INDEPENDENT AUDITORS' REPORT

To the Advanced Integration Technology
401(k) Plan and Participants

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Advanced Integration Technology 401(k) Plan which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the U. S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2016 and 2015, and the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) for the year ended December 31, 2016, and the supplemental schedule of delinquent contributions as of December 31, 2016, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A – PLAN DESCRIPTION

The following description of the Advanced Integration Technology 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

Advanced Integration Technology LP maintains the Plan for the benefit of its eligible employees and eligible employees of subsidiaries, divisions and affiliated companies that have adopted the Plan. Generally, the Plan covers all eligible employees of Advanced Integration Technology LP ("AIT"), Advanced Integration Services LP, ("AIS"), Advanced Integrated Tooling Solutions LP ("AITS"), Advanced Integration Technology Grand Prairie LP ("AITGP"), and Advanced Integration Technology San Antonio LP ("AITSA") (together "the Company") who elect to participate. The Plan is a defined contribution 401(k) plan covering all employees of the Company who have completed 30 days of service at a Plan entry date. The Plan entry dates are the first day of each month. The Plan as amended and restated was established January 25, 2006, upon conversion of an existing employee contribution savings plan. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA"), as amended.

Advanced Integration Technology LP (the "Company") is the sponsor and administrator of the Plan. Fidelity Management Trust Company is the Plan Trustee.

The financial statements were approved for issue on October 10, 2017, which is the date the financial statements are available to be issued.

Plan amendments

The Plan was amended effective June 26, 2016 to amend the definition of eligible compensation for participant deferrals and nonelective employer contributions. The contribution limit for regular participant deferral contributions was increased to 25% of compensation. Additionally, the Plan was amended to establish an initial pre-tax deferral contribution of 6.00% for newly-eligible employees upon the entry date upon which they are eligible to participate in the Plan unless a zero election is on file with the Plan. Participants with a deferral rate greater than zero will have their deferral increased annually by participants 1% per year, up to 10%.

The Plan was amended effective November 14, 2016 to adjust the deferral limit for regular participant deferral contributions to 100% of compensation.

NOTE A – PLAN DESCRIPTION

The Plan was amended effective January 9, 2015, to change the Employer's name to Advanced Integration Technology LP and to add Advanced Integrated Tooling Solutions LP, Advanced Technology San Antonio LP, Advanced Integration Technology Grand Prairie LP and Advanced Integration Services LLC as related employers of the Plan.

The Plan was amended effective June 15, 2015, to adopt the provisions of the American Taxpayer Relief Act of 2012 ("ATRA"). ATRA permits participants to convert pre-tax account balances to Roth account balances. Converted amounts are treated as distributions and are taxable in the year of conversion. Participants who convert balances to Roth assets will be entitled to tax-free distributions once the participant meets the requirements for account distribution.

Participant contributions

The Plan is a defined contribution plan wherein participants elect to reduce their compensation and have such reductions contributed to the Plan on their behalf. Participants can elect to contribute to the Plan not less than 1% or more than 25% of eligible compensation on a pre-tax basis for the year ended December 31, 2015. Participants can elect to contribute to the Plan not less than 1% or more than 100% of eligible compensation on a pre-tax basis for the year ended December 31, 2016.

The term "compensation" for calculation of deferral shall be taxable compensation including salary reduction contributions made to an employer sponsored cafeteria plan or 401(k) plan but excluding reimbursements or other expense allowances, fringe benefits, moving expenses, and deferred compensation. Differential wages are excluded. Participants may elect to make deferral contributions on any Company paid bonus with the completion of a special election form. If no special election is made, deferrals will not be made from bonus compensation. The maximum contributions allowed by the Internal Revenue Service were $18,000 for 2016 and 2015.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Participating employees are eligible to make catch-up contributions under the Plan provided the participating employees have attained or will attain the age of 50 before the close of the year. The amount of catch-up contributions allowed by the Internal Revenue Service was

NOTE A – PLAN DESCRIPTION

$6,000 for 2016 and 2015. The catch-up contributions are included in calculating the matching contribution. Participants may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

Participants may elect to irrevocably designate all or a portion of their salary deferral as a Roth 401(k) contribution. These contributions are includable in the participant's gross income at the time deferred.

Participants may make additional deferral contributions during payroll periods designated by the Company. The participant may elect to contribute to the Plan not less than 1% or more than 100% of eligible compensation on a pre-tax basis by completing a special election form.

Employer contributions

Employer 401(k) contributions are determined on an annual basis by the Board of Directors of the Company and are at the discretion of the Board of Directors within the limits imposed by the Plan documents and the applicable Internal Revenue Code sections. Participating employees are eligible for discretionary matching contributions following completion of a six month period of service. Participants must complete at least 1,000 hours of service during the Plan year and be employed as of the last day of the year to receive any matching contributions made for the year.

The Employer may make qualified nonelective contributions and allocate the contribution to certain non-highly compensated employees to facilitate the Plan passing non-discrimination tests during a Plan year.

Employer matching contributions will be made on participant deferral contributions excluding age 50 and over catch-up contributions, and bonus compensation deferrals.

For the year ended December 31, 2016, AIT, AITS, AIS, AITGP and AITSA made a matching contribution of 100% of each participant's 401(k) contribution, up to 6% of the participant's compensation.

For the year ended December 31, 2015, AIT, AIS, AITGP and AITSA made a matching contribution of 100% of each participant's 401(k) contribution, up to 6% of the participant's compensation. AITS elected not to make a matching contribution for the year ended December 31, 2015.

NOTE A – PLAN DESCRIPTION

Participant accounts

Each participant's account is credited with the participant's contribution, if any, and an allocation of (a) the Company's matching contribution, (b) investment experience on those amounts, and (c) forfeitures of terminated participants' non-vested amounts. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings on the contributions. A participant is eligible for the matching contributions after six months of credited service. A participant is 100% vested immediately on employer matching contributions, once eligible.

Notes receivable from participants

The Plan allows participants to borrow fifty percent, up to $50,000, of their vested account balance from the Plan at any time; however, only one new loan is allowed per year, and a participant can have only one outstanding loan at any given time. The maximum term of any loan is five years, or fifteen years if the loan is to acquire a primary residence. Loan payments are typically made through a payroll check deduction. Principal and interest are paid ratably through payroll deductions. The notes are secured by the participant's vested interest in the Plan.

These loan transactions are treated as a transfer between the investment fund and the participant notes fund. The interest rate on loan transactions is commensurate with current rates. As of December 31, 2016 and 2015, the interest rates on outstanding loan balances ranged from 5.0% to 8.5%, respectively.

If a participant ceases to make loan repayments and the plan administrator, based upon the terms of the plan document, deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Forfeited accounts

Forfeitures are used to reduce employer matching or profit sharing contributions or plan administrative expenses. At December 31, 2016 and 2015, the Plan maintained a balance of $43,128 and $18,333, respectively, in forfeited non-vested accounts.

NOTE A – PLAN DESCRIPTION

Funding policy

It is the policy of the Plan sponsor to remit the employee contributions as soon as administratively possible, but no later than five business days after the date of payroll. The employer contribution is made annually within six months of the Plan's year end.

Payment of benefits

Distributions of participants' account balances occur only upon retirement, death, hardship, in-service distribution or other termination of employment. A participant or participant's beneficiary may receive distributions under one of several options. The benefit payment options allow for payment in lump-sum distributions of cash or transfer to an individual retirement account or other brokerage account. Participants who have reached age 59 ½ may elect to withdraw all or a portion of their employee deferral contributions while they are still employed by the Company. Participants who have reached age 70 ½ may elect to receive installment payments sufficient to satisfy required minimum distributions as required by IRS regulations.

Investing options

Upon enrollment in the Plan, a participant may direct employee contributions in any of the mutual fund investment options listed in Note C. Participants may change their investment options at any time.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's administrator, who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting except that the benefit distributions are recorded when paid.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Plan's investments are stated at fair value except for its benefit-responsive investment contract, which is valued at contract value (Note D). Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The fair value per unit/share is stated at quoted market prices as determined by Fidelity at December 31, 2016 and 2015. Purchases and sales of securities are recorded on a trade-date basis.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of Plan assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments.

Payment of benefits

Benefit payments are recorded when paid.

Change in method of accounting for investments

In July 2015, FASB issued Accounting Standards Update No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient Contracts with Customers ("ASU 2015-12"), to reduce complexity in employee benefit plan accounting. Part I designates contract value as the only required measure for fully benefit-responsive investment contracts. The amendments in Part I are effective for fiscal years beginning after December 15, 2015. Earlier application is permitted with retroactive application for all financial statements presented. Part II will eliminate disclosure requirements for investments that represent 5 percent or more of net assets for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period still will be required to be presented in the aggregate, but will no longer be required to be disaggregated and disclosed by general type. The amendments in Part II are effective for fiscal years beginning after December 15, 2015. Earlier application is permitted with retroactive application for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. The amendments in Part III are effective for fiscal years beginning after December 15, 2015. Earlier application is permitted. An entity should apply the amendments in Part III of this Update prospectively. The Plan implemented Parts I, II and III of ASU 2015-12 for the year ended December 31, 2015 on a retrospective basis.

Reclassifications

Certain accounts in the prior year financial statements and notes to the financial statements have been reclassified to conform to the current year presentation. Such reclassifications had no effect on prior year net assets available for benefits.

NOTE C − INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE (UNAUDITED)

At December 31, 2016 and 2015, respectively, the Plan's investments were held by Fidelity Management Trust Company, the Trustee. The following is a summary of the Plan's financial information that is included in the accompanying financial statements and supplemental schedule based on information certified by the Trustees as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE D –FULLY BENEFIT-RESPONSIVE INVESTMENT

The Plan offers the Fidelity Managed Income Portfolio (the "Portfolio") as an investment option. The Portfolio is a commingled pool managed by Fidelity Management Trust Company ("FMTC"), which strives to preserve principal while earning a level of interest income consistent with principal preservation. The Portfolio maintains, but cannot guarantee, a stable net asset value of $1 per share.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contacts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affect by future economic and regulatory developments.

The contract value is the relevant measurement attribute for that portion of the net assets available for Plan benefits attributable to the commingled pool account. Contract value, as reported to the Plan by FMTC, represents contributions, plus earnings, less participant withdrawals and administrative expenses. Discontinuance of the Portfolio would result in certain surrender charges and market value adjustments as defined by the wrap contracts in which the Portfolio invests. Participants may ordinarily direct the withdrawal or transfer of all, or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2016 and 2015, was $185,150 and $137,199, respectively. Principal and interest are not guaranteed.

During 2016 and 2015, the average yields for the Managed Income Portfolio were as follows:

	2016	2015
Yield analysis		
Based on actual earnings	1.24%	1.17%

NOTE D –FULLY BENEFIT-RESPONSIVE INVESTMENT

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code.
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer.

NOTE E – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE E – FAIR VALUE MEASUREMENTS

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices (unadjusted) in active markets for identical assets or liabilities that the plan can access at the measurement date.

Level 2 Inputs other than quoted prices that are included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as; quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets. Inputs other than quoted prices that are observable for the asset or liability. Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset of liability.

Level 3 Inputs which are unobservable inputs for the asset or liability

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Interest bearing cash: Accounts primarily consist of cash, money market accounts and certificates of deposit that are valued on the basis of readily determinable market prices.

Self-directed brokerage: Accounts allowing participants to invest in a wide array of securities.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Participant loans – The stated value of participant loans represents the outstanding principal balance of the loan, taking into account the applicable interest rate, amortization schedule and repayments made for each loan. Loans are note receivable from the participants.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E – FAIR VALUE MEASUREMENTS

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Interest bearing cash	$ 61,993	$ -	$ -	$ 61,993

Investments at fair value	$ 3,574,312	$ 406,317	$ -	$ 14,116,897

NOTE E – FAIR VALUE MEASUREMENTS

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items present in the statement of net assets available for benefits.

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2016, are reported in net appreciation in fair value of investments.

For years ended December 31, 2016 and 2015, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

NOTE F – RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Fidelity Management Trust Company acted as trustee and custodian of the Plan for the years ended December 31, 2016 and 2015, respectively. Fidelity Investments Institutional Operations Company, Inc. is the recordkeeper for the Plan and receives direct compensation from the Plan for these services. During the year ended December 31, 2016, the recordkeeper received $14,830 in direct compensation from the Plan.

Fidelity Investments Institutional Operations Company, Inc. also receives indirect compensation from the Plan through fund management services it provides to selected mutual funds held by the Plan. Fidelity Investments Institutional Operations Company, Inc. is the designated provider of individual retirement accounts that are established and maintained for automatic rollovers from the Plan for mandatory distributions greater than $1,000 if the participant does not elect either a direct rollover or to receive a distribution of their account balance.

Advanced Integration Technology LP provides certain accounting, administrative, and investment management services to the Plan. UBS Financial Services Inc. provides investment consulting, employee education consulting and plan program consulting (including fiduciary support) to the Plan. These transactions qualify as party-in-interest transactions. However, these transactions are exempt from the prohibited transaction rules.

NOTE G – DERIVATIVES

The Plan has no instruments that, in whole or part, are accounted for as a derivative instrument under current authoritative guidance in *Accounting for Derivative Instruments and Hedging Activities*, during the current plan year.

NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE I – SEPARATED PARTICIPANTS WITH VESTED BENEFITS

There were 77 and 14 terminated participants with vested benefits of $2,267,406 and $159,828 as of December 31, 2016 and 2015, respectively.

NOTE J – FIDELITY BOND

ERISA requires a fidelity bond at the beginning of each plan year in the amount of 10% of the assets of the Plan but must not be less than $1,000 and need not be greater than $500,000. The Plan has a $500,000 fidelity bond. The term of the fidelity bond is from July 1, 2013, through December 1, 2018.

NOTE K – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In addition, upon termination of the Plan, the participants' vested interest in employer contributions shall be 100%. Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of his or her account.

NOTE L – DELINQUENT CONTRIBUTIONS

As required by ERISA Section 2510.3-102, the plan sponsor is required to segregate employee contributions to the Plan from its general assets as soon as practicable but in no event more than 15 days following the end of the month in which amounts are withheld from wages. It is the Plan sponsor's funding policy to remit employee contributions as soon as administratively possible, but no later than 5 business days after the date of the payroll.

NOTE L – DELINQUENT CONTRIBUTIONS

During 2016 and 2015, it was determined that employee contributions were not being remitted on a timely basis. Total employer contributions considered to be late were $47,278 and $529,817 for the years ended December 31, 2016 and 2015, respectively. The plan sponsor entered the Department of Labor's Voluntary Fiduciary Correction Program to determine the amount of lost earnings associated with the late contributions for 2015. The amount of lost earnings associated with 2015 has not been determined as of the issuance of these financial statements; however, the Plan sponsor will contribute this amount to the Plan as soon as determined. The plan sponsor entered the Department of Labor's Voluntary Fiduciary Correction Program to determine the amount of the lost earnings associated with the late contributions for 2016, and these amounts have been added to the Plan during 2016.

NOTE M – FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 and 2015, to Form 5500:

	2016	2015
Net assets available for benefits per the financial statements	$ 17,232,124	$ 14,800,455
Difference between contract value and fair value	455	5,077
Accrued contribution receivables not recorded on Form 5500	(1,360,719)	(683,558)
Net assets available for benefits per the Form 5500	$ 15,871,860	$ 14,121,974

NOTE M – FORM 5500

The following is a reconciliation of changes in net assets available for benefits per the financial statements for the year ended December 31, 2016, to Form 5500:

Net increase in plan assets per the financial statements	$ 2,431,669
Difference in accrued employer contributions between 2016 and 2015	(736,232)
Difference in accrued participant contributions between 2016 and 2015	59,071
Change in contract value and fair value difference	(4,622)
Net increase in plan assets per Form 5500	$ 1,749,886

NOTE N – INCOME TAX STATUS

The Plan obtained its most recent determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE O – SUBSEQUENT EVENTS

The employer match for 2016 was posted to the Plan prior to the end of the second quarter of 2017 in the amount of $1,321,833.

The Plan was amended effective March 13, 2017 to add Nova-Tech Engineering, LP as a participating employer.

The Plan Sponsor has evaluated subsequent events through the date which the financial statements were available to be issued.

INDEPENDENT AUDITORS' REPORT

To the Advanced Integration Technology
401(k) Plan and Participants

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Advanced Integration Technology 401(k) Plan which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the U. S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2016 and 2015, and the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) for the year ended December 31, 2016, and the supplemental schedule of delinquent contributions as of December 31, 2016, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A – PLAN DESCRIPTION

The following description of the Advanced Integration Technology 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

Advanced Integration Technology LP maintains the Plan for the benefit of its eligible employees and eligible employees of subsidiaries, divisions and affiliated companies that have adopted the Plan. Generally, the Plan covers all eligible employees of Advanced Integration Technology LP ("AIT"), Advanced Integration Services LP, ("AIS"), Advanced Integrated Tooling Solutions LP ("AITS"), Advanced Integration Technology Grand Prairie LP ("AITGP"), and Advanced Integration Technology San Antonio LP ("AITSA") (together "the Company") who elect to participate. The Plan is a defined contribution 401(k) plan covering all employees of the Company who have completed 30 days of service at a Plan entry date. The Plan entry dates are the first day of each month. The Plan as amended and restated was established January 25, 2006, upon conversion of an existing employee contribution savings plan. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA"), as amended.

Advanced Integration Technology LP (the "Company") is the sponsor and administrator of the Plan. Fidelity Management Trust Company is the Plan Trustee.

The financial statements were approved for issue on October 10, 2017, which is the date the financial statements are available to be issued.

Plan amendments

The Plan was amended effective June 26, 2016 to amend the definition of eligible compensation for participant deferrals and nonelective employer contributions. The contribution limit for regular participant deferral contributions was increased to 25% of compensation. Additionally, the Plan was amended to establish an initial pre-tax deferral contribution of 6.00% for newly-eligible employees upon the entry date upon which they are eligible to participate in the Plan unless a zero election is on file with the Plan. Participants with a deferral rate greater than zero will have their deferral increased annually by participants 1% per year, up to 10%.

The Plan was amended effective November 14, 2016 to adjust the deferral limit for regular participant deferral contributions to 100% of compensation.

NOTE A – PLAN DESCRIPTION

The Plan was amended effective January 9, 2015, to change the Employer's name to Advanced Integration Technology LP and to add Advanced Integrated Tooling Solutions LP, Advanced Technology San Antonio LP, Advanced Integration Technology Grand Prairie LP and Advanced Integration Services LLC as related employers of the Plan.

The Plan was amended effective June 15, 2015, to adopt the provisions of the American Taxpayer Relief Act of 2012 ("ATRA"). ATRA permits participants to convert pre-tax account balances to Roth account balances. Converted amounts are treated as distributions and are taxable in the year of conversion. Participants who convert balances to Roth assets will be entitled to tax-free distributions once the participant meets the requirements for account distribution.

Participant contributions

The Plan is a defined contribution plan wherein participants elect to reduce their compensation and have such reductions contributed to the Plan on their behalf. Participants can elect to contribute to the Plan not less than 1% or more than 25% of eligible compensation on a pre-tax basis for the year ended December 31, 2015. Participants can elect to contribute to the Plan not less than 1% or more than 100% of eligible compensation on a pre-tax basis for the year ended December 31, 2016.

The term "compensation" for calculation of deferral shall be taxable compensation including salary reduction contributions made to an employer sponsored cafeteria plan or 401(k) plan but excluding reimbursements or other expense allowances, fringe benefits, moving expenses, and deferred compensation. Differential wages are excluded. Participants may elect to make deferral contributions on any Company paid bonus with the completion of a special election form. If no special election is made, deferrals will not be made from bonus compensation. The maximum contributions allowed by the Internal Revenue Service were $18,000 for 2016 and 2015.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Participating employees are eligible to make catch-up contributions under the Plan provided the participating employees have attained or will attain the age of 50 before the close of the year. The amount of catch-up contributions allowed by the Internal Revenue Service was

NOTE A – PLAN DESCRIPTION

$6,000 for 2016 and 2015. The catch-up contributions are included in calculating the matching contribution. Participants may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

Participants may elect to irrevocably designate all or a portion of their salary deferral as a Roth 401(k) contribution. These contributions are includable in the participant's gross income at the time deferred.

Participants may make additional deferral contributions during payroll periods designated by the Company. The participant may elect to contribute to the Plan not less than 1% or more than 100% of eligible compensation on a pre-tax basis by completing a special election form.

Employer contributions

Employer 401(k) contributions are determined on an annual basis by the Board of Directors of the Company and are at the discretion of the Board of Directors within the limits imposed by the Plan documents and the applicable Internal Revenue Code sections. Participating employees are eligible for discretionary matching contributions following completion of a six month period of service. Participants must complete at least 1,000 hours of service during the Plan year and be employed as of the last day of the year to receive any matching contributions made for the year.

The Employer may make qualified nonelective contributions and allocate the contribution to certain non-highly compensated employees to facilitate the Plan passing non-discrimination tests during a Plan year.

Employer matching contributions will be made on participant deferral contributions excluding age 50 and over catch-up contributions, and bonus compensation deferrals.

For the year ended December 31, 2016, AIT, AITS, AIS, AITGP and AITSA made a matching contribution of 100% of each participant's 401(k) contribution, up to 6% of the participant's compensation.

For the year ended December 31, 2015, AIT, AIS, AITGP and AITSA made a matching contribution of 100% of each participant's 401(k) contribution, up to 6% of the participant's compensation. AITS elected not to make a matching contribution for the year ended December 31, 2015.

NOTE A – PLAN DESCRIPTION

Participant accounts

Each participant's account is credited with the participant's contribution, if any, and an allocation of (a) the Company's matching contribution, (b) investment experience on those amounts, and (c) forfeitures of terminated participants' non-vested amounts. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings on the contributions. A participant is eligible for the matching contributions after six months of credited service. A participant is 100% vested immediately on employer matching contributions, once eligible.

Notes receivable from participants

The Plan allows participants to borrow fifty percent, up to $50,000, of their vested account balance from the Plan at any time; however, only one new loan is allowed per year, and a participant can have only one outstanding loan at any given time. The maximum term of any loan is five years, or fifteen years if the loan is to acquire a primary residence. Loan payments are typically made through a payroll check deduction. Principal and interest are paid ratably through payroll deductions. The notes are secured by the participant's vested interest in the Plan.

These loan transactions are treated as a transfer between the investment fund and the participant notes fund. The interest rate on loan transactions is commensurate with current rates. As of December 31, 2016 and 2015, the interest rates on outstanding loan balances ranged from 5.0% to 8.5%, respectively.

If a participant ceases to make loan repayments and the plan administrator, based upon the terms of the plan document, deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Forfeited accounts

Forfeitures are used to reduce employer matching or profit sharing contributions or plan administrative expenses. At December 31, 2016 and 2015, the Plan maintained a balance of $43,128 and $18,333, respectively, in forfeited non-vested accounts.

NOTE A – PLAN DESCRIPTION

Funding policy

It is the policy of the Plan sponsor to remit the employee contributions as soon as administratively possible, but no later than five business days after the date of payroll. The employer contribution is made annually within six months of the Plan's year end.

Payment of benefits

Distributions of participants' account balances occur only upon retirement, death, hardship, in-service distribution or other termination of employment. A participant or participant's beneficiary may receive distributions under one of several options. The benefit payment options allow for payment in lump-sum distributions of cash or transfer to an individual retirement account or other brokerage account. Participants who have reached age 59 ½ may elect to withdraw all or a portion of their employee deferral contributions while they are still employed by the Company. Participants who have reached age 70 ½ may elect to receive installment payments sufficient to satisfy required minimum distributions as required by IRS regulations.

Investing options

Upon enrollment in the Plan, a participant may direct employee contributions in any of the mutual fund investment options listed in Note C. Participants may change their investment options at any time.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's administrator, who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting except that the benefit distributions are recorded when paid.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Plan's investments are stated at fair value except for its benefit-responsive investment contract, which is valued at contract value (Note D). Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The fair value per unit/share is stated at quoted market prices as determined by Fidelity at December 31, 2016 and 2015. Purchases and sales of securities are recorded on a trade-date basis.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of Plan assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments.

Payment of benefits

Benefit payments are recorded when paid.

Change in method of accounting for investments

In July 2015, FASB issued Accounting Standards Update No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient Contracts with Customers ("ASU 2015-12"), to reduce complexity in employee benefit plan accounting. Part I designates contract value as the only required measure for fully benefit-responsive investment contracts. The amendments in Part I are effective for fiscal years beginning after December 15, 2015. Earlier application is permitted with retroactive application for all financial statements presented. Part II will eliminate disclosure requirements for investments that represent 5 percent or more of net assets for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period still will be required to be presented in the aggregate, but will no longer be required to be disaggregated and disclosed by general type. The amendments in Part II are effective for fiscal years beginning after December 15, 2015. Earlier application is permitted with retroactive application for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. The amendments in Part III are effective for fiscal years beginning after December 15, 2015. Earlier application is permitted. An entity should apply the amendments in Part III of this Update prospectively. The Plan implemented Parts I, II and III of ASU 2015-12 for the year ended December 31, 2015 on a retrospective basis.

Reclassifications

Certain accounts in the prior year financial statements and notes to the financial statements have been reclassified to conform to the current year presentation. Such reclassifications had no effect on prior year net assets available for benefits.

NOTE C − INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE (UNAUDITED)

At December 31, 2016 and 2015, respectively, the Plan's investments were held by Fidelity Management Trust Company, the Trustee. The following is a summary of the Plan's financial information that is included in the accompanying financial statements and supplemental schedule based on information certified by the Trustees as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE D –FULLY BENEFIT-RESPONSIVE INVESTMENT

The Plan offers the Fidelity Managed Income Portfolio (the "Portfolio") as an investment option. The Portfolio is a commingled pool managed by Fidelity Management Trust Company ("FMTC"), which strives to preserve principal while earning a level of interest income consistent with principal preservation. The Portfolio maintains, but cannot guarantee, a stable net asset value of $1 per share.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contacts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affect by future economic and regulatory developments.

The contract value is the relevant measurement attribute for that portion of the net assets available for Plan benefits attributable to the commingled pool account. Contract value, as reported to the Plan by FMTC, represents contributions, plus earnings, less participant withdrawals and administrative expenses. Discontinuance of the Portfolio would result in certain surrender charges and market value adjustments as defined by the wrap contracts in which the Portfolio invests. Participants may ordinarily direct the withdrawal or transfer of all, or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2016 and 2015, was $185,150 and $137,199, respectively. Principal and interest are not guaranteed.

During 2016 and 2015, the average yields for the Managed Income Portfolio were as follows:

	2016	2015
Yield analysis		
Based on actual earnings	1.24%	1.17%

NOTE D –FULLY BENEFIT-RESPONSIVE INVESTMENT

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code.
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer.

NOTE E – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE E – FAIR VALUE MEASUREMENTS

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices (unadjusted) in active markets for identical assets or liabilities that the plan can access at the measurement date.

Level 2 Inputs other than quoted prices that are included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as; quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets. Inputs other than quoted prices that are observable for the asset or liability. Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset of liability.

Level 3 Inputs which are unobservable inputs for the asset or liability

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Interest bearing cash: Accounts primarily consist of cash, money market accounts and certificates of deposit that are valued on the basis of readily determinable market prices.

Self-directed brokerage: Accounts allowing participants to invest in a wide array of securities.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Participant loans – The stated value of participant loans represents the outstanding principal balance of the loan, taking into account the applicable interest rate, amortization schedule and repayments made for each loan. Loans are note receivable from the participants.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E – FAIR VALUE MEASUREMENTS

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Interest bearing cash	$ 61,993	$ -	$ -	$ 61,993

Investments measured at net asset value (a)	-	-	-	136,268
Investments at fair value	$ 3,574,312	$ 406,317	$ -	$ 14,116,897

NOTE E – FAIR VALUE MEASUREMENTS

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items present in the statement of net assets available for benefits.

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2016, are reported in net appreciation in fair value of investments.

For years ended December 31, 2016 and 2015, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

NOTE F – RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Fidelity Management Trust Company acted as trustee and custodian of the Plan for the years ended December 31, 2016 and 2015, respectively. Fidelity Investments Institutional Operations Company, Inc. is the recordkeeper for the Plan and receives direct compensation from the Plan for these services. During the year ended December 31, 2016, the recordkeeper received $14,830 in direct compensation from the Plan.

Fidelity Investments Institutional Operations Company, Inc. also receives indirect compensation from the Plan through fund management services it provides to selected mutual funds held by the Plan. Fidelity Investments Institutional Operations Company, Inc. is the designated provider of individual retirement accounts that are established and maintained for automatic rollovers from the Plan for mandatory distributions greater than $1,000 if the participant does not elect either a direct rollover or to receive a distribution of their account balance.

Advanced Integration Technology LP provides certain accounting, administrative, and investment management services to the Plan. UBS Financial Services Inc. provides investment consulting, employee education consulting and plan program consulting (including fiduciary support) to the Plan. These transactions qualify as party-in-interest transactions. However, these transactions are exempt from the prohibited transaction rules.

NOTE G – DERIVATIVES

The Plan has no instruments that, in whole or part, are accounted for as a derivative instrument under current authoritative guidance in *Accounting for Derivative Instruments and Hedging Activities*, during the current plan year.

NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE I – SEPARATED PARTICIPANTS WITH VESTED BENEFITS

There were 77 and 14 terminated participants with vested benefits of $2,267,406 and $159,828 as of December 31, 2016 and 2015, respectively.

NOTE J – FIDELITY BOND

ERISA requires a fidelity bond at the beginning of each plan year in the amount of 10% of the assets of the Plan but must not be less than $1,000 and need not be greater than $500,000. The Plan has a $500,000 fidelity bond. The term of the fidelity bond is from July 1, 2013, through December 1, 2018.

NOTE K – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In addition, upon termination of the Plan, the participants' vested interest in employer contributions shall be 100%. Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of his or her account.

NOTE L – DELINQUENT CONTRIBUTIONS

As required by ERISA Section 2510.3-102, the plan sponsor is required to segregate employee contributions to the Plan from its general assets as soon as practicable but in no event more than 15 days following the end of the month in which amounts are withheld from wages. It is the Plan sponsor's funding policy to remit employee contributions as soon as administratively possible, but no later than 5 business days after the date of the payroll.

NOTE L – DELINQUENT CONTRIBUTIONS

During 2016 and 2015, it was determined that employee contributions were not being remitted on a timely basis. Total employer contributions considered to be late were $47,278 and $529,817 for the years ended December 31, 2016 and 2015, respectively. The plan sponsor entered the Department of Labor's Voluntary Fiduciary Correction Program to determine the amount of lost earnings associated with the late contributions for 2015. The amount of lost earnings associated with 2015 has not been determined as of the issuance of these financial statements; however, the Plan sponsor will contribute this amount to the Plan as soon as determined. The plan sponsor entered the Department of Labor's Voluntary Fiduciary Correction Program to determine the amount of the lost earnings associated with the late contributions for 2016, and these amounts have been added to the Plan during 2016.

NOTE M – FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 and 2015, to Form 5500:

	2016	2015
Net assets available for benefits per the financial statements	$ 17,232,124	$ 14,800,455
Difference between contract value and fair value	455	5,077
Accrued contribution receivables not recorded on Form 5500	(1,360,719)	(683,558)
Net assets available for benefits per the Form 5500	$ 15,871,860	$ 14,121,974

NOTE M – FORM 5500

The following is a reconciliation of changes in net assets available for benefits per the financial statements for the year ended December 31, 2016, to Form 5500:

Net increase in plan assets per the financial statements	$ 2,431,669
Difference in accrued employer contributions between 2016 and 2015	(736,232)
Difference in accrued participant contributions between 2016 and 2015	59,071
Change in contract value and fair value difference	(4,622)
Net increase in plan assets per Form 5500	$ 1,749,886

NOTE N – INCOME TAX STATUS

The Plan obtained its most recent determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE O – SUBSEQUENT EVENTS

The employer match for 2016 was posted to the Plan prior to the end of the second quarter of 2017 in the amount of $1,321,833.

The Plan was amended effective March 13, 2017 to add Nova-Tech Engineering, LP as a participating employer.

The Plan Sponsor has evaluated subsequent events through the date which the financial statements were available to be issued.

To the Advanced Integration Technology
401(k) Plan and Participants

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Advanced Integration Technology 401(k) Plan which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the U. S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2016 and 2015, and the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) for the year ended December 31, 2016, and the supplemental schedule of delinquent contributions as of December 31, 2016, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A – PLAN DESCRIPTION

The following description of the Advanced Integration Technology 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

Advanced Integration Technology LP maintains the Plan for the benefit of its eligible employees and eligible employees of subsidiaries, divisions and affiliated companies that have adopted the Plan. Generally, the Plan covers all eligible employees of Advanced Integration Technology LP ("AIT"), Advanced Integration Services LP, ("AIS"), Advanced Integrated Tooling Solutions LP ("AITS"), Advanced Integration Technology Grand Prairie LP ("AITGP"), and Advanced Integration Technology San Antonio LP ("AITSA") (together "the Company") who elect to participate. The Plan is a defined contribution 401(k) plan covering all employees of the Company who have completed 30 days of service at a Plan entry date. The Plan entry dates are the first day of each month. The Plan as amended and restated was established January 25, 2006, upon conversion of an existing employee contribution savings plan. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA"), as amended.

Advanced Integration Technology LP (the "Company") is the sponsor and administrator of the Plan. Fidelity Management Trust Company is the Plan Trustee.

The financial statements were approved for issue on October 10, 2017, which is the date the financial statements are available to be issued.

Plan amendments

The Plan was amended effective June 26, 2016 to amend the definition of eligible compensation for participant deferrals and nonelective employer contributions. The contribution limit for regular participant deferral contributions was increased to 25% of compensation. Additionally, the Plan was amended to establish an initial pre-tax deferral contribution of 6.00% for newly-eligible employees upon the entry date upon which they are eligible to participate in the Plan unless a zero election is on file with the Plan. Participants with a deferral rate greater than zero will have their deferral increased annually by participants 1% per year, up to 10%.

The Plan was amended effective November 14, 2016 to adjust the deferral limit for regular participant deferral contributions to 100% of compensation.

NOTE A – PLAN DESCRIPTION

The Plan was amended effective January 9, 2015, to change the Employer's name to Advanced Integration Technology LP and to add Advanced Integrated Tooling Solutions LP, Advanced Technology San Antonio LP, Advanced Integration Technology Grand Prairie LP and Advanced Integration Services LLC as related employers of the Plan.

The Plan was amended effective June 15, 2015, to adopt the provisions of the American Taxpayer Relief Act of 2012 ("ATRA"). ATRA permits participants to convert pre-tax account balances to Roth account balances. Converted amounts are treated as distributions and are taxable in the year of conversion. Participants who convert balances to Roth assets will be entitled to tax-free distributions once the participant meets the requirements for account distribution.

Participant contributions

The Plan is a defined contribution plan wherein participants elect to reduce their compensation and have such reductions contributed to the Plan on their behalf. Participants can elect to contribute to the Plan not less than 1% or more than 25% of eligible compensation on a pre-tax basis for the year ended December 31, 2015. Participants can elect to contribute to the Plan not less than 1% or more than 100% of eligible compensation on a pre-tax basis for the year ended December 31, 2016.

The term "compensation" for calculation of deferral shall be taxable compensation including salary reduction contributions made to an employer sponsored cafeteria plan or 401(k) plan but excluding reimbursements or other expense allowances, fringe benefits, moving expenses, and deferred compensation. Differential wages are excluded. Participants may elect to make deferral contributions on any Company paid bonus with the completion of a special election form. If no special election is made, deferrals will not be made from bonus compensation. The maximum contributions allowed by the Internal Revenue Service were $18,000 for 2016 and 2015.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Participating employees are eligible to make catch-up contributions under the Plan provided the participating employees have attained or will attain the age of 50 before the close of the year. The amount of catch-up contributions allowed by the Internal Revenue Service was

NOTE A – PLAN DESCRIPTION

$6,000 for 2016 and 2015. The catch-up contributions are included in calculating the matching contribution. Participants may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

Participants may elect to irrevocably designate all or a portion of their salary deferral as a Roth 401(k) contribution. These contributions are includable in the participant's gross income at the time deferred.

Participants may make additional deferral contributions during payroll periods designated by the Company. The participant may elect to contribute to the Plan not less than 1% or more than 100% of eligible compensation on a pre-tax basis by completing a special election form.

Employer contributions

Employer 401(k) contributions are determined on an annual basis by the Board of Directors of the Company and are at the discretion of the Board of Directors within the limits imposed by the Plan documents and the applicable Internal Revenue Code sections. Participating employees are eligible for discretionary matching contributions following completion of a six month period of service. Participants must complete at least 1,000 hours of service during the Plan year and be employed as of the last day of the year to receive any matching contributions made for the year.

The Employer may make qualified nonelective contributions and allocate the contribution to certain non-highly compensated employees to facilitate the Plan passing non-discrimination tests during a Plan year.

Employer matching contributions will be made on participant deferral contributions excluding age 50 and over catch-up contributions, and bonus compensation deferrals.

For the year ended December 31, 2016, AIT, AITS, AIS, AITGP and AITSA made a matching contribution of 100% of each participant's 401(k) contribution, up to 6% of the participant's compensation.

For the year ended December 31, 2015, AIT, AIS, AITGP and AITSA made a matching contribution of 100% of each participant's 401(k) contribution, up to 6% of the participant's compensation. AITS elected not to make a matching contribution for the year ended December 31, 2015.

NOTE A – PLAN DESCRIPTION

Participant accounts

Each participant's account is credited with the participant's contribution, if any, and an allocation of (a) the Company's matching contribution, (b) investment experience on those amounts, and (c) forfeitures of terminated participants' non-vested amounts. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings on the contributions. A participant is eligible for the matching contributions after six months of credited service. A participant is 100% vested immediately on employer matching contributions, once eligible.

Notes receivable from participants

The Plan allows participants to borrow fifty percent, up to $50,000, of their vested account balance from the Plan at any time; however, only one new loan is allowed per year, and a participant can have only one outstanding loan at any given time. The maximum term of any loan is five years, or fifteen years if the loan is to acquire a primary residence. Loan payments are typically made through a payroll check deduction. Principal and interest are paid ratably through payroll deductions. The notes are secured by the participant's vested interest in the Plan.

These loan transactions are treated as a transfer between the investment fund and the participant notes fund. The interest rate on loan transactions is commensurate with current rates. As of December 31, 2016 and 2015, the interest rates on outstanding loan balances ranged from 5.0% to 8.5%, respectively.

If a participant ceases to make loan repayments and the plan administrator, based upon the terms of the plan document, deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Forfeited accounts

Forfeitures are used to reduce employer matching or profit sharing contributions or plan administrative expenses. At December 31, 2016 and 2015, the Plan maintained a balance of $43,128 and $18,333, respectively, in forfeited non-vested accounts.

NOTE A – PLAN DESCRIPTION

Funding policy

It is the policy of the Plan sponsor to remit the employee contributions as soon as administratively possible, but no later than five business days after the date of payroll. The employer contribution is made annually within six months of the Plan's year end.

Payment of benefits

Distributions of participants' account balances occur only upon retirement, death, hardship, in-service distribution or other termination of employment. A participant or participant's beneficiary may receive distributions under one of several options. The benefit payment options allow for payment in lump-sum distributions of cash or transfer to an individual retirement account or other brokerage account. Participants who have reached age 59 ½ may elect to withdraw all or a portion of their employee deferral contributions while they are still employed by the Company. Participants who have reached age 70 ½ may elect to receive installment payments sufficient to satisfy required minimum distributions as required by IRS regulations.

Investing options

Upon enrollment in the Plan, a participant may direct employee contributions in any of the mutual fund investment options listed in Note C. Participants may change their investment options at any time.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's administrator, who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting except that the benefit distributions are recorded when paid.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Plan's investments are stated at fair value except for its benefit-responsive investment contract, which is valued at contract value (Note D). Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The fair value per unit/share is stated at quoted market prices as determined by Fidelity at December 31, 2016 and 2015. Purchases and sales of securities are recorded on a trade-date basis.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of Plan assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments.

Payment of benefits

Benefit payments are recorded when paid.

Change in method of accounting for investments

In July 2015, FASB issued Accounting Standards Update No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient Contracts with Customers ("ASU 2015-12"), to reduce complexity in employee benefit plan accounting. Part I designates contract value as the only required measure for fully benefit-responsive investment contracts. The amendments in Part I are effective for fiscal years beginning after December 15, 2015. Earlier application is permitted with retroactive application for all financial statements presented. Part II will eliminate disclosure requirements for investments that represent 5 percent or more of net assets for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period still will be required to be presented in the aggregate, but will no longer be required to be disaggregated and disclosed by general type. The amendments in Part II are effective for fiscal years beginning after December 15, 2015. Earlier application is permitted with retroactive application for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. The amendments in Part III are effective for fiscal years beginning after December 15, 2015. Earlier application is permitted. An entity should apply the amendments in Part III of this Update prospectively. The Plan implemented Parts I, II and III of ASU 2015-12 for the year ended December 31, 2015 on a retrospective basis.

Reclassifications

Certain accounts in the prior year financial statements and notes to the financial statements have been reclassified to conform to the current year presentation. Such reclassifications had no effect on prior year net assets available for benefits.

NOTE C − INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE (UNAUDITED)

At December 31, 2016 and 2015, respectively, the Plan's investments were held by Fidelity Management Trust Company, the Trustee. The following is a summary of the Plan's financial information that is included in the accompanying financial statements and supplemental schedule based on information certified by the Trustees as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE D –FULLY BENEFIT-RESPONSIVE INVESTMENT

The Plan offers the Fidelity Managed Income Portfolio (the "Portfolio") as an investment option. The Portfolio is a commingled pool managed by Fidelity Management Trust Company ("FMTC"), which strives to preserve principal while earning a level of interest income consistent with principal preservation. The Portfolio maintains, but cannot guarantee, a stable net asset value of $1 per share.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contacts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affect by future economic and regulatory developments.

The contract value is the relevant measurement attribute for that portion of the net assets available for Plan benefits attributable to the commingled pool account. Contract value, as reported to the Plan by FMTC, represents contributions, plus earnings, less participant withdrawals and administrative expenses. Discontinuance of the Portfolio would result in certain surrender charges and market value adjustments as defined by the wrap contracts in which the Portfolio invests. Participants may ordinarily direct the withdrawal or transfer of all, or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2016 and 2015, was $185,150 and $137,199, respectively. Principal and interest are not guaranteed.

During 2016 and 2015, the average yields for the Managed Income Portfolio were as follows:

	2016	2015
Yield analysis		
Based on actual earnings	1.24%	1.17%

NOTE D –FULLY BENEFIT-RESPONSIVE INVESTMENT

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code.
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer.

NOTE E – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE E – FAIR VALUE MEASUREMENTS

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices (unadjusted) in active markets for identical assets or liabilities that the plan can access at the measurement date.

Level 2 Inputs other than quoted prices that are included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as; quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets. Inputs other than quoted prices that are observable for the asset or liability. Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset of liability.

Level 3 Inputs which are unobservable inputs for the asset or liability

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Interest bearing cash: Accounts primarily consist of cash, money market accounts and certificates of deposit that are valued on the basis of readily determinable market prices.

Self-directed brokerage: Accounts allowing participants to invest in a wide array of securities.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Participant loans – The stated value of participant loans represents the outstanding principal balance of the loan, taking into account the applicable interest rate, amortization schedule and repayments made for each loan. Loans are note receivable from the participants.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E – FAIR VALUE MEASUREMENTS

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Interest bearing cash	$ 61,993	$ -	$ -	$ 61,993

Investments at fair value	$ 3,574,312	$ 406,317	$ -	$ 14,116,897

NOTE E – FAIR VALUE MEASUREMENTS

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items present in the statement of net assets available for benefits.

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2016, are reported in net appreciation in fair value of investments.

For years ended December 31, 2016 and 2015, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

NOTE F – RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Fidelity Management Trust Company acted as trustee and custodian of the Plan for the years ended December 31, 2016 and 2015, respectively. Fidelity Investments Institutional Operations Company, Inc. is the recordkeeper for the Plan and receives direct compensation from the Plan for these services. During the year ended December 31, 2016, the recordkeeper received $14,830 in direct compensation from the Plan.

Fidelity Investments Institutional Operations Company, Inc. also receives indirect compensation from the Plan through fund management services it provides to selected mutual funds held by the Plan. Fidelity Investments Institutional Operations Company, Inc. is the designated provider of individual retirement accounts that are established and maintained for automatic rollovers from the Plan for mandatory distributions greater than $1,000 if the participant does not elect either a direct rollover or to receive a distribution of their account balance.

Advanced Integration Technology LP provides certain accounting, administrative, and investment management services to the Plan. UBS Financial Services Inc. provides investment consulting, employee education consulting and plan program consulting (including fiduciary support) to the Plan. These transactions qualify as party-in-interest transactions. However, these transactions are exempt from the prohibited transaction rules.

NOTE G – DERIVATIVES

The Plan has no instruments that, in whole or part, are accounted for as a derivative instrument under current authoritative guidance in *Accounting for Derivative Instruments and Hedging Activities*, during the current plan year.

NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE I – SEPARATED PARTICIPANTS WITH VESTED BENEFITS

There were 77 and 14 terminated participants with vested benefits of $2,267,406 and $159,828 as of December 31, 2016 and 2015, respectively.

NOTE J – FIDELITY BOND

ERISA requires a fidelity bond at the beginning of each plan year in the amount of 10% of the assets of the Plan but must not be less than $1,000 and need not be greater than $500,000. The Plan has a $500,000 fidelity bond. The term of the fidelity bond is from July 1, 2013, through December 1, 2018.

NOTE K – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In addition, upon termination of the Plan, the participants' vested interest in employer contributions shall be 100%. Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of his or her account.

NOTE L – DELINQUENT CONTRIBUTIONS

As required by ERISA Section 2510.3-102, the plan sponsor is required to segregate employee contributions to the Plan from its general assets as soon as practicable but in no event more than 15 days following the end of the month in which amounts are withheld from wages. It is the Plan sponsor's funding policy to remit employee contributions as soon as administratively possible, but no later than 5 business days after the date of the payroll.

NOTE L – DELINQUENT CONTRIBUTIONS

During 2016 and 2015, it was determined that employee contributions were not being remitted on a timely basis. Total employer contributions considered to be late were $47,278 and $529,817 for the years ended December 31, 2016 and 2015, respectively. The plan sponsor entered the Department of Labor's Voluntary Fiduciary Correction Program to determine the amount of lost earnings associated with the late contributions for 2015. The amount of lost earnings associated with 2015 has not been determined as of the issuance of these financial statements; however, the Plan sponsor will contribute this amount to the Plan as soon as determined. The plan sponsor entered the Department of Labor's Voluntary Fiduciary Correction Program to determine the amount of the lost earnings associated with the late contributions for 2016, and these amounts have been added to the Plan during 2016.

NOTE M – FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 and 2015, to Form 5500:

	2016	2015
Net assets available for benefits per the financial statements	$ 17,232,124	$ 14,800,455
Difference between contract value and fair value	455	5,077
Accrued contribution receivables not recorded on Form 5500	(1,360,719)	(683,558)
Net assets available for benefits per the Form 5500	$ 15,871,860	$ 14,121,974

NOTE M – FORM 5500

The following is a reconciliation of changes in net assets available for benefits per the financial statements for the year ended December 31, 2016, to Form 5500:

Net increase in plan assets per the financial statements	$ 2,431,669
Difference in accrued employer contributions between 2016 and 2015	(736,232)
Difference in accrued participant contributions between 2016 and 2015	59,071
Change in contract value and fair value difference	(4,622)
Net increase in plan assets per Form 5500	$ 1,749,886

NOTE N – INCOME TAX STATUS

The Plan obtained its most recent determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE O – SUBSEQUENT EVENTS

The employer match for 2016 was posted to the Plan prior to the end of the second quarter of 2017 in the amount of $1,321,833.

The Plan was amended effective March 13, 2017 to add Nova-Tech Engineering, LP as a participating employer.

The Plan Sponsor has evaluated subsequent events through the date which the financial statements were available to be issued.
