NOTES TO FINANCIAL STATEMENTS
December 31, 2016

Note 1 Description of Plan

The following description of the OPM Services, Inc. Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan was established to provide retirement benefits for employees of Alliance Environmental Group, Inc. (the "Company") and OPM Services, Inc. its wholly-owned subsidiary. Established on January 1, 2001, the Plan is a defined contribution plan under the provision of Section 401(k) of the Internal Revenue Code ("IRC"). Employees become eligible to participate in the Plan following one year of continuous service and are 21 years or older, as defined in the plan agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees, who is made up of two key officers/shareholders of the Company is responsible for oversight of the Plan.

Contributions - Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan documents and subject to limitations by the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. Employer matching contributions, established as 20% of participant contributions, are allowed under the Plan. Additional employer profit sharing amounts may be contributed at the option of the Company's board of directors, which were deemed unwarranted.

Participant Accounts and Vesting - Each participant's account is credited with the participant's contribution, employer matching contributions and allocation of (a) the employer profit sharing contribution, (b) Plan earnings (losses), and (c) administrative expenses. Allocations are based on participant's earnings, account balances or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the employer contributions portion is based on the years of continuous service and a participant becomes 100% vested after 3 years of credited service.

Notes Receivable from Participants - Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested balances. Participant notes are carried at fair value and are generally repaid through payroll reductions. Interest is earned on loans at rates between 4.25 and 5.25%.

Note 1 Description of Plan (continued)

Payment of Benefits - On termination of service due to death, disability, retirement or other reasons a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or delay distribution subject to limitations of the IRC.

Forfeitures - The non-vested portions of participants' employer-derived account balances are treated as forfeitures. At December 31, 2016 and 2015, forfeited non-vested accounts totaled $3,247 and $272, respectively. Forfeited accounts are used either to reduce future employer contributions or to reduce administrative expenses relating to the maintenance of the Plan.

Note 2 Summary of Accounting Policies

Date of Management's Review - The Plan has evaluated subsequent events through August 31, 2017, the date the financial statements were available to be issued.

Basis of Accounting - The accompanying financial statements have been prepared on the accrual method of accounting and include only assets, liabilities and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP). As described below, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investments. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis, if applicable.

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP, requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document.

Note 2 Summary of Accounting Policies (continued)

Excess Contributions Payable - Amounts payable to participants for contributions in excess of amounts allowed under the IRC are recorded as a liability with a corresponding entry to corrective distributions. The Plan distributed the 2016 excess contributions to the applicable participants prior to March 15, 2017.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Footnote 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid. Any distribution to a participant who has a benefit which exceeds $1,000, shall require such participant's written (or in such other form as permitted by the Internal Revenue Service) consent if such distribution occurs prior to the time the benefit is "immediately distributable." A benefit is "immediately distributable" if any part of the benefit could be distributed to the participant (or surviving spouse) before the participant attains or would attain (or would have attained if not deceased) the later of the participant's normal retirement age or age 65.

Administrative Expenses - Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Note 3 Related Party Transactions

Certain Plan investments are shares of pooled separate accounts managed by John Hancock. John Hancock is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions under the Department of Labor's ("DOL") Rules and Regulations.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 4 Investments Certified by Custodian

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by John Hancock, the Plan custodian, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

The custodian has certified as to the completeness and accuracy of all investment balances and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2016 and 2015, all of the investment activity and interest income from notes receivable from participants reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2016, and all investment information in the supplemental schedule.

Note 5 Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

LEVEL 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

LEVEL 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note 5 Fair Value Measurements (continued)

LEVEL 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts – Valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV is a quoted price in an active market.

Guaranteed Interest Account – Valued at contract value of the underlying shares, which approximates fair value. Fair value is determined by discounting the related cash flow based on current yields. Because the participants transact at contract value, fair value is determined annually for financial statement purposes of the fund only. Were the Plan to initiate a full redemption of the account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, with the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 2,956,653	$	$	$ 2,956,653
Guaranteed interest account	311			311
Non-interest bearing cash	3,247			3,247
	$ 2,960,211	$	$	$ 2,960,211

The following table sets forth by level, with the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 2,587,961	$	$	$ 2,587,961
Guaranteed interest account	394			394
Non-interest bearing cash	272			272
	$ 2,588,627	$	$	$ 2,588,627

Note 6 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 7 Tax Status

The Company has adopted a Prototype 401(k) Plan and related trust. The Internal Revenue Service (IRS) based on a letter dated March 31, 2008, has determined that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax council believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Note 8 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note 9 Restatement

The Plan did not accrue excess contributions determined from a failed discrimination test as of December 31, 2015.

Note 10 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 and 2015, to Form 5500:
