NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

Note 1 – Description of the Plan

The following description of the Paddock Publications, Inc. Employees 401(k) Plan (the "Plan") provides general information only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution Plan covering substantially all full-time employees of Paddock Publications, Inc. (the "Company") who have one year and 1,000 hours of service. The Board of Directors of the Company control and manage the operation and administration of the Plan. The Charles Schwab Trust Company serves as the Trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 50% of their pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code limitations. The Company may make a discretionary matching contribution equal to 50% of the first 5% of base compensation that a participant contributed to the Plan. The Company made no matching contribution for the years ended December 31, 2009 and 2008. Additional amounts may be contributed at the discretion of the Company's board of directors, however no such contributions were made for the years ended December 31, 2009 and 2008. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution Plans.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and allocations of Company discretionary contributions, participant forfeitures and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participant contributions and actual earnings thereon are 100% vested immediately. Vesting in the Company's contribution portion of their accounts is based on years of continuous service of at least 1,000 hours of service each year. A participant is 100% vested after three years of credited service. Forfeited balances of terminated participants are applied to Plan administrative expenses.

Note 1 – Description of the Plan (Continued)

Investment Options
Participants may direct contributions in a variety of investment choices as more fully described in the Plan agreement. Participants may change their investments daily.

Participant Loans
Participants may borrow from their fund accounts up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through payroll deductions. Current interest rates on outstanding loans range from 5.25% to 10.25%.

Payment of Benefits
On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts
These accounts will be applied to Plan administrative expenses. Administrative expenses were reduced by $5,961 and $3,865 in 2009 and 2008, respectively, from forfeited non-vested accounts. There were no forfeited non-vested accounts at December 31, 2009 and 2008.

Administrative Expenses
Administrative expenses of the Plan in excess of available forfeitures are paid by the Company, as provided in the Plan agreement.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions used.

Investment Valuation and Income Recognition

The Plan's investments in shares of registered investment companies are stated at fair value. These investments are valued at quoted market prices which represent the net asset value of shares held by the plan at year end. Self directed brokerage accounts are at fair value, using the fair value of the mutual funds, stocks and bonds that the self directed brokerage account invests in, which are publically quoted. Participant loans are valued at face value which approximates fair value.

Shares held in Common / collective trusts consist primarily of fully benefit-responsive investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Payment of Benefits

Benefit payments to participants are recorded when paid. No amounts were allocated to accounts of persons who have elected to withdraw from the Plan but were not yet paid as of December 31, 2009 and 2008.

Note 3 – Information Certified by Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

Net appreciation in fair value of investments:	
Shares of registered investments companies	$ 4,135,881
Common / collective trusts	155,117
Self directed brokerage account	280,882
Total	$ 4,571,880

Note 5 – Tax Status

The Internal Revenue Service ruled on May 23, 2008 that the Non-Standardized Prototype for Profit-Sharing Plan (the prototype Plan of The Trust Company upon which the Plan is based) qualifies under Section 401(a) of the Internal Revenue Code ("IRC") and the related trust is, therefore, not subject to tax under present income tax law. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account.

Note 7 – Related Party Transactions

Certain Plan investments are shares of a common / collective trust fund and registered investment companies managed by Charles Schwab Trust Company. Charles Schwab Trust Company is the Trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The participant loans are also party-in-interest transactions. Fees paid by the Plan for investment management services amounted to $9,127 and $8,694 for the years ended December 31, 2009 and 2008, respectively, and were included as a reduction of the return on each fund.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits and changes in net assets available for benefits per the financial statements as of December 31, 2009 to the Form 5500:

Net assets available for benefits per the financial statements	$ 28,512,988
Add: 2009 adjustment from fair value to contract value for fully benefit-responsive investment contracts	22,885
Net assets available for benefits per Schedule H to the Form 5500	$ 28,535,873

Changes in net assets available for benefits per the financial statements	$ 2,118,399
Add 2008: Adjustment from fair value to contract value for fully benefit-responsive investment contracts	168,559
Add: 2008 Contributions receivable	53,262
Add: 2008 Participant loan interest receivable	1,845
Less: 2008 Excess contributions	(10,900)
Add: 2009 Adjustment from fair value to contract value for fully benefit-responsive investment contracts	22,885
Rounding	(1)
Changes in net assets available for benefits per Schedule H to the Form 5500	$ 2,354,049

Note 10 – Fair Value Measurements

Financial Accounting Standards Board Statement No. 157, Fair Value Measurements (FASB Statement No.157), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 10 – Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Registered investment companies: Valued at the net asset value ('NAV') of shares held by the Plan at year end.

Common / collective trusts: Valued using the fair values of the mutual funds, stocks and bonds that the Common / collective trust invests in, which are publically quoted (level 1) inputs. The Common / collective trust also is valued using the fair value of the guaranteed investment contracts that the trust invests in, which are not publically quoted (level 2) inputs. The Common / collective trusts are not publically quoted.

Self-directed brokerage accounts: Valued using the fair values of the mutual funds, stocks and bonds that the self-directed brokerage account invests in, which are publically quoted (level 1) inputs. The self-directed brokerage accounts are not publically quoted.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:
