Independent Auditor's Report

To the Trustees
Parkhill, Smith & Cooper, Inc.
Employees' Retirement Plan and Trust
Lubbock, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of Parkhill, Smith & Cooper, Inc. Employees' Retirement Plan and Trust (the "Plan"), which comprise the statement of net assets available for benefits (modified cash basis) as of September 30, 2015, the related statement of changes in net assets available for benefits (modified cash basis) for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the 2015 Financial Statements

Plan management is responsible for the preparation and fair presentation of the 2015 financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Plan management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility on the 2015 Financial Statements

Our responsibility is to express an opinion on the 2015 financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2015 financial statements.

Opinion on the 2015 Financial Statements

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan (modified cash basis) as of September 30, 2015, and the changes in its net assets available for benefits (modified cash basis) for the year then ended in accordance with the modified cash basis of accounting described in Note 2.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements and supplemental schedule are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year), referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Matter – 2014 Financial Statements

The 2014 financial statements of the Plan, which comprise the statement of net assets available for benefits as of September 30, 2014 (modified cash basis), and the related statement of changes in net assets available for benefits for the year then ended (modified cash basis), were audited by predecessor auditors whose report dated June 16, 2015, expressed an unmodified opinion on those statements.

Independent Auditor's Report

To the Trustees
Parkhill, Smith & Cooper, Inc.
Employees' Retirement Plan and Trust
Lubbock, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of Parkhill, Smith & Cooper, Inc. Employees' Retirement Plan and Trust (the "Plan"), which comprise the statement of net assets available for benefits (modified cash basis) as of September 30, 2015, the related statement of changes in net assets available for benefits (modified cash basis) for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the 2015 Financial Statements

Plan management is responsible for the preparation and fair presentation of the 2015 financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Plan management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility on the 2015 Financial Statements

Our responsibility is to express an opinion on the 2015 financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2015 financial statements.

Opinion on the 2015 Financial Statements

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan (modified cash basis) as of September 30, 2015, and the changes in its net assets available for benefits (modified cash basis) for the year then ended in accordance with the modified cash basis of accounting described in Note 2.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements and supplemental schedule are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year), referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Matter – 2014 Financial Statements

The 2014 financial statements of the Plan, which comprise the statement of net assets available for benefits as of September 30, 2014 (modified cash basis), and the related statement of changes in net assets available for benefits for the year then ended (modified cash basis), were audited by predecessor auditors whose report dated June 16, 2015, expressed an unmodified opinion on those statements.

Note 1: Plan Description

This description of the Parkhill, Smith & Cooper, Inc. Employees' Retirement Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan document for a complete description of the provisions of the Plan.

General. The Plan is a defined contribution retirement plan established by Parkhill, Smith & Cooper, Inc. (the "Employer") to supplement the employees' income upon retirement. Employees, including part-time employees become eligible for participation on the last day of the plan year (September 30) in the year they are hired. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount or in annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Benefits are recorded when paid.

Vesting. Participants are fully vested in the Employer contributions made on their behalf at all times.

Contributions. Each plan year, the Employer contributes to the Plan an amount determined by the Employer's board of directors.

Participant Accounts. Each participant's account is credited with their proportionate share of (a) the Employer's contribution, (b) Plan earnings, and (c) realized and unrealized gains or losses from investments and is charged with an allocation of administrative expenses. The Employer contribution is allocated based upon each participant's proportionate share of total qualifying compensation. Earnings are allocated quarterly based upon the proportionate share of account balances as of the beginning of each respective plan quarter. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans. Participant loans are not permitted by the Plan.

Tax Status. The IRS has determined and informed the Employer by a letter dated March 31, 2014, that the Agreement is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination latter, the Plan administrator and trustee believe that the Plan is designed and is currently being operated in compliance with the applicable IRC requirements.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the applicable authorities. There are currently no audits for any tax periods in progress. Generally, the Plan's tax returns are subject to examination for three years after they are filed.

Plan Termination. Although it has no intent to do so, the Sponsor has the right under the Agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, participants would automatically become fully vested.

Note 2: Summary of Significant Accounting Policies

The Plan's financial statements are prepared in accordance with the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles, including specialized industry practices as specified in the American Institute of Certified Public Accountants' audit and accounting guide titled *Audits of Employee Benefit Plans*.

Note 2: Summary of Significant Accounting Policies (continued)

Use of Estimates. Financial statements prepared in conformity with the modified cash basis of accounting require the trustees to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Cash and Cash Equivalents. Cash and cash equivalents in the accompanying financial statements include cash on hand, all depository accounts with financial institutions which are not subject to withdrawal restrictions or penalties, and all highly liquid investments with original maturities of three months or less.

Investment Values. Investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments, as presented in the statements of changes in net assets, consists of both realized gains or losses and unrealized appreciation (depreciation) on investments. Investment income is recorded when received and plan expenses are recorded when paid.

Administrative Expenses. Adminstrative expenses include but are not limited to contract administration fees, legal fees and investment advisory fees. For the years ended September 30, 2015 and 2014, administrative expenses totaled $134,089 and $133,336, respectively. The Employer bears all trustee cost of administering the plan.

Prohibited Transactions. A "party-in-interest" is a fiduciary or employee of the Plan, any person who provides services to the Plan, the Sponsor or an employee association whose members are covered by the Plan, a person who owns 50 percent or more of the Sponsor or such employee association or relatives of such person just listed. Under ERISA, a fiduciary is prohibited from causing the Plan to engage in the following transactions with a party-in-interest, with certain conditional exemptions provided by ERISA:

- A sale, exchange or lease of property;
- A loan or other extension of credit;
- The furnishing of goods, services or facilities;
- A transfer of assets to a party-in-interest for the use or benefit of a party-in-interest; or
- An acquisition of employer securities or real property.

A fiduciary is also generally prohibited from using the Plan's assets for his or her own interest or account, acting in any trust transactions on behalf of a party whose interests are adverse to those of the Plan or its participants, and receiving consideration for his or her own account from a party dealing with the Plan in connection with a transaction involving the Plan's assets.

The Plan did not engage in any prohibited transactions in the years ended September 30, 2015 and 2014.

Recent Accounting Pronouncements. In 2015, FASB issued ASU 2015-12 as part of its simplification initiative. The amendments (i) require fully benefit-responsive investment contracts to be measured, presented and disclosed only at contract value, not fair value; (ii) simplify the investment disclosure requirements; and (iii) provide a measurement date practical expedient for employee benefit plans. The new standard takes effect in 2016 and the Plan has elected to early implement part (ii) of this amendment which eliminates the requirements to disclose: (a) individual investments that represent 5% or more of net assets available for benefits; (b) the net appreciation or depreciation for investments by general type; and (c) investment information disaggregated based on nature, characteristics and risks under Topic 820.

Note 3: Separated Participants

As of September 30, 2015, thirty-seven participants had withdrawn from or ceased to qualify for participation in the plan but had not been approved for or applied for payment. Their respective allocated amounts total $5,443,265.

Note 4: Investments

Components of the Plan's investments which are held in broker-administered trust accounts are presented below.

	2015	2014
Common stock	$ 163,721	$ 265,973
Equity securities	707,066	757,867
Exchange traded funds	10,829,343	10,675,007
Mutual funds	21,725,257	20,758,971
Certificates of deposit	–	51,638
Investments, at fair value	$ 33,425,387	$ 32,509,456

During 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) (depreciated) appreciated in value by $ (2,497,404) and $1,455,234, respectively.

Note 5: Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits.

	Fair Value	Fair Value Measurements Using: Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
September 30, 2015

Certificates of deposit	51,638	–	51,638
Total	$ 32,509,456	$ 31,699,951	$ 809,505

Note 5: Fair Value Measurements (continued)

FASB ASC 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted market prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Level 1 Fair Value Measurements

The fair values of common stock, exchange traded funds and mutual funds are based on quoted net asset values of the shares held by the Plan at year end.

Level 2 Fair Value Measurements

The fair value of equity securities are valued at the latest published investment summary provided by the custodian. The fair values of certificates of deposit are based on amortized cost or original investment cost plus accrued interest.

Note 6: Concentrations of Credit Risk

The plan trustees have contracted with registered investment managers for the investment of plan assets. Plan management and the plan trustees periodically evaluate the financial soundness and investment effectiveness of the managers and believe that there are no concentrations that pose a risk to the plan.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8: Reclassifications

Certain reclassifications have been made to the prior year's financial statements to conform to the current year's presentation. These reclassifications had no effect on the net increase in net assets available for benefits.

Note 9: Reconciliation of Net Assets And Changes in Net Assets to Form 5500

The Form 5500 is a joint-agency form, developed by the IRS, the U.S. Department of Labor, and the Pension Benefit Guaranty Corporation, which may be used to satisfy the annual reporting requirements of the IRC and Titles I and IV of ERISA. The Plan is required to file a Form 5500 annually and enclose audited financial statements. There were no reconciling items between the Form 5500 and the accompanying financial statements for the years ended September 30, 2015 and 2014.

Note 10: Subsequent Events

Management has evaluated subsequent events through June 23, 2016, the date which the financial statements were available to be issued. No material subsequent events have occurred during this time which would require recognition in the financial statements or footnotes as of or for the year ended September 30, 2015.
