REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Plan Administrator of
TT Electronics 401(k) Retirement Plan:

Report on the financial statements

We were engaged to audit the financial statements of **TT Electronics 401(k) Retirement Plan** (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained certifications from the entity as of December 31, 2014 and 2013, and for the year ended December 31, 2014, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental schedules of assets (held at end of year) and of delinquent participant contributions are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified information described in Note 5, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to financial statements

1 Description of the Plan

The following description of the TT Electronics 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of the following operating entities: TT Group Industries, Inc., MMG NA, IRC, Inc., IRC, LP, AB Automotive, Inc., Shallcross, Inc., AEI Cable, Inc., BAS Components, Inc., BI Technologies Corporation, Optek Technology, Inc. and TT Electronics Integrated Manufacturing Services (collectively, the Company or Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility

Employees who are not covered by a collective bargaining agreement can participate in the Plan immediately upon hiring.

Employees who are covered by collective bargaining agreements can participate in the Plan in accordance with their respective collective bargaining agreements.

Contributions

Employees may make pre-tax and/or Roth 401(k) contributions to the Plan; however, contributions are limited to the lesser of 100% of the employee's gross wages or the maximum amount allowable by law.

For employees who are not covered by the terms of a collective bargaining agreement, the Company matches 100% of the employee's contributions up to a maximum of 3% of each employee's gross wages. The Plan was amended in 2013 for employees who are covered by the terms of a collective bargaining agreement such that the Company will provide a 1% contribution to participants and will match up to an additional 1.5% of the collective bargaining participant's contributions into the Plan.

At the discretion of the Company's Board of Directors, the Company may also make additional contributions for a plan year. An employee's share of this contribution is determined using a formula which reflects the employee's length of service and compensation. No such additional contributions were made for the 2014 plan year.

Rollover Provision

The Plan allows participants to rollover assets from other qualified savings plans into the Plan.

Vesting

Participants are immediately and fully vested in their contributions plus actual earnings thereon. Participants who are not covered by the terms of a collective bargaining agreement are immediately and fully vested in company matching contributions plus actual earnings thereon. Participants who are covered by certain collective bargaining agreements become fully vested in company contributions after five years of service based on the following table:

Years of Service	Vested Percentage
Less than 2	0%
2	40%
3	60%
4	80%
5 or more	100%

Notes Receivable from Participants

Participants may borrow from their vested fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants may have no more than two loans currently outstanding from the Plan. The loans are secured by the balance in the participant's account. Loan terms for all loans other than for principal residence range from 1 to 5 years. Principal residence loan terms range from 1 to 15 years. The loans bear interest at rates that are commensurate with local prevailing rates at the date of issuance, as determined quarterly by the Plan Administrator. As of December 31, 2014, interest rates ranged from 3.50% to 9.25% on all outstanding loans, which are maturing through August 2027. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Participants are entitled to withdraw all or a portion of their vested account balances upon termination of services due to death, permanent disability, retirement or for other reasons or any time thereafter. The Plan also provides that a participant may receive liquidation of all or part of their vested benefits in the event of extreme economic hardship, subject to approval by the Plan's 401(k) committee. In accordance with the Internal Revenue Code (IRC), benefits withdrawn prior to age 59-½ may be subject to additional taxes.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue the contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Forfeitures

Account balances forfeited by prior plan participants may be used by the employer to reduce its contributions to the Plan. Forfeiture activity during 2014 is summarized as follows:

For the year ended December 31		2014
Forfeited nonvested accounts, beginning of year	$	42,781
Withdrawals to reduce employer contributions		(42,512)
Participant forfeitures		5,853
Investment loss		(550)
Forfeited nonvested accounts, end of year	$	5,572

Participant Accounts

Participant accounts may be invested in one or more of the investment funds available under the Plan at the direction of the participant. Each participant's account is credited with (a) participant's contributions, (b) an allocation of employer contributions and (c) an allocation of investment earnings, and is charged with (a) withdrawals, (b) an allocation of investment losses and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan Expenses

The Company pays substantially all expenses for the administration of the Plan, except for certain member-requested service expenses and expenses related to maintaining a Self-Directed Brokerage Account.

2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962, "*Plan Accounting – Defined Contribution Pension Plans,*" defined contribution plans should generally report investments at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment and Income Valuation

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for description of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes realized gains (losses) from the sale of investments and the change in unrealized gains and losses.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the plan document.

Benefit Payments

Benefits are recorded when paid.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

New Accounting Pronouncements

In May 2015, the FASB issued ASU 2015-07, *"Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent),"* which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *"Fair Value Measurement,"* from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. As this pronouncement effects disclosures only, management does not believe this will effect net assets or changes in net assets as of December 31, 2014.

In July 2015, the FASB issued ASU 2015-12, *"Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient."* This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively, with early application permitted. Parts I and III are not applicable to this Plan.

3 Investments

The following presents investments, at fair value, which represent 5% or more of the Plan's net assets. All investments are participant-directed.

December 31	2014	2013
Guaranteed income fund	$ 21,187,089	$ 21,660,080
Pooled separate accounts:		
Fidelity Advisor New Insights A	3,966,929	3,566,754
Janus Balanced Fund Class S	5,319,534	5,351,712
Vanguard 500 Index Signal Class	5,413,025	4,452,227
Vanguard Equity Income	4,319,339	3,844,171

During 2014, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $2,479,325.

4 Fair Value Measurement

The guidance for fair value measurements establishes the authoritative definition for fair value, sets out a framework for measuring fair value, and outlines the required disclosures regarding fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The Plan uses a three-tier fair value hierarchy based upon observable and nonobservable inputs as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

- Level 3: Unobservable inputs developed using the Plan's estimates and assumptions which reflect those that market participants would use.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Guaranteed income fund: Valued by discounting the related cash flows based on current yields of similar instruments with comparable durations. Contract value of the guaranteed investment contract represents contributions made to the account, plus earnings, less participant withdrawals.

Pooled separate accounts: Valued at the net asset value per unit using quoted market prices of the underlying assets.

Money market fund: Valued at the quoted net asset values ("NAV") of shares held by the Plan at year-end.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methodologies described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014:

December 31, 2014	Level 1	Level 2	Level 3	Total

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total assets available for benefits. For the year ended December 31, 2014, there were no significant transfers in or out of Levels 1, 2 or 3.

Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of the financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2014, and for the year then ended.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Fixed Insurance Contract	$ 21,660,080	Market Value Adjustment	Market Value Adjustment Rate	0.00%
			Contingent Deferred Sales Charge	0.00%
			Maturity Date	N/A - the contract's provisions do not provide for distributions at book value at some specified future date
			Crediting Rate	3.00%

5 Certified Financial Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Nationwide Trust Company, FSB (Nationwide) has certified that the following information in the accompanying financial statements and supplemental schedules are complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.
- Net investment earnings and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2014.
- Schedule of assets (held at end of year) as of December 31, 2014.

6 Tax Status of the Plan

On March 31, 2008, the Internal Revenue Service (IRS) stated that the prototype document adopted by the Plan, as then designed, qualifies under IRC Section 401(a), and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with IRC to maintain its qualification. During the current plan year, the plan administrator determined that certain plan operations were not in accordance with the plan document or not in accordance with the IRC. The plan administrator has determined that such issues of noncompliance may be corrected via one of several correction programs available by the IRS rules and regulations. The plan administrator intends to utilize such programs to correct any issues of noncompliance and thus they believe the Plan will remain in compliance with the IRC and will remain tax exempt.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014 and 2013, and for the year ended December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations prior to 2011.

7 Related-party Transactions

Certain plan investments are units of pooled separate accounts and a money market fund as well as interest in a guaranteed income fund managed by Nationwide. Such transactions, while considered party-in-interest transactions under ERISA, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

8 Investment Contract with Insurance Company

The Plan invests in a fixed insurance contract issued by Nationwide Life Insurance Company (Nationwide Insurance) at December 31, 2014 and 2013. The contract does not restrict participant-directed exchanges and is therefore included in the statement of net assets available for benefits as of December 31, 2014 and 2013, at fair value, which approximates contract value, as reported to the Plan by Nationwide Insurance. The contract's net rate, crediting rate and average yield earned at December 31, 2014 and 2013, are 2.75% and 3.00%, respectively. The contract does not have an established maturity date. Additionally, a contract holder may request a lump-sum distribution with a market value adjustment, or an installment payout, at contract value over a period of years. The contract will continue in force until all assets have been distributed, or no further payments are due. See Note 4 for further disclosures pertaining to this investment contract.

9 Prohibited Transactions

During the 2014 plan year, the Company failed to remit to the Plan's trustee certain employee contributions and loan payments totaling $689,808 within the period prescribed by Department of Labor regulations. Delays in remitting contributions and loan payments were due to administrative errors, and the Company has or will make contributions to the affected participants' accounts to compensate those participants for their lost earnings due to the delays.

10 Reconciliation to Form 5500

The following table reconciles the information provided in the Form 5500 to the statements of net assets available for benefits as of December 31, 2014, and the statement of changes in net assets available for benefits for the year ended December 31, 2014, provided in the financial statements:

	Investments	Total Investment Income	Interest Income on Notes Receivable	Total Contributions	Total Deductions	Net Assets Available For Benefits	Change in Net Assets Available For Benefits
	$	$	$	$	$	$	$
Per financial statements	57,900,421	3,063,429	63,083	3,025,934	5,874,499	59,328,977	277,947
Reclassifications	(5,976)	9,199	(7,664)	2,009	9,520	(5,976)	(5,976)

11 Subsequent Events

The Plan has evaluated events and transactions for potential recognition or disclosure through March 23, 2016, the date the financial statements were available to be issued, and has determined that there are no material subsequent events that require adjustment to or disclosure in the financial statements.
