Mass Mutual Volume Submitter plan.

Effective January 7, 2015, Reliance Trust Company became the trustee of the Plan.

Effective June 1, 2015, the Plan was amended to change the employer identification number.
