Note A - Description of Plan

The following description of Pusan Pipe America, Inc. Employee Profit Sharing & Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of the Pusan Pipe America, Inc. (the "Company"), who have provided 12 consecutive months of service or 1,000 hours of service and attained the age of 21. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Company's eligible employees may contribute up to the limitations as defined by the IRC; $18,000 and $17,500 for 2015 and 2014, respectively. Participants who are or will be age of 50 by December 31, 2015 may be eligible to contribute an additional $6,000 in 2015. A participant shall have an automatic election to defer 4% of their compensation or different amount at any time, and may elect not to make Elective Deferral. Each eligible participant receives an allocation equal to percentage of the matching contribution up to 6% of their compensation for the Plan year.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in participant contributions, including rollover contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. One year of service is defined as 1,000 or more hours of service. The vesting schedule is as follows:

Vesting Schedule	
Years of Service	Percentage
Less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

Note A - Description of Plan (continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of one-half of their vested account balance or $50,000 and can have one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at prime rates on the issuance date plus 2%. As of December 31, 2015, interest rates on loans to participants ranged from 4.25% to 8%. Principal and interest is paid ratably through each pay period's payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a single lump-sum amount equal to the value of the participant's vested interest in his or her account.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments including mutual funds and investment contracts. These investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The fair value of the Plan's mutual fund investments are determined by quoted market prices on the last day of the Plan year. Notes Receivable from participants are stated at cost, which approximates fair value. Investment transactions are recorded as of the trade date. The Plan's investments are valued at investment market value, which represent the net asset value of shares held by the Plan at year-end. Interest income is recorded on the accrual basis.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid out of the Plan assets.

Note C – Insurance Contracts

Guaranteed Interest Account

The Plan participates in a contract with The Voya Retirement Insurance and Annuity Company ("Voya") whereby the assets of the Plan are part of the general assets of Voya. This contract is identified and accounted for as a guaranteed interest account. The guaranteed interest account provides guaranteed interest rates for specified periods of time as determined or allowed by the contract. The rate credited is the rate in effect on the day when each deposit is directed to the funds. The guarantee made with regard to the guaranteed interest account is supported by Voya's general account. The general account is invested mostly in private market bonds, commercial mortgages and mortgage backed securities. There are no reserves against contract value for credit risk of contract issuer or otherwise. The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement), however, there are possible market value adjustments when funds are withdrawn prior to their maturity.

Pooled Separate Accounts

The Plan participates in contracts with Voya whereby the assets of the Plan are pooled with those of other unrelated plans. The Plan owns units of participation in the fair value of the account's underlying assets. Voya holds these assets in trust for the participating plans.

Note D - Fair Value Measurements

ASC 820 establishes a framework for measuring fair value as it relates to financial assets and liabilities and to nonfinancial assets and liabilities measured at fair value on a recurring basis. That framework provides a three-level valuation hierarchy based upon observable and unobservable inputs, with preference given to observable inputs. The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Observable inputs such as quoted prices for identical assets or liabilities;

Level 2 Observable inputs such as (i) quoted prices for similar assets or liabilities in active markets; (ii) quoted prices for identical or similar assets or liabilities in markets that are not active and do not require significant adjustments based on unobservable inputs; or (iii) valuations based on pricing models, discounted cash flow methodologies or similar techniques where significant inputs (e.g. interest rates, yield curves, etc.) are derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities; and

Level 3 Unobservable inputs, including valuations based on pricing models, discounted cash flow methodologies or similar techniques where at least one significant model assumption or inputs is unobservable. Unobservable inputs are used to the extent that observable inputs are not available and reflect the Plan's own assumptions about the assumptions the market participants would use in pricing the assets or liabilities. Unobservable inputs are based on the best information available in the circumstances which might include the Plan's own data.

Note D - Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
