401K Retirement Plan

Notes to the Financial Statements
December 31, 2008 and 2009

NOTE A – DESCRIPTION OF PLAN

The following brief description of Reach Unlimited, Inc., 401K Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan was established in January 1997 as a defined contribution plan covering all full-time and part-time employees who have one year of service and are age twenty-one or older. Once an employee meets these eligibility requirements, enrollment in the plan will occur on the next available open enrollment date. Enrollment dates are January 1 or July 1 of each year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, the Plan allows eligible employees to contribute a percentage of pretax annual compensation, up to IRS limits, to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Reach Unlimited, Inc., contributes up to 3% of base compensation of participants of the Plan. There is no requirement that enrolled participants also contribute to the plan to receive the 3% contribution. Employer contributions are invested as directed by the participant. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the employers' contribution, (b) rollover contributions, if any, and (c) investment earnings and appreciation in the value of investments. Each participant's account is debited with (a) any withdrawals or distributions made, (b) investment losses and depreciation in the value of investments, and (c) administrative fees and expenses paid out of the Plan, if applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer's contribution portion of their accounts is based on periods of service. A participant is 100% vested after five years of credited service or if employed on or after the participant's normal retirement age.

Participant Loans

Participants may borrow from their fund accounts at a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% or their account balance. A participant may have no more than two loans outstanding at any given time. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 9.75%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through periodic payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of not more than participant's life expectancy. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

Non-vested employer contributions to employees who terminate are used to reduce future employer contributions.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through September 27, 2010, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

NOTE C – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

The participant loans are not actively traded and significant other observable inputs are not available. The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

December 31, 2009	Participant Loans	Total
Beginning Balance	$ 36,959	$ 36,959
Purchases, sales, issuances and settlements (net)	5,148	5,148
Ending Balance	$ 42,107	$ 42,107

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2009 are reported in net appreciation in fair value of investments.

NOTE D – INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets as of December 31, 2009:

	December 31, 2009	December 31, 2008

Growth Fund of America-R2	93,993	62,870

American Funds Money Market Fund-R2	284,555	-
	$ 754,978	$ 551,653

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $151,478 as follows:

Mutual funds	$ 151,478
	$ 151,478

NOTE E – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE F – RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

	Decmeber 31, 2009	Decmeber 31, 2008
Net assets available for benefits per the financial statements	$ 1,004,575	$ 717,183
Net assets available for benefits per Schedule H to the Form 5500	$ 1,004,575	$ 717,183 unaudited

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2009 to Schedule H of Form 5500:

Benefits paid to participatns per the financial statements	$ 65,909
Benefits paid to participants per Schedule H of Form 5500	$ 65,909

Amounts allocated to withdrawing participants are recorded on the Schedule H of Form 5500 for benefit claims that have been processed and approved for payment prior to December 31 but not yet paid as of that date.

NOTE G – TAX STATUS

Although the Plan has not requested determination from the Internal Revenue Service as to the Plan's tax-exempt status, the master prototype plan from which the Plan was drafted has received a favorable determination from the Internal Revenue Service. Plan management believes that the Plan is designed to operate in accordance with all applicable provisions of the Internal Revenue Code. Therefore, management believes that the Plan is qualified and that the related trust is exempt from taxation under the Internal Revenue Code.

NOTE H – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
