NOTE 1: DESCRIPTION OF PLAN

The following description of VibrantCare Rehabilitation, Inc. 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan adoption agreement for a more complete description of the Plan's provisions.

The financial statements of the Plan are prepared in conformity with generally accepted accounting principles and general practices for employee benefit plans. The following is a summary of the significant accounting and reporting policies used in preparing the financial statements.

General

The Plan is a defined contribution plan covering all eligible employees of the Company. Full time employees over the age of 18 are eligible to participate in the Plan after two months of service and per diem employees are eligible to participate in the Plan after one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was effective as of January 1, 2007.

The Company is the administrator of the Plan and, as such, carries out the duties imposed under ERISA. The Company has delegated certain responsibilities for the operation and administration of the Plan. Plan investments have been managed by the custodian, the Reliance Trust Company, since April 22, 2010 and any transactions with the Reliance Trust Company are considered to be party-in-interest transactions.

Participant Contributions

Each year, full time participants with more than two months of service and temporary or per diem employees with more than one year of service may contribute the maximum amount of their compensation allowable by the Internal Revenue Code. Employees who are age 50 or older by the end of the Plan year were allowed to make additional "catch-up" contributions of $5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 17 equity mutual funds, one bond mutual fund and a number of common investment trust funds as investment options for participants through the custodian, the Reliance Trust Company.

Employer Contributions

The Company also offers a discretionary match of employee contributions if approved by the Board of Directors. There was no Company match contribution made during the years ended December 31, 2015 and 2014, respectively.

The Company may also make additional discretionary profit sharing contributions to the Plan if approved by the Board of Directors. Participants must have more than 1,000 hours of service during the Plan year to receive a discretionary profit sharing contribution. The Company did not make any discretionary profit sharing contributions during the years ended December 31, 2015 and 2014, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on annual compensation, participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1: DESCRIPTION OF PLAN (Continued)

Vesting

All participants are immediately 100% vested in their contributions, plus allocated earnings thereon. Participants vest in the discretionary Company match and the discretionary profit sharing contributions as follows:

Years of service	Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

Employees hired prior to March 1, 2009 have the following vesting schedule:

Years of service	Percentage
2	20%
3	100%

For vesting purposes, one year of service is a year in which a participant has worked at least 1,000 hours during a plan year. A participant is also fully vested upon reaching normal retirement age, upon death, or upon becoming disabled.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested interest. The notes are secured by the balance in the participant's account and bear interest at a reasonable rate determined by the Company by reviewing the rates charged for similar types of notes by other lenders. Note terms for newly disbursed notes range from one to five years or longer if used to purchase the primary residence of the participant. Interest rate is 4.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of employment for retirement at age 59 1/2, death or disability, an amount equal to the participant's vested account balance will be distributed as soon an administratively feasible, following the date of which a distribution is requested or is otherwise payable. Distributions under the Plan may be made in a single lump-sum payment or substantially equal installments.

Administrative Expenses

All reasonable costs, charges and expenses incurred by the trustee in connection with the administration of the Plan and all reasonable costs, charges and expenses incurred by the Plan administrator in connection with the administration of the Plan may be paid by the employer, but if not paid by the employer when due, shall be paid from the Plan. All costs of administration for the year ended December 31, 2015, which amounted to $27,098, were paid by the Plan to Standard Retirement Services, Inc. and represent party-in-interest transactions.

Forfeitures

When certain terminations of participation in the Plan occur, the nonvested portion of the participants account, as defined by the Plan, represents a forfeiture, and is used first to pay administrative expenses and then to reduce employer contributions. For the year ended December 31, 2015, forfeited nonvested accounts had no balance. For the year ended December 31, 2014, forfeited nonvested accounts totaled $1,169. Forfeitures in the amount of $8,844 were used to offset Plan expenses in the current year.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's assets are invested in various investments offered through an agreement between the company and the Plan custodian, the Reliance Trust Company. The Plan's investments are stated at fair value as of December 31, 2015 and 2014. Investment in the common trust fund is stated at fair value as determined by the issuer of the common trust fund, based on the fair value of the underlying investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the plan document.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events were evaluated through May 31, 2016, the date on which the financial statements were available to be issued.

NOTE 4: FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification 820, Fair Value Measurements and Disclosures, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-ended mutual funds that are registered with SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different that the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

NOTE 5: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 6: TAX STATUS

The 401(k) profit-sharing plan sponsored by Standard Retirement Services, Inc. obtained an opinion letter dated March 31, 2008, in which the Internal Revenue Service stated that the form of the Plan is acceptable under Section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 7: INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust Company, the custodian of the plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014, Note 3, and the supplemental schedule as of December 31, 2015, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2015.

NOTE 8: TRANSACTIONS WITH PARTIES-IN-INTEREST

The Company provides to the Plan certain accounting and administrative services for which no fees are charged.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.
