PEP'E MOTORS CORPORATION 401(K) PLAN

Notes to Financial Statements

December 31, 2015 and 2014

A. Description of Plan

The following description of the Pep'e Motors Corporation 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

1) *General.* The Plan is a defined-contribution plan covering all full-time employees of the Company who have three months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2) *Contributions.* Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans(rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain IRS limitations.

3) *Participant Accounts.* Each participant's account is credited with the participant's contribution and allocations of Plan earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4) *Vesting.* Participants are immediately vested in their contributions plus actual earnings thereon.

5) *Investment Options*. Upon enrollment in the Plan, a participant may direct employee contributions in various percent increments in any of several investment options. Participants may change their investment options semi-annually.

6) *Participant Notes Receivable*. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from one to five years or up to twenty years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with the prime rate published in the Wall Street Journal plus 1.5%. Principal and interest are paid ratably through weekly payroll deductions.

7) *Payment of Benefits.* On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or as an annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

8) *Forfeited Accounts.* At December 31, 2015 and 2014 there were no forfeited nonvested accounts.

B. Summary of Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note F for discussion of fair value measurements.
Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
The Plan's administrative expenses are paid by the Company and therefore excluded from these financial statements.

Subsequent Events
On April 26, 2016, the Board of Directors approved a change in the Plans custodian from John Hancock Life Insurance Company of New York to The Capital Bank and Trust Company.
On July 15, 2016, $8,087,691 was transferred to the American Fund 2015 Target Date Fund awaiting a final participant valuation report.
Subsequent events were evaluated through August 12, 2016, which is the date the financial statements were available to be issued.

Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest Income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014.

Excess Contributions Payable
Amounts payable to participants totaling $12,352 for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to 2015 contributions. The Plan distributed the 2015 excess contributions prior to March 15, 2016. There were no excess contributions for the year ended December 31, 2014.

C. Investment Contract

In 2007, the Plan converted its investment contract with The Guardian Life Insurance and Annuity Company into an investment contract with John Hancock Life Insurance Company of New York (John Hancock). John Hancock maintains the contributions in a pooled account. The account is credited with earnings on the underlying investments (principally mutual funds) and charged for Plan withdrawals and administrative expenses. The contract is included in the financial statements at fair value, as reported to the Plan by John Hancock. Fair value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses.
The following presents investments that represent 5% or more of the Plan's net assets.

	2015	2014
John Hancock Life Insurance Company (Contract #82405)	6,722,454	6,159,424

D. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be 100 percent vested in their accounts.

E. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter , the Plan administrator and Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by certain taxing jurisdictions; however there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

F. Investments and Fair Value Measurements

The Fair Value Measurements Topic of the FASB Accounting Standards Codification establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are briefly described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the assets or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The inputs or methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a description of the valuation methodologies used for assets measured at fair value.

Registered Investment Companies-Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end.

Loans to Participants-Loans to participants are valued at unamortized cost, which approximates fair value.

The following table presents information about the Plan's assets measured at fair value on a recurring basis as of December 31, 2015 and 2014.

	Assets Measured at Fair Value-2015			
	Level 1	Level 2	Level 3	Total
Registered Investment Companies	$ -	$ 6,722,454	$ -	$ 6,722,454
Participant Loans	-	-	395,479	395,479
	$ -	$ 6,722,454	$ 395,479	$ 7,117,933

	Assets Measured at Fair Value-2014			
	Level 1	Level 2	Level 3	Total
Registered Investment Companies	$ -	$ 6,159,424	$ -	$ 6,159,424
Participant Loans	-	-	322,776	322,776
	$ -	$ 6,159,424	$ 322,776	$ 6,482,200

G. **Risks and Uncertanties**

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

H. The net assets available for benefits per the financial statements at December 31, 2015 and 2014 agree to Form 5500.
