Independent Auditor's Report

To the Plan Administrator and Plan Participants of the
Caran Precision Eng. & Mfg. Corp. Retirement Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Caran Precision Eng. & Mfg. Corp. Retirement Savings Plan, which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by John Hancock Life Insurance Company (U.S.A) ("John Hancock"), the investment contract issuer, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that John Hancock holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from John Hancock as of December 31, 2015 and 2014 and for the year ended December 31, 2015, that the information provided to the plan administrator by John Hancock is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of (1) Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2015 and (2) Schedule H, Line 4a – Schedule of Delinquent Participant Contributions for the year ended December 31, 2015 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by John Hancock, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of the Plan

The following description of the Caran Precision Eng. & Mfg. Corp. Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan as amended and restated effective January 1, 2015, is a defined contribution plan that was originally adopted on July 1, 1994 by Caran Precision Eng. & Mfg. Corporation and its affiliates' (the "Company" or "Employer") eligible employees. The Plan has a pre-tax salary reduction provision as defined under Section 401(k) of the Internal Revenue Code (the "IRC"). The Plan also allows for after-tax contributions as defined under the Roth 401(k) provisions. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Eligibility

Each of the Company's employees is eligible to participate in the Plan upon attaining age 21 and completion of one month of service which includes all employees except members of a collective bargaining unit and non-resident aliens.

Contributions to the Plan

The Company's eligible employees may contribute up to the limitations as defined by the IRC each year on a pre-tax basis by salary reduction. In addition, a participant may designate all or a part of his or her contribution as Roth contributions.

The Company may make a matching and/or discretionary contribution without regard to the Company's current or accumulated profits as determined each year by resolution of the Company's Board of Directors. The Company did not make any matching or discretionary contributions during 2015.

Effective January 1, 2015, the Plan adopted "Safe Harbor" provisions in which the Company makes a Safe Harbor matching contribution of 100% of deferrals up to 4% of participant deferral contributions.

Participants direct the investment of all contributions to their account into various investment options offered by the Plan.

Note 1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contributions, (b) the Company's discretionary contributions (c) the Company's Safe Harbor matching contributions and (d) Plan earnings less an allocation of investment and operating expenses charged to the Plan. Allocations of Company discretionary contributions are allocated to participants who have completed 1,000 hours of service during the Plan year. Company discretionary contributions are based upon the ratio that each eligible participant's compensation bears to the total compensation of all eligible participants.

Vesting

Participants are 100% vested in their rollovers, elective contributions and Company Safe Harbor matching contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service according to the following schedule:

Periods of Service For Vesting	**Percentage**
Less than two years	0%
Two years but less than three years	20%
Three years but less than four years	40%
Four years but less than five years	60%
Five years but less than six years	80%
Six or more years	100%

Forfeitures

Amounts forfeited from terminating participants' non-vested portion of their Employer matching and Employer discretionary contribution account and earnings thereon may be used to reduce administrative expenses of the Plan or to reduce Employer contributions. Unallocated forfeitures available to reduce future Company contributions and expenses were $157 as of December 31, 2015 and 2014. During the year ended December 31, 2015, no forfeitures were used to reduce administrative expenses or Company contributions.

Safe Harbor Election

The Plan has elected to be a Safe Harbor Plan according to IRC regulations. Accordingly, the Plan must meet certain requirements relating to Employer contributions and vesting schedules and meet the applicable "Safe Harbor" requirement. If the Plan meets the "Safe Harbor" requirements it is not subject to certain discrimination tests required by the IRC.

Payment of Benefits

Upon termination of employment, death, disability, or retirement, participants may receive distributions of their vested account balance as soon as administratively feasible in the form of a lump sum payment regardless of the amount or in the form of a partial non-periodic payment regardless of the amount.

Note 1. Description of the Plan (continued)

Involuntary distributions of amounts $5,000 or less may be made. Automatic rollover to an individual retirement plan designated by the Company applies to accounts greater than $1,000 but less than $5,000 in absence of the participant's election to either receive or rollover the distribution.

Hardship distributions are permitted from pre-tax elective deferrals. Participants attaining age 59½ may take in-service distributions from pre-tax or Roth deferrals and Company Safe Harbor matching contributions. Active employees that have reached the age of 70 ½ must begin to receive a distribution from their account no later than April 1st following the calendar year in which they reach the age of 70 ½.

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan. Fees related to the administration of notes receivable from participants and certain fees related to distributions are charged directly to participant accounts and are included in administration expenses. Additionally, plan recordkeeping fees that are not paid by forfeitures are charged directly to participant accounts and are included in administration expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Contribution Funding

The Company makes contributions to the Plan for employee contributions and any Company matching contributions on a bi-weekly basis. Company discretionary contributions, if any, are funded subsequent to year end.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets. Except for unallocated forfeitures (see Note 1), the net assets of the Plan are allocated entirely to individual participant's accounts.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Concentrations

As of December 31, 2015 and 2014, one investment accounted for approximately 29% and 32%, respectively, of the Plan's net assets.

Recent Accounting Policies

In July 2015, the FASB issued ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960, Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient). ASU No. 2015-12 has three parts. Part I designates contract value as the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirement that plans disclose: (a) individual investments that represent 5 percent or more of net assets available for benefits; and (b) the net appreciation or depreciation for investments by general type requirements for both participant-directed investments and nonparticipant-directed investments. Additionally, investment strategies are not required for direct filing entities.

Note 2. Summary of Significant Accounting Policies (continued)

Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. Parts I and II are effective on a retrospective basis, and Part III is effective on a prospective basis, for fiscal years beginning after December 15, 2015 with early adoption allowed. Management has elected to early adopt ASU 2015-12 Parts I and II. Part III is not applicable to the Plan. Prior period amounts have been reclassified to reflect the revised presentation. There was no material impact to the Plan's financial statements due to the adoption of ASU 2015-12.

In May 2015, the FASB issued Accounting Standards Update ASU No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). ASU No. 2015-07 removes the requirement to include all investments in the fair value hierarchy for which the fair value is measured at net asset value (NAV) per share using the practical expedient, under Fair Value Measurements and Disclosures (Topic 820). ASU No. 2015-07 is effective for nonpublic business entities for annual reporting periods beginning after December 15, 2016. Management does not expect adopting ASU 2015-07 will have a material impact on the Plan's financial statements.

Subsequent Events

Subsequent events have been evaluated through October 4, 2016, the date the financial statements were available for issuance.

Note 3. Insurance Contracts

Guaranteed Interest Accounts

The Plan participates in contracts with John Hancock Life Insurance Company (U.S.A.), ("John Hancock") whereby the assets of the Plan are part of the general assets of John Hancock. These contracts are identified and accounted for as guaranteed interest accounts. The guaranteed interest accounts provide guaranteed interest rates for specified periods of time as determined or allowed by the contracts. The rate credited is the rate in effect on the day when each deposit is directed to the accounts.

The guarantees made with regard to the guaranteed interest accounts are supported by John Hancock's general account. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The guaranteed interest accounts promise contract value for a benefit event (termination, death, disability and retirement), however, there are possible market value adjustments when funds are withdrawn prior to their maturity. There may be withdrawal restrictions associated with the contracts based on certain Plan level initiated transactions. These contracts are not considered fully-benefit responsive due to these possible market value adjustments.

Note 3. Insurance Contracts (continued)

The guaranteed interest accounts guarantee the return of principal plus compound interest earned over a three year or five year term, less any participant-level recordkeeping charges, provided all contributions remain in the account until the end of the guarantee period. The interest crediting rate is determined on the first day of each calendar month.

The applicable average annual interest rates for amounts contributed to the guaranteed interest accounts with a three year term during 2012, 2013, 2014 and 2015 were 0.14%, 0.10%, 0.11% and 0.34%, respectively. The applicable average annual interest rates for amounts contributed to the guaranteed interest accounts with a five year term during 2010, 2011, 2012, 2013, 2014 and 2015 were 1.01%, 0.90%, 0.38%, 0.36%, 0.55% and 0.85%, respectively. There is no minimum crediting interest rate. The interest crediting rate is calculated based upon many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account.

Pooled Separate Accounts

The Plan participates in contracts with John Hancock whereby the assets of the Plan are pooled with those of other unrelated plans. The Plan owns units of participation in the fair value of the account's underlying assets. John Hancock does not own the underlying assets, but only holds them in trust for the participating plans.

Note 4. Information Certified by the Investment Contract Issuer

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by John Hancock Life Insurance Company (U.S.A.) ("John Hancock"), the investment contract issuer as complete and accurate, except for comparing such information certified by John Hancock to information included in the Plan's financial statements and supplemental schedule:

a) Investments

c) Investment income (loss) and other additions

	Year Ended December 31, 2015
Net depreciation in fair value of investments	$ (88,956)
Interest	$ 130
Interest income from notes receivable from participants	$ 7,886

d) Supplemental Schedule:
Schedule H, Line 4i – Schedule of Assets (Held At End of Year)*

**Notes receivable from participants are participant loans allowed under the related regulations. The participant loans are certified by John Hancock, and are included as investments on the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.*

Note 5. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Guaranteed interest accounts: These investments are part of the general assets of an insurance company. These investments are valued by discounting the related cash flows based on the composite yield in effect, current yields for similar contracts of the issuer and the number of months until maturity.

Pooled separate accounts: These investments are public investment securities valued using the Net Asset Value ("NAV") provided by John Hancock. The NAV is quoted on a private market that is not active, however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the investments held by the Plan as of December 31, 2015 and 2014:

	Fair Value Measurements Using Input Type			
December 31, 2015	**Level 1**	**Level 2**	**Level 3**	**Total**
Guaranteed interest accounts	$ ---	$ ---	$ 83,135	$ 83,135
Pooled separate accounts	---	4,793,375	---	4,793,375
Total investments measured at fair value	$ ---	$ 4,793,375	$ 83,135	$ 4,876,510

	Fair Value Measurements Using Input Type			
December 31, 2014	**Level 1**	**Level 2**	**Level 3**	**Total**
Guaranteed interest accounts	$ ---	$ ---	$ 77,707	$ 77,707
Pooled separate accounts	---	4,513,290	---	4,513,290
Total investments measured at fair value	$ ---	$ 4,513,290	$ 77,707	$ 4,590,997

Note 5. Fair Value Measurements (continued)

The following presents additional information relative to Plan investments reported on net asset value at December 31, 2015 and 2014:

(a) Lifecycle funds: Invest in a variety of combinations of equity and fixed income instruments. These funds provide varying degrees of long-term appreciation and capital preservation based on an investor's age or target retirement date through a mix of asset classes. The mix changes over time to become less focused on growth and more focused on income. These funds are also known as "target date retirement" or "age-based" funds. As of December 31, 2015 and 2014, amounts invested in these investments funds were $415,801 and $381,459, respectively.

(b) Lifestyle funds: Invest in a variety of combinations of equity and fixed income instruments. These funds maintain a predetermined risk level and generally use words such as "conservative," "moderate," or "aggressive" in their names to indicate the funds' risk level. As of December 31, 2015 and 2014, amounts invested in these investments funds were $2,977,698 and $2,887,597, respectively.

(c) Aggressive growth funds: Invest primarily in equity securities. These funds take higher risk of loss in return for potentially higher returns or gains. As of December 31, 2015 and 2014, amounts invested in these investments funds were $409,658 and $364,399, respectively.

(d) Growth funds: Invest primarily in equity instruments of public companies with above-average risk in return for potentially above-average gains. These companies often pay small or no dividends and their stock prices tend to have the most price fluctuations from day to day. As of December 31, 2015 and 2014, amounts invested in these investments funds were $232,877 and $149,913, respectively.

(e) Growth and income funds: Invest in a variety of combinations of equity and fixed income instruments. These funds have a dual strategy of growth or capital appreciation and current income generation through dividends or interest payments. As of December 31, 2015 and 2014, amounts invested in these investments funds were $132,677 and $128,927, respectively.

(f) Income funds: Invest primarily in fixed income instruments. These funds primarily seek current income rather than capital appreciation. As of December 31, 2015 and 2014, amounts invested in these investments funds were $94,731 and $90,273, respectively.

(g) Money market fund: Invests primarily in short-term, high-grade fixed-income securities, and seeks the highest level of income consistent with the preservation of capital. As of December 31, 2015 and 2014, amounts invested in these investments funds were $529,933 and $510,722, respectively.

The pooled separate account investment funds are subject to the redemption frequency of two transactions per month. There are no other redemption restrictions, redemption notice requirements, or unfunded commitments related to the pooled separate account investment funds as of December 31, 2015 and 2014.

Note 5. Fair Value Measurements (continued)

The following sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2015:

	Guaranteed Interest Accounts
Beginning balance	$ 77,707
Interest credited	130
Purchases	5,536
Administrative charge	(238)
Ending balance	$ 83,135

Quantitative Information about Level 3 Fair Value Measurements

The fair value of the guaranteed interest accounts are based on significant unobservable inputs, including the interest rates of the applicable investment contracts. Significant fluctuations in any of the inputs in isolation could result in a significantly different fair value measurement.

The following table provides quantitative information about the significant unobservable inputs used for recurring fair value measurements categorized within Level 3 as of December 31, 2015 and 2014:

	Fair Value	Valuation Techniques	Unobservable Inputs	Range Of Inputs
December 31, 2015				
Guaranteed interest account	$ 83,135	Discounted cash flow, See note (1)	Contractual interest rates	0.10% - 0.90%
			Maturity dates	12/31/2015 – 12/31/2019
December 31, 2014				
Guaranteed interest account	$ 77,707	Discounted cash flow, See note (1)	Contractual interest rates	0.10% - 1.01%
			Maturity dates	12/31/2014 – 12/31/2018

Note 5. Fair Value Measurements (continued)

(1) The market value of the guaranteed interest accounts are equal to the book value of each account multiplied by:

$$(1 + (0.08 \times n) \times (i - j - (0.0050 \times k)))$$

Where: "n" is the number of complete months until maturity;
"i" is the composite rate of interest being earned by that account;
"j" is the declared rate at the effective date of the withdrawal for contributions of the same term as that of the original contribution;
"k" is 0 if the withdrawal is for a pre-retirement distribution at age 59-1/2 or after; or 1 if any other circumstance.

The insurance company will have the right to change the basis of calculating the market value upon providing three months advance written notice. Any such change will only apply to those accounts set up after the effective date of such change.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Note 7. Tax Status

The Company has adopted a prototype non-standardized plan which obtained its latest opinion letter on March 31, 2014 in which the Internal Revenue Service stated that the plan document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan as adopted has been operated in accordance with the Plan document. Accordingly, no provision was made for federal income taxes in the accompanying financial statements. The Plan document has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated incompliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan's tax returns generally remain open for Federal tax audits for three years from the filing date.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the account of each member shall be fully vested and nonforfeitable at the time of termination.

Note 9. Related Party and Party-In-Interest Transactions

Certain Plan investments are units of pooled separate accounts which are managed by John Hancock Life Insurance Company (U.S.A.) ("John Hancock"). The Plan also has investments in guaranteed interest accounts which are held as part of the general assets of John Hancock. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to John Hancock, other investment custodians and investment advisors. Additionally, as noted in Note 1, certain administrative expenses related to participant related activity and certain recordkeeping fees are paid directly to John Hancock. John Hancock is the sponsor of the Plan's investment contract. The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations. These transactions qualify as party-in-interest transactions for which there are statutory exemptions.

Note 10. Excess Contributions

Contributions received from participants for the plan year ended December 31, 2014 include $15,173 of excess contributions (net of corresponding gains and losses) that were distributed in 2015 to certain active participants. The excess deferral contributions, originally contributed in the year ended December 31, 2014, were returned to comply with the participants' applicable maximum annual contributions permitted under the Code. The amount is included in the Plan's statements of net assets available for benefits as excess deferred contributions payable at December 31, 2014.

Note 11. Prohibited Transactions

During 2015, the plan sponsor inadvertently failed to deposit $92 of participant deferrals within the required timeframe as stated by ERISA. These deferrals were deposited later than the administratively possible periods set by contribution remittances of other pay periods. Under ERISA, late deposits are considered to be prohibited transactions. The plan sponsor is required to file Form 5330 and pay the excise tax relating to the prohibited transactions from the plan sponsor's assets and not from assets of the Plan, in addition to calculating the lost earnings on these deferrals. The plan sponsor deposited the lost earnings calculated on the late remittances related to the 2015 Plan year in 2016.
