Note A – Description of the Plan

The following description of the Animal Dermatology 401(k) Plan (hereafter the "Plan") is intended to provide only general information about the Plan. It is recommended that Participants refer to the Plan Document and Trust Agreement and/or the Summary Plan Description (SPD). If there is any disparity between the two, the provision of the Plan Document supersedes the language reflected in the SPD.

General

The Plan is a defined contribution employees retirement plan qualified for certain tax benefits under Internal Revenue Code §401. The Plan Sponsor is the Employer, Animal Dermatology Clinic Management Group, Inc. (hereafter the "Company" and/or "Sponsor" and/or "Administrator"). The Plan assets are invested in cash, guaranteed interest accounts, and mutual funds at John Hancock Life Insurance Company (U.S.A.) (hereafter "John Hancock" and/or the "Custodian"). During the year ending December 31, 2014, the Plan engaged Strategic Pension Services, Inc. (hereafter "SPS", Third Party Administrator", and/or "TPA"), as third party administrator for administrative services and form 5500 preparation. During 2015, SPS was acquired by QBI, LLC (hereafter "QBI") and the Plan continued its engagement with QBI. For provisions regarding allocations, vesting, and the disposition of forfeitures, readers should refer to the Plan Document and Summary Plan Description published and maintained by the Plan Administrator.

Participant Contributions

For the year ended December 31, 2015 (hereafter "the Plan Year"), Plan participants may elect to defer a portion of their W-2 wages and have that amount contributed into the Plan up to a maximum of $18,000 (plus an additional $6,000 for those participants who have attained age 50 by the end of the Plan Year). Employees are eligible to participate in the Plan after three (3) months of service. The participant contributions are allocated to an account maintained on their behalf by the Custodian. This account is always 100% vested.

Employer Contributions – Safe Harbor Matching

The Plan Sponsor contributes a "Safe Harbor" contribution for participants, as provided by 26 U.S.C. 401(k)(12), matching each participant's annual deferral 100% for deferral amounts up to 3% of each Participant's eligible compensation during the Plan year and 50% for deferral amounts between 3% and 5% of each Participant's eligible compensation (with compensation measured up to a maximum of $265,000 for the Plan Year). This matching contribution is 100% vested when made by the Company.

Employer Profit Sharing Contributions – Discretionary Contributions

The Plan Sponsor may contribute a discretionary amount on behalf of each of the following groups of participants: 1) Shareholders and Partners, 2) Practice Managers and Management Coordinators, and 3) all other participants in an amount necessary to satisfy the minimum allocation gateway requirement as described in 26 CFR 1.401(a)(4)-8(b)(1)(vi). Employer profit sharing contributions, if any, are subject to a six-year graded vesting schedule (20% per year starting with two years of service, as defined by the Plan).

Total employee and employer contributions for each participant cannot exceed $53,000 during the Plan year (or $59,000 for participants aged 50 years or older by the end of the plan year).

There have been no profit sharing contributions since inception of the plan.

Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are one hundred percent (100%) vested in their accounts and participant account balances are to be distributed to the participants.

Note B –Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the modified cash basis of accounting which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles.

Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles, requires the Plan's administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could materially differ from those estimates.

Reclassifications

Certain prior period amounts have been reclassified to conform to current period presentation.

Investment Valuation and Income Recognition

As described in the Plan Accounting–Defined Contribution Pension Plans topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("Codification"), security investments are required to be reported at fair value.

The Plan's investments are stated at fair value. Securities traded in public markets are valued at their quoted market prices. Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on accrual basis. Dividends are recorded on the ex-dividend date. The difference between cost and market value from one period to the next and mutual fund management fees paid by the plan are recognized as a component of net appreciation (depreciation) in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Participant Notes Receivable

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recognized on an accrual basis on the date upon which it is accrued. Delinquent loans may be reclassified as distributions based upon the terms of the Plan document, with the plan issuing the participant a 1099-R as a taxable distribution.

Administrative Fees

Non-investment costs and administrative expenses of the Plan are paid by the Company, which is a party-in-interest. These expenses, which are not reflected in the accompanying financial statements, constitute exempt party-in-interest transactions under ERISA. Loan establishment, loan maintenance and short-term trading fees are paid by the Plan's participants and all other investment expenses are offset against the related investment income.

Fees paid by the Plan participants to the Custodian for administrative expenses amounted to $1,208 for the Plan Year

Risks and Uncertainties

The Plan provides for various investment options which invest in any combination of stocks, bonds, fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the net assets available for plan benefits in amounts that cannot be estimated.

Note B –Summary of Significant Accounting Policies (continued)

New Accounting Standards

In July 2015, the FASB issued amendments to the accounting guidance on employee benefit plans. The amendments designate contract value as the only required measure for fully benefit-responsive investment contracts, and eliminates the previously required fair value disclosures. In addition, the amendments eliminate the requirement that plans disclose (a) individual investments that represent 5% or more of net assets available for benefits and (b) the net appreciation or depreciation for investments by general type, eliminating the need to disaggregate the investments. This guidance is effective for fiscal years beginning after December 15, 2015. The Company does not expect the adoption of this guidance will have a material impact on the Plan's financial statements.

In May 2015, the FASB amended guidance for reporting investments in certain entities that calculate net asset value per share (or its equivalent) so that entities will no longer be required to categorize these investments in the fair value hierarchy or to provide the related fair value disclosures. The guidance is effective for annual reporting periods beginning after December 15, 2015, and must be applied retrospectively to all periods presented. The Company does not expect the adoption of this guidance will have a material impact on the Plan's financial statements.

Note C – Investments

Note D – Fair Value Measurements

The Financial Accounting Standards Board establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. An active market for the asset or liability is a market in which the transaction for the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2: Observable inputs other than Level 1 prices that are observable for the asset or liability, either directly or indirectly, such as quoted prices for similar assets or liabilities or model-derived valuations or other inputs or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

Level 3: Unobservable inputs for the asset or liability.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair prices. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
