## Note 1. Plan Description

The following description of Curbell, Inc. Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a Trusteed Profit Sharing 401(k) Salary Deferred Thrift Plan as permitted under Section 401(k) of the Internal Revenue Code. The Plan is funded by employer and participant contributions and covers substantially all employees of Curbell, Inc., Curbell Electronics, Inc., and Curbell Plastics, Inc. (collectively the Company) after one year of service and after they have attained the age of twenty-one years. This Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Participants may elect to contribute a portion of their compensation to the Plan from 1% up to the maximum amount which will not cause the Plan to violate certain tests or exceed the maximum amount allowable as a deduction to the employer under Section 404 of the Internal Revenue Code. The employer contributes 50% of the participant's contribution. This employer matching contribution is limited to the first 6% of the participant's compensation.

The Board of Directors can determine an amount to be contributed on a discretionary basis to the profit sharing portion of the Plan. For each of the years ended December 31, 2009 and 2008, there was no discretionary profit sharing contribution to the Plan.

Participants' accounts:

Each participant's account is credited with the participant's contributions and allocations of a) the Company's contributions, b) the Plan's earnings, and c) forfeitures and charged with an amount for administrative expenses. Allocations are based on participant compensation levels or account balances, as defined.

Vesting:

Participants are immediately vested in their voluntary contributions and employer matching contributions plus actual earnings thereon. Vesting in the discretionary employer contribution portion of their accounts is based on years of continuous service. A participant is 100% vested, on a graduating basis, after six years of credited service.

A participant also becomes 100% vested if the Plan is terminated, the participant reaches age 65 while employed, or the participant retires, dies, or becomes disabled.

Payment of benefits:

Benefits are payable upon death, disability, retirement or termination of employment. A participant may elect to receive either a lump-sum amount or annuity equal to the value of his or her account. All or part of salary deferral contributions may be withdrawn if financial hardship exists.

**Note 1. Plan Description (Continued)**

Forfeited accounts:

Forfeitures of contributions not vested in participant accounts because of terminations are allocated to all active participants in the Plan on the last day of the Plan year. These amounts for the years ended December 31, 2009 and 2008 totaled $8,459 and $7,541, respectively.

Administrative costs:

Administrative costs are paid by the Plan and the Plan Sponsor. The administration of the Plan is the responsibility of the Plan Sponsor and The Newport Group.

**Note 2. Significant Accounting Policies**

Basis of accounting:

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

**Note 2. Significant Accounting Policies (Continued)**

Payment of benefits:

Benefits are recorded when paid.

Participant loans:

Participant loans are valued at cost, which approximates fair value.

Participants may borrow up to one-half of their vested account balance with a minimum borrowing amount of $1,000 and a maximum of $50,000. Loans must be repaid within a five-year period, unless the loan is used for the purchase of the participant's principal residence. The participant loans include all participant loan activity including loan withdrawals, repayments and interest earned on loaned amounts. The participant notes are secured by the participant's vested account balance and bear interest at rates ranging from 4.25% to 9.25%. Principal and interest is paid ratably through bi-weekly payroll deductions.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Subsequent events:

Subsequent events have been evaluated through September 22, 2010, which is the date the financial statements were available to be issued.

**Note 3. Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

**Note 4. Investments**

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Reliance Trust Company (Reliance), as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

**Note 4. Investments (Continued)**

**Note 5. Fair Value Measurements**

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification, establishes a framework for measuring fair value, establishes a fair value hierarchy based on inputs used to measure fair value, and enhances disclosure requirements for fair value measurements.

The valuation techniques required by professional accounting standards are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect internal market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1 – Quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 – Significant inputs to the valuation model are unobservable.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2009 and 2008.

Money market funds are valued at fair value representing the closing price reported on the active market on which the individual security is traded.

Investments of registered investment companies include mutual funds that are reported at fair value based on quoted market prices of the funds, which represent the net asset value of the shares held by the Plan at year-end.

The fair value of the common/collective trust funds is reported at approximate fair value based on the per unit value determined and reported by Union Bond and Trust Company, by reference to the fair value of the underlying assets of the fund.

The fair value of participant loans, which approximates cost, is determined by considering the loan interest rates in effect as compared to market rates and the credit worthiness of the borrower.

**Note 5. Fair Value Measurements (Continued)**

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2009 and 2008:

| | 2009 | | | |

**Note 6. Tax Status**

The Plan is exempt from Federal income taxes under Section 401(a) of the Internal Revenue Code (IRC). The Internal Revenue Service has determined and informed the Company by a letter dated April 23, 2002, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

**Note 7. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
