Report of Independent Auditors

The Board of Directors
MAHLE Industries
401(k) Savings Plan for Hourly Employees
of the Churubusco, Indiana Facility

We were engaged to audit the accompanying statements of assets available for benefits of the MAHLE Industries 401(k) Savings Plan for Hourly Employees of the Churubusco, Indiana Facility as of December 31, 2009 and 2008, and the related statements of changes in assets available for benefits for the years then ended, and the supplemental schedules of assets (held at end of year) as of December 31, 2009 and delinquent participant contributions for the year then ended. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Massachusetts Mutual Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2009 and 2008 and for the years then ended, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules, taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the investment information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2009 and 2008

1. Description of Plan

The following description of the MAHLE Industries 401(k) Savings Plan for Hourly Employees of the Churubusco, Indiana Facility (the Plan) provides general information about the Plan's provisions. MAHLE Industries, Incorporated (the Company) is the Plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the Plan sponsor.

General

The Plan is a defined contribution employee benefit plan which provides pension benefits to the Company employees who are members of the collective bargaining unit represented by the International Association of Machinists and Aerospace Workers, AFL-CIO, District Lodge No. 90, Local Lodge 2034 (the Union) at the Churubusco, Indiana facility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

During 2008, the Company announced intentions to close the Churubusco plant and the plant was subsequently closed in November 2009. The Plan will continue in operation until all benefits due under the Plan have been paid.

Participation

Eligible employees hired prior to November 5, 2007 are able to participate in the Plan as of the date they complete their 60-day probationary employment period with the Company. Employees hired on or after that date are eligible to participate in another tax-qualified defined contribution retirement plan offered by the Company.

Contributions

The Company contributes a stated amount multiplied by the number of hours worked by eligible employees.

1. Description of Plan (continued)

Participants may defer up to 20% of their compensation on a pre-tax basis as defined in the Plan. Catch-up contributions for participants age 50 or over are allowed.

Contributions are limited to the maximum amounts allowed under the Internal Revenue Code (the IRC).

Participation Accounts

Participants' accounts are credited with their compensation deferrals, employer contributions and earnings based on the performance of the investment options selected by the participants.

Participants may direct contributions into their accounts among the investment options available and may change their selection and transfer invested balances at any time at their discretion.

Vesting

Participants are immediately vested in their accounts, including employer contributions, at all times.

Payment of Benefits

In accordance with the Plan provisions, upon retirement after attaining normal retirement age, earlier termination of employment or disability, participating employees may receive payment of their account balance in a lump sum. Upon death, the designated beneficiary of a participant is entitled to receive payment of the participant's account balance in a lump sum.

If the participant's account balance is $1,000 or less, payment will be made in a lump sum without the participant's consent. If the account balance is over $1,000 but not greater than $5,000, payment will be made to an individual retirement account at Massachusetts Mutual Life Insurance Company (Mass Mutual), or such other provider as the Company designates in accordance with Department of Labor guidelines, unless the participant requests a different disposition of his account balance within the applicable election period.

1. Description of Plan (continued)

Hardship Withdrawals

Subject to the IRC regulations and to approval by the plan administrator, participants may make hardship withdrawals up to the amount of the participant's contributions.

Plan Termination

The Plan was required to remain in effect until at least November 2, 2009, the expiration date of the most recently negotiated collective bargaining agreement with the Union. After that date, the Plan will remain in effect for successive one-year renewal terms, until such time as either the Company or the Union may elect to seek, with at least 60 days advance written notice, to modify or amend the Plan as of the expiration of the renewal term. Plan management has renewed the agreement and has not sought to close the Plan.

In the event of complete or partial termination of the Plan, or complete or partial discontinuance of contributions by the Company, the full value of the Participant's account as of the valuation date coincident with or next following the effective date of such termination or discontinuance, shall immediately become distributable to the participant.

Administration

The Plan is administered by the Benefits Committee of the Company. Mass Mutual is the custodian of the Plan and manages the Plan assets in accordance with the terms of the trust agreement.

Administrative Expenses

The Company generally pays all expenses, including fees for professional services associated with the administration of the Plan, except for check fees for benefit payments, which are paid by the Plan.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Contributions

Employee contributions are recorded at the end of each pay period when the amounts are withheld from the participant's compensation. Employer contributions are recorded in the period in which they become obligations of the Company.

Benefit Payments

Benefit payments to participants are recorded when paid.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

The Plan invests in a fully benefit-responsive guaranteed investment contract (GIC). This investment contract is recorded at fair value in the financial statements however, since this contract is fully benefit-responsive an adjustment is reflected in the statements of assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive investment contract represents contributions plus earnings, less participant withdrawals and administrative expenses. See Note 5 for further discussion of fully benefit-responsive investment contract.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires the plan administrator to make estimates that affect the amounts reported in the financial statements, accompanying notes and supplemental schedules. Actual results could differ from those estimates.

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4). FSP 157-4 amended FASB Statement No. 157 (codified as ASC 820) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's assets available for benefits or its changes in assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events*, which was codified into ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

In June 2009, the FASB issued SFAS No. 168, *The FASB Accounting Standards CodificationTM and the Hierarchy of Generally Accepted Accounting Principles* (codified in ASC 105), which created a single source of authoritative nongovernmental U.S. GAAP. The Codification was effective for the Plan's year ended December 31, 2009. Upon adoption, all existing accounting and reporting standards were superseded. All other accounting literature not included in the Codification are considered non-authoritative. The required disclosures have been incorporated into and did not have a material impact on the Plan's financial statements.

2. Significant Accounting Policies (continued)

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12). ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009 and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 4 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's assets available for benefits or its changes in assets available for benefits.

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

3. Participant-Directed Investments

All investment information disclosed in the accompanying financial statements and supplemental schedules including investments held and the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2009 and 2008, and net appreciation (depreciation) in fair value of investments, interest and dividends for the year ended December 31, 2009, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Mass Mutual, the custodian of the Plan.

The fair value of the Plan's participant-directed investments that represent 5% or more of assets available for benefits are as follows:

	December 31	
	2009	**2008**
Pooled separate accounts:		
Destination Retirement 2020	**$ 81,682**	$ 80,650
Premier Core Bond	**84,407**	65,562
Select Indexed Equity	**30,749**	29,899
Select Fundamental Val	**24,543**	**
Mass Mutual SF Guaranteed Account *	***	220,218
Mass Mutual Fixed Interest Fund *	**216,238**	***

* Investment Contract stated at fair value (see Note 5). Contract value was $218,035 and $231,061 at December 31, 2009 and 2008, respectively.

** Fair value less than 5% of assets available for benefits.

*** The Plan did not hold any investment in this fund as of this date.

4. Fair Value Measurements

ASC 820 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

- *Level 1* – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

- *Level 2* – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

  - quoted prices for similar assets and liabilities in active markets

  - quoted prices for identical or similar assets or liabilities in markets that are not active

  - observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)

  - inputs that are derived principally from or corroborated by observable market data by correlation or other means

- *Level 3* – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measure in its entirety.

4. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for Plan assets measured at fair value as of December 31, 2008 and 2009:

Investment Contract (Fixed Interest Fund and Guaranteed Income Fund) – The guaranteed income fund is recorded at contract value, which approximates fair value. See Investment Contract With Insurance Company below for further information related to the valuation of this investment.

Pooled Separate Accounts – Pooled separate accounts are valued on a net unit value basis as determined by the account issuer on the last business day of the Plan year. The fair values of these investments are determined by reference to the respective fund's underlying assets, with the account issuer specifying the source(s) to use for underlying investment asset prices. The investments underlying the Plan's pooled separate accounts may be one or more mutual funds, a common collective trust, or a portfolio of securities.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2009:

	Assets at Fair Value as of December 31, 2009			
	Level 1	**Level 2**	**Level 3**	**Total**
Mass Mutual Fixed Interest Fund	**$ –**	**$ –**	**$ 216,238**	**$ 216,238**

Balance, December 31, 2008	$ 220,218

5. Fully Benefit-Responsive Investment Contract With Insurance Company

The Plan entered into a benefit-responsive investment contract with Mass Mutual (the Issuer). Prior to 2009, Mass Mutual maintained the contributions in a general account known as the Mass Mutual SF Guaranteed Account, which is a guaranteed interest account provided through a group annuity contract. The account is credited with earnings on the underlying investments and charges for participant withdrawals and administrative expenses. Under the terms of the group annuity contract, a crediting interest rate is established for contributions to the Plan and participants may make permitted withdrawal and/or transfer transactions of all or a portion of their account balance at contract value. There are no reserves against contract values for credit risk of Mass Mutual or otherwise.

In 2009, the Plan transferred the account from the Mass Mutual SF Guaranteed Account to a Mass Mutual Fixed Interest Fund. The Mass Mutual Fixed Interest Fund is a market value separate account investment option with a general investment account guarantee that provides a stated rate of return and insulates participants' accounts from daily fluctuations in the market. Under the terms of the group annuity contract, participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at contract value. There are no reserves against contract values for credit risk of Mass Mutual or otherwise.

5. Fully Benefit-Responsive Investment Contract With Insurance Company (continued)

The crediting interest rates are based on a formula agreed upon with the Issuer, but they may not be less than 3%. Such interest rates are reviewed on a semi-annual basis for resetting. The average yield and crediting interest rates on the contract were 3.75% and 4.35% for 2009 and 2008, respectively. The average yield earned is calculated by dividing the annual interest credited to the Plan during the plan year by the average annual fair value. The average interest rate credited to participants is calculated by dividing the annual interest credited to the participants during the plan year by the average annual fair value. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contract; and the duration of the underlying investments backing the contract. The resulting gains and losses in the fair value of the investment contract relative to the contract value are reflected in the statement of assets available for plan benefits as Adjustment from Fair Value to Contract Value for Interest in Guaranteed Investment Contract Relating to Fully Benefit-Responsive Investment Contracts.

Certain events may limit the ability of the Plan to transact at Contract Value. Such events include but may not be limited to the following: (1) temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the Plan; (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer; or, (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan sponsor's business.

6. Income Tax Status of the Plan

The Plan has received a determination letter from the Internal Revenue Service (the IRS) dated January 12, 2004, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the IRC) and therefore the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore believes the Plan, as amended, is qualified and the related trust is tax-exempt.

7. Related-Party Transactions

The Plan's assets are invested in funds managed by the custodian of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.

9. Subsequent Events

The plan administrator evaluated subsequent events for the Plan through July 19, 2010, the date the financial statements were available to be issued.
