A Description of Plan.

The following description of the Concrete Express, Inc. 401(k) Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1 **General.** The Plan is a defined contribution plan covering all full time employees of the Company who have three months of service, are age twenty-one or older and are not covered by a collective bargaining agreement. The Plan consists of a Profit Sharing Plan and a 401(k) Plan. An employee must have worked at least 1,000 hours during the year, and must be employed on the last day of the Plan year in order to be eligible to receive the Company's discretionary annual profit sharing contribution. The Plan covers employees rendering services for the employer on contracts subject to the Davis-Bacon Act, Service Contract Act, or other Federal, State or Municipal prevailing wage laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2 **Contributions.** Each year, participants may contribute up to the amount allowed by law of pretax annual compensation, as defined in the Plan. For the years ended December 31, 2009 and 2008, the amount was $16,500 and $15,500, respectively. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may, at its discretion, make a contribution in an amount to be determined each Plan year, and allocated according to the Plan. Contributions are subject to certain limitations. The Company contributions to the Plan for employees, subject to prevailing wage laws, are determined by the employer based on rates that satisfy the wage determination issued by the governmental agency responsible for the contract.

3 **Participant Accounts.** Each participant's account is credited with the allocation of (a) the participant's contributions, (b) the Company's contribution, (c) Plan earnings, (d) participants' rollovers, and (e) forfeitures of terminated participants' non-vested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

4 **Vesting.** Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. Participants are immediately vested in contributions subject to prevailing wage laws.

A **Description of Plan.** (Cont'd.)

5 **Investment Options.** Upon enrollment in the Plan, contributions will be allocated between accounts as directed by the participant in accordance with the investment allocation form provided by the employer. Participants may change their investment options at any time.

6 **Forfeited Accounts**. At December 31, 2009 and 2008, the balance of the forfeited accounts totaled $1,348 and $7,395, respectively. The forfeiture account balance can be used to offset future employer contributions and Plan administrative expenses. During the years ended December 31, 2009 and 2008, the Company applied forfeitures against the employer match in the amount of $10,700 and $6,000, respectively.

7 **Participant Notes Receivable.** Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate, determined at the time the loan is granted. Principal and interest is paid ratably through weekly payroll deductions.

8 **Payment of Benefits.** Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a specified period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

B **Summary of Accounting Policies.**

1 **Basis of Accounting.** The financial statements of the Plan are prepared using the accrual method of accounting.

2 **Estimates.** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

B Summary of Accounting Policies. (Cont'd.)

3 **Investment Valuation and Income Recognition.** The Plan has adopted ASC 820 "Fair Value Measurements". The objective of ASC 820 is to establish a fair value framework (hierarchy) for valuing investments in the Plan's financial statements. The Plan's investments are stated at fair value. Mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The fair value of the investments in mutual funds has been measured using Level 2 Inputs. The fair value of Participants' Loans and the Fully Benefit Responsive Investment Contract (discussed further in Note F) are measured using Level 3 Inputs. The valuation techniques used to determine the value of Level 3 Participants' Loans is based on amortized cost.

	Fair Value	Quoted Prices in Active Markets for Identical Assets/Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$ 1,595,333	$ -	$ 1,595,333	$ -
Fully Benefit Responsive Investment Contract	497,385	-	-	497,385
Participants' Loans	108,885	-	-	108,885
Total	$ 2,201,603	$ -	$ 1,595,333	$ 606,270

(The Effect of Level 3 Inputs on Net Assets or Liabilities)

	Balance at December 31, 2008	Total Gains or (Losses)	Purchases, Issuances, Settlements	Balance at December 31, 2009
Fully Benefit Responsive Investment Contract	$ 468,070	$ 12,164	$ 17,151	$ 497,385
Participants' Loans	101,669	-	7,216	108,885
Total	$ 569,739	$ 12,164	$ 24,367	$ 606,270

B Summary of Accounting Policies. (Cont'd.)

3 Investment Valuation and Income Recognition. (Cont'd.)

Investment interest from the Fully Benefit Responsive Investment Contract in the amount of $12,164 is included in the Statement of Changes in Net Assets Available for Benefits under the caption "Interest Income", for the year ended December 31, 2009.

The valuation techniques used to determine the value of the Level 3 investments are based on unobservable inputs such as investment valuations which require significant judgment. The valuation technique used by Standard Insurance Company to value the investment in the Benefit Responsive Investment Contract using Level 3 Inputs is based on contract value. Contract value represents contributions under the contract, plus earnings, less participant withdrawals and administrative expenses.

4 Payment of Benefits. Benefits are recorded when paid.

5 Subsequent Events. In preparing its financial statements, the Company has evaluated subsequent events through August 11, 2010, which is the date the financial statements were available to be issued.

C Plan Termination.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

D Tax Status.

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service and the plan sponsor believes that the Plan continues to qualify and to operate as designed. As of July 1, 2009, a restated 401(k) Profit Sharing Plan was put into place by the Company to be in compliance with the Internal Revenue Code.

E Risks and Uncertainties.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

F Investment Contract with Insurance Company.

The Plan entered into a benefit-responsive investment contract with Standard Life Insurance Company (Standard). Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the Statement of Net Assets Available for Benefits at fair value as discussed in Note B(3). The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by Standard. Contract value represents contributions under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008, was $497,385 and $468,070, respectively. The average yield and crediting interest rates for the years ended December 31, 2009 and 2008, were approximately 2.5% and 2.6%, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a monthly basis for resetting.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Standard. The plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with the Plan participants is not probable.

Standard Life Insurance Company is the custodian and the third party administrator, providing recordkeeping services, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees and commissions paid by the Plan for investment management and recordkeeping services amounted to $10,657 and $11,813, respectively, for the years ended December 31, 2009 and 2008.
