We have been informed by the plan administrator that State Street Bank and Trust Company holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Gold Star Foods 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

Effective December 1, 1995, the Plan was established for the benefit of all eligible employees of Gold Star Foods, Inc. and Gold Star Food Service, Inc. (collectively, the "Employer"). The Plan is a contributory profit sharing plan under Section 401(a) and 401(k) of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective December 1, 2008, the Plan was amended and restated to comply with various changes in laws.

2. Eligibility

An employee is eligible for Employer contributions and to make salary deferral contributions to the plan on the first day of the month following completion of six months of service and attainment of age 18. Employees covered under a collective bargaining agreement and non-resident aliens are not eligible to participate in the Plan.

3. Contributions

Participants may elect to contribute, on a tax-deferred basis, from 1% to 65% of their compensation up to the maximum deferral limit per Section 402(g)(1) of the Internal Revenue Code. In addition, the Employer makes discretionary matching contributions equal to 25% on the first 65% of the participant's deferred compensation. Employer matching contributions for the year ended December 31, 2009 were $62,794.

Employer non-elective contributions, qualified non-elective contributions, and qualified matching contributions are discretionary (subject to determination on an annual basis by the Board of Directors of the Employer). There were no Employer non-elective, qualified non-elective, or qualified matching contributions for the year ended December 31, 2009.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

4. Investment Options

Upon enrollment in the Plan, a participant may direct employee and Employer contributions as desired, in any of a variety of options held by State Street Bank and Trust Company ("State Street"), as chosen by the Employer. Participants may change their investment options daily.

5. Participant Accounts

Each participant's account is credited with the participant's contribution, Employer matching contributions and allocations of the Employer non-elective contributions, qualified non-elective contributions, and qualified matching contributions (if applicable), and Plan earnings. Employer non-elective contributions are allocated based on the same ratio each participant's compensation bears to the compensation for all participants in the specified Employee classification of which the Participant is a member. Plan earnings on investments are allocated based on participant account balances.

6. Participant Loans

Participants may borrow a minimum of $500 up to a maximum of 50% of their vested account balance not to exceed $50,000 less any outstanding loan balance. The loans shall bear reasonable rates of interest and must be repaid within five years of the date of issuance in accordance with terms established by the Plan administrator. Loans for the purchase of a principal residence may be paid back over a reasonable period of time, not to exceed 30 years.

7. Benefit Payments

Upon termination of service, participants are entitled to receive their vested account balances. Upon normal retirement age, permanent disability, or in the event of death a participant or a participant's beneficiary is entitled to the total value of the participant's account balance.

8. Forfeitures

Forfeitures of terminated participants' non-vested accounts may be used to reduce Employer contributions, or to pay Plan expenses. The unallocated forfeiture balance at December 31, 2009 was $17,544.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

9. Vesting

Participant contributions, Employer qualified non-elective contributions, and Employer qualified matching contributions and actual earnings on all such contributions are fully vested at all times. However, vesting of the Employer matching and Employer non-elective contribution portions of participant accounts, plus actual earnings thereon, is based upon the participant's years of service with the Employer as follows:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

10. Plan Termination

While the Employer has not expressed any intent to do so, the Employer reserves the right to terminate the Plan at any time. Upon termination, all interests of participants become fully vested, and the assets are distributed among the participants of the Plan in accordance with the provisions of the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Plan Administration

The Employer is the plan sponsor and plan administrator. The plan administrator is responsible for carrying out the duties imposed under ERISA.

3. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

4. Payment of Benefits

Benefits are recorded when paid.

5. Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

The SSGA Stable Value Fund ("SVF") is a fully benefit-responsive investment contract which is reported at fair value and adjusted to contract value. The SVF may invest, either directly or indirectly, in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and mortgage backed securities. The contract value represents principal contributions made by participants, plus interest accrued at a crediting rate established under the wrapper contract, less participant withdrawals and administrative expenses. The fair value is determined by discounting the related cash flows as determined by the underlying investment fund. At December 31, 2009 and 2008, the average yields based on actual income was 3.12% and 2.82%, respectively, and the average yields based on interest rates credited to participants was 2.36% and 3.06%, respectively.

Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation/(depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Administrative Expenses

Administrative expenses incurred by the trustee in performance of its duties are paid from the assets of the Plan. All other out-of-pocket administrative expenses of the Plan are paid by the plan sponsor.

7. Reclassifications

Certain amounts in prior year financial statements have been reclassified for comparative purposes to conform to presentation in the current year financial statements.

8. Subsequent Events

Plan management has evaluated subsequent events through September 28, 2010, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS AND CERTIFICATION BY TRUSTEE

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by State Street, the trustee, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

Total investments held and certified by State Street in the accompanying statements of net assets available for benefits were $3,160,525 and $2,467,215 as of December 31, 2009 and 2008, respectively. Net investment income certified by State Street in the accompanying statement of changes in net assets available for benefits was $570,056 for the year ended December 31, 2009.

During the year ended December 31, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $532,119 as follows:

Common collective trusts	$	275,459
Mutual funds		256,660
	$	532,119

NOTE C - INVESTMENTS AND CERTIFICATION BY TRUSTEE (Continued)

Investments that represent 5% or more of total net assets as of December 31, 2009 and 2008 are as follows:

	2009	2008
SSGA Life Solutions Balance Growth	$ 247,421	$ 288,632
SSGA Life Solutions Growth	$ 749,204	$ 774,893

T. Rowe Price Retirement 2040	$ 200,601	$ 80,731
Participant Loans	$ 319,731	$ 303,712

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures* (SFAS 157, *Fair Value Measurements*) establishes a consistent framework for measuring fair value and expands disclosure requirements about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 (SFAS 157) are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Common collective trusts and mutual funds: Generally, valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

Balance, beginning of year	$	303,712
Purchases, sales, issuances and settlements (net)		16,019
Balance, end of year	$	319,731

NOTE E - PARTY IN INTEREST TRANSACTIONS

State Street is the trustee of the Plan. All investments are held with the trustee. These transactions qualify as party-in-interest transactions. Loans receivable from participants of the Plan and the related interest income are also considered party-in-interest transactions.

NOTE F - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE G - TAX STATUS

The Employer adopted a Prototype Non-Standardized 401(k) and Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008 which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Administration errors, if any, that are insignificant or operational in nature are handled by the plan administrator in accordance with applicable IRS correction policies. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.
