Board of Advisors
Senior Resource Connection 401(k) Retirement Plan
Cincinnati, Ohio

We were engaged to audit the financial statements and supplemental schedule of the Senior Resource Connection 401(k) Retirement Plan (the "Plan") as of December 31, 2009, and for the year then ended and the supplemental schedule as of December 31, 2009 as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information referred to in Note 6, which was certified by The Hartford Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executed investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended, December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN:

The following description of the Senior Resource Connection 401(k) Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions:

General

The Plan is a new plan with an effective date of January, 1, 2009, and is a defined contribution plan, with a profit sharing provision, covering eligible employees of Senior Resource Connection (the "Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Participants may enter the Plan after completing 1,000 hours of service within the twelve months following the date of hire.

Contributions

Subject to certain Internal Revenue Service ("IRS") limits, participants may contribute a portion of their compensation to the Plan. Participant who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants are also permitted to make rollover contributions to the Plan of distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the plan.

At its discretion, the Sponsor may elect to make matching contributions, as well as non-elective contributions to the Plan. The matching contribution was 50% of the first 2% of employee deferrals for the year ended December 31, 2009. The discretionary profit sharing contribution was 2% of employees' eligible compensation for the year ending December 31, 2009.

Participant accounts

Each participant account is credited with the participant's contribution, related matching or other employer non-elective contributions, if any, and an allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations of Plan earnings are based upon the performance of the investment funds chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Vesting in the employer's contribution portion of their accounts is based on years of continuous service. Participants become 100% vested in the employer's matching and profit sharing contributions after completion of 1,000 hours and 3 years of service.

Payment of benefits

Upon termination of service, distribution shall be made to the participant or beneficiary in a single lump sum payment or installment payments. A participant who has incurred a hardship, as approved by the administrator, may elect to make a hardship cash withdrawal, subject to plan provisions.

Forfeitures

Employer contributions are forfeited should a participant terminate employment prior to becoming fully vested. Forfeited amounts are first used to reduce administrative expenses and any remaining forfeitures are used to reduce employer contributions. As of December 31, 2009, there were forfeitures of \$471 available to offset administrative expenses or employer matching contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following is a description of the significant accounting policies of the Plan.

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment valuation and income recognition

Investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

The plan sponsor pays all administrative expenses for the Plan.

Use of estimates

The presentation of financial statements in conformity with accounting principles generally in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through October 1, 2010, the date on which the financial statements were available to be issued.

3. INVESTMENTS:

The Plan has an investment contract with The Hartford Life Insurance Company. Contributions may be deposited into the insurance company's general account under a group annuity contract or into pooled separate accounts. The insurance company is contractually obligated to repay the principal and a specified interest rate for contributions deposited into its general account. Due to restrictions on withdrawals, the group annuity contract is not considered to be fully benefit responsive. The pooled separate accounts are credited with the actual earnings of the underlying investments and charged for plan withdrawals and administrative expenses.

During the Plan year ended December 31, 2009, investments (including gains and losses in investments bought, sold, and held during the year) appreciated in value as follows:

Pooled separate accounts	\$	23,583
Group annuity contract		1,655
	\$	<u>25,238</u>

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31, 2009:

Pooled separate accounts	
Franklin Income	\$ 34,700
T. Rowe Price Retirement 2030	28,732
T. Rowe Price Retirement 2020	13,949
Group annuity contract	
The Hartford Group Annuity Contract	51,975

4. FAIR VALUE MEASUREMENTS:

Accounting principles generally accepted in the United States of America for *Fair Value Measurements and Disclosures* establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy under *Fair Value Measurements and Disclosures* are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs the valuation methodology includes:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified term (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Pooled separate accounts – Fair value is determined by the trustees for accounts invested in mutual funds based on the quoted market prices of the underlying mutual funds. For accounts invested in fixed maturity securities, fair value is measured based on pricing data provided by a valuation service provider who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities.

Senior Resource Connection 401(k) Retirement Plan
Notes to Financial Statements
Year Ended December 31, 2009

Group annuity contract – Group annuity contracts are valued at contract value, which equals cash contributions plus interest credited to the Plan's contracts, less any withdrawals. Fair value is determined by an adjustment to contract value derived by a factor determined by the interest rate being credited under the contract and the average yield for a specified period prior to the discontinuance date.

The fair value of contributions receivable approximates cost at December 31, 2009, due to its short duration.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

Description	12/31/2009	Fair Value Measurements at Reporting Date Using		
		Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Pooled separate accounts				
Specialty	\$ 3,309	3,309	-	-
International/Global	4,441	4,441	-	-
Small Cap	2,043	2,043	-	-
Mid Cap	2,254	2,254	-	-
Large Cap	5,131	5,131	-	-

	<u>\$ 164,924</u>	<u>104,968</u>	<u>7,981</u>	<u>51,975</u>

The following table sets forth a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

	Group Annuity Contract
Balance, January 1, 2009	\$ -
Unrealized and realized gains	1,655
Net purchases, sales	50,320
Balance, December 31, 2009	<u>\$ 51,975</u>

5. INCOME TAX STATUS:

The Company adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008. While the Company has not obtained its own determination letter on the Plan, management believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan adopted the new standard for *Accounting for Uncertainty in Income Taxes* on January 1, 2009. This standard clarifies the accounting and recognition for income tax positions taken or expected to be taken by the Plan. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and has no income subject to income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan's annual filings are subject to audit by various authorities. The Plan's open audit period is 2009. The Plan believes its estimates are appropriate based on current facts and circumstances.

6. INFORMATION CERTIFIED BY THE TRUSTEE:

All financial data related to investments used in the preparation of the statements of net assets available for benefits, statements of changes in net assets available for benefits and the supplemental schedule as of and for the year ended December 31, 2009, have been certified as to accuracy and completeness by the Plan's trustee, The Hartford Life Insurance Company.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Sponsor has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants will become 100 percent vested in their account balances.

8. RELATED-PARTY TRANSACTIONS:

Certain plan investments are shares of underlying mutual funds and a group annuity contract managed by Hartford Life Insurance Company. Hartford Life Insurance Company is the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services amounted to \$373 for the year ended December 31, 2009.

9. RISKS AND UNCERTAINTIES:

The Plan invests in pooled separate accounts and a group annuity contract managed by Hartford Life Insurance Company. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 to Form 5500:

Net assets available for benefits per the financial statements	\$ 175,039
Adjustment to contract value for the group annuity contract	<u>(1,655)</u>
Net assets available for benefits per the Form 5500	<u>\$ 173,384</u>

The following is a reconciliation of investment income per the financial statements for the year ended December 31, 2009, to Form 5500.

Investment income per the financial statements	\$ 26,036
Less: Contract value adjustment	<u>(1,655)</u>
Investment income per the Form 5500	<u>\$ 24,381</u>

The net assets available for benefits present the fair value of the group annuity contract while the Form 5500 presents the group annuity contract at contract value.
