POTTER HOLDINGS, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

1. DESCRIPTION OF PLAN

The following description of the Potter Holdings, Inc. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of the Company who have completed one year of service and age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Trustees are responsible for the oversight of the Plan.

Contributions

Each year, participants may contribute up to 100 percent of annual compensation, as defined in the Plan's document. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants had their deferral rate set at four percent through June 30, 2015. Effective July 1, 2015, automatically enrolled participants have their deferral rate set at five percent of eligible compensation and their contributions invested in designated balanced funds until changed by the participant. The Company may contribute both matching and profit sharing contributions to the Plan. The Company's contributions are discretionary and determined annually by the board of directors. For the year ended December 31, 2015, the Company elected not to make contributions to the Plan. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching contributions, as well as allocations of the Company's discretionary profit sharing contribution and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes Receivable from Participants

Effective April 1, 2015, the Plan was amended to increase the minimum loan amount participants may borrow from $500 to $1,000. Participants may borrow up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates of 3.25 to 3.50 percent, which is commensurate with local prevailing rates as determined by plan management. Principal and interest is paid ratably through weekly payroll deductions.

Life Insurance Provisions

The Plan allows participants to purchase term and universal life insurance policies on their behalf. Any life insurance purchased will be used to provide a death benefit for the participant's beneficiaries. Life insurance contracts are excluded from Plan assets. If a policy is purchased, the participant's account is reduced on a monthly basis by the amount of insurance premiums and credited with any policy dividends. Insurance premiums paid are included with benefit payments on the Statement of Changes in Net Assets Available for Benefits and total $426 as of December 31, 2015.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. Effective July 1, 2015, the Plan was amended to allow automatic lump-sum distributions for participants with a vested interest less than $5,000. Previously, automatic lump-sum distributions were made for participants with a vested interest less than $1,000.

Forfeited Accounts

As of December 31, 2015 and 2014, forfeited non-vested accounts total $47,673 and $6,050, respectively. These accounts may be used to pay administrative expenses or to reduce employer discretionary contributions. During 2015, the Company elected not to make any discretionary contributions to the Plan; therefore, no forfeitures were allocated to participants. Also in 2015, forfeited non-vested accounts were used to pay $306 of plan administrative expenses.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the

net asset value ("NAV") practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate NAV per share are limited to those investments for which the entity has elected to estimate the fair value using the NAV practical expedient. The ASU is effective for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Plan management has elected to adopt ASU 2015-07 in the current year.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I of the ASU eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Part II of the ASU eliminates the requirement to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. Parts I and II are to be applied retrospectively. Plan management has elected to adopt Parts I and II of the ASU in the current year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and plan management deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain administrative expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are directly paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in Plan expenses. Investment related expenses are included in both net depreciation, fair value of investments, and administrative expenses.

Reclassifications

Certain reclassifications have been made to the 2014 financial statement presentation to correspond to the current year's format. Total net assets available for benefits are unchanged due to these reclassifications.

Concentrations

The following presents investments that represent ten percent or more of the Plan's net assets available for benefits as of December 31, 2015 and 2014:

	2015	2014
T. Rowe Price 2045 Retirement Fund	$ 2,265,772	**
T. Rowe Price 2035 Retirement Fund	$ 1,998,840	**
Guaranteed Interest Account, contract value	$ 1,526,126	$ 790,579
Dow Jones Target 2045 IndexSM	**	$ 2,157,753
Dow Jones Target 2035 IndexSM	**	$ 2,010,012

** Value does not represent ten percent or more of the Plan's net assets available for benefits as of the respective date.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, plan management has evaluated subsequent events through October 17, 2016, the date the financial statements were available to be issued and determined there were no other items to disclose.

3. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIANS

Plan management has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The custodians have certified that the following data included in the accompanying financial statements and supplemental information is complete and accurate as of December 31, 2015 and 2014, and for the year ended December 31, 2015:

	2015	2014
Investments at fair value	$ 7,021,110	$ 7,034,548
Investments at contract value	$ 1,526,126	$ 1,244,013
Notes receivable from participants	$ 950,148	$ 718,828
Net depreciation in fair value of investments	$ 181,023	
Interest income	$ 40,913	
Interest income on notes receivable from participants	$ 25,465	

4. FAIR VALUE MEASUREMENTS

Following is a description of the valuation methodologies used for assets measured at fair value using the net asset value per share practical expedient. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Pooled separate accounts: Calculated based on the observable NAV of the underlying investment. The NAV is used as a practical expedient to estimate fair value.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015 and 2014, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the plan.

	Fair Value as of December 31, 2015	Fair Value as of December 31, 2014	Unfunded Commitmen	Redemptio n	Redemption Notice Period
Pooled separate accounts	$ 7,021,110	$ 7,034,548	$ -	Daily	Daily

5. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan participates in a traditional benefit-responsive group annuity contract, the Guaranteed Interest Account ("GIA"), with Massachusetts Mutual Life Insurance Company ("Mass Mutual"). Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Mass Mutual Retirement Services ("MMRS"), a division of Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract as of December 31, 2015 and 2014, totals $1,526,126 and $1,244,013, respectively. The crediting interest rate is based on a formula agreed upon with the issuer and is established for a six-month period. At the expiration of each period, a new credit rating is declared.

Certain events limit the ability of the Plan or the Plan's participants to transact at contract value with the issuer. Such events include but may not be limited to the following: (1) temporary absence, (2) change in position or other occurrence qualifying as a temporary break in service under the plan, (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer, (4) cessation of an employment relationship resulting in reorganization, merger, layoff or the sale or discontinuance or all or part of the Company's business, (5) removal from the Plan of one or more groups or classifications of participants, (6) partial or complete plan termination, (7) plan disqualification.

Plan management believes that any events that would limit the Plan or the Plan's participant's ability to transact at contract value with the issuer are not probable of occurring.

The GIA does not permit the insurance company to terminate the contract prior to the scheduled maturity date.

6. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by MMRS and Mass Mutual. MMRS is a custodian and record-keeper as defined by the plan document and, therefore, these transactions qualify as party-in-interest transactions. As noted previously, Mass Mutual is the parent of MMRS and, therefore these transactions also qualify as party-in-interest transactions. Fees paid by the Plan for these investment management, custodial, and recordkeeping services are included in both administrative expenses and in net depreciation in fair value of investments.

Certain plan investments are held by State Street Bank and Trust Company ("State Street"). State Street is a custodian as defined by the plan documents and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for these custodial services are included in both administrative expenses and in net depreciation in fair value of investments.

Stricker Benefits Group ("Stricker") provides administrative services and investment brokerage services to the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees and commissions for these services are paid by the Company.

7. INACTIVE PARTICIPANTS WITH ACCOUNT BALANCES

As of December 31, 2015 and 2014, the value of the accounts held by participants who have separated from employment with the Company and who have decided to continue to invest in the Plan total, $595,676 and $900,218, respectively. For the year ended December 31, 2015, there were no distributions requested but not paid to participants who have elected to withdraw from the Plan.

8. TAX STATUS

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, plan management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability at the company level if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing jurisdictions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their employer contributions.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
