BlueCrest USA GP, LLC 401(k) Plan

Notes to Financial Statements

A. Description of Plan

The following description of the BlueCrest USA GP, LLC (Company) 401(k) Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined contribution plan covering all employees of the Company who are age 21 or older. An amendment to the plan was made effective January 1, 2014, in order to add employer Safe Harbor Match. The Plan is subject to the provisions of ERISA.

2. *Contributions.* Each year, participants may contribute up to $17,500 of their pretax annual compensation. This limit includes contributions made to other deferral plans in the same year. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The company contributes a safe harbor match based on the following formula: If the employee contributes up to 3% of Compensation as a Deferral, the company will make an ADP (Actual Deferral Percentage) Safe Harbor 401(k) Matching Contribution (Safe Harbor Match) of 100% on these Deferrals. If the employee contributes more than 3% but not more than 5% of their Compensation as a Deferral, the employee will receive a Safe Harbor Match Contribution of 50% on these Deferrals. The matching Company contribution is invested in the same fund/s elected by the employee. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. There were none in 2014. Contributions are subject to certain IRS limitations.

3. *Participant accounts.* Each participant's account is credited with the participant's contributions and Company matching contributions and allocations of plan earnings, and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting.* Participants are vested immediately in their contributions plus actual earnings thereon. Safe Harbor Match contributions are allocated to participant accounts after they pass their probation (usually after 3 months of service). If a participant leaves the organization before passing their probation, they are not entitled to the employer match.

5. *Notes receivable from participants.* Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate is set at 2 percent above the prime rate as specified in the Wall Street Journal. Principal and interest is paid through monthly payroll deductions.

6. *Payment of benefits.* If a participant has a financial hardship, they may take a distribution from their pre-tax Deferrals, Safe Harbor Match Contributions or Profit Sharing Contributions. They may not take a distribution for a financial hardship from QNEC and ADP Safe Harbor Match contributions. On termination of service due to death, disability, or retirement, a participant is entitled to receive the value of their vested interest in his or her account.

7. *Forfeited accounts.* There were no forfeited nonvested accounts at December 31, 2014 and 2013. Per the plan provisions the following contributions are always fully vested and cannot be forfeited: Deferrals, ADP Safe Harbor 401(k) Matching Contributions, Qualified Nonelective Contributions, Rollover and Transfer contributions, Matching and Profit Sharing Contributions.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. The Plan has no outstanding loans as of December 31, 2014 and 2013.

Contributions

Employee contributions are recorded in the period in which the Company makes payroll deductions from the participant's earnings. Discretionary Company contributions made to the Plan are recorded in the period earned by participants.

The Plan accepts rollover contributions of the portion of a distribution from an individual retirement account or annuity described in Code Section 408(a) or 408(b) that is eligible to be rolled over and would otherwise be includible in gross income.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Excess Contribution Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants prior to April 10, 2015 and the 2013 excess contributions to the applicable participants prior to April 16, 2014. The excess contribution liabilities were $3,560 and $2,211 in the 2014 and 2013 years respectively.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Fees related to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments. All other administrative expenses of the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through January 20, 2016, the date the financial statements were available to be issued.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*, (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification (ASC) 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods

presented. Early application is permitted, however management has elected not to adopt ASU 2015-07 early.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts.

Part II of the ASU eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Plans can early adopt any of the ASU's three parts without early adopting the other parts. Management has elected not to adopt ASU 2015-12 early.

C. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets.

	December 31,	
	2014	*2013*
Vanguard Target Retirement 2050 Inv (VFIFX)	$240,073	(a)
Vanguard Target Retirement 2045 Inv (VTIVX)	704,015	469,507
Vanguard Target Retirement 2040 Inv (VFORX)	381,548	125,379
Vanguard Target Retirement 2035 Inv (VTTHX)	320,119	210,949
Vanguard Target Retirement 2025 Inv (VTTVX)	207,178	89,005
Vanguard 500 Index Admiral (VFIAX)	306,379	-
Vanguard 500 Index Signal (VFISX)	-	104,322
Vanguard Prime Money Market Inv (VMMXX)	(a)	261,308

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $113,382 as follows:

(a) Investment is less than 5%

Mutual funds:	
Equity funds	$35,440
Fixed income funds	4,512
Multi assets funds	75,249
Other funds	(1,819)
	$ 113,382

D. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Inputs to the valuation methodology include

Level 2

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. The Plan owns shares in the mutual funds. These funds are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds are deemed to be actively traded.

E. Related-Party Transactions and Party In Interest Transactions

The Plan investments are managed by Ascensus, an agent for Ascensus Trust Company. Ascensus Trust Company is the trustee and recordkeeper for the Plan and, therefore, these transactions qualify as party in interest transactions.

F. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

G. Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014 stating that the form of the plan is qualified under Section 401 of the Internal Revenue Code (the Code) and therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2014-6 and 2011-49, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.
