To Board of Trustees
Railroad Controls L.P. 401(k) Savings Plan

We have audited the financial statements of Railroad Controls L.P. 401(k) Savings Plan (the Plan) for the year ended December 31, 2009, and have issued our report thereon dated September 17, 2010. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter to you dated June 7, 2010. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Railroad Controls L.P. 401(k) Savings Plan are described in Note 2 to the financial statements. New accounting pronouncements are summarized in Note 2 to the financial statements. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate(s) affecting the financial statements was (were):

Management's estimate of the fair value of the guaranteed investment contract is based on the contract and market rates as determined by the insurance company. We evaluated the key factors and assumptions used to develop the fair value of the guaranteed investment contract in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure(s) affecting the financial statements was (were):

The disclosure of the fair value of investments in Note 4 to the financial statements is considered sensitive due to the nature of the guaranteed investment contract and the related disclosures.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 17, 2010.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors.

However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of Board of Trustees and management of Railroad Controls L.P. 401(k) Savings Plan and is not intended to be and should not be used by anyone other than these specified parties.

Yours truly,

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Railroad Controls L.P.
401(k) Savings Plan

We were engaged to audit the financial statements of Railroad Controls, L.P. 401(k) Savings Plan (the Plan) as of December 31, 2009 and 2008 and for the years then ended, and the supplementary data as of December 31, 2009 as listed in the table of contents. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure Under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the 2009 and 2008 investment information summarized in Note 3, which was certified by American United Life Insurance Company for 2009 and 2008, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplementary data. We have been informed by the administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2009 and 2008 financial statements and supplementary data taken as a whole. The form and content of the information included in the financial statements and supplementary data, other than that derived from the information certified by the custodian, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS**

NOTE 1. PLAN DESCRIPTION

The following description of the Railroad Controls L.P. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

Effective August 1, 1996, Railroad Controls L.P. (the Company) adopted a defined contribution plan covering all employees who have at least three months of service and are at least age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

American United Life Insurance Company is the custodian and record keeper of the Plan.

Plan Amendments

The Company signed an adoption agreement for American United Life Insurance Company Standardized 401(k) Profit Sharing Plan and Trust effectively amending the conditions of the Plan as of January 1, 2009. The amendment states that the Plan covers all employees who have at least three months of service and are at least age 18.

Contributions

Participants may defer up to 15% of their compensation, as defined, up to specified limits allowed by law. The Company may match a percentage of each participant's salary deferral contributions. Effective August 1, 1996, the Company matches 50% of the first 6% of participant salary deferrals.

Vesting

Participants are immediately vested in their contributions to the Plan and allocated earnings thereon. Participants are fully vested in employer contributions and allocated earnings thereon with three years or more of credited service. Additionally, a participant becomes 100% vested upon death, disability, or attainment of normal retirement. Effective August 1, 1996, the balance of forfeited contributions and earnings are used to reduce future employer contributions. Unallocated forfeitures at December 31, 2009 and 2008 were \$3,966 and \$8,391, respectively. Forfeitures of \$3,966 and \$8,391 were used to reduce the employer's contribution in 2009 and 2008, respectively.

Investment Options

Participants have the option of transferring their funds between investment options daily. Each participant's account is credited with his/her contributions and allocations of (a) the employer's contribution and (b) Plan earnings, and charged with the participant's distribution (when applicable) and an allocation of administrative expenses. On a quarterly basis, earnings of the Plan are allocated based on the participant's pro rata share of the total of all participants' accounts. Participants can direct contributions to any investment option.

**RAILROAD CONTROLS, L.P. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

NOTE 1. PLAN DESCRIPTION – CONTINUED

Distributions to Participants

Upon retirement, death, disability or termination of employment, a participant (or the participant's beneficiary, if applicable) will receive a lump sum distribution equaling their vested account balance. Participants may receive a hardship distribution from their vested account balances subject to certain limitations, as defined in the Plan. Included in net assets available for benefits at December 31, 2009 and 2008 is \$703,478 and \$516,783, respectively, related to participants that had withdrawn from the Plan whose accounts have not been liquidated.

Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all Plan assets would, at the discretion of the Company, either be distributed to the participants in the form of lump sum distributions in cash or would continue to be held in a trust fund to be distributed to each participant upon retirement, death, permanent disability, or termination of employment.

Income Tax Status

The U.S. Treasury Department has informed the Plan administrator that the Plan is qualified under Section 401(a) of the Internal Revenue Code and the Trust is, therefore, exempt from federal income taxes under the provisions of Section 401(a) of the Code.

Effective January 1, 2009, the Plan began to utilize different recognition thresholds and measurement requirements for uncertain tax positions when compared to prior technical literature. Pursuant to new guidance issued by the Financial Accounting Standards Board in June 2006, the Plan must recognize in its financial statements the financial effects of a tax position, if that position is more likely than not of being sustained upon examination, including resolution of any appeals or litigation processes, based upon the technical merits of the position. Similarly, the guidance also provides guidance on measurement, classification, interest and penalties and disclosure. Tax positions taken by the Plan have been reviewed, and management is of the opinion that material positions taken by the Plan would more likely than not be sustained by examination. Accordingly, the Plan has not recorded an income tax liability for uncertain tax benefits. As of December 31, 2009, the Plan tax years 2006 to 2008 remain subject to examination.

**RAILROAD CONTROLS, L.P. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investment Valuation

All investments at December 31, 2009 and 2008 are stated at fair value. The group annuity contracts are stated at contract value which approximates fair value.

Nature of Investment Contracts

The Plan provides an investment option to invest in a benefit-responsive guaranteed interest account with American United Life Insurance Company (AUL). AUL maintains the contributions in a general account. The contract is included in the financial statements at contract value as reported to the Plan. Contract value represents contributions made under the contracts, plus interest accrued at the current rate, less participant withdrawals and administrative expenses. Participant may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against the contract value of the group annuity contract-fixed option for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates ranged from approximately 4.0% and 4.0% for 2009 and 2008. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than a specified rate, which was 4.0% and 4.0% as of 2009 and 2008, respectively. Such interest rates are reviewed on an annual basis for resetting. The fair values of these contracts as of December 31, 2009 and 2008 approximates the contract value.

The group annuity contract promises contract value for a benefit event, such as termination, death, disability or retirement. However, there is a market value adjustment, which is also called a surrender charge, when funds are withdrawn prior to their maturity or for non-benefit event, such as withdrawal from the account for a change in investment option.

Investment Income

The net appreciation (depreciation) in fair value of investments includes realized and unrealized investment gains and losses. Realized gains or losses on the disposal of securities are determined on the basis of the average cost of securities sold, while unrealized gains or losses are determined on the basis of the cost of securities held at the end of the year.

Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Distributions to participants are recorded when paid.

Administrative Expenses

Administrative expenses not paid by the Company are paid by the Plan.

**RAILROAD CONTROLS, L.P. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncement

In June 2009, the FASB issued SFAS No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles, a Replacement of FASB Statement No. 162*. The FASB Accounting Standards Codification (Codification) will become the source of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. On the effective date of this standard, the Codification will supersede all then-existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the Codification will become non-authoritative. The provisions of the Codification became effective for the Plan for the year ending December 31, 2009. Implementation of this standard did not impact the financial statements or the results of operations.

NOTE 3. INVESTMENTS

The Plan held the following investments in a trust fund administered and certified by American United Life Insurance Company. In addition, the custodian certified investment income (loss) of \$364,741 and \$(644,649) for the years ended December 31, 2009 and 2008, respectively. All investments are participant-directed. * Individual investments greater than 5% of the Plan's net assets at December 31, 2009 and 2008, respectively.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4. FAIR VALUE MEASUREMENTS

In 2008, the Company adopted new accounting requirements that clarify the definition of fair value for financial reporting, establish a framework for measuring fair value, and require additional disclosures about the use of fair value measurements. GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

RAILROAD CONTROLS, L.P. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 4. FAIR VALUE MEASUREMENTS – CONTINUED

This fair value may be different than the settlement value based on company-specific inputs, such as credit rating, futures markets and forward curves, and readily available buyers or sellers for such assets or liabilities. GAAP also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The three levels of the fair value hierarchy are described below:

Level 1 inputs – Unadjusted, quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 inputs – Inputs (other than quoted market prices included within Level 1) that are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and fair value is determined through the use of models or other valuation techniques.

Level 3 inputs – Prices or valuations that require unobservable inputs that are both significant to the fair measurement and unobservable. Fair value for these investments are determined using valuation methodologies that consider a range of factors including but not limited to the nature of the investment, market conditions, current and projected operating performance and changes in operating characteristics of the investment.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Separate Account – Amounts allocated to the separate account are credited to a participant's account in the form of accumulation units. The value of an accumulation unit of any investment account is determined at the close of each business day and is directly related to the net asset value of the shares of the underlying investment adjusted for any dividends or distributions.

Guaranteed investment contract – Valued at the contributions made under the contracts, plus interest accrued at the current rate, less participant withdrawals and administrative expenses.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at that reporting date.

NOTE 5. SUBSEQUENT EVENTS

During the plan year ended December 31, 2009, the Plan implemented new general standards for accounting for and disclosures of events that occur after the balance sheet date but before financial statements are available to be issued. However, this did not impact the financial position or results of operations. The Plan evaluated all events or transactions that occurred after December 31, 2009, up through September 17, 2010, the date these financial statements were available to be issued. During this period, there were no material recognizable subsequent events.

December 31, 2009

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
