BLUE-GRACE LOGISTICS
401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

NOTE 1 - DESCRIPTION OF PLAN

The following description of Blue-Grace Logistics 401(k) Plan (the Plan) provides general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was created on May 1, 2011, adopting the Principal Financial Group Prototype Basic Savings Plan. The Plan is a defined contribution 401(k) profit sharing plan covering all full time employees of Blue-Grace Logistics Group LLC (the Company) who attained six months of service and are age 21 or older. The adoption agreement was restated effective September 3, 2014 to be in compliance with recent legislative changes. Employees join the plan as an active participant based on quarterly entry dates. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees

Contributions

Each year, participants may contribute any percentage of pretax annual compensation, as defined by the Plan. Participants who have attained age fifty (50) before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are invested in the Principal Life Insurance Company (a subsidiary of Principal Financial Group) pooled separate accounts. Principal Life offers separate accounts as investment options through a group annuity contract. The Company may make discretionary matching contributions at a percentage of a participant's 401(k) elective deferral contribution. The Company match applied per pay period was 50 cents on the dollar up to a maximum of 3% of the employee's compensation. The Company may make a discretionary contribution for each plan year in an amount to be determined by the company using an integrated formula. All employer contributions are invested in the same proportion as the employee contributions. Contributions are subject to certain statutory limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution, (b) Plan earnings (losses), (c) forfeitures of terminated participants' non-vested accounts not otherwise allocated to custodial administrative expenses of the plan with any remaining portion used to reduce employer matching contribution. The participant's account is charged with an allocation of any administrative expenses paid by the plan. Allocations are based on the participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution plus actual earnings thereon is based on years of continuous service. The participants become one hundred (100) percent vested after three (3) years of vesting service. Vesting service is determined based on the elapsed time method.

The following is a schedule of the vesting percentages for employer contributions and matching:

Service Years	Percent Vested
Less than 1	0%
1	25%
2	50%
3	100%

Forfeited Accounts

Forfeitures of terminated participants' non-vested accounts would be used to pay Plan expenses and if sufficient any remaining forfeited balance is used to reduce the Company's matching contributions. Prior to reallocation to eligible employees. The forfeitures account, which consists of the unused balance of terminated participants' non-vested employer contributions, approximated $-0- at December 31, 2015 and 2014.

In-Service Withdrawals

A withdrawal can be made for a "financial hardship" from all or any part of a participant's vested account balance as defined in the Plan and Internal Revenue Code. A "rollover withdrawal" and age 59 1/2 withdrawal are also permitted by the plan.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or select from various annuity options, a series of substantially equal annual payments over a fixed period of whole years or a specified dollar amount each year. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Benefits are recorded when paid.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as the investment contracts held are not benefit responsive.

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculates Net Asset Value per Share (or its Equivalent), which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of the new standard. Accordingly, the amendment was retrospectively applied and Pooled Separate Accounts are excluded from the categorization within the fair value hierarchy for the years ended December 31, 2015 and 2014.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has elected to adopt Parts I and II early. Part III is not applicable to this Plan.

Date of Management's Review

Subsequent events were evaluated through September 20, 2016, which is the date the financial statements were available to be issued.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. The Plan has no investments in fully benefit-responsive investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan invests in Principal Life Separate Accounts. These separate accounts invest in a single mutual fund and the daily unit values of these accounts are calculated by Principal Life, the valuation agent, using generally accepted accounting practices and applicable law. The plan's interest in a separate account is the cumulative record of the number of participation units credited to the account and the number of units allocated or withdrawn from the account. The market value of the separate account is the market value of the mutual fund minus operating expenses. The Plan shares in the appreciation/depreciation of the separate account through the separate account's unit value. The Investment Committee determines the Plan's valuation policies. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Loans are not permitted based on the terms of the Plan document.

Administrative Expenses

Fees are paid by the Plan. Forfeitures are available to offset fees with regard to the Plan as allowed by the plan document.

NOTE 3 - PLAN TERMINATION

Although they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one hundred (100) percent vested in their employer contributions.

NOTE 4 - PLAN ADMINISTRATION

The Company paid for certain audit and ERISA Surety Bond expenses. Certain administrative functions are performed by employees of the Company. None of the employees receive any compensation from the Plan.

NOTE 5 – UNAUDITED INFORMATION CERTIFIED BY THE PLAN TRUSTEE

The Plan Custodian holds the Plan's investments and executes all investment transactions. All investment information disclosed in the financial statements and supplemental schedule, including investments held at December 31, 2015, net appreciation in fair value of investments, dividends and interest for the year ended December 31, 2015, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Principal Life Insurance Company in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $1,242,043 at December 31, 2015 and related net depreciation in fair value of ($25,704) for the year ended December 31, 2015.

NOTE 6 - FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There were no plan assets requiring the use of Level 3 inputs for the periods presented.

NOTE 6 - FAIR VALUE MEASUREMENTS (continued)

Accounting Standards Codification ("ASC") 820 allows net asset value ("NAV") per share to serve as a practical expedient to estimate the fair value of a pooled separate account as long as certain requirements are met. The Plan invests in pooled separate accounts of Principal Life Insurance Company. The "NAV" of these separate accounts are not published on an exchange or over the counter, are not publicly traded on foreign markets and are not considered mutual funds. Based on Principal's determination these investments qualify for "NAV" as practical expedient. The Plan's Investment Committee agrees with the determination that the pooled separate accounts qualify for "NAV" as practical expedient. The early adoption of ASU 2015-07 allows the pooled separate accounts to be excluded from the categorization within the fair value hierarchy for the years ended December 31 2015 and 2014.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	Fair Value Measurement as of December 31, 2015			
	Level 1	Level 2	Level 3	Total

NOTE 7 - TAX STATUS

The Principal Financial Group Prototype 401(k) Profit Sharing Plan adopted by the Company, received a determination letter from the Internal Revenue Service by letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. The Plan administrator adopted all Plan provisions within the prototype adoption agreement on September 4, 2014, and believes the Plan, as currently amended, is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. As of December 31, 2015, the Plan had no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 – RELATED PARTY TRANSACTIONS

At December 31, 2015, the Plan held units in pooled separate accounts of Principal Life Insurance Company, the Plan custodian. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.
