Note 1 - DESCRIPTION OF THE PLAN

The following description of the California Products Corporation Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a contributory plan established January 1, 1987 for the purpose of providing an opportunity for retirement income and increased savings to the employees of California Products Corporation (the "Company") who meet the eligibility requirements. Plan assets acquired under this Plan as a result of employee contributions, investment income, discretionary profit-sharing contributions, and other additions to the Plan, will be administered for the exclusive benefit of the participants and their beneficiaries. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility - Employees are eligible to participate in the Plan on the first day of each month upon employment.

Contributions - Participants may elect to contribute an amount up to a certain percentage of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. In any Plan year, the Company may make discretionary profit-sharing contributions in an amount determined by the Board of Directors. To be eligible for a Company discretionary profit-sharing contribution, a participant must have completed one year of service and be employed on the last day of the Plan year unless their termination of employment is due to retirement on or after age 65, disability, or death. Contributions are subject to certain limitations under the Internal Revenue Code (IRC).

Participant Accounts - Accounts are maintained for participants for their elective contributions, employer matching contributions and rollover amounts from other qualified plans, including earnings thereon. Investment income, realized and unrealized investment gains or losses, forfeitures of terminated participants' non-vested accounts and administrative costs are allocated to participants' accounts based on the relationship of a participant's account, by fund, to the total of all accounts. Loan processing fees are charged to the account balance of the participant responsible for the expense. The benefit to which a participant is entitled to is the vested portion of the participant's account balance.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service as follows:

Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	100%

Participants with account balances derived from non-elective employer contributions for plan years beginning prior to January 1, 2007 vest as follows:

Less than 5 years	0%
5 years	100%

Participants' interest in their accounts shall become 100% vested and non-forfeitable without regard to their credited years of service if they are employed by the Company on or after age 65, incur a permanent and total disability, or die while employed by the Company.

Note 1 - DESCRIPTION OF THE PLAN (CONT'D)

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at reasonable rates, which are commensurate with local prevailing rates as determined by the Plan administrator. Transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from one to five years or up to 10 years for the purchase of a primary residence. Principal and interest is paid ratably through payroll deductions.

Forfeited Accounts - At December 31, 2009 and 2008, forfeited non-vested accounts totaled $5,872 and $6,807, respectively. These amounts will be allocated to participants in the same manner as discretionary profit-sharing contributions. During 2009, $6,807 was allocated to participants.

Investment Options - Participants direct the investment of their contributions into various mutual fund investment options offered by the Plan. Participants may change their investment options as determined by the rules applicable to each investment.

Payment of Benefits - Benefits are payable in a lump sum payment upon normal retirement age (65), death, permanent disability, separation from service, or reasons of proven hardship. In any event, payment of benefits must commence when the participant reaches age 70½ or, if later, following the year they terminate employment. However, a five percent owner of the Company will be required to begin receiving minimum benefits from their account by April 1st following attainment of age 70½ regardless of whether they have terminated employment at that time. The Plan agreement contains a more complete description of these provisions and should be referred to by the participants.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Valuation of Investments and Income

Investments in shares of mutual funds are valued at the net asset value on the last business day of the Plan year. Investments in a common collective trust are valued at fair value based on the fair value of the underlying assets. Participant notes receivable are valued at cost which appropriates fair value.

The Fidelity Managed Income Portfolio holds investments in fully benefit-responsive insurance contracts that provide that the Plan may make withdrawals at contract value for benefit-responsive requirements. Accordingly, the Plan's investment in units of the Fidelity Managed Income Portfolio is presented at fair value in the statements of net assets available for benefits, with an adjustment to its' contract value separately disclosed.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Valuation of Investments and Income (Cont'd)

The Plan presents in the statements of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments. The cost of investments is determined on the average cost basis in calculating realized gains or losses.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the actual basis. Dividends are recorded on the ex-dividend date.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Plan Expenses

Administrative expenses, including legal, participant accounting, and other costs of administering the Plan, and all expenses directly relating to the investments are charged to and paid by the Plan unless paid by the Company.

Note 3 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as at December 31, 2009 and 2008:

	Level 1	Level 2	Level 3	Total
December 31, 2009				
Mutual Funds	$ 6,346,142	$ -	$ -	$ 6,346,142

Participant Loans	-	-	237,985	237,985
	$ 6,346,142	$1,342,018	$ 237,985	$ 7,926,145
December 31, 2008				
Mutual Funds	$ 4,878,097	$ -	$ -	$ 4,878,097
Common Collective Trusts	-	1,040,856	-	1,040,856
Participant Loans	-	-	231,635	231,635
	$ 4,878,097	$1,040,856	$ 231,635	$ 6,150,588

Note 3 - FAIR VALUE MEASUREMENTS (CONT'D)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan and Level 3 inputs were only used when Level 1 or Level 2 were not available.

- Level 1 inputs - Fair values are based on quoted prices (unadjusted) in active markets for identical assets that the Plan has the ability to access at the measurement date (e.g. prices derived from NYSE, NASDAQ or Chicago Board of Trade).
- Level 2 inputs - Fair values are based on inputs other than quoted price included within Level 1 that are observable for valuing the asset or liability, either directly or indirectly (i.e. interest rate and yield curves observable at commonly quoted intervals, default rates, etc.). Observable inputs include quoted price for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.
- Level 3 inputs - Fair values are based on unobservable inputs used for valuing the asset or liability. Unobservable inputs are those that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances. An example could be real estate valuations, which require significant judgment. Participants' loans fair value is equal to the amortized cost of the loans because the loans are secured by each participant's account balance. The following table provides further details of the Level 3 fair value measurements:

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

Participant Loans	2009	2008
Beginning Balance	$ 231,635	$ 289,069
Total Gains or Losses (realized and unrealized) included in Changes in Net Assets Available for Benefits	-	-
Purchases, Sales, Issuances, and Settlements, Net	6,350	(57,434)
Interest Credited	-	-
Ending Balance	$ 237,985	$ 231,635

Note 4 - INVESTMENTS

The Plan's investments are held with Fidelity Management Trust, the Trustee. Except for the employer's profit sharing contribution receivable recognized in the statements of net assets available for benefits and the related impact on the statements of changes in net assets available for benefits, all information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by the Trustee. The investments are reflected at fair value as determined by uoted market price or contract value. Investments at December 31, 2009 that represent 5% or more of the Plan's net assets have been separately identified, as follows:

Note 4 - INVESTMENTS (CONT'D)

Fidelity Management Income Portfolio	$ 1,342,018
Fidelity Contrafund	1,354,476
Fidelity Equity Income Fund	701,032
Fidelity Diversified International Fund	1,016,754

Note 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations. Participants would become 100% vested in their employer contributions.

Note 6 - INCOME TAX STATUS

The Plan has adopted a prototype standardized profit sharing plan with Fidelity Management Trust Company who received a letter dated October 9, 2003 stating that the prototype plan is acceptable under Section 401 of the Internal Revenue Code (IRC) for use by the employers for the benefit of their employees. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently operated in compliance with Section 401 of the IRC; therefore, they believe the Plan is qualified and the related trust is tax-exempt as of the financial statement date.

Note 7 - PARTY-IN-INTEREST TRANSACTIONS

The Plan engages in investment transactions with funds managed by the Trustee, Fidelity Management Trust Company, a party-in-interest with respect to the Plan. These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the Internal Revenue Code of 1986, as amended. Fees paid by the Plan for investment management services amounted to $3,031 and $2,342 for the years ended December 31, 2009 and 2008, respectively.

Note 8 - PLAN RESTATEMENT

The Plan has been restated to comply with changes made by the Economic Growth and Tax Relief Reconciliation Act (EGTRRA); the Pension Protection Act (PPA); and other laws, regulations, and Internal Revenue Service guidance.

Note 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500
