ARC EXCESS & SURPLUS, LLC 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

1. DESCRIPTION OF THE PLAN

The following brief description of the ARC Excess & Surplus, LLC 401(K) Plan (the "Plan") provides only general information regarding the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all fulltime employees of ARC Excess & Surplus, LLC and Affiliates (the "Company") who have three months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company is also the administrator of the Plan. As administrator, the Company has exclusive authority and responsibility for all the matters in connection with the operation and administration of the Plan. John Hancock Life Insurance Company (John Hancock) is the appointed custodian of the Plan and acts at the direction of the Plan Administrator.

Contributions

Participants may elect to contribute any percentage of their eligible compensation as defined in the Plan, subject to certain statutory limitations. Participants over the age of 50 can make catch-up contributions before the end of the plan year . Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans, including rollovers. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants.

Participant Accounts

Individual participant accounts are credited with applicable participant contributions, investment earnings or losses, and are charged with an allocation of administrative expenses. Allocations are based on the participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid through bi-weekly payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant (or their beneficiary) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or may rollover their distribution to an IRA or another qualified plan. Hardship distributions are also permitted.

1. DESCRIPTION OF THE PLAN (CONTINUED)

Transfer of Account Balances
A participant's account balance may be transferred among the Plan's investment options upon receipt of instructions from the participant. Account balances may be allocated among the Plan's investment options on a daily basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are held by John Hancock's guaranteed interest accounts and sub-accounts of separate accounts which invest solely in underlying mutual funds, exchange traded funds or collective investment trusts through a group annuity contract. Investments are stated at fair value. The value of the separate accounts is based on the value of the underlying mutual funds. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Guaranteed interest account contracts (which are not fully benefit responsive) are reported at fair value. At both December 31, 2016 and 2015, the fair values of the guaranteed interest accounts did not materially differ from their contract values.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Contributions
Participant contributions are recorded bi-weekly when the Company remits the payroll deductions for investment into the Plan.

Benefit Payments
Benefits are recorded when paid.

Administrative Expenses
Expenses incurred in the administration of the Plan are paid by the Company unless the Company directs that such expenses shall be paid by the Plan. Investment management and recordkeeping fees, if applicable, are paid by the Plan through revenue sharing as a reduction of investment income (net appreciation or depreciation) from the related investment fund.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent), which exempts investments measured using the net asset value practical expedient in Accounting Standards Codification 820, Fair Value Measurement, from categorization within the fair value hierarchy. ASU No. 2015-07 is effective retrospectively for all fiscal years beginning after December 15, 2015. The Plan adopted and Plan management has determined there is no impact from this pronouncement to its financial statements or disclosures.

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient ("ASU 2015-12"). Part I of the accounting standards update requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II of this update requires that investments (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation (depreciation) in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III of the update permits plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015. The Plan retrospectively adopted Part I and II of the standard. The amendments within Parts I and II require retrospective application; whereas, the amendments within Part III should be applied prospectively. The measurement date practical expedient provided by Part III of the standard is not applicable to the Plan as the Plan's year end coincides with the end of the reporting year in which investments are measured.

In February 2017, the FASB issued ASU 2017-06, Plan Accounting: Defined Benefit Pensions Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965): Employee Master Trust Reporting. The amendments in ASU 2017-06 clarify presentation requirements for a plan's interest in a master trust. The amendments also eliminate redundancy relating to 401(h) account disclosures. ASU 2017-06 is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. The amendments should be applied retroactively to each period for which financial statements are presented. Management is currently assessing the impact of adopting the provisions of the new standard.

During the year ended December 31, 2016, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by 1,102,124.

5. FAIR VALUE MEASUREMENTS (UNAUDITED)

The Plan accounts for financial instruments measured at fair value in accordance with accounting guidance for fair value measurements and disclosures which establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Valued at the net asset value ("NAV") of the units of the insurance company's separate accounts. The NAV is based on the fair value of the underlying mutual funds, which are valued at quoted market prices which represent the NAV of the shares held by the Plan at year-end. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed interest accounts: Valued at the net asset value ("NAV") of the units of the insurance company's guaranteed accounts. The NAV is based on the fair value of the underlying investments, which are valued at quoted market prices which represent the NAV of the investments held by the Plan at year-end. The investments held by the Plan are deemed to be actively traded.

There have been no changes in the methodologies used at December 31, 2016 and 2015.

6. RELATED PARTY TRANSACTIONS

John Hancock is the custodian of the Plan's investments and therefore, certain transactions qualify as party- in-interest transactions. Fees paid by the Plan for investment management services amounted to $60,910 for the year ended December 31, 2016.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to terminate the Plan, subject to the provisions of ERISA.

8. TAX STATUS

The Plan obtained its latest determination letter dated March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

9. RISKS AND UNCERTAINTIES

The Plan's investments are concentrated in funds that invest in various investment securities. Such securities are subject to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the statement of net assets available for benefits.

10. PROHIBITED TRANSACTIONS – PARTICIPANTS' CONTRIBUTIONS REMITTANCES

In accordance with the U.S. Department of Labor's Regulation, an employer is required to segregate participants' contributions from its general assets as soon as practical when amounts are contributed by participants or withheld from their wages for a pension benefit plan such as the Plan. There was one unintentional delay in the remittance of one participant's contribution withheld during the year ended December 31, 2015 of approximately $173. Subsequent to the year ended December 31, 2015,

11. PROHIBITED TRANSACTIONS – PARTICIPANTS CONTRIBUTION REMITTANCES (CONTINUED)

The Company has remitted the contribution and approximately $4 representing the earnings that the contributions would have earned if they had been deposited timely.
