ACUREN INSPECTION EMPLOYEE 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

NOTE 1 – DESCRIPTION OF PLAN:

The following brief description of the Acuren Inspection Employee 401(K) Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General – The Plan is a defined contribution plan covering full-time employees of the Acuren Inspection, Inc. (formerly US Inspection Services, Inc.) related companies (the Employer and Plan Sponsor) who are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may contribute up to 100% of eligible compensation for primary pre-tax contributions, (elective deferrals) subjects to annual limits prescribed by tax laws. Participants may also contribute amounts representing distributions from other qualified plans or conduit IRA's. The Company matches contributions on pre-tax contributions only, at a rate set annually at the Company's discretion. Matching contributions equaled 50 percent of the first five percent deferred by the participant or up to 2.5 percent of participant deferrals for the years ended December 31, 2014 and 2015.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants' vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. Participants vest 20 percent per year of service after one year of service and are 100 percent vested after six years of service.

Investment Options – The participant directs the investment of his or her contribution and the Employer's discretionary contribution into various investment options offered by the Plan.

Participant Notes Receivable – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants are permitted to borrow from their fund accounts twice per year, with the pay back date being on the original loan's maturity date. Loan terms range from 1 – 5 years. The loans are secured by the balance in the participant's account. Principal and interest (4% to 4.25%) is paid ratably through bi-weekly payroll deductions.

Payment of Benefits – On termination of service for any reason, a participant may receive a lump-sum amount equal to the value of the vested interest in his or her account.

ACUREN INSPECTION EMPLOYEE 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

NOTE 1 – DESCRIPTION OF PLAN: (continued)

Forfeited Accounts – Following a five-year break in service or distribution of vested benefits, whichever is earlier, forfeiture accounts may be used to reduce future employer contributions. At December 31, 2015, there were no forfeited nonvested accounts.

Administrative Expenses – The Company absorbs substantial administrative expenses of the plan.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES:

The following are the significant accounting policies followed by the Plan:

Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – The Plan's investments are held by Principal Life Insurance Company, the Plan's trustee and custodian. The investments in pooled separate accounts are stated at fair value based on quoted market values of the underlying securities (Level 1 inputs). Participant loans are valued at their outstanding principal balance, which approximates fair value. The investment in funds held in insurance company general account, which are guaranteed interest account annuity contracts, are stated at fair value as determined by Principal Life Insurance Company. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations (Level 2 inputs). The contract is not considered fully benefit responsive because of certain market value adjustments contained in the contract terms. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual method. Dividends are recorded on the ex-dividend date.

Payment of Benefits – Benefits are recorded when paid.

Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable form Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2015 and 2014, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

ACUREN INSPECTION EMPLOYEE 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

NOTE 3 – PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 4 – TAX STATUS:

Effective January 1, 2007, the Plan adopted a standardized form of a prototype plan sponsored by Principal Financial Group. The prototype plan has received an opinion letter dated July 22, 2003 from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

NOTE 5 – INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

NOTE 8 – RELATED PARTY TRANSACTIONS

Certain Plan investments are unit interests in pooled separate accounts and annuity contracts managed by Principal Life Insurance Company. Principal Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $11,553 for the year ended December 31, 2015.

These party-in interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE 9 – DATE OF MANAGEMENT'S REVIEW

In preparing the financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 13, 2016, the date that the financial statements were available to be issued.

NOTE 10 – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of pooled separate accounts and registered investment companies are based on quoted net assets values of the shares held by the Plan at year end.

Level 2 Fair Value Measurements

The fair value of guaranteed investment contracts are valued by discounting the related cash flow based on current yields of similar instruments with comparable durations.

NOTE 11 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
