1. Description of Plan

The following description of the ***Coastal Pacific Food Distributors*** (Company) ***401(k) Profit Sharing Plan*** (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of the Company. Employees are immediately eligible to make 401(k) contributions. Employer contributions require six months of service and plan entry is on January 1st following or coinciding with completion of six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions

Each year, participants may contribute 2 to 75 percent of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. Company profit sharing and matching contributions are determined at the discretion of the Company's board of directors. Participants direct the investment of all contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) plan earnings, and charged with transaction fees related to participant loans and distributions and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service, as defined. A participant is 100 percent vested after five years of credited service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 to 9.25 percent, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Terminated participants whose vested balance exceeds $1,000 may elect to receive the value of the vested interest in his or her account as a lump sum distribution. On termination of service a participant whose vested account balance is $1,000 or less will be distributed in a lump sum amount equal to the value of the participants vested interest in his or her account.

Forfeitures

At December 31, 2009 and 2008, forfeited nonvested accounts totaled $18,194 and $28,234, respectively. These accounts will reduce future Company contributions or be used to pay administrative expenses. During 2009, $20,254 from forfeited nonvested accounts was used to pay administrative expenses.

2. Summary of Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income on participant loans is recorded when received. Other interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Certain expenses of maintaining the Plan are paid by the Company. Expenses relating to specific participant transactions (participant loans and distributions) are charged directly to the participant.

Subsequent Events

The Plan has evaluated subsequent events through September 28, 2010, the date the financial statements were available to be issued.

4. Information Certified by the Trustee

The plan administrator has elected the alternative method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the investment information certified by SunTrust Bank was not audited by the independent auditors except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule. The Plan's financial information which was certified by SunTrust Bank includes plan investments as of December 31, 2009 and 2008 of $8,732,016 and $6,227,245, respectively, and investment income for 2009 of $1,135,561.

5. Fair Value Measurements

Financial Accounting Standards Board Statement (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Collective trusts funds: Value is based on the fair value of the collective trust's underlying investments as based on information reported by the investment advisor using the financial statements of the collective trust at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December, 31, 2009 and 2008:

6. Related Party Transactions

Certain plan assets are invested in funds managed by SunTrust Bank or its affiliates. SunTrust Bank is the trustee as defined in the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to SunTrust Bank or its affiliates by the Plan for trustee and recordkeeping services were $22,222 for 2009. Participants paid $18,358 in fees for loans and distributions which reduced the amount paid to the participants. The investments also have internal expenses that compensate SunTrust Bank or its affiliates.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

8. Tax Status

The Plan operates under a prototype plan. The prototype plan sponsor has received a favorable opinion dated August 7, 2001, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the prototype plan has been amended since issuance of the opinion letter, the plan administrator and prototype sponsor believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan was restated effective January 1, 2010. The restated plan is a volume submitter plan that received a favorable opinion letter on March 31, 2008.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
