Part I Asset and Liability Statement

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Empyrean Benefit Solutions, Inc. 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by John Hancock Life Insurance Company (U.S.A.), the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2015 and 2014 and for the year ended December 31, 2015, that the information provided to the Plan Administrator by the custodian is complete and accurate to the best of its knowledge.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedule
The supplemental schedule, Schedule H – Line 4i, Schedule of Assets (Held at End of Year) as of December 31, 2015, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of the Plan

The following description of the Empyrean Benefit Solutions, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and eligibility: The Plan is a defined contribution plan covering employees of Empyrean Benefit Solutions, Inc. (the Company). All non-excluded employees of the Company are eligible to participate in the Plan after attainment of age 18 and completion of 30 days of service, and may enroll immediately after meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the applicable current Internal Revenue Code provisions.

Contributions and investment options: Each year, participants may contribute up to the lesser of 90% of pretax annual compensation, as defined in the Plan agreement, or the maximum contribution allowed by federal law. Participants may also elect to contribute up to 100% of any irregular pay (e.g. bonuses), limited by the maximum contribution allowed by federal law. Catch-up contributions are allowed by the Plan as allowed by federal law. Participants may also contribute amounts representing distributions from other qualified retirement plans.

The Company makes safe harbor matching employer contributions to the Plan each pay period on behalf of all eligible participants in an amount equal to 100% of participant's contributions that do not exceed 3% of a participant's compensation and 50% of a participant's contributions between 3% and 5% of their compensation. In addition, the Company may also make discretionary matching contributions to the Plan which are allocated based on compensation. No discretionary matching contributions were made during the year ended December 31, 2015.

Participants direct the investment of their contributions and employer contributions into various investment options offered by the Plan. Participants may currently invest their contributions into a variety of pooled separate accounts and a common/collective investment trust. Participants may change their investment options daily.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of: (a) the Company's safe harbor matching contributions and discretionary matching contributions and (b) Plan earnings (losses), and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are always 100% vested in their salary deferrals including catch-up contributions, rollover contributions, and safe harbor matching employer contributions plus actual earnings or losses thereon. Vesting for non-safe harbor employer contributions is based on years of service according to a graded vesting scale, with participants becoming 100% vested after three years of service.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of half of their vested interest in the Plan or $50,000, reduced by the highest outstanding note receivable balance during the one-year period ending on the day before the new note receivable is made. Terms range from one to five years; however, repayments of notes receivable for the purchase of a primary residence may exceed five years and are due within a reasonable time. The notes receivable are secured by the balance in the participant's account and bear interest at a rate determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions. The notes receivable outstanding at December 31, 2015 are due through August 2035, with interest rates of 5.25%.

Note 1. Description of the Plan (Continued)

Payment of benefits: Upon termination of service due to termination of employment, death, disability, or normal retirement, a participant is entitled to receive the vested percentage of their account balance. Participants may elect to receive a distribution in the form of a single lump-sum payment. Participants who are required to receive minimum required distributions may receive their distributions in the form of partial withdrawals or installments. If the participants vested balance is less than $5,000, benefits shall be distributed to the participant through a lump-sum distribution, or, if no election has been made by the participant, through a direct rollover into an Individual Retirement Account (IRA).

Participants may receive an in-service distribution from the Plan prior to termination provided they have attained age 59½. In addition, hardship distributions may be made to satisfy certain immediate and heavy financial needs a participant may have, subject to certain limitations as defined in the Plan agreement.

Administrative expenses: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Plan.

Forfeited accounts: Forfeited balances of terminated participants' non-vested accounts are used to reduce future employer contributions or to pay plan expenses. At December 31, 2015 and 2014, forfeitures available to reduce future employer contributions totaled approximately $3,000 and $2,600, respectively. During the year ended December 31, 2015, forfeitures used to reduce employer contributions totaled approximately $100.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are treated as distributions based upon the terms of the Plan agreement.

Payment of benefits: Benefits are recorded when paid.

Note 2. Summary of Significant Accounting Policies (Continued)

Subsequent events: The Plan Administrator has evaluated subsequent events through October 17, 2016, the date the financial statements were available to be issued. Through that date, there were no events requiring recognition or disclosure.

Note 3. Information Certified and Provided by John Hancock Life Insurance Company (U.S.A)

The following is a summary of the plan's asset and income information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by the custodian, John Hancock Life Insurance Company (U.S.A.), and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets and income, is complete and accurate to the best of its knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2015	2014
Investments at fair value:		
Pooled separate accounts	$ 8,832,693	$ 7,119,277
Common/collective investment trust	225,780	144,161
	$ 9,058,473	$ 7,263,438
Notes receivable from participants	$ 118,332	$ 113,249

John Hancock Life Insurance Company (U.S.A.) also certified to the completeness and accuracy of $76,079 of net depreciation in fair value of investments and $5,517 of interest income on notes receivable from participants for the year ended December 31, 2015.

Note 4. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the topic are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 compared to December 31, 2014.

- **Pooled separate accounts:** Valued at net asset value (NAV) of units held by the Plan at year end as a practical expedient. The NAV of these accounts is based on the market value of its underlying investments divided by the number of units outstanding.

- **Common/collective investment trust:** The common/collective investment trust is made up of a stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the NAV of units of the bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
2015:				
Total assets in the fair value hierarchy	$ -	$ -	$ -	$ -
Pooled separate accounts measured at NAV (i)	8,832,693	-	8,832,693	-
Common/collective investment trust measured at NAV (i)	225,780	-	225,780	-
Investments at fair value	$ 9,058,473	$ -	$ 9,058,473	$ -
2014:				
Total assets in the fair value hierarchy	$ -	$ -	$ -	$ -
Pooled separate accounts measured at NAV (i)	7,119,277	-	7,119,277	-
Common/collective investment trust measured at NAV (i)	144,161	-	144,161	-
Investments at fair value	$ 7,263,438	$ -	$ 7,263,438	$ -

(i) In accordance with ASC 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the items presented in the statement of net assets available for benefits.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

During the year ended December 31, 2015, the Plan did not make any transfers between Level 1, 2, or 3 assets and liabilities.

Note 4. Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2015 and 2014:

	Fair Value		Unfunded	Redemption	Redemption
	2015	2014	Commitment	Frequency	Notice Period
Pooled separate accounts:

	$ 9,058,473	$ 7,263,438			

(a) This asset class is generally comprised of various stocks, bonds, cash equivalents that automatically reduces its risk level as the investor reaches the target date.

(b) This category invests the majority of assets in common stocks of companies that compose the S&P 500 Index. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30 day period has expired. New contributions are allowed during this time period.

(c) The pooled separate accounts in this category primarily invest in equity securities of U.S. companies with small to mid-size market capitalization. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30 day period has expired. New contributions are allowed during this time period.

(d) This asset class is generally comprised of investment options that invest in stocks or shares of ownership in a variety of non U.S. companies.

(e) This asset class is generally comprised of investment options that invest in bonds or debt of a company or government entity (including U.S. and non-U.S.). It may also include real estate investment options that directly own property.

(f) This asset class is generally comprised of investment options that invest in stocks or shares of ownership in a variety of U.S. companies that are growth-oriented. Growth is defined based on high price/book and price/cash-flow ratios.

(g) This asset class is generally comprised of investment options that invest in stocks or shares of ownership in a particular industry or sector of the economy (including U.S. and non-U.S.).

(h) This asset class is generally comprised of investment options that invest in stocks or shares of ownership in a variety of U.S. companies that are value-oriented. Value is defined based on low price/book and price/cash-flow ratios.

Note 5. Party-In-Interest Transactions

Certain Plan investments are shares of pooled separate accounts and a common/collective investment trust issued and managed by John Hancock Life Insurance Company (U.S.A.), the custodian of the Plan, therefore, these transactions qualify as party-in-interest transactions. Administrative fees paid by the Plan for management services amounted to $11,832. Notes receivable from participants also qualify as party-in-interest transactions.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

Note 7. Tax Status

The Plan has adopted a non-standardized prototype plan which has received a letter from the IRS, dated July 1, 2009, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator and trustees believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts and balances and the amounts reported in the statement of net assets available for benefits.
