THE MLN 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 (audited) and 2014 (unaudited)

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of The MLN 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of MLN Company, MLN Service Company, Magnum Mechanical, Inc., and MLN Fire Protection Company (collectively the "Company"), excluding union and leased employees and nonresident aliens, as defined by the Plan. Employees are eligible to participate on the first day of the quarter coinciding with, or next following, the completion of 6 months of service and attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended and restated on January 1, 2015 to bring the Plan into compliance with legislative and regulatory changes and to change loan interest rates to prime plus 2% at the date of the loan. The Plan was amended effective December 1, 2015, excluding employees of Magnum Mechanical, Inc. and MLN Fire Protection Company from participating in the Plan (See Note 9).

Contributions

Participants may elect to make salary deferral contributions to the Plan of up to 90% of eligible compensation, subject to limitations provided by law. Participants may also make a separate election to defer up to 100% of any irregular pay (i.e., bonuses) subject to limitations provided by law. Participants who have attained the age of 50 before the end of the plan year may make additional catch-up contributions. The Plan allows rollover contributions from other qualified retirement plans. The Plan is participant directed. Participants may change their contribution rates at the beginning of each quarter and investment options at any time.

The Company may make discretionary employer matching and profit sharing contributions based on eligible compensation each year to participants employed on the last day of the Plan year and that have completed a year of service as defined in the Plan. During 2015, the Company made discretionary employer matching contributions equal to 50% of each participant's contribution up to 6% of eligible compensation of each participant. Total discretionary employer matching contributions amounted to $111,005 in 2015. The Company made no discretionary profit sharing contributions in 2015.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Participants are at all times fully vested in their elective salary deferral contributions, rollover contributions, and the appreciation or depreciation thereon. Vesting in the Company's discretionary employer match and profit sharing contribution portion of their accounts plus earnings thereon is based on years of continuous service.

Participants vest 20% per year after two years of service and are 100% vested after six years of service. A participant shall be immediately vested upon death, retirement, or termination of employment due to total and permanent disability.

Payment of Benefits

Normal retirement age under the Plan is 65. The Plan does not provide for early retirement. Participants with a rollover contribution may receive a distribution at any time, limited to the total of their rollover contribution and related earnings. The Plan allows for hardship withdrawals from a participant's pre-tax or rollover account. The Plan also allows for in-service withdrawals of vested balances for participants who have attained the age of 59½. Participants receive their distributions in a lump-sum amount equal to the value of the participant's vested interest in his or her account. For terminated participants, all vested benefits in the Plan that are less than $5,000 may be distributed in a single lump-sum payment without consent from the terminated participant.

Forfeited Accounts

Forfeitures of nonvested Company contributions are used to reduce administrative expenses or to reduce future Company contributions to the Plan. There was no balance in the forfeiture account at December 31, 2015. The forfeiture balance at December 31, 2014 was $3,224 (unaudited). During 2015, forfeitures of $3,224 were used to reduce the 2014 Company contribution.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of $50,000, reduced by the excess of the participant's highest outstanding note balance during the 12-month period ending on the date of the loan over the participant's current outstanding principal loan balance on the date of the note, or 50% of their vested balance. Notes bear interest at 2% (1% for notes prior to January 1, 2015) above the prime rate at the date of the note. The notes are secured by the participant's vested account to the extent of the principal amount of the note plus accrued interest. Notes are repaid in level installments through payroll deductions for periods ranging up to five years, or longer for the purchase of a primary residence. Participants may only have one note outstanding at any time.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan are maintained on the cash basis of accounting; however, the financial statements have been prepared on the accrual basis of accounting.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain participant level fees, such as distribution fees, are charged directly to the participant's account and are included in administrative expenses. Other investment-related expenses are included in net depreciation in fair value of investments.

Payment of Benefits

Benefit payments to participants are recorded when distributed.

Investment Valuation

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document. At December 31, 2015 and 2014 (unaudited), no allowance was considered necessary by management.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The new guidance will be applied retrospectively and is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. Plan management is currently evaluating the impact that the new guidance will have on the Plan's financial statements.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Parts I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair values. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The Plan's management has elected to early adopt Part II and the adoption is reflected retrospectively in these financial statements.

NOTE 3 - FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Pooled Separate Accounts: Valued at the number of the Plan's units of participation multiplied by the unit value for the underlying investments. Unit value is based on the market value of the underlying investments less a management fee divided by the total number of outstanding units for the underlying investments. The underlying investments are in portfolios of mutual funds, domestic and international stocks and bonds, equity and fixed-income securities, debt securities, and money market instruments and other

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

securities issued and guaranteed by the U.S. and foreign governments. These investments are valued by the sponsor of each of the pooled separate accounts based primarily on observable market data. The pooled separate accounts held by the Plan provide for daily redemptions by the Plan at the reported unit value with no advance notice requirement. The Plan has no unfunded commitments and no contractual obligations to further invest in the pooled separate accounts.

Guaranteed Interest Accounts: Consist of guaranteed investment contracts valued at fair value by discounting the related cash flows, based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Annually, the plan administrator assesses and approves the fair value measurement policies and procedures. At least annually, management determines if the current valuation techniques used in the fair value measurements are still appropriate and evaluates and adjusts the unobservable inputs used in the fair value measurements based on current market conditions and third-party information.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e., projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used at December 31, 2015 or 2014 (unaudited).

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	2015

NOTE 4 - INFORMATION CERTIFIED BY INSURANCE COMPANY

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company (U.S.A.) (John Hancock), an insurance company, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the accompanying statement of net assets available for benefits as of December 31, 2015, the schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2015, and the related investment activity and interest income on notes receivable from participants reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2015.

NOTE 5 - INCOME TAX STATUS

The Plan has adopted a prototype plan which obtained an opinion letter dated March 31, 2014 in which the Internal Revenue Service (IRS) states that the prototype document satisfies the applicable provisions if the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are in pooled separate accounts and guaranteed interest accounts managed by John Hancock. These transactions qualify as party-in-interest transactions, as defined by ERISA. Notes receivable from participants also qualify as party-in-interest transactions. These transactions are permitted under the provisions of the Plan and are covered by an exemption from the prohibited transaction provisions.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan provides for various investments. In general, such investments are exposed to various risks such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2015 and 2014:

NOTE 9 - TRANSFER OF ASSETS TO ANOTHER PLAN

Effective December 1, 2015 employees of Magnum Mechanical, Inc. and MLN Fire Protection Company were excluded from the Plan. These employees' net assets in the Plan were transferred to the MLN Sister Companies 401(k) Plan on December 21, 2015 in the amount of $122,843.

NOTE 10 - SUBSEQUENT EVENTS

Effective January 1, 2016, the Plan was amended and restated. The Plan was amended to include an automatic deferral provision and change the service requirement from 6 months to 12 months. Upon employees meeting the eligibility requirements, employees will be automatically enrolled into the Plan with a deferral of 6% of eligible compensation unless a different deferral percentage is elected. The automatic deferral provision is effective for payroll periods beginning on or after April 1, 2016.

The Plan has evaluated subsequent events through September 12, 2016, the date the financial statements were available to be issued.
