NOTE 1 - DESCRIPTION OF PLAN

The following description of the Dejana Industries, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

GENERAL

The Plan, which was established on August 31, 1971, and amended and restated on July 1, 2004, is a defined contribution plan, covering substantially all non-union employees of companies under common management of Dejana Industries, Inc. (collectively, the "Employer" or "Plan sponsor") who have completed one (1) year of service (or 1,000 hours of service) and who have reached the age of twenty-one (21). Upon meeting the eligibility requirements, participants may begin participating in the Plan on the first day of the month coinciding with or following the date on which the participant is eligible to join the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Counsel Trust Company doing business as Mid Atlantic Trust Company ("Mid Atlantic") serves as the custodian (the "Custodian") of the Plan as of December 31, 2014. Paychex Retirement Services ("Plan administrator") serves as the record keeper.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of the Employer's matching contributions, profit sharing contributions and plan earnings, and charged with participant related administrative expenses. Allocations are based on participant earnings or account balances as defined, unless otherwise stated. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment options offered by the Plan. At December 31, 2014, the Plan offered one (1) common/collective trust and thirty (30) mutual funds as investment options for participants.

CONTRIBUTIONS

Each year, participants may contribute up to a maximum of 92% of pre-tax annual compensation, as defined in the Plan. These participant contributions are limited to $17,500 for the calendar year of 2014, as defined under the Internal Revenue Code ("IRC").

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans as well as catch up contributions. The maximum allowable catch up contribution was $5,500 for 2014 for participants who are at least 50 years old.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

CONTRIBUTIONS (CONTINUED)

The Employer contributes to the Plan a matching 401(k) contribution in an amount equal to 50% of each participant's elective deferrals that are not in excess of 10% of the participant's compensation. The Employer may also make a discretionary Employer Profit Sharing contribution, which will be allocated to each participant based on the ratio that each participant's compensation bears to the compensation of all participants. During the year ended December 31, 2014, the Employer elected not to make a profit sharing contribution.

VESTING

Participants are immediately vested in their contributions plus actual earnings thereon. Participants have a vested percentage in their Employer contribution accounts, which include Employer matching and discretionery profit sharing contributions, based on a graded vesting schedule based on years of service as follows:

Years of Service	Vesting Percentage
0-1	--%
2	20%
3	40%
4	60%
5	80%
6	100%

In addition, Employer contributions and income thereon become fully vested upon the participant's retirement on or after age 65.

FORFEITURES

In accordance with the plan document, forfeitures of terminated participants' nonvested matching and profit sharing contributions are allocated during the plan year to segregated forfeiture accounts and invested in selected portfolios as determined by the Employer. Forfeited amounts will be used to reduce future employer contributions. As of December 31, 2014 and 2013, the forfeited accounts totaled $17,533 and $17,429, respectively. No forfeitures were used during the year ended December 31, 2014 to reduce Employer contributions.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

PAYMENT OF BENEFITS

Upon separation of service, death, disability or retirement, a participant or beneficiary will be eligible to receive their vested benefits in the form of a lump sum payment, in installments, or as a direct rollover into another qualified plan as defined by the Plan document.

Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

ADMINISTRATIVE EXPENSES

All administrative expenses of the Plan are paid by the Plan sponsor. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participants' account and included in administrative expenses in the accompanying statement of changes in net assets available for benefits.

NOTES RECEIVABLE FROM PARTICIPANTS

A participant may borrow the lesser of $50,000, reduced by the difference of all loans a participant had outstanding during the twelve-month prior to the date the new loan was made through the loan issue date, or 50 percent of his or her vested account balance, with a minimum loan amount of $1,000. Loans are repayable over periods ranging up to 60 months, except for loans used to purchase a primary residence, in which case the repayment period may exceed 60 months. Interest rates on outstanding loans at December 31, 2014 and 2013 were 4.25%. Principal and interest is paid ratably through payroll deductions.

EXCESS CONTRIBUTIONS

For the year ended December 31, 2014 and the fiscal year ended June 30, 2013 (the Plan changed from a fiscal year end of June 30 to December 31 for the period beginning July 1, 2013), the Plan failed the Actual Deferral Percentage ("ADP") test and the Actual Contribution Percentage ("ACP") test, resulting in excess contributions due back to affected participants for the year ended December 31, 2014 of $832 and for the fiscal year ended June 30, 2013 of $19,056, totaling $19,888 as of December 31, 2014. Amounts to be refunded were accounted for as a liability in the accompanying statements of net assets available for benefits. Refund of the year ended December 31, 2014 excess contribution occurred in March 2015 and of the fiscal year ended June 30, 2013 in December 2015.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

EXCESS CONTRIBUTIONS (CONTINUED)

At December 31, 2013, included in investments is $482,530, which relates to excess contributions received from the Plan Sponsor that was inadvertently remitted to the Plan. The Plan recorded a corresponding excess contributions due to Plan administrator liability of $482,530. During 2014, this amount was repaid to the Plan administrator and reduced from investments of the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

BASIS OF ACCOUNTING

The accompanying financial statements are prepared on the accrual basis of accounting.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's mutual funds are presented at fair value, based on the quoted or estimated market prices, which represent the net asset value of shares held by the Plan at its fiscal year end. The common/collective trust is reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date and dividends declared are reinvested.

All gains and losses (realized and unrealized) on investments bought and sold as well as held during the year are reported in the net depreciation in fair value of investments on the accompanying statement of changes in net assets available for benefits.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses as incurred. No allowance for credit losses has been recorded at December 31, 2014 or December 31, 2013. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

NOTE 3 - FAIR VALUE MEASUREMENTS

ASC 820, "Fair Value Measurements and Disclosures", establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs were not available.

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

LEVEL 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

LEVEL 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

LEVEL 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used as of December 31, 2014 and 2013:

Common/Collective Trusts: Valued at the net value of participation units held by the Plan at year end. The value of these units is determined by the custodian of the Plan based on the current market values of the underlying assets of the common/collective trusts as based on information reported by the investment advisory using the audited financial statements of the respective common/collective trust at year end.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

NOTE 5 - INVESTMENTS (CONTINUED)

During the year ended December 31, 2014, the Plan's mutual funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $94,539.

At December 31, 2014 and December 31, 2013, all investments are participant directed.

The Plan entered into the Federated Capital Preservation Fund with Federated Investors Trust Company (the "Stable Value Fund"). Contributions to the Stable Value Fund are maintained in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Stable Value Fund is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exempt under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value, are probable of occurring.

The Stable Value Fund's investment in guaranteed investment contracts do not permit the insurance companies to terminate the agreement prior to the scheduled maturity date.

	2014
Average Yields Federated Capital Preservation Fund:	
Ratio of year end market value yield to investments (at fair value)	1.10%
Ratio of year end crediting rate to investments (at fair value)	1.14%

Interest crediting rates are typically reset on a monthly or quarterly basis according to each guaranteed investment contract. While there may be slight variations from one to another, most use a formula that is based on the characteristics of the underlying portfolio of fixed-income securities.

NOTE 6 - TAX STATUS

The Employer adopted a Prototype plan, which received an opinion letter from the Internal Revenue Service ("IRS"), dated March 31, 2008, which stated that the Employer may rely on the opinion letter with respect to the qualification of the Plan under IRC Section 401(a) except as stated below, and also informed the Employer that the Prototype Plan will not receive a determination letter. The opinion of the IRS does not apply for purposes of IRC 401(a)(10)(B) and 401(a)(16); however, the Employer may separately request a determination from the IRS with respect thereto. The Employer has not requested such a determination. The Plan sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustain upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment options in any combination of common/collective trusts and mutual funds with various investment objectives. Investment securities, including common/collective trusts and mutual funds, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the statements of net asset available for benefits.

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

The Plan extends loans to particpants, who are consisdered parties in interest.

NOTE 10 - DELINQUENT PARTICIPANT CONTRIBUTIONS

The Employer determined that it was likely a certain remittance of employee deferrals and/or loan repayments for the Plan year ended June 30, 2013 was not made timely in accordance with DOL guidelines. The Employer ultimately decided to categorize the remittance in question as a prohibited transaction. For this remittance the Employer is in the process of filing with the DOL's Voluntary Fiduciary Correction Program ("VFCP") to correct the violation. The remittance the Employer is in the process of correcting is included on the schedule of delinquent participant contributions in the supplementary schedules to the financial statements. In June 2016, the untimely remittance was fully corrected under the DOL's VFCP.

NOTE 12 - SUBSEQUENT EVENTS

As of January 1, 2016, the Plan transferred record keeping duties from Paychex to ADP Retirement Services and custodial duties from Mid Atlantic to Reliance Trust Company.

The Plan's management has evaluated events occurring subsequent to December 31, 2014 through July 1, 2016, the date the financial statements were available to be issued, for potential recognition and disclosure in the accompanying financial statements. Except as noted in Note 1 with respect to excess contributions, Note 10 in respect to correction of untimely remittance, and above, no events have occurred that would require adjustment to or disclosure in the financial statements.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Dejana Industries, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

GENERAL

The Plan, which was established on August 31, 1971, and amended and restated on July 1, 2004, is a defined contribution plan, covering substantially all non-union employees of companies under common management of Dejana Industries, Inc. (collectively, the "Employer" or "Plan sponsor") who have completed one (1) year of service (or 1,000 hours of service) and who have reached the age of twenty-one (21). Upon meeting the eligibility requirements, participants may begin participating in the Plan on the first day of the month coinciding with or following the date on which the participant is eligible to join the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Counsel Trust Company doing business as Mid Atlantic Trust Company ("Mid Atlantic") serves as the custodian (the "Custodian") of the Plan as of December 31, 2014. Paychex Retirement Services ("Plan administrator") serves as the record keeper.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of the Employer's matching contributions, profit sharing contributions and plan earnings, and charged with participant related administrative expenses. Allocations are based on participant earnings or account balances as defined, unless otherwise stated. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment options offered by the Plan. At December 31, 2014, the Plan offered one (1) common/collective trust and thirty (30) mutual funds as investment options for participants.

CONTRIBUTIONS

Each year, participants may contribute up to a maximum of 92% of pre-tax annual compensation, as defined in the Plan. These participant contributions are limited to $17,500 for the calendar year of 2014, as defined under the Internal Revenue Code ("IRC").

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans as well as catch up contributions. The maximum allowable catch up contribution was $5,500 for 2014 for participants who are at least 50 years old.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

CONTRIBUTIONS (CONTINUED)

The Employer contributes to the Plan a matching 401(k) contribution in an amount equal to 50% of each participant's elective deferrals that are not in excess of 10% of the participant's compensation. The Employer may also make a discretionary Employer Profit Sharing contribution, which will be allocated to each participant based on the ratio that each participant's compensation bears to the compensation of all participants. During the year ended December 31, 2014, the Employer elected not to make a profit sharing contribution.

VESTING

Participants are immediately vested in their contributions plus actual earnings thereon. Participants have a vested percentage in their Employer contribution accounts, which include Employer matching and discretionery profit sharing contributions, based on a graded vesting schedule based on years of service as follows:

Years of Service	Vesting Percentage
0-1	--%
2	20%
3	40%
4	60%
5	80%
6	100%

In addition, Employer contributions and income thereon become fully vested upon the participant's retirement on or after age 65.

FORFEITURES

In accordance with the plan document, forfeitures of terminated participants' nonvested matching and profit sharing contributions are allocated during the plan year to segregated forfeiture accounts and invested in selected portfolios as determined by the Employer. Forfeited amounts will be used to reduce future employer contributions. As of December 31, 2014 and 2013, the forfeited accounts totaled $17,533 and $17,429, respectively. No forfeitures were used during the year ended December 31, 2014 to reduce Employer contributions.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

PAYMENT OF BENEFITS

Upon separation of service, death, disability or retirement, a participant or beneficiary will be eligible to receive their vested benefits in the form of a lump sum payment, in installments, or as a direct rollover into another qualified plan as defined by the Plan document.

Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

ADMINISTRATIVE EXPENSES

All administrative expenses of the Plan are paid by the Plan sponsor. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participants' account and included in administrative expenses in the accompanying statement of changes in net assets available for benefits.

NOTES RECEIVABLE FROM PARTICIPANTS

A participant may borrow the lesser of $50,000, reduced by the difference of all loans a participant had outstanding during the twelve-month prior to the date the new loan was made through the loan issue date, or 50 percent of his or her vested account balance, with a minimum loan amount of $1,000. Loans are repayable over periods ranging up to 60 months, except for loans used to purchase a primary residence, in which case the repayment period may exceed 60 months. Interest rates on outstanding loans at December 31, 2014 and 2013 were 4.25%. Principal and interest is paid ratably through payroll deductions.

EXCESS CONTRIBUTIONS

For the year ended December 31, 2014 and the fiscal year ended June 30, 2013 (the Plan changed from a fiscal year end of June 30 to December 31 for the period beginning July 1, 2013), the Plan failed the Actual Deferral Percentage ("ADP") test and the Actual Contribution Percentage ("ACP") test, resulting in excess contributions due back to affected participants for the year ended December 31, 2014 of $832 and for the fiscal year ended June 30, 2013 of $19,056, totaling $19,888 as of December 31, 2014. Amounts to be refunded were accounted for as a liability in the accompanying statements of net assets available for benefits. Refund of the year ended December 31, 2014 excess contribution occurred in March 2015 and of the fiscal year ended June 30, 2013 in December 2015.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

EXCESS CONTRIBUTIONS (CONTINUED)

At December 31, 2013, included in investments is $482,530, which relates to excess contributions received from the Plan Sponsor that was inadvertently remitted to the Plan. The Plan recorded a corresponding excess contributions due to Plan administrator liability of $482,530. During 2014, this amount was repaid to the Plan administrator and reduced from investments of the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

BASIS OF ACCOUNTING

The accompanying financial statements are prepared on the accrual basis of accounting.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's mutual funds are presented at fair value, based on the quoted or estimated market prices, which represent the net asset value of shares held by the Plan at its fiscal year end. The common/collective trust is reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date and dividends declared are reinvested.

All gains and losses (realized and unrealized) on investments bought and sold as well as held during the year are reported in the net depreciation in fair value of investments on the accompanying statement of changes in net assets available for benefits.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses as incurred. No allowance for credit losses has been recorded at December 31, 2014 or December 31, 2013. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

NOTE 3 - FAIR VALUE MEASUREMENTS

ASC 820, "Fair Value Measurements and Disclosures", establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs were not available.

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

LEVEL 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

LEVEL 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

LEVEL 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used as of December 31, 2014 and 2013:

Common/Collective Trusts: Valued at the net value of participation units held by the Plan at year end. The value of these units is determined by the custodian of the Plan based on the current market values of the underlying assets of the common/collective trusts as based on information reported by the investment advisory using the audited financial statements of the respective common/collective trust at year end.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Fair Value Measurements at December 31, 2014

NOTE 5 - INVESTMENTS (CONTINUED)

During the year ended December 31, 2014, the Plan's mutual funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $94,539.

At December 31, 2014 and December 31, 2013, all investments are participant directed.

The Plan entered into the Federated Capital Preservation Fund with Federated Investors Trust Company (the "Stable Value Fund"). Contributions to the Stable Value Fund are maintained in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Stable Value Fund is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exempt under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value, are probable of occurring.

The Stable Value Fund's investment in guaranteed investment contracts do not permit the insurance companies to terminate the agreement prior to the scheduled maturity date.

	2014
Average Yields Federated Capital Preservation Fund:	
Ratio of year end market value yield to investments (at fair value)	1.10%
Ratio of year end crediting rate to investments (at fair value)	1.14%

Interest crediting rates are typically reset on a monthly or quarterly basis according to each guaranteed investment contract. While there may be slight variations from one to another, most use a formula that is based on the characteristics of the underlying portfolio of fixed-income securities.

NOTE 6 - TAX STATUS

The Employer adopted a Prototype plan, which received an opinion letter from the Internal Revenue Service ("IRS"), dated March 31, 2008, which stated that the Employer may rely on the opinion letter with respect to the qualification of the Plan under IRC Section 401(a) except as stated below, and also informed the Employer that the Prototype Plan will not receive a determination letter. The opinion of the IRS does not apply for purposes of IRC 401(a)(10)(B) and 401(a)(16); however, the Employer may separately request a determination from the IRS with respect thereto. The Employer has not requested such a determination. The Plan sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustain upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment options in any combination of common/collective trusts and mutual funds with various investment objectives. Investment securities, including common/collective trusts and mutual funds, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the statements of net asset available for benefits.

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

The Plan extends loans to particpants, who are consisdered parties in interest.

NOTE 10 - DELINQUENT PARTICIPANT CONTRIBUTIONS

The Employer determined that it was likely a certain remittance of employee deferrals and/or loan repayments for the Plan year ended June 30, 2013 was not made timely in accordance with DOL guidelines. The Employer ultimately decided to categorize the remittance in question as a prohibited transaction. For this remittance the Employer is in the process of filing with the DOL's Voluntary Fiduciary Correction Program ("VFCP") to correct the violation. The remittance the Employer is in the process of correcting is included on the schedule of delinquent participant contributions in the supplementary schedules to the financial statements. In June 2016, the untimely remittance was fully corrected under the DOL's VFCP.

NOTE 12 - SUBSEQUENT EVENTS

As of January 1, 2016, the Plan transferred record keeping duties from Paychex to ADP Retirement Services and custodial duties from Mid Atlantic to Reliance Trust Company.

The Plan's management has evaluated events occurring subsequent to December 31, 2014 through July 1, 2016, the date the financial statements were available to be issued, for potential recognition and disclosure in the accompanying financial statements. Except as noted in Note 1 with respect to excess contributions, Note 10 in respect to correction of untimely remittance, and above, no events have occurred that would require adjustment to or disclosure in the financial statements.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Dejana Industries, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

GENERAL

The Plan, which was established on August 31, 1971, and amended and restated on July 1, 2004, is a defined contribution plan, covering substantially all non-union employees of companies under common management of Dejana Industries, Inc. (collectively, the "Employer" or "Plan sponsor") who have completed one (1) year of service (or 1,000 hours of service) and who have reached the age of twenty-one (21). Upon meeting the eligibility requirements, participants may begin participating in the Plan on the first day of the month coinciding with or following the date on which the participant is eligible to join the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Counsel Trust Company doing business as Mid Atlantic Trust Company ("Mid Atlantic") serves as the custodian (the "Custodian") of the Plan as of December 31, 2014. Paychex Retirement Services ("Plan administrator") serves as the record keeper.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of the Employer's matching contributions, profit sharing contributions and plan earnings, and charged with participant related administrative expenses. Allocations are based on participant earnings or account balances as defined, unless otherwise stated. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment options offered by the Plan. At December 31, 2014, the Plan offered one (1) common/collective trust and thirty (30) mutual funds as investment options for participants.

CONTRIBUTIONS

Each year, participants may contribute up to a maximum of 92% of pre-tax annual compensation, as defined in the Plan. These participant contributions are limited to $17,500 for the calendar year of 2014, as defined under the Internal Revenue Code ("IRC").

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans as well as catch up contributions. The maximum allowable catch up contribution was $5,500 for 2014 for participants who are at least 50 years old.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

CONTRIBUTIONS (CONTINUED)

The Employer contributes to the Plan a matching 401(k) contribution in an amount equal to 50% of each participant's elective deferrals that are not in excess of 10% of the participant's compensation. The Employer may also make a discretionary Employer Profit Sharing contribution, which will be allocated to each participant based on the ratio that each participant's compensation bears to the compensation of all participants. During the year ended December 31, 2014, the Employer elected not to make a profit sharing contribution.

VESTING

Participants are immediately vested in their contributions plus actual earnings thereon. Participants have a vested percentage in their Employer contribution accounts, which include Employer matching and discretionery profit sharing contributions, based on a graded vesting schedule based on years of service as follows:

Years of Service	Vesting Percentage
0-1	--%
2	20%
3	40%
4	60%
5	80%
6	100%

In addition, Employer contributions and income thereon become fully vested upon the participant's retirement on or after age 65.

FORFEITURES

In accordance with the plan document, forfeitures of terminated participants' nonvested matching and profit sharing contributions are allocated during the plan year to segregated forfeiture accounts and invested in selected portfolios as determined by the Employer. Forfeited amounts will be used to reduce future employer contributions. As of December 31, 2014 and 2013, the forfeited accounts totaled $17,533 and $17,429, respectively. No forfeitures were used during the year ended December 31, 2014 to reduce Employer contributions.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

PAYMENT OF BENEFITS

Upon separation of service, death, disability or retirement, a participant or beneficiary will be eligible to receive their vested benefits in the form of a lump sum payment, in installments, or as a direct rollover into another qualified plan as defined by the Plan document.

Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

ADMINISTRATIVE EXPENSES

All administrative expenses of the Plan are paid by the Plan sponsor. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participants' account and included in administrative expenses in the accompanying statement of changes in net assets available for benefits.

Loans are repayable over periods ranging up to 60 months, except for loans used to purchase a primary residence, in which case the repayment period may exceed 60 months. Interest rates on outstanding loans at December 31, 2014 and 2013 were 4.25%. Principal and interest is paid ratably through payroll deductions.

EXCESS CONTRIBUTIONS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

BASIS OF ACCOUNTING

The accompanying financial statements are prepared on the accrual basis of accounting.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's mutual funds are presented at fair value, based on the quoted or estimated market prices, which represent the net asset value of shares held by the Plan at its fiscal year end. The common/collective trust is reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date and dividends declared are reinvested.

All gains and losses (realized and unrealized) on investments bought and sold as well as held during the year are reported in the net depreciation in fair value of investments on the accompanying statement of changes in net assets available for benefits.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses as incurred. No allowance for credit losses has been recorded at December 31, 2014 or December 31, 2013. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

NOTE 3 - FAIR VALUE MEASUREMENTS

ASC 820, "Fair Value Measurements and Disclosures", establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs were not available.

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

LEVEL 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

LEVEL 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

LEVEL 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used as of December 31, 2014 and 2013:

Common/Collective Trusts: Valued at the net value of participation units held by the Plan at year end. The value of these units is determined by the custodian of the Plan based on the current market values of the underlying assets of the common/collective trusts as based on information reported by the investment advisory using the audited financial statements of the respective common/collective trust at year end.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform auditing procedures

NOTE 5 - INVESTMENTS (CONTINUED)

During the year ended December 31, 2014, the Plan's mutual funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $94,539.

At December 31, 2014 and December 31, 2013, all investments are participant directed.

The Plan entered into the Federated Capital Preservation Fund with Federated Investors Trust Company (the "Stable Value Fund"). Contributions to the Stable Value Fund are maintained in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Stable Value Fund is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exempt under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value, are probable of occurring.

The Stable Value Fund's investment in guaranteed investment contracts do not permit the insurance companies to terminate the agreement prior to the scheduled maturity date.

	2014
Average Yields Federated Capital Preservation Fund:	
Ratio of year end market value yield to investments (at fair value)	1.10%
Ratio of year end crediting rate to investments (at fair value)	1.14%

Interest crediting rates are typically reset on a monthly or quarterly basis according to each guaranteed investment contract. While there may be slight variations from one to another, most use a formula that is based on the characteristics of the underlying portfolio of fixed-income securities.

NOTE 6 - TAX STATUS

The Employer adopted a Prototype plan, which received an opinion letter from the Internal Revenue Service ("IRS"), dated March 31, 2008, which stated that the Employer may rely on the opinion letter with respect to the qualification of the Plan under IRC Section 401(a) except as stated below, and also informed the Employer that the Prototype Plan will not receive a determination letter. The opinion of the IRS does not apply for purposes of IRC 401(a)(10)(B) and 401(a)(16); however, the Employer may separately request a determination from the IRS with respect thereto. The Employer has not requested such a determination. The Plan sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustain upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment options in any combination of common/collective trusts and mutual funds with various investment objectives. Investment securities, including common/collective trusts and mutual funds, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the statements of net asset available for benefits.

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

The Plan extends loans to particpants, who are consisdered parties in interest.

NOTE 10 - DELINQUENT PARTICIPANT CONTRIBUTIONS

The Employer determined that it was likely a certain remittance of employee deferrals and/or loan repayments for the Plan year ended June 30, 2013 was not made timely in accordance with DOL guidelines. The Employer ultimately decided to categorize the remittance in question as a prohibited transaction. For this remittance the Employer is in the process of filing with the DOL's Voluntary Fiduciary Correction Program ("VFCP") to correct the violation. The remittance the Employer is in the process of correcting is included on the schedule of delinquent participant contributions in the supplementary schedules to the financial statements. In June 2016, the untimely remittance was fully corrected under the DOL's VFCP.

NOTE 12 - SUBSEQUENT EVENTS

As of January 1, 2016, the Plan transferred record keeping duties from Paychex to ADP Retirement Services and custodial duties from Mid Atlantic to Reliance Trust Company.

The Plan's management has evaluated events occurring subsequent to December 31, 2014 through July 1, 2016, the date the financial statements were available to be issued, for potential recognition and disclosure in the accompanying financial statements. Except as noted in Note 1 with respect to excess contributions, Note 10 in respect to correction of untimely remittance, and above, no events have occurred that would require adjustment to or disclosure in the financial statements.
