NOTES TO FINANCIAL STATEMENTS
PEPIN DISTRIBUTING COMPANY SAVINGS AND RETIREMENT PLAN
TAMPA, FLORIDA

Note 1 - Description of the Plan

The Pepin Distributing Company Savings and Retirement Plan (the Plan) is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers all employees of Pepin Distributing Company (the Company). Participation in the Plan is voluntary.

Contributions

Participants may contribute a percentage of their gross annual earnings as a pretax contribution and the Company matches 50% of the first 6% of employee contributions.

Employer contributions also include profit sharing contributions as approved by the Company's Board of Directors. The profit sharing contributions were $0 for each of the Plan years ended December 31, 2015 and 2014.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled, is the benefit that can be provided from the participant's vested account.

Participant Directed Investments Not Held by Custodian

With administrator approval, participants are permitted to purchase investments through a brokerage window outside of the Custodian. At December 31, 2015 and 2014, these investments totaled $2,674,310 and $2,780,415, respectively, and consisted of seven participants for both years. These accounts' investments consisted of money markets, common stock, and mutual funds.

Note Receivable from Participants

The maximum a participant may borrow is the lessor of $50,000 or 50% of the fair market value of their vested individual account balances. Interest accrues at LIBOR plus 1%. Loan terms range from one to five years, with loans to purchase primary residences extending beyond five years. The participant shall be charged with any costs associated with processing the loan. Participants may have only one outstanding loan at a time. Loans to participants are reported at their unpaid principle balance plus any accrued but unpaid interest.

Vesting

Participants are immediately vested in their contributions and earnings thereon. Participants vest in employer contributions and earnings thereon based upon years of service. Notwithstanding, participants are 100% vested after three years of service.

Payment of Benefits

Participants may request a partial or full distribution of their after-tax contribution account at any time. Pretax and vested employer contributions and earnings thereon may be distributed to a participant while still employed only to meet a qualifying financial hardship. Upon termination, participants may elect to receive a lump-sum payment or choose an annuity plan.

Note 1 - Description of the Plan *(Concluded)*

Forfeited Accounts
At December 31, 2015 and 2014, forfeited nonvested accounts totaled $14,080 and $3,227 respectively. These accounts will be used to reduce future employer contributions.

Note 2 - Summary of Accounting Policies

Basis of Accounting
The accounts of the Plan are maintained on the accrual basis.

Expenses of the Plan
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market and participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company (see Note 7 for discussion of fair value measurements).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Substantially all investments are uninsured.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Note 2 - Summary of Accounting Policies *(Concluded)*

Excess Contributions Payable
Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2015 excess contributions to the applicable participants prior to March 15, 2016.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
The Plan Administrator has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through October 6, 2016, the date the financial statements were available to be issued.

Note 3 - Investments

Investments that represent 5% or more of the net assets available for Plan benefits, as of December 31, are as follows:

	2015	2014
Lifestyle Fund - Balanced Portfolios	$ 6,253,051	$ 6,771,466
Lifestyle Fund - Growth Portfolios	7,906,921	7,978,458
Lifestyle Fund - Aggressive Portfolios	7,225,613	6,725,869
Money Market	3,106,684	3,197,592
Participant Directed Brokerage Accounts	2,674,310	2,780,415

Note 4 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account.

Note 5 - Information Certified by the Custodian

The Plan Services unit of the Custodian maintains all records of investment transactions and accounts of participants, and determines the valuation of the investment portfolio.

As required by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Custodian has provided certification to the Plan Administrator regarding the accuracy and completeness of certain information presented. The certified information consists of the following as of December 31, 2015 and 2014:

	2015	2014
Investments at Fair Value with John Hancock:		
Life Insurance Company, (U.S.A.)	$ 26,209,938	$ 26,718,132
Participant Loans	867,865	810,483
Net Appreciation in Fair Value of Investments	(258,159)	1,083,067
Interest and Dividends	16,191	18,057

Note 6 - Risk and Uncertainties

The Plan invests in various mutual funds that invest in investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the *near-term* and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.

Note 7 - Fair Value Measurements

That framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- **Level 1—**Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- **Level 2—**Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets.
  - Quoted prices for identical or similar assets or liabilities in inactive markets.
  - Inputs other than quoted prices that are observable for the asset or liability.
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- **Level 3—**Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at the price. The mutual funds held by the Plan are deemed to be actively traded.

Note 7 - Fair Value Measurements *(Concluded)*

Collective Trust Fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	Fair Value Measurements at Reporting Date Using

The Plan's investment (including gains and losses on investments bought and sold, as well as held during the year) (depreciated)/appreciated in value by $(330,156) during 2015 and by $1,214,037 during 2014.

Note 8 - Exempt Transactions with Parties-In-Interest

Certain plan investments are mutual funds managed by John Hancock Retirement Plan Services. John Hancock Life Insurance Company is the Custodian of the Plan and Matthews Benefit Group administers the Plan; therefore, these transactions qualify as party-in-interest transactions. Plan investments also include participant loans, which qualify as exempt party-in-interest transactions.

Note 9 - Tax Status

The Plan qualifies under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, is not subject to tax under current income tax laws. Consequently, there is no provision for income taxes in the accompanying financial statements.

Under *Accounting Standards Codification* Section 740-10, *Income Tax Uncertainties*, it is the policy of management to evaluate its tax positions on an ongoing basis and to disclose any such positions it believes would have a material impact on the financial statements and related notes. Management also believes that no such required disclosures currently exist.

The Plan is no longer subject to U.S. federal or state income tax examinations by tax authorities for years before 2012. The Plan recognizes interest accrued related to unrecognized tax benefits in interest, expense and penalties, if any, in operating expenses.

The IRS issued a determination letter dated January 31, 2006, stating that the Plan was designed in accordance with applicable IRC requirements as of that date. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt for the years ended December 31, 2015 and 2014.
