REPORT ON FINANCIAL STATEMENTS

We were engaged to audit the accompanying financial statements of Radiology Imaging Associates, P.C. Profit Sharing Plan (the "Plan"), which are comprised of the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

BASIS FOR DISCLAIMER OF OPINION

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 2, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the Plan administrator by the trustee is complete and accurate.

DISCLAIMER OF OPINION

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

OTHER MATTER

The supplemental schedule for the year ended December 31, 2015, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

REPORT ON FORM AND CONTENT IN COMPLIANCE WITH THE DEPARTMENT OF LABOR'S RULES AND REGULATIONS

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

RADIOLOGY IMAGING ASSOCIATES, P.C. PROFIT SHARING PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Radiology Imaging Associates, P.C. Profit Sharing Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established February 1, 1970 and most recently amended and restated January 1, 2014 covering all employees of the listed employers below who are age 21 years or older and have completed one year and 1,000 hours of service. Effective January 1, 2014, the Plan was amended to include an auto-enrollment feature of 4% for new participants once eligibility requirements have been met. Effective January 1, 2015, the Plan was amended to include an automatic escalation feature of 1% annually up to a maximum rate of 10% for all employees of the listed employers below. On April 29, 2015, the Plan was further amended to allow in-Plan Roth conversions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The employees of the following employers (collectively, the "Company") are covered:

Radiology Imaging Associates ("RIA")
Radiology Imaging of Nebraska, LLC (a wholly owned subsidiary of RIA)
Medical Imaging of Colorado, LLC

The Board of Directors of the Company administers the Plan. Vanguard Fiduciary Trust Company ("Vanguard") serves as trustee, manages Plan assets, and maintains the Plan's records. Vanguard offers Plan participants a variety of investment options through various mutual funds and participant-directed brokerage accounts. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Contributions

Participants may make before-tax contributions up to 75% of their annual eligible compensation, not to exceed $18,000 in 2015 as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, not to exceed $6,000. The Plan permits rollover contributions from other qualified retirement plans. The Plan also allows for Roth contributions, subject to the same limitations as stated above. Roth contributions and the earnings thereon are tax-free. Employee contributions to the Plan are made through regular payroll deductions.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Contributions (continued)

The Plan includes a safe harbor non-elective contribution provision. For 2015, the Company funded a quarterly 3% safe harbor non-elective contribution on the eligible compensation of participants who were age 21 years or older and had completed one year and 1,000 hours of service. The Company also funds annually a discretionary profit sharing contribution to participants with at least one year of service who have completed at least 1,000 hours of service during the year and have attained age 21, based upon an employee's classification as defined in the Plan agreement. Additional amounts may be contributed at the option of the Company.

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and withdrawals, as applicable, and an allocation of the Company's contributions, Plan earnings or losses, and an allocation of Plan expenses. Allocations are based upon eligible compensation, Plan earnings or losses, and account balances, as defined.

Vesting

Participants are vested immediately in their voluntary contributions, employer contributions, profit sharing contributions, and allocated earnings or losses thereon.

Participant Loans Receivable

A participant may have a maximum of two loans outstanding at any one time from his or her account at a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the account balance. The loans are secured by the balances in the participants' accounts and bear interest at rates that range from 4.25% to 9.25%, which are commensurate with local prevailing rates at loan origination as determined quarterly by the Plan administrator, and mature at various dates through February 2030. Principal and interest are paid ratably through payroll deductions, or directly with Vanguard, with a maximum repayment term of five years, with the exception of loans used to acquire real estate that serves as the participant's primary residence, which may be repaid over a longer period not to exceed 15 years. Participant loans are recorded in the financial statements at amortized cost plus accrued interest.

Payment of Benefits

Upon death, disability, attaining normal retirement age, or attaining age 59½, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or annual installments over a period not to exceed a participant's assumed life expectancy. For termination of service, a participant may receive the value of the vested account balance as a lump-sum distribution, subject to taxes and penalties. Accounts with balances less than $5,000 may be immediately distributed upon a distribution event. Benefits are recorded when paid.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

The Plan's investments are recorded at fair value as reported to the Plan by Vanguard. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchase and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by Vanguard are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendment applies to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) practical expedient. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendment is effective for all plan years beginning after December 15, 2015. Entities should apply the amendment in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practical expedient, upon adoption of ASU No. 2015-07, the fair value of these Plan assets will be removed from the fair value hierarchy in all periods presented in the Plan's financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive investment contracts. Part II eliminates the current generally accepted accounting principles requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recent Accounting Pronouncements (continued)

Currently under FASB Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks; under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendments in Part II should be applied retrospectively for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end. The Plan elected to early adopt all three parts of this standard update for the year ended December 31, 2015 and adjusted the financial statement disclosures for all periods presented.

The adoption of these new accounting pronouncements did not have a material impact on the Plan's financial statements.

Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance, and determined there were no material events requiring recognition or disclosure in the financial statements.

Note 2 - Investments

Vanguard has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant loans at amortized cost as of December 31, 2015 and 2014 and the income earned or losses incurred on the investments for the year ended December 31, 2015, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

As of December 31, 2015 and 2014, there were no investments with fair value greater than 10% of net assets available for benefits.

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the closing price reported on the active market on which the individual funds are traded.

Common stocks and exchange traded funds ("ETFs"): Valued at the closing price reported on the active market on which the individual securities are traded.

Assets at fair value as of December 31, 2015 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 55,489,760	$ -	$ -	$ 55,489,760
Common stocks and ETFs	3,908,998	-	-	3,908,998
Total assets at fair value	$ 59,398,758	$ -	$ -	$ 59,398,758

Assets at fair value as of December 31, 2014 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 54,659,103	$ -	$ -	$ 54,659,103
Common stocks and ETFs	3,504,736	-	-	3,504,736
Total assets at fair value	$ 58,163,839	$ -	$ -	$ 58,163,839

There were no changes to the valuation techniques used during the period.

Note 4 - Income Taxes

The Company uses a prototype plan that has been issued a favorable advisory letter, dated March 31, 2014, from the IRS as to the qualified status of the Plan. Although the Plan has been amended since receipt of the advisory letter, the Plan administrator believes the Plan remains a qualified plan and is not subject to tax. Accordingly, no provision for federal or state income taxes has been recorded.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014 and for the years then ended, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Party-in-Interest and Related Party Transactions

Certain Plan investments are mutual funds managed by Vanguard. Vanguard is the asset trustee, as defined by the Plan. These transactions qualify as party-in-interest, which are exempt from the prohibited transaction rules. In addition, participant loans qualify as party-in-interest transactions and are also exempt.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.
