1. DESCRIPTION OF PLAN

The following description of the JBR, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution 401(k) profit sharing plan originally adopted effective January 1, 1997 and most recently amended on December 5, 2008. The Plan generally covers all employees of JBR, Inc. (the "Company") that are at least 18 years of age and are not subject to a collective bargaining agreement. The minimum service requirement is met upon the completion of three months service and entry dates are the first day of each month after eligibility is met.

The Plan is intended to qualify as a safe harbor 401(k) Plan under 401(a) and other applicable requirements of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration - Under the terms of the Plan, MG Trust Company, LLC ("MG Trust") acts as trustee and custodian. The Company has contracted with Digital Retirement Solutions, Inc. to act as the Plan's third party administrator. Expenses incurred for administering the Plan may be paid by either the Plan or the Company at its discretion. For the year ended December 31, 2009, no administrative expenses were paid by the Company.

Vesting - Participants are fully vested in their voluntary, rollover and safe harbor employer matching contributions including earnings thereon at all times. Additional employer matching and profit sharing contributions paid on the participants' behalf in excess of safe harbor matching contributions, if any, are vested ratably over a six-year period.

Forfeited accounts – Non-vested portions of participant accounts, if any, are forfeited upon termination of employment. Forfeited accounts may be applied to pay expenses under the Plan, or to reduce employer contributions at the discretion of the Company. There were no unapplied forfeitures at December 31, 2009 or 2008.

Employee contributions - Participants may elect to have the Company contribute a percentage of their pre-tax compensation to the Plan, up to the amount allowable under current income tax regulations. Participants who elect to have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. Participants may also elect to contribute amounts representing distributions from other qualified plans.

1. DESCRIPTION OF PLAN (Continued)

Employer contributions - The Plan allows for safe harbor employer matching contributions equal to 100% of the first 4% of compensation that a participant contributes to the Plan. The Plan also allows for discretionary employer contributions in the form of additional matching or non-elective profit-sharing contributions. Additional matching contributions, if any, would be allocated to participants based on their respective amounts of salary deferral contributions. Non-elective profit sharing contributions, if any, would be allocated first to participants earning in excess of the applicable year's social security wage base, with the remainder allocated ratably based on their respective ratio of total eligible compensation. The Company elected to make no additional matching or profit sharing contributions during 2009.

Participant accounts - A separate account is maintained for each participant. Each participant's account is credited with the participant's voluntary contributions, employer contributions and an allocation of Plan earnings, less withdrawals, distributions and administrative expenses, if any. The benefit to which a participant is entitled is limited to the benefit that may be provided from the participant's vested account balance.

Loans to participants – The Plan provides a provision that allows a participant to borrow up to the lesser of $50,000 or 50% of their vested account balance, with a minimum of $500. Such loans shall bear interest at fixed rates equal to the published prime rate, plus two percent. The term of the loans cannot exceed five years, except if the loan proceeds are used to finance the purchase of a primary residence, in which case the loan term may not exceed thirty years. The loans are secured by the participant's vested balance. Principal and interest are paid ratably through payroll deductions.

Plan Termination - The Company intends to continue the Plan indefinitely for the benefit of its employees. However, it reserves the right to terminate the Plan at any time by resolution of its Board of Directors and subject to the provisions of ERISA. In the event the Plan is terminated in the future, participants would become fully vested in their accounts.

Subsequent Events – Events or transactions occurring subsequent to year end through the date the financial statements were available to be issued, September 28, 2010, have been evaluated in the preparation of the accompanying financial statements.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting - The accounting records of the Plan are maintained on the accrual basis in accordance with U.S. generally accepted accounting principles.

In June 2009, the Financial Accounting Standards Board ("FASB") issued "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles" (the "Codification") effective September 15, 2009. The Codification became the Plan's primary source of authoritative accounting and reporting guidance recognized by the FASB. It also modified the GAAP hierarchy or generally accepted accounting principles to include only two levels; authoritative and non-authoritative. The adoption did not have a significant impact on the Plan's financial statements.

Investments - Investments of the Plan are held by the Plan's trustee and are invested in mutual funds based solely upon instructions from participants. Mutual fund investments are valued at fair market value as of the last day of the Plan year as quoted by MG Trust. Participant loans are valued at cost, which approximates fair value.

U.S. generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level one measurements) and the lowest priority to unobservable inputs (level three measurements). The three levels of the fair value hierarchy are described below:

Level one: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level two: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level two input must be observable for substantially the full term of the asset or liability.

Level three: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

2. SUMMARY OF ACCOUNTING POLICIES (continued)

Investments (continued) - The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's method of valuing investments may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, within the fair value hierarchy of U.S. generally accepted accounting principles, the Plan's assets at fair value as of December 31, 2009 and 2008:

	2009	2008
Level one – Mutual funds	$ 3,696,587	$ 2,452,885
Level three – Participant loans	98,649	150,010
Total investments at fair value	$ 3,795,236	$ 2,602,895

The following table sets forth, within the fair value hierarchy of generally accepted accounting principles, the Plan's assets at fair value as of December 31, 2009 and 2008, which are valued at level three:

	2009	2008
Balance, January 1	$ 150,010	$ 212,574
Loan repayments, net of $11,118 and $17,894 of interest in 2009 and 2008, respectively	(73,889)	(95,157)
Loan disbursements	25,078	32,593

2. SUMMARY OF ACCOUNTING POLICIES (continued)

Investment Income - Realized gains or losses on investment transactions are recorded as the difference between the proceeds received and the fair value of the investment at the beginning of the Plan year, or cost if acquired during the Plan year. In accordance with the Plan's policy of stating investments at fair value, net unrealized appreciation or depreciation is included in the statement of changes in net assets in the period in which the market change occurs. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Payment of Benefits - Upon termination of service or disability, retirement, death, or hardship, the participants or beneficiaries receive, upon request, either a lump-sum payment or annuity payments equal to the value of the vested funds in the participant's account. Benefits (which include rollover transfers to other plans) are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reported period. Actual results could differ from these estimates.

3. INCOME TAX STATUS

The Company received a favorable opinion letter from the Internal Revenue Service on December 8, 1999, which stated that the Plan and related trust are designed in accordance with Section 401(a) of the Internal Revenue Code and, therefore, the underlying trust is not subject to tax under IRC 501(a). Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

4. CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, MG Trust has certified the current value of assets held at December 31, 2009 and 2008 and transactions entered into during the year ended December 31, 2009, that were used in the preparation of the accompanying financial statements and supplemental schedule.

5. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates or other factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Financial instruments, which potentially subject the Plan to concentrations of credit risk, consist of mutual funds offered by the Plan. As the portfolio is well diversified and issuers of the funds' underlying securities are dispersed throughout many industries and geographies, the concentrations of credit risk are limited.

6. RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by MG Trust Company, LLC, the Plan's custodian, or their affiliate. Therefore, investment transactions involving these investments qualify as party-in-interest transactions as defined by ERISA.
