1. DESCRIPTION OF PLAN

The following description of the Parametric Solutions, Inc. 401(k) Profit Sharing Plan and Trust, (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan qualifying under Section 401(k) of the Internal Revenue Code. The Plan, sponsored by Parametric Solutions, Inc. (the "Plan Sponsor" or "Company"), is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was established for the purpose of providing eligible employees of the Plan and their beneficiaries' funds for retirement.

Eligibility

An employee of the Company becomes an eligible participant in the Plan following their date of hire subject to the completion of 1000 hours of service and the attainment of 21 years of age. Eligible employees enter the Plan on the date on which they meet eligibility requirements.

Employee Contributions

Employees may contribute up to 92 percent of their eligible compensation, as defined in the Plan, not to exceed $17,500 or $23,000, for employees over 50 years of age, for the year ended December 31, 2014. The Plan contains an automatic enrollment feature. For eligible employees subject to automatic enrollment, the Company will automatically deduct three percent as a deferral contribution. A participant may stop or change the automatic contribution by following the instruction provided as defined in the Plan. Automatically enrolled participants will have their deferral increased one percent each year until contributions reach a maximum of six percent. Participants may designate a portion or all of their deferral contribution to post tax "Roth" amounts and also transfer to the Plan part or all of an "eligible rollover distribution" from other qualified plans.

Employer Contributions

The Plan provides for an employer safe harbor matching contribution equal to 100% of the first 1% of salary deferral plus 50% of the salary deferral over 1% of compensation, up to 6% of compensation contributed as a salary deferral.

Employees may also receive discretionary profit sharing contributions. Employees are eligible to receive discretionary profit sharing contributions if they are employed on the last day of the Plan year. Profit sharing contributions, if any, are allocated on a pro-rata basis to all eligible employees. There were no discretionary profit sharing contributions made to the Plan for the year ended December 31, 2014.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. A participant's account is reduced by withdrawals, losses on investments and administrative costs. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan offers a variety of pooled separate accounts with varying investment objectives as investment options.

Vesting

Participants are immediately vested in all salary deferrals including Roth deferrals and catch-up contributions, rollovers, and safe harbor matching contributions plus actual earnings thereon. Discretionary profit sharing contributions, if any, vest based on a six year vesting schedule as follows:

Years of Service	Percentage Vested
Less than 2	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

Distributions and Withdrawals

All of a participant's vested balance is payable upon the participant's normal retirement, at age 59 1/2, termination of employment, total and permanent disability or death, and financial hardship, subject to certain limitations. In the event that the participant's vested accrued benefit is less than $5,000, the Plan administrator may make a single lump-sum payment without the election or request of a terminated participant. The Plan requires that such distributions of amounts less than $5,000 but greater than $1,000 be rolled over to an individual retirement account unless the participant elects to receive the distribution directly.

Forfeitures

Forfeitures on invested contributions are retained in the Plan and used to reduce employer contributions. There were no forfeited balances available to offset future employer contributions or pay administrative expenses as of December 31, 2014 or 2013.

Notes Receivable From Participants

Participants may borrow from their accounts a maximum of the lesser of $50,000 or 50 percent of their vested account balance. The notes are secured by the Participants' vested account balance and bear interest at reasonable rates as determined by the Plan administrator. Interest rate is 4.25% as of December 31, 2014. Notes are generally due within five years unless the loan is for a purchase of a primary residence which then the loan can be longer than the five years.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The Plan uses the accrual basis of accounting for the presentations of financial statements.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Valuation of Investments and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable From Participants
Notes receivable from participants are measured at their unpaid principle balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Services
Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Administrative expenses include fees related to certain recordkeeping fees paid by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits
Benefits are recorded when paid.

Recently Issued Accounting Pronouncements
In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value (NAV) Per Share (or its Equivalent*), (ASU 2015-07), ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are measured using the NAV per share practical expedient. Disclosures about investments in certain entities that calculate NAV per share are limited under ASU 2015-07 to those investments for which the entity has elected to measure the fair value using NAV. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented with early adoption permitted. Plan management has elected to early adopt ASU 2015-07 in these financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient,* of which Part II is applicable to the Plan.

Part II amendments eliminate the requirement that plans disclose: (a) individual investments that represent 5 percent or more of net assets available for benefits, and the net appreciation or depreciation for investments by general type requirements for both participant-directed investments and nonparticipant-directed investment. In addition, investments presented in the fair value hierarchy are only required to be broken out by general type. Self-directed brokerage accounts are presented as one type of general investment and investment strategy disclosures for investments measures at NAV are not required for investments that are direct-filing entities.

The ASU is effective for fiscal years beginning after December 15, 2015, with retrospective application to all periods presented, with early adoption permitted. Plan management has elected to early adopt Part II of ASU 2015-12 in these financial statements.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan can access at the measurement date.

- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability; and
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgement or estimation.

Following is a description of the valuation methodology used for the Plan's assets measured at fair value. There have been no changes in the methodology used for the period presented in these financial statements.

Pooled Separate Accounts: Variable annuities in the pooled separate account are valued based on the number of units held at the valuation date. Each unit held is valued based on the net asset value of the underlying investments less any taxes and fees imposed in accordance with the group annuity contract. There are no redemption restrictions or unfunded commitments with regards to investments in the pooled separate account. The fair value of these investments in the pooled separate account is measured using the net asset value practical expedient and, in accordance with ASU 2015-07, they are not required to be categorized within the fair value hierarchy.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2014 and 2013, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value at December 31,		Unfunded	Redemption	Redemption
	2014	2013	Commitment	Frequency	Notice Period
Pooled separate accounts	$ 6,822,466	$ 5,281,373	n/a	Daily	None

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. INVESTMENTS AND INFORMATION PROVIDED AND CERTIFIED BY CUSTODIAN (UNAUDITED)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Discourses under ERISA. Accordingly, as permitted under such election, John Hancock Life Insurance Company ("John Hancock"), the custodian of the Plan has certified the completeness and accuracy of all investments and related investment activity, the interest bearing cash, and notes receivable from participants in the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013, the statement of changes in net assets available for benefits for the year ended December 31, 2014 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2014.

5. PLAN TERMINATION

The Company intends to continue the Plan indefinitely for the benefit of its employees, but reserves the right to modify, amend, or terminate the Plan at any time by resolution of management. In the event of termination of the Plan, all amounts credited to participants' accounts will be 100 percent vested and non-forfeitable. All participants will receive a total distribution of their accounts as described in the Plan.

6. INCOME TAX STATUS

The Plan adopted a volume submitter profit sharing plan which has received an opinion letter from the Internal Revenue Service dated March 31, 2014, that the Plan, is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for federal income taxes has been made in the Plan's financial statements. Effective January 1, 2016, the Sponsor engaged a new third party administrator and amended the Plan and adopted The Pension Studio Volume Submitter Plan and Trust.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the applicable taxing authorities. On December 3, 2015, the Plan received a "Notice of Rejection" of their Form 5500 from the Department of Labor. The Plan administrator is currently evaluating and preparing to respond to this notice and correct this deficiency through the Delinquent Filer Voluntary Compliance Program. Except for this notice, the Plan Administrator has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability. Furthermore, the Plan has not received any additional notices relating to interest or penalties for periods presented in these financial statements and therefore there are no accruals reflected in the accompanying financial statements.

7. RISKS AND UNCERTAINTIES

The Plan provides participants with various investment options. All investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments are managed by John Hancock, as defined in the Plan. The Plan paid fees for investment management services of $169. These transactions qualify as party-in-interest transactions. In addition, transaction fees charged by the custodian that are absorbed in investment income are not readily determinable.

9. PROHIBITED TRANSACTIONS

During 2014, the Plan Sponsor inadvertently failed to deposit $1,378,039, of participant deferrals within the required timeframe as stated by the United States Department of Labor ("DOL"). The DOL considers late deposits to be prohibited transactions. The Plan Sponsor will contribute the lost earnings on the late contributions in accordance with the DOL's self-correction program during the December 31, 2017 plan year.

10. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events occurring after the statements of net assets available for benefits date through September 27, 2017, which is the date the financial statements were available to be issued. Based upon this evaluation, the Plan has determined that no subsequent events have occurred, other than the matter noted in Note 6, which require adjustment to or disclosure in the financial statements.
