To the Trustees and Employees of the
PlanetMercury 401(k) Plan & Trust

We were engaged to audit the accompanying statements of net assets available for benefits of the PlanetMercury 401(k) Plan & Trust (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental information included in Schedule H of Internal Revenue Service Form 5500 as of and for the year ended December 31, 2009. These financial statements and supplemental information are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan sponsor instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Nationwide Financial Services, Inc., the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental information. We have been informed by the plan sponsor that the custodian holds the Plan's investment assets and executes investment transactions. The plan sponsor has obtained a certification from the custodian as of December 31, 2009 and 2008 and for the year ended December 31, 2009 that the information provided to the plan sponsor by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental information taken as a whole. The form and content of the information included in the financial statements and supplemental information, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974.

PLANETMERCURY 401(k) PLAN & TRUST

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

1. DESCRIPTION OF THE PLAN

The following description of the PlanetMercury (the "Company") 401(k) Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Amendments

Effective July 1, 2009, the Plan was renamed from Razor Competitive Edge 401(k) Plan and Trust to PlanetMercury 401(k) Plan and Trust. The amendment allows the employees of Razor Competitive Edge ("Razor"), PlanetMercury, LLC (Razor's parent company) and Valence Print Management, LLC (a subsidiary of PlanetMercury) to participate in the Plan.

Contributions

Participants can contribute up to 100 percent of pretax annual compensation not to exceed limitations set by the Internal Revenue Service (IRS). Participants who have attained the age of 50 before the end of the plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company matches 50 percent of a participant's deferred salary contribution limited to three percent of a participant's annual gross wages. The Company's matching contribution is invested directly in the participants' portfolio of investments. Additional discretionary profit sharing amounts may be contributed at the option of the Company. The Company made no discretionary profit sharing contributions for 2009. Company contributions are also subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions into any of twenty investment options. Generally, participants may change their investment options daily. The following are investment options that represent 5 percent or more of net assets available for benefits at December 31, 2009:

Nationwide Investor Destinations Moderately Aggressive Fund – seeks to maximize total investment return for a given level of risk by investing in a professionally selected mix of underlying mutual funds and short-term investments.

Nationwide Investor Destinations Aggressive Fund – seeks to maximize total investment return for a given level of risk and aims to provide diversification across major asset classes by investing in a professionally selected mix of underlying mutual funds and short-term investments.

Oppenheimer Developing Markets Fund – aggressively seeks capital appreciation. The fund normally invests at least 80 percent of assets plus borrowings for investment purposes in equity securities of issuers whose principal activities are in at least three developing markets.

T. Rowe Price Growth Stock Fund – seeks long-term capital growth and, secondarily, increasing dividend income through investments in the common stocks of well-established growth companies.

EuroPacific Growth Fund – seeks above-average capital appreciation. The fund invests at least 80 percent of net assets in securities of issuers in Europe and the Pacific Basin that the advisor believes have the potential for growth.

Nationwide Investor Destinations Moderately Conservative Fund – seeks to maximize total investment return for a given level of risk and aims to provide diversification across major asset classes by investing in a professionally selected mix of underlying mutual funds and short-term investments.

Diamond Hill Small Cap Fund – seeks to provide long-term capital appreciation. The fund normally invests at least 80 percent of net assets in common stocks of companies in the United States with small market capitalizations that the advisor believes are undervalued.

Van Kampen Growth and Income Class A Fund – seeks income and long-term growth of capital, by investing primarily in a portfolio of income-producing equity securities.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the plan sponsor. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or any other reasons, a participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution or as an automatic rollover to an IRA or other qualified plan designated by the participant.

Forfeited Accounts

The balance of forfeited non-vested accounts at December 31, 2009 and 2008 totals \$6,149 and \$2,531, respectively. Amounts forfeited for the year ended December 31, 2009 total \$6,845. For the year ended December 31, 2009 forfeitures used to reduce employer contributions total \$2,855.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan sponsor to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The plan invests in various investment instruments. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the participants' account balances and the amount reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. The fair value of the fixed account is calculated by discounting the related cash flows based on currency yields of similar instruments with comparable durations. Participant loans are valued at their outstanding balances which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income on the investment contracts account is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded in the period in which they are paid.

Operating Expenses

The Company absorbs a significant portion of the operating costs of the Plan. Fees paid by the plan sponsor amounted to \$8,589 for the year ended December 31, 2009.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, management has reviewed subsequent events through September 27, 2010, the date the report was available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified as complete and accurate by the custodian. The following represents investments at December 31, 2009 and 2008 at fair market value. The investment values denoted with an “*” represent 5 percent or more of the Plan’s net assets available for benefits.

Earnings on related investments				
Net investment gain	\$ 274,869			
Interest on participant loans	\$ 487			
Loss on money market	\$ (115)			

4. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their employer contributions.

5. TAX STATUS

The Plan has received an approved determination letter from the IRS dated March 31, 2008. Although the Plan has been amended since receiving the determination letter, the Plan sponsor and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

6. INACTIVE PARTICIPANTS WITH ACCOUNT BALANCES

At December 31, 2009 and 2008, the value of the accounts held by participants who have separated from employment with the plan sponsor and continue to maintain a balance with the Plan totals \$130,672 and \$141,323, respectively.

For the year ended December 31, 2009, the value of accounts held by participants who have separated from employment with the plan sponsor and have elected to withdraw from the Plan, but have not been paid totals \$0.

7. FAIR VALUE MEASUREMENT

Financial Accounting Standard Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. Methodologies used at December 31, 2009 and 2008 are the same.

Interest bearing cash: Valued daily based on face value and the stated rate disclosed in the contract.

Mutual funds: Valued at their daily unit value (“DUV”). Each fund is given a unit value when it is added to the system. The fund is valued daily by multiplying the previous day’s DUV by the gross investment rate minus the daily asset management charge or asset fee percentage. The gross investment rate is determined based on the combination of the mutual funds’ net asset value (“NAV”) and any dividends and capital gains declared. NAV and these other changes are calculated each business day as of the close of regular trading on the New York Stock Exchange, generally 4 p.m. Eastern time.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan sponsor believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009				
	Level 1	Level 2	Level 3	Total
