The accompanying notes are an integral part of these financial statements.

NOTE A – DESCRIPTION OF PLAN

The following description of the Wylie Manufacturing, Inc. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may contribute up to the maximum percentage allowable not to exceed the limits of Code Sections 401(k) of pretax annual compensation, as defined in the Plan. Participants who have attained or are expected to attain age 50 before the close of the Plan year are eligible to make catch-up contributions. Participants may also roll over eligible amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers seventy-five mutual funds and one money market fund as investment options for participants. The Company matches one-half of participant's contributions up to 2% of base compensation. The matching Company contribution is invested directly in the same investments as each participant has selected for their contributions. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

Participant Loans – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits – On termination of service due to death, disability or retirement, a participant may elect and receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts – During the Plan's year period ended December 31, 2016, $386 were forfeited from non-vested accounts. Forfeitures are used to reduce future employer expenses or contributions as allowed by the Plan.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Shares of registered investment companies (mutual funds) are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid. Benefits distributions of $465,241 and $342,942 were paid for the Plan for the year ended December 31, 2016 and the year ended December 31, 2015, including payments of $952 made to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan for the current year. There were no unpaid benefits allocated to withdrawing participants at December 31, 2016 and December 31, 2015.

Plan Expenses

The Employer absorbs significant costs of the plan including plan administration and trustee fees, and audit costs. Costs absorbed during the current period totaled $17,833 .

Notes Receivable from Participants

ASU 2010-25, effective for all fiscal years ending after December 15, 2010, requires participant loans to be reclassified as notes receivable from participants, participant loans should be segregated from investments, and loans should be measured at their unpaid principal balance plus accrued interest.

All participant loans are secured by the participant's account balance and, therefore, an allowance for uncollectible loans is not necessary.

NOTE C – INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets.

	December 31 2016	December 31 2015
JH Thru 2040 Active Strategies	$ 631,056	$ 555,973
JH Thru 2030 Active Strategies	419,580	354,168

During the Plan's years ended December 31, 2016 and December 31, 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $ 322,186 and $ (67,322) respectively.

NOTE D—FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available to the Plan.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and December 31, 2015.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The following table sets forth, by level within the fair value hierarchy, the plan's assets at fair value as of December 31, 2016 and December 31, 2015.

		Fair Value Measurements at Reporting Date Using:
	Fair Value	**Quoted Prices in Active Markets for Identical Assets (Level 1)**
December 31, 2016		
Mutual Funds	$ 4,656,331	$ 4,656,331
Total Assets at fair value	$ 4,656,331	$ 4,656,331

NOTE D—FAIR VALUE MEASUREMENTS (con't)

December 31, 2015		
Mutual Funds	$ 4,249,473	$ 4,249,473
Total Assets at fair value	$ 4,249,473	$ 4,249,473

NOTE E – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE F – TAX STATUS

The Company adopted a prototype plan sponsored by Underwood, Perkins & Ralston, P.C., and effective March 25, 2009. The Internal Revenue Service has determined and informed Underwood, Perkins and Ralston, P.C. by a letter dated March 31, 2008, that the Volume Submitter Profit Sharing Plan with CODA and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrators believe that the Plan is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the plan's financial statement. Tax years 2012 through 2015 remain subject to examination by the Internal Revenue Service.

NOTE G – RELATED PARTY TRANSACTIONS

All plan assets were held in trust by the John Hancock Life Insurance Co. and the trustee of the plan is Southwest Bank and the third-party administrator and investment custodian/record keeper is RPC CPAs + CONSULTANTS, LLP. A significant amount of plan assets are invested in companies advised by the trustees or an affiliated entity and, therefore, these transactions qualify as party-in-interest transactions. Direct fees paid by the plan sponsor to the trustee or its agents for the year ended December 31, 2016 and the year ended December 31, 2015 were $ 8,915 and $ 8,322, and amounts owed were $$3,196 and $4,675, respectfully.

NOTE J – SUBSEQUENT EVENTS

The Administrators have evaluated subsequent events through August 3, 2017, the date on which the financial statements were available to be issued.

NOTE K – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level or risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statement of assets available for benefits.
