INDEPENDENT AUDITORS' REPORT

To The Trustees of the Cold Spring
Construction Company Employees'
Profit Sharing Plan and Trust
Akron, NY

Report on the Financial Statements

We have audited the accompanying financial statements of the Cold Spring Construction Company Employees' Profit Sharing Plan and Trust, which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits, as well as the statements of receipts and disbursements, for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making these risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Cold Spring Construction Company Employees' Profit Sharing Plan and Trust as of December 31, 2015 and 2014, and the changes in net assets available for benefits, as well as the statements of receipts and disbursements, for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held for investment purposes and of reportable transactions, together referred to as "supplemental information," are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement and Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Respectfully submitted,

Grogan & Stufflebeam, CPAs LLP

Notes To Financial Statements

1. Significant Accounting Policies:

Basis of Accounting:

The books and records are kept on the accrual basis of accounting.

Estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition:

Investments are stated at estimated fair value as of the reporting date, thus recognizing the net appreciation or depreciation in the assets during the period. See Note 4 for discussion of fair value measurements. Investments purchased and sold are recorded on a trade-date basis. In determining the gain or loss for each sale, the cost is offset against the sale proceeds, using the average cost of the shares on hand before the sale occurred.

Interest Income is recorded on the accrual basis.

Dividends are recorded on the ex-dividend date.

Payment of Benefits:

Benefits are recorded when paid.

Date of Management's Review:

Subsequent events were evaluated through October 13, 2016, which is the date the financial statements were available to be issued.

2. Description of the Plan:

The following is a brief description of the Cold Spring Construction Company Employees' Profit Sharing Plan and Trust. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

2. Description of the Plan (Continued):

General – The plan is a defined contribution plan covering the eligible employees of the employer. It is subject to the provisions of the Employees Retirement Income Security Act of 1974 (ERISA). The board of trustees oversees governance of the plan and the appropriateness of the Plan's investments, and monitors investment performance.

Eligibility Requirements – Any employee, who is not excluded according to the plan agreement, shall be eligible to participate (unless the employee specifically waives participation) as of the date on which the employee is first credited with one hour of service.

Contributions – The employer shall make a nondiscretionary contribution on a cents-per-hour rate basis for each public works participant. The amount of such nondiscretionary contribution required for each public works participant shall be such amount as required for him under the applicable prevailing wage law, after taking into account all other amounts contributed by the employer to other employee pension benefit and welfare benefit plans on the participant's behalf and properly credited toward the employer's obligation under such prevailing wage law. In addition to the contributions made for public works participants, the employer may make a discretionary contribution on behalf of participants who are not public works participants. This contribution shall be allocated to each participant who is not a public works participant based on a fraction, the numerator of which is such participant's compensation for the plan year and the denominator of which is the total compensation for the plan year of all such participants entitled to share in such allocation. In addition, the computation of the contribution for a non-public works participant uses an integrated formula with the Social Security Wage base. Any participant, with the employer's written consent, may contribute cash or other property to the trust if the contribution is a "rollover contribution" provided the Internal Revenue Code permits an employee to transfer either directly or indirectly from one qualified plan to another qualified plan.

General Investment Fund – All contributions are to be placed by the trustees of the plan in the general investment fund. The trustees shall be responsible for the receipt and deposit of contributions, investment of plan assets pursuant to the expressed intent of the plan and the investment policy, payment of benefits, and furnishing the administrator with the trust accounting report. The trustees operate the plan solely on behalf of the participants and their beneficiaries and are limited to the duties or responsibilities stated in the plan agreement. All expenses and reasonable costs incurred by the trustees in connection with their administration of the plan shall be paid from the trust fund, unless the employer pays the expense. A participant's share of investment earnings and any increase or decrease in fair value of the trust fund which is common to all participant accounts shall be credited to or charged against each participant's account in the ratio that the balance in the account as of the first day of such evaluation period minus the amount distributed to such participant during such evaluation period bears to the balance of all such participant accounts as of the first day of such evaluation period minus the total amounts distributed to all participants during such evaluation period. Voluntary employee contributions are not permitted.

2. Description of the Plan (Continued):

Vesting – Each participant in the plan has a one hundred percent non-forfeitable (vested) right to his/her account balance.

Retirement and Benefit Options – Normal retirement age is 55. The normal form of benefit is lump-sum payment. Other optional forms of benefit are available.

Death Benefits – Each participant shall have the right and option to designate his/her beneficiary at any time. If a participant is married, the trustees must obtain the written consent of the participant's spouse in order to designate a primary beneficiary who is other than the spouse. Upon the death of a participant, the participant's beneficiary shall be entitled to receive 100% of the participant's account balance. If the participant is married at the time of death, the benefit will normally be paid in the form of a lump-sum payment to the participant's spouse or previously designated beneficiary. If the participant is not married, the benefit will also be paid in the form of a lump sum to the participant's designated beneficiary.

Termination of Employment – In the event a participant terminates employment prior to normal retirement age, such participant shall have a fully vested right to the amounts credited to his/her rollover or employer contribution account. The participant's termination benefit will be distributed to him/her as soon as administratively feasible following the end of the plan year in which normal retirement, death or total and permanent disability occurs. However, if the participant incurs a break in service and his/her account balance does not exceed $5,000.00; the participant must request their distributions in writing in order to receive the participant's entire vested account balance in a lump sum in accordance with the provisions of the plan. After a participant incurs 5 consecutive one year breaks in service, regardless of the participant's account balance, the participant may in writing request immediate full distribution of his vested account balance in accordance with the provisions of the plan.

3. Determination With Respect To Tax Exemption:

The plan obtained its latest determination letter on February 12, 2010 in which the Internal Revenue Service (IRS) stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements. The plan administrator is required to evaluate tax positions taken by the plan and recognized a tax liability for any uncertain positions that more likely than not would not be sustained upon IRS examination. There are currently, no IRS audits for any tax periods in progress. The Plan administrator believes the plan is no longer subject to income tax examinations for years prior to 2012.

4. Fair Value Measurements:

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under generally accepted accounting principles are described below:

Level 1—Quoted market prices in active markets for identical assets or liabilities
Level 2—Observable market-based inputs or unobservable inputs corroborated by market data
Level 3—Unobservable inputs reflecting the reporting entity's own assumptions

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques followed need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015.

Registered equity securities: Valued at the closing price of the active market in which the security is traded.

Government securities: Valued at the closing price of the active market in which the security is traded.

Mutual and exchange-traded funds: Valued at the published net asset value per share as of the reporting date.

Corporate debt instruments: Valued at the closing price of the active market in which the security is traded. Some bonds may be traded in the over-the-counter market, and those for which no sale was reported on the last business day of the plan year are valued at the average of the last reported bid and asked prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair values of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Investments:

There were no investments that represented 5% or more of the plan's net assets as of December 31, 2015 and .

7. Cash and Cash Equivalents:

Cash and cash equivalents consisted of amounts on deposit at banks with a maturity of three months or less. These deposits amounted to $3,729,952.62 and $5,187,238.70 as of December 31, 2015 and , respectively. Cash and cash equivalents as of December 31, 2015 were composed of cash in the amount of $3,729,952.62 and no cash equivalents. Cash and cash equivalents as of were composed of cash in the amount of $4,382,989.20 and cash equivalents, which represented corporate bonds with a maturity of three months or less, in the amount of $804,249.50. These deposits are in excess of the federally insured limits as of December 31, 2015, respectively.

8. Risk and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Participants are 100% vested in their employer contributions.
