NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

1. DESCRIPTION OF THE PLAN

General - The following description of Indy Tire Centers, Inc. (the "Company") Retirement Plan (the "Plan") provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan.

The Plan is a defined contribution plan and contains both a discretionary profit sharing provision and a separate 401(k) provision. The discretionary profit sharing provision covers substantially all full time employees of the Company. All employees are generally eligible to participate in the Plan after attaining the age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All Plan assets are maintained by Principal Life Insurance Company (the "Custodian").

Contributions - Profit sharing contributions to the Plan are made at the discretion of the Company and may be made in any amount; however, no contribution is required. For the year ended December 31, 2009 the Company made no profit sharing contribution.

Under the 401(k) provision of the Plan, eligible employees may contribute, through payroll deductions, a maximum as adjusted in accordance with Section 402 of the Internal Revenue Code (the "Code"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Any employee who has completed six months of entry service may enroll in the Plan, and defer a portion of their salary through payroll deductions. When the employee has satisfied the eligibility requirements, these contributions are matched at an annual percentage chosen by the Company. For the years ended December 31, 2009 and 2008 the Company made matching contributions of \$22,651 and \$23,558 calculated as 25% of each 1% of employee deferral up to an employee deferral of 4%. Therefore the maximum Company match for 2009 and 2008 was 1% on employee deferrals up to 4%.

Participant Accounts - The Plan allows for participants to choose the type of investment to which their pre-tax contributions, matching contributions and discretionary profit sharing contributions are allocated. When each participant enrolls in the Plan; an individual account is created by the Custodian. Plan assets are maintained on the individual account level and are not pooled for investment purposes.

The Plan is structured as an individual account system whereby participants select from a menu primarily of mutual funds offered by the Custodian.

Vesting - Participants' contributions and allocated amounts of investment income or loss are 100% vested at all times. Employer discretionary and matching contributions become 100% vested at a participant's normal or early retirement age, date disabled or deceased, or upon termination of the Plan. Vesting of matching and discretionary contributions prior to any of the previously noted attainments is determined as follows:

Vesting - (Continued)

<u>Years of Vesting Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participant Loans - Participants may borrow up to 50% of the vested account balance or \$50,000 (whichever is less). The minimum loan amount is \$1,000. One loan can be approved in a 12-month period, with only one loan outstanding at any time. The interest rate will be determined at the time of application. Pay back of both principal and interest will be made directly through payroll deductions. A loan set-up and recordkeeping fee will be assessed and all loans must be repaid with a 5-year period.

Payments of Benefits - Upon participant termination, the participant may request distribution of their vested account balance. Terminated participants with vested account balances of less than \$5,000 will be required to withdraw their vested account balances from the Plan

Forfeitures - Any amounts forfeited by participants under the provisions of the Plan may be applied to reduce Plan expenses for the plan year. Any remaining amounts are allocated to the remaining Plan participants in the same proportion as each individual participant's annual compensation as compared to the total of Plan participants' annual compensation. During 2009 and 2008 forfeited funds totaling \$22 and \$599 were allocated to all eligible participants with no reduction to Plan expenses.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right to discontinue contributions at any time and terminate the Plan. If the Plan is terminated, all unallocated funds will be allocated proportionately to each participant and the individual participants shall be 100% vested in all employee, employer and profit sharing contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles in the United States of America. The Plan recognizes certain income and expenses on a cash basis and does not accrue for certain additions or deductions from plan assets until reported by the Trustee.

Investment Transactions - Investments are carried at fair value as reported on the last business day of the year as determined using quoted market prices. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income from investments are recorded as earned on the cash basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Transactions - (Continued)

Net appreciation/ (depreciation) in fair value of investments includes earned interest and dividends, realized and unrealized gains and losses. As Plan assets are maintained on the individual account level, investment income earned on each investment is credited directly to the individual account of the participant.

Payments of Benefits - Benefit payments are recorded when paid. There were no benefits payable at December 31, 2009 and 2008.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, (the "Trustee") of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008, Note 4, and the Supplemental Schedule H, Line 4i – Schedule of Assets Held for Investment Purposes – Modified Cash Basis as of December 31, 2009.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820 (formally FASB Statement No. 157, *Fair Value Measurements*), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds - Valued at the net asset value (NAV) of shares held by the Plan at year end.

Guaranteed Interest Contracts - These contracts are not fully benefit-responsive and accordingly are reported at fair value which approximates contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.

Participant Loans - Valued at amortized cost, which approximates fair value.

The preceding methods described may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2009 and 2008:

2009	Level 1	Level 2	Level 3	Total

Total assets, at fair value	\$ 1,274,312	\$ -	\$ 188,603	\$ 1,462,915

2008	Level 1	Level 2	Level 3	Total
Mutual Funds	\$1,024,970	\$ -	\$ -	\$ 1,024,970
Guaranteed Interest Accounts, not fully benefit-responsive	-	-	121,435	121,435
Participant Loans	-	-	48,936	48,936
Total assets, at fair value	\$ 1,024,970	\$ -	\$ 170,371	\$ 1,195,341

6. TAX STATUS

The Company has received a favorable determination letter dated July 22, 2003 from the Internal Revenue Service stating that the Plan was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of mutual funds, guaranteed interest and money market accounts managed by Principal Life Insurance Company who is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. In addition, all administrative fees are paid by the Company. Total amounts paid by the Company on behalf of the Plan for the years ended December 31, 2009 and 2008 were \$8,881 and \$6,618.

8. RISKS AND UNCERTAINTIES

Investment options offered to participants consist of various investment securities. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits – modified cash basis.

NOTES TO FINANCIAL STATEMENTS

9. SUBSEQUENT EVENTS

A previously adopted Plan amendment became effective in January 2010 prioritizing non-vested forfeitures to be used initially as an offset to incurred Plan expenses and then to reduce Company contributions. Plan management has evaluated the need for disclosure and/or adjustment resulting from subsequent events through August 13, 2010 and determined that there are no other subsequent events requiring disclosure and/or adjustment as of that date, which is the date the financial statements were available to be issued.
