INDEPENDENT AUDITOR'S REPORT

To the Trustee and Plan Administrator
Human Kinetics, Inc. 401(k) Plan
Champaign, Illinois

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Human Kinetics, Inc. 401(k) Plan (Plan), which comprise the statements of net assets available for benefits as of April 30, 2016 and 2015 and the related statement of changes in net assets available for benefits for the year ended April 30, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that

the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of April 30, 2016 and 2015 and for the year ended April 30, 2016, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

HUMAN KINETICS, INC. 401(K) PLAN
Notes to the Financial Statements
April 30, 2016

1. Description of Plan

The following description of the Human Kinetics, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering employees of Human Kinetics, Inc. (Company), who have three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Restatement – The Plan was restated effective April 1, 2016. The following significant changes were made effective with the restatement:

- Participants are limited to only one partial withdrawal per plan year.
- Forfeitures are to be used in the plan year following the plan year in which the forfeiture occurs.
- The loan policy now specifies that Plan participants are permitted two outstanding loans at a time.

Contributions – Each year, participants may elect to defer a portion of their compensation, as defined by the Plan. Current employees may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a stable value collective investment trust fund as investment options for participants.

The Company has the option of making discretionary matching, profit sharing or other discretionary contributions to the Plan. The maximum contribution to the Plan in any year is determined by provisions in the Plan and the Internal Revenue Code (IRC) and Income Tax Regulations. The Company did not elect to make any contributions to the Plan for the year ended April 30, 2016.

Participant Accounts – Each participant's account is credited with the participant's contribution, if any, and allocations of (a) the Company's contribution, if any, (b) administrative expenses, and (c) plan earnings, net of investment fees. Allocations are based on participant earnings, account balances, or other participant events, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account plus earnings thereon is based on years of service. A participant is 100-percent vested after five years of credited service. In addition, a participant becomes 100-percent vested upon death or disability.

Notes Receivable from Participants – Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 (reduced by the excess, if any, of the participant's highest outstanding note balance during the one-year period ending on the day before the date on which such note is made over the participant's outstanding balance of notes on the date such note was made) or 50 percent of the participant's vested balance. Note terms generally range from one to five years and longer if for the purchase of a primary residence. The notes are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits – On termination of service a participant is entitled to receive a lump-sum amount equal to the participant's vested interest in his or her account. The lump-sum payment may be rolled over into another qualified plan or received as a direct payment. The Plan provides for an automatic lump-sum distribution of account balances of $5,000 or less. The Plan also allows for in-service withdrawals once a participant reaches age 59 ½, and financial hardship withdrawals of all or part of the participant's deferral contributions, if the participant can prove financial hardship and is unable to meet their financial needs another way.

Forfeited Accounts – Forfeited amounts are used to pay plan expenses and to reduce any employer contributions to be made for the plan year. At April 30, 2016 and 2015, forfeited non-vested accounts totaled $0 and $3,259, respectively.

2. Summary of Significant Accounting Policies

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Fully Benefit-Responsive Investment Contracts – In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II for the 2015 and 2016 Plan years. Accordingly, the accounting change has been retrospectively applied to the prior period presented as if the policy had

always been used. The change has no effect on net assets or the change in net assets for the periods presented, and only changes the presentation of these assets on the Statement of Net Assets Available for Benefits and relevant disclosure related to applicable assets.

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement: Disclosures for Investments in Certain Entities That Calculated Net Asset Value per Share (or Its Equivalent).* The update amends existing requirements to categorize investments for which fair value is measured using the net asset value per share practical expedient within the fair value hierarchy. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. Management has elected to adopt the provisions of this update for the 2015 and 2016 Plan years. Accordingly, the accounting change has been retrospectively applied to the prior period presented as if the policy had always been used. The change has no effect on net assets or the change in net assets for the periods presented, and only changes relevant fair value disclosures related to applicable assets.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, and custodians. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they incurred. No allowance for credit losses has been recorded as of April 30, 2016 or 2015. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Investment Fees – Certain fees are charged to the Plan for services provided to the Plan. When applicable, these fees and fees charged by mutual funds are netted with investment earnings.

Payment of Benefits – Benefits are recorded when paid for financial statement purposes.

Subsequent Events – The Plan has evaluated subsequent events through November 10, 2016, the date on which the financial statements were available to be issued.

3. Information Certified by the Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, no auditing procedures were performed on the following information certified by the custodian of the Plan, as complete and accurate, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule:

	2016	2015
Investments and Cash, at Fair Value	$ 11,564,017	$ 11,884,386
Net Appreciation (Depreciation) in Value of Investments	$ (483,345)	
Interest and Dividends	$ 187,854	

4. Fair Value Measurements

FASB ASC 820, which establishes a framework for measuring fair value under generally accepted accounting principles. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 Inputs to the valuation methodology are based on unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at April 30, 2016 other than those associated with the adoption of ASU 2015-12 and ASU 2015-07.

The following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual Funds: Shares of mutual funds are valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end. Fourteen of the Plan's investments are subject to excessive trading restrictions that prohibit certain purchases and redemptions of the investment within a specified timeframe, or of a certain dollar amount.

- Stable Value Collective Investment Trust Fund (Fund): A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value under *ASU 2010-06, Topic 820: Fair Value Measurements and Disclosures (ASC 820)*. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily.

  The Fund's strategy focuses on a stable value methodology through its sole investment in a Met Managed GIC. In a Met Managed GIC, the assets are invested in a MetLife separate account. MetLife guarantees the principal and accrued interest, based on credited interest rates (which reset quarterly), for participant-initiated withdrawals as long as the contract remains active. The minimum credited rate is zero percent. There are no restrictions applicable to the Fund unless the Plan terminates, discontinues its use of the Fund or other triggering events occur, in which case, market value adjustments may apply.

  The Fund qualifies for the net asset value practical expedient under FASB ASC 820. Therefore, the fair value of the Fund is estimated using net asset value per share, which is calculated daily based on the contract value of the fund. In accordance with management's early adoption of ASU 2015-07, the Fund has not been classified in the Fair Value hierarchy. The fair value amounts presented in the following tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits as instructed by the ASU.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of April 30, 2016:

	Level 1	Level 2	Level 3	Total
Assets Included in the Fair Value Hierarchy:				
Mutual Funds	$ 10,437,063	$ -	$ -	$ 10,437,063
Assets Measured at Net Asset Value per FASB ASC 820-10 Practical Expedient:				
Common Collective Trust - Reliance Trust Stable Value Fund Metlife 25157 Cl 35				1,126,821
Investments at Fair Value				$ 11,563,884

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of April 30, 2015:

	Level 1	Level 2	Level 3	Total
Assets Included in the Fair Value Hierarchy:				
Mutual Funds	$ 11,062,472	$ -	$ -	$ 11,062,472
Assets Measured at Net Asset Value per FASB ASC 820-10 Practical Expedient:				
Common Collective Trust - Reliance Trust Stable Value Fund Metlife 25157 Cl 35				818,522
Investments at Fair Value				$ 11,880,994

There are no participant redemption restrictions, unfunded commitments, or required redemption notice periods for the investment measured at net asset value per share using the practical expedient as of April 30, 2016 and 2015. However, certain market value adjustments may apply at the Plan level if the Plan liquidates this investment.

6. Administrative Expenses and Party-In-Interest Transactions

A transaction with a plan service provider or a participant of the Plan qualifies as a party-in-interest transaction. Service provider fees, either directly or indirectly, are paid to the investment custodian, third party administrator, investment advisor, and record keeper. Of these fees, $17,294 is included in administrative expenses on Exhibit B. Other investment fees are netted with investment earnings. Expenses incurred in the administration of the Plan were also paid by the plan sponsor.

Additionally, certain plan investments are both held and managed by the custodian.

Notes receivable from participants are considered to be both party-in-interest and a related-party transaction.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their employer contributions, if any.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits and the change in net assets available for benefits to Schedule H of Form 5500:

	2016	2015
Net Assets Available for Benefits Per the Financial Statements	$ 11,595,264	$ 11,957,484
Adjustment from Contract Value to Fair Value for Fully Benefit-Responsive Investment Contracts	-	20,381
Net Assets Available for Benefits Per the Form 5500	$ 11,595,264	$ 11,977,865

Net Increase in Net Assets per the Financial Statements	$ (362,220)
April 30, 2015 Adjustment from Contract Value to Fair Value for Fully Benefit-Responsive Investment Contracts	(20,381)
Net Increase in Net Assets Per Form 5500	$ (382,601)

9. Tax Status

On March 31, 2014, the Internal Revenue Service stated that the prototype adopted and restated by the Plan, as then designed, qualifies under Section 401(a) of the IRC. The Plan has been amended since receiving these determination letters. However, the plan administrator and prototype provider believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

As of April 30, 2016, the Plan's federal tax filings for fiscal years 2013 through 2016 remain open for review by tax authorities.

10. Risks and Uncertainties

Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
