The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. NOTE 1 - DESCRIPTION OF THE PLAN

The following is a brief description of the Oerlikon USA Holding, Inc. Pension Plan (Plan), and is provided for general information purposes only. Participants should refer to the Plan Document for a complete description of the Plan.

The Plan is a noncontributory defined benefit pension plan covering substantially all employees of Oerlikon Leybold Vacuum USA, Inc., Oerlikon USA, Inc., and Oerlikon Management USA, Inc., wholly owned subsidiaries of Unaxis USA Holding Inc. (collectively referred to as the Company) hired on or before January 1, 2006. Any employees hired after January 1, 2006 are ineligible to participate in the Plan. Additionally, effective January 17, 2010, participants are no longer eligible to accrue additional benefits The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

General - The Company established the Plan on January 1, 2002 to supplement employees' retirement income. The Plan is the successor to the Leybold Vacuum USA Pension Plan, Unaxis USA, Inc. Pension Plan - Morgan Hill, Contraves, Inc. Retirement Income Plan, and Balzers Process Systems, Inc. Pension Plan (hereinafter referred to as the prior pension plans). The prior pension plans were individually maintained by Leybold Vacuum USA, Inc., Unaxis Materials USA, Inc., Contraves, Inc., and Balzers Process Systems, Inc. for their respective employees until the prior pension plans were merged into the Plan on January 1, 2002. The Plan recognizes service by eligible employees prior to January 1, 2002 who were covered by the prior pension plans.

The Plan is administered by the Company's Benefits Committee (Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines that appropriateness of the Plan's investment offerings and monitors investment performance.

Pension Benefits - The normal retirement benefit under the Plan is equal to the sum of 1.10% of the participant's final average compensation not in excess of social security covered compensation multiplied by the participant's years of credited service not in excess of 40 years plus 0.65% of the participant's final average compensation in excess of social security covered compensation multiplied by participant's years of credited service not in excess of 35 years. The Plan permits early retirement at ages 55 through 64 for participants who have completed at least 10 years of vesting service, with a pre-established reduction in pension benefits. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity or other optional forms of payments. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated Plan benefits attributable to the Company's contributions.

Death and Disability Benefits - If an employee dies with five years of vesting service, the surviving spouse is entitled to 50% of the employee's basic retirement benefit based on credited service to date of death. A covered employee who becomes totally and permanently disabled before attainment of age 65, has 10 years of vesting service on the date of disability, and is covered under a group disability insurance plan maintained by the Company is eligible to apply for a pension benefit until the earlier date the covered employee recovers, or normal retirement date, in accordance with the pension plan amendment of January 17, 2010.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Benefits Committee determines that Plan's valuation policies utilizing information provided by its investment advisers and custodians. See Note 10 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries under the Plan are based on Plan provisions. The accumulated Plan benefits for active employees are based on their average compensation during five years ending on the date as of which the benefits information is presented (the valuation date). Benefits payable under all circumstances-retirement, death, disability, and termination of employment are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Administrative Expenses - The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan Document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits.

Payments of Benefits - Benefit payments to participants are recorded upon distribution.

Subsequent Events - Plan management has evaluated subsequent events through October 12, 2015, the date on which the financial statements were available to be issued.

Recent Accounting Pronouncements - In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07 Fair Value Measurement (Topic 820) (ASU 2015-07), which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. Removing those investments from the fair value hierarchy not only eliminates the diversity in practice resulting from the way in which investments measured at net asset value per share (or its equivalent) with future redemption dates are classified, but also ensures that all investments categorized in the fair value hierarchy are classified using a consistent approach. ASU 2015-07 is effective for nonpublic entities for fiscal years beginning after December 15, 2016 and interim periods within those fiscal years. A reporting entity should apply the amendments retrospectively to all periods presented. Early application is permitted. The Plan administrator elected to early adopt this ASU.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In July 2015, the FASB issued ASU 2015-12 Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. This ASU reduces the complexity in employee benefit plan reporting. Part I designates contract value as the only required measure for fully benefit-responsive investment contracts. Currently, fully benefit-responsive investment contracts are required to be measured at contract value with a reconciliation of contract value to fair value, when these measures differ, on the face of the plan financial statements. Part II eliminates the requirement to disclose individual investments representing 5% or more of net assets available for benefits for both participant-directed investments and nonparticipant-directed investments. Additionally, net appreciation or depreciation in investments for the period is no longer required to be disaggregated and disclosed by general type, however, should still be presented in the aggregate. Part II also requires that investments of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. This ASU is effective for nonpublic entities for fiscal years beginning after December 15, 2015. A reporting entity should apply the amendments to Parts I and II retrospectively to all periods presented, while Part III should be applied prospectively. The Plan administrator elected to early adopt this ASU.

NOTE 3 - FUNDING POLICY

The Plan's funding policy is for the Company to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement. The Company's contributions for 2014 and 2013 exceeded the minimum funding requirements of ERISA.

NOTE 4 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable or would have been payable during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.

3. All other vested benefits (that is, vested benefits not insured by the PBGC).

4. All nonvested benefits.

NOTE 4 - PLAN TERMINATION (Continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated Plan benefits is determined by the Plan's independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions and cost method used in the valuation as of January 1, 2014 and 2013 were as follows:

Actuarial Cost Method	Unit Credit Cost Method
Retirement Assumptions	2% at ages 55 to 59, 5% at ages 60 to 61, 30% at age 62, 15% at age 63 to 64 and 100% at age 65
Investment Return	8% per annum for the January 1, 2014 and 2013 valuations
Mortality	Mortality tables mandated by PPA as specified in Internal Revenue Services (IRS) Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2014 and 2013. Had the valuation been performed as of December 31, the results may differ.

NOTE 6 - INFORMATION CERTIFIED BY PLAN CUSTODIAN

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest and dividends for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the custodian, Fidelity Management Trust Company (Fidelity). Investment information relative to alternate investments, including investments held at December 31, 2014 and 2013 and investment-related income, has not been certified by the custodian. Alternative investments approximated $207,000 and $324,000 investments at December 31, 2014 and 2013, respectively.

NOTE 7 - INCOME TAX STATUS

The Plan has received a determination letter from the IRS dated February 24, 2011, stating that the Plan is qualified, under the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for tax years prior to 2011.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 - RELATED-PARTY TRANSACTIONS

The Plan pays certain administrative, investment management and custodial fees to parties in interest. The Plan paid approximately $628,000 and $468,000 to parties in interest for the years ended December 31, 2014 and 2013, respectively.

NOTE 10 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

> Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 10 - FAIR VALUE MEASUREMENTS (Continued)

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2014 and 2013.

Cash and Cash Equivalents: Valued at cost, which approximates fair value.

Money Market and Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Depository Receipts: Investments in a foreign entity through a U.S. exchange-traded security held in DTC priced nightly by a third party.

Common Collective Trusts: Valued at the net asset value (NAV) of units of a common collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Plan transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. At December 31, 2014 and 2013, there were no unfunded commitments and investments are redeemable on a daily basis without restriction.

NOTE 10 - FAIR VALUE MEASUREMENTS (Continued)

Alternative Investments: Valued at fair value as determined by the fund managers or general partner. In determining the fair value of the fund, the fund managers or general partner utilizes the estimated fair values of underlying investment entities. In those instances where prices of securities of underlying companies are not readily available, the estimated fair values of the underlying entities are generally determined by the investment managers of the underlying entities. These fair values may be based upon (1) the fund's net capital contribution to the underlying entity and (2) its allocation of undistributed profits and losses, including realized and unrealized gains and losses, as well as management expenses of the fund. The fund managers or general partner may utilize audited financial statements of the underlying entities to determine amounts needed to estimate fair value or, in the absence of audited financial statements, other methods that the manager reasonably chooses. Due to the inherent uncertainty of these estimates, the values of the underlying entities could differ from the values that would have been used had a ready market for these investments existed, and such differences could be material. The Goldentree investment has a 90-day redemption notice period and a semiannual redemption frequency subject to market conditions. This fund currently invests in approximately 70% equities and 30% fixed-income securities.

The methods described above might produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	2014			
	Level 1	Level 2	Level 3	Total
Cash and Cash Equivalents	$ 165,643	-	-	$ 165,643

Total investments at fair value	$ 18,121,152	-	$ 207,243	$ 57,664,829

NOTE 10 - FAIR VALUE MEASUREMENTS (Continued)

	2013			
	Level 1	Level 2	Level 3	Total
Cash and Cash Equivalents	$ 326,256	-	-	$ 326,256
Money Market Funds	596,837	-	-	596,837
Depository Receipts	2,230	-	-	2,230
Mutual Funds	15,906,593	-	-	15,906,593
Alternative Investments	-	-	$ 324,239	324,239
Total assets in the fair value hierarchy	16,831,916		324,239	17,156,155
Investments measured at net asset value (a)	-	-	-	36,223,998
Total investments at fair value	$ 16,831,916	-	$ 324,239	$ 53,380,153

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the year ended December 31:

	2014	2013
Balance, beginning of year	$ 324,239	$ 2,654,194
Realized and unrealized losses	(14,940)	(13,786)
Purchases	-	33,226
Sales	(102,056)	(2,349,395)
Balance, end of year	$ 207,243	$ 324,239

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques might require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2014 and 2013, there were no significant transfers between levels.

(ii) Excess benefit: 0.65% of final average earnings in excess of Covered Compensation times years of service up to 35 years.

For former participants in the Leybold Vacuum USA, Inc. Pension Plan and the Unaxis USA, Inc. Pension Plan - Morgan Hill, the above amount is increased if the sum of their accrued benefit for service through December 31, 1988, based on the Plan formula then in effect, plus the benefit produced by the application of the above formula to their post-1988 salary and service is higher than that produced application of the above formula to their entire salary and service history.

Benefits for service rendered prior to January 1, 2002, for former participants in the Contraves, Inc. Retirement Income Plan and the Balzers Process Systems, Inc. Pension Plan will be determined on the basis of the benefit provisions of those plans.

Early Retirement

A participant who has completed 10 years of service and attained age 55 may retire and receive his accrued benefit commencing at normal retirement date or a reduced benefit commencing immediately. For the Base benefits, the reduction is 2.4% for each of the years that payments commence before age 65. For the Excess benefits, the reduction is 1/13 for each of the first three years and 1/26 for each additional year that benefits commence before age 65.

The early retirement reductions applicable to benefits earned in respect of service rendered prior to January 1, 2002 by former participants in the Contraves, Inc. Retirement Income Plan and the Balzers Process Systems, Inc. Pension Plan will be determined under the provisions of those plans.

a) Each Age Older than Employee	+.007	+.006	+.005	+.004
b) Each Age Younger than Employee	-.006	-.005	-.005	-.004
