NOTE A – DESCRIPTION OF PLAN

The following description of the Charlie Clark Nissan 401(k) Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1. *General*

The Plan is a defined contribution plan for the employees of the following companies:

Amaru Motors LP dba Charlie Clark Nissan
Amaru Motors 2, LLC dba Charlie Clark Nissan Brownsville

The effective date of the Plan is December 15, 2006.

All full–time employees who have completed 6 months of service with any of these companies and have reached twenty-one years of age are eligible to begin participation in the Plan as of the next January 1 or July 1. This Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. *Contributions*

Participants may contribute as much of their salary as they wish to the Plan, up to the dollar limit set by law. The Companies may make a discretionary contribution to the Plan at the option of Plan management. Employee and employer contributions are invested according to employee apportionments.

3. *Participant Accounts*

Each participant's account is credited with the participant's contribution, plan earnings and an allocation of (a) the Companies' contribution, if any, and (b) administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts are used to reduce administrative expenses and reduce any employer contribution. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting*

Each participant is 100% vested in his or her voluntary contribution account plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of service as follows:

Vesting Schedule
Profit Sharing Contributions

Years of Service	Vesting Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

NOTE A – DESCRIPTION OF PLAN - Continued

Vesting Schedule
Matching Contributions

Years of Service	Vesting Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Participants are 100% vested in profit sharing and matching contributions if they are employed on or after their normal retirement age or upon death or disability.

5. *Notes Receivable from Participants*

Under the provisions of the Plan, participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms may not exceed 5 years unless the purpose of the loan is for the acquisition of the participant's principal residence. At December 31, 2015 and 2014 notes receivable from participants totaled $76,667 and $45,226, respectively. For December 31, 2015 and 2014 these loans consisted of amounts advanced against individual account balances of 24 and 17 participants, respectively. The interest on these loans is established by the Plan administrator in a nondiscriminatory manner and payback periods range from 1 to 5 years. Monthly payments of principal and interest are handled through payroll deductions by the Companies and are remitted to the Plan with participant contributions.

6. *Payment of Benefits*

A participant may elect to receive an amount equal to the value of the participant's account balance in the Plan upon termination of service due to death, disability or retirement. For termination of service due to other reasons, a participant will receive the value of the vested account balance in the plan as a lump-sum distribution.

The Plan allows for hardship distributions of up to 100% a participant's vested account balance if the withdrawal request is for a purpose delineated in the plan document.

The Plan allows for in-service distributions of up to 100% of a participant's vested account balance if the participant is over age 59 ½.

7. *Forfeited Accounts*

At December 31, 2015 and 2014, forfeited non-vested accounts totaled $20,348 and $4,760, respectively. This amount will be used to reduce future employer matching contributions and may be used to pay administrative expenses.

NOTE B – SUMMARY OF ACCOUNTING POLICIES

1. *Basis of Accounting*

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value, at December 31, 2015 and 2014. No such adjustment was necessary at December 31, 2015 and 2014. The Statement of Changes in Net Assets Available for Benefits is prepared on a fair value basis.

2. *Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3. *Investment Valuation and Income Recognition*

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

4. *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

5. *Payment of Benefits*

Benefits are recorded upon distribution.

6. *Operating Expenses*

All expenses of maintaining the plan are paid by the companies.

NOTE B – SUMMARY OF ACCOUNTING POLICIES – Continued

7. *Subsequent Events*

The Plan has evaluated subsequent events through September 27, 2016, the date the financial statements were available to be issued.

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation of methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate accounts: valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed investment contract: (Fixed account – Massachusetts Mutual Life Insurance Company) valued at contract value which approximates fair value. See Note E.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 983,487	$ -	$ 983,487

	$ -	$1,007,693	$ -	$1,007,693

	Assets at Fair Value as of December 31, 2015

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Fair Value of Investments in Entities that use NAV

The following table summarizes investments measured at fair value based on NAV per share as of September 30, 2015 and 2014 respectively:

December 31, 2015:	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period

December 31, 2014:				
Pooled Separate accounts	$797,106	N/A	Daily	Daily

NOTE E – INVESTMENT CONTRACT WITH INSURANCE COMPANY

For the Plan year ending December 31, 2015 and 2014 the Plan's fixed account investment option was provided through a Guaranteed Investment Contract with Massachusetts Mutual Life Insurance Company (the Mass Mutual). Under the terms of the Contract, a crediting rate is established for amounts invested in the fixed account.

As described in Note B, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the Investment contract. Contract value, as reported to the Plan by the Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value.

NOTE E – INVESTMENT CONTRACT WITH INSURANCE COMPANY – Continued

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract provided by the Mass Mutual at December 31, 2015 and 2014 was $24,206 and $6,551, respectively. The crediting interest rate of the investment contract provided by the Mass Mutual at December 31, 2015 and 2014 was 1.70% and 1.70%, respectively.

NOTE G – PLAN TERMINATION

Although it has not expressed any intent to do so, the Companies have the right, under the Plan, to change, amend or discontinue the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, each participant's account will become fully vested and nonforfeitable.

NOTE H – RECONCILIATION OF THE FINANCIAL STATEMENTS TO THE FORM 5500

The following is a reconciliation of the financial statements to the Form 5500 for the plan year December 31, 2015:

Net assets available for benefits as presented in these financial statements	$1,203,052
Adjustments of:	
Employer's contribution receivable	(118,692)
Net assets available for benefits as presented on Form 5500	$1,084,360
Net increase in net assets available for benefits as presented in these financial statements	$ 147,751
Adjustments of:	
Contribution from employer - 2015	(118,692)
Contribution from employer - 2014	206,418
Net increase in net assets available for benefits as presented on Form 5500	$ 235,477

NOTE I – RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE J – RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments in mutual funds are managed by Massachusetts Life Insurance Company, the custodian of the plan's assets. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Administrative expenses paid by the Plan to Massachusetts Life Insurance Company for the year ended December 31, 2015 amounted to $4,726.

The Plan Sponsor enters into other transactions for professional and operational services related to the Plan. Such transactions are paid directly from the Plan Sponsor and are not paid by the Plan assets.

NOTE K – FEDERAL INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. As of December 31, 2015 and 2014, the organization reports no uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
