INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of the
Lewis Tree Service Save Money and Reduce Taxes (SMART) Plan

Report on the Financial Statements
We have audited the accompanying financial statements of the Lewis Tree Service Save Money and Reduce Taxes (SMART) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2016 and 2015, and the changes in net assets available for benefits for the year ended December 31, 2016, in accordance with accounting principles generally accepted in the United States of America.

Other Matter - Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2016 and schedule of delinquent participant contributions for the year ended December 31, 2016, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

LEWIS TREE SERVICE SAVE MONEY AND REDUCE TAXES (SMART) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016 AND 2015

Note 1 Description of Plan

General

The following brief description of the Lewis Tree Service Save Money and Reduce Taxes (SMART) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan was established effective September 1, 1989 and is a defined contribution plan which covers certain salaried and hourly employees of Lewis Tree Service, Inc. and other related employers (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

The Plan is administered by a Benefits Committee (the Committee) elected by the Board of Directors (the Board) of the Company. The Committee is composed of at least three members. The Plan Administrator, as selected by the Committee, is a member of the Committee. The trustee of the Plan is Fidelity Management Trust Company (the Trustee), a subsidiary of FMR Corp. (FMR).

Participation

All employees over the age of 21 that are not a member of a collective bargaining unit, except the International Brotherhood of Electrical Workers (Local Union 42 and Local Union 3) and the Utility Workers Union of America AFL - CIO Local 1-2 (Local Union 1-2), are eligible to participate in the Plan upon completion of 6 months of continuous service. Participation commences on the first entry date, as defined in the Plan document, following attainment of eligibility requirements.

Contributions

Upon enrollment in the Plan, participants may contribute from 1% to 60% of their pre-tax earnings to the Plan, subject to statutory limitations. Employee contributions are allocated between investment options at the discretion of the participant.

Effective March 26, 2010, the Company signed a new contract with Local Union 42 requiring the Company to make an employer contribution. Effective January 29, 2012, the contribution is equal to 2% of each participant’s gross wages.

Effective January 1, 2012, the Company signed a new contract with Local Union 1-2 requiring the Company to make an employer contribution. Effective December 29, 2013, the employer contribution is equal to 50% of the first 5% contributed by the employee.

The Plan also allows for discretionary employer contributions. The Company has elected not to make any discretionary contributions to the Plan since December 31, 1998.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016 AND 2015

Note 1 **Description of Plan - Continued**

Vesting
Participants are 100% vested in their contributions, matching employer contributions and earnings thereon. Prior to February 25, 2016, participants vested in matching employer contributions after three years of service.

Normal retirement date is the first day of the month following a participant's 65th birthday. Upon retirement, disability, or death, participants automatically become 100% vested, and the total amounts allocated to their accounts shall be distributed to them in accordance with plan provisions.

Payment of Benefits
The Plan provides for normal retirement benefits upon reaching the age of 65 and has provisions for disability, death and termination benefits for those participants who are eligible to receive such benefits. A participant may elect either a lump sum distribution or installment payments. Withdrawals upon attainment of age 59 ½ or for hardship are permitted by the Plan, provided the participant is still employed by the Company at that time.

Plan Termination
Although it is the expressed intention of the Company to continue the Plan for an indefinite period of time, the Company reserves the right to terminate the Plan at any time. In the event of Plan termination, participants will become 100% vested in the amounts credited to their accounts and the net assets will be distributed as prescribed by ERISA.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the highest outstanding loan balance in previous 12 month period or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 3% above the prime rate. Principal and interest are paid ratably through payroll deductions.

Forfeitures
In accordance with the Plan document, forfeitures can be used to pay the expenses of the Plan or to reduce future employer contributions. The Plan had a forfeiture balance of $59,549 and $51,798 at December 31, 2016 and 2015, respectively.

Note 1 **Description of Plan - Continued**

Investments
A participant has the option to direct employee and employer contributions into any of twenty investment options.

Fidelity Fund – A growth and income fund which seeks long-term capital growth. The fund invests mainly in common stock of large, well-established companies in a variety of industries.

Fidelity Contrafund – A growth fund which seeks long-term capital appreciation by investing mainly in the securities of companies believed to be out of favor or undervalued, many of which are small companies. The stock of small companies may be subject to more frequent and greater price changes than other companies.

Fidelity Growth Company Fund – A growth fund which seeks long-term capital appreciation by investing primarily in common stocks and securities convertible into common stocks. Growth is most often sought in smaller, less well-known companies in emerging areas of the economy.

Fidelity Growth & Income Portfolio – A growth and income fund which seeks high total return through a combination of current income and capital appreciation. It invests primarily in U.S. and foreign stocks, focusing on those that pay current dividends and offer potential growth of earnings.

Fidelity Government Income Fund – An income fund which seeks a high level of current income consistent with preservation of principal. The Fund invests primarily in securities issued by U.S. government agencies.

Fidelity Money Market Retirement Government II – A money market fund which seeks as high a level of current income as is consistent with the preservation of capital and liquidity. It invests primarily in high quality, short-term securities of the U.S. government, and is a relatively conservative, low-risk investment.

Fidelity Puritan Fund – A balanced mutual fund which seeks as much income as possible, consistent with preservation of capital, by investing in a broadly diversified portfolio of domestic and foreign common stocks, preferred stocks, and bonds, including lower-quality, high-yield debt securities.

Fidelity Low-Priced Stock Fund – A growth fund which seeks capital appreciation and invests mainly in U.S. and foreign low-priced stocks that may be undervalued, overlooked, or out of favor. These often are stocks of smaller, less well-known companies and may be subject to erratic price changes.

Note 1 **Description of Plan - Continued**

Investments - Continued

Fidelity Diversified International Fund – An international fund which seeks capital growth by investing primarily in equity securities of companies located anywhere outside the U.S.

Fidelity Value Fund – A growth fund which seeks to provide capital appreciation that normally invests primarily in common stock. The Fund invests in securities of companies that possess valuable fixed assets or that FMR believes are undervalued in relation to factors such as assets, earnings, or growth potential.

Fidelity Mid-Cap Stock Fund – A growth fund which seeks to provide long-term growth of capital. The Fund normally invests at least 80% of total assets in common stocks of companies with medium market capitalizations. The Fund may potentially invest in companies with smaller or larger market capitalizations.

Fidelity Small-Cap Stock Fund – A growth fund which seeks to provide long-term growth of capital. The Fund normally invests at least 80% of total assets in common stocks of companies with small market capitalizations.

Oakmark International I Fund – A foreign blend fund which seeks long-term capital appreciation by investing primarily in a diversified portfolio of common stocks of non-U.S. companies.

Fidelity Small-Cap Value Fund – An income fund which seeks to provide capital appreciation by investing primarily in common stocks. The Fund normally invests at least 80% of assets in securities of companies with small market capitalizations, which are believed to be undervalued in the marketplace in relation to factors such as assets, sales, earnings, growth potential or cash flows.

Fidelity Short-Term Bond Fund – An income fund which seeks to provide a high level of current income that is consistent with the preservation of capital. The Fund normally invests at least 80% of total assets in investment-grade debt securities (those of medium and high-quality).

Fidelity Equity Income Fund – An income fund which seeks a yield that exceeds the yield of the S&P 500, which is composed of common stocks. The Fund normally invests at least 80% of assets in income producing equity securities.

Note 1 **Description of Plan - Continued**

Investments - Continued

Fidelity Freedom Funds – Income funds which seek high current income and capital appreciation. The Funds invest in a combination of Fidelity equity, fixed-income, and short-term funds, using a moderate allocation strategy, designed for investors already in retirement or expected to retire around certain target dates.

PIMCO Real Return Bond Fund – An income fund which seeks maximum real return. The fund normally invests at least 80% of net assets in inflation-induced bonds of varying maturities and is non-diversified.

T. Rowe Price Dividend Growth Advantage Fund – A growth and income fund which seeks to provide increasing dividend income over time, long-term growth of capital, and a reasonable level of current income through investments primarily in dividend paying stocks.

Fidelity 500 Index Fund – A mutual fund which seeks to provide investment results that correspond to the total return of common stocks publicly traded in the United States. The Fund normally invests at least 80% of total assets in common stocks included in the S&P 500 Index.

Administrative Expenses
The Company pays all administrative expenses of the Plan with the exception of loan transaction fees, which are paid by the respective participants.

Note 2 **Summary of Significant Accounting Policies**

Basis of Accounting
The financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Subsequent Events
In preparing the financial statements, management has evaluated events and transactions for potential recognition or disclosure through October 13, 2017, the date that the financial statements were available to be issued.

Use of Estimates
The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 **Summary of Significant Accounting Policies - Continued**

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties
The Plan invests in investment securities, which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these securities, it is at least reasonably possible that changes in their values will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of Benefits
Benefit distributions are recorded when paid.

Note 3 **Investment Valuation and Income Recognition**
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan follows the fair value measurement guidance required by accounting principles generally accepted in the United States of America for financial and nonfinancial assets and liabilities. This guidance defines fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements.) The three levels of fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 3 **Investment Valuation and Income Recognition - Continued**

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Registered Investment Companies: These investments are valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Money Market Fund: Valued at the NAV of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

2016

	Level 1	**Level 2**	**Total**
Registered Investment Companies	**$ 23,311,318**	**$ -**	**$ 23,311,318**
Money Market Fund	**-**	**1,608,827**	**1,608,827**
Total Investments at Fair Value	**$ 23,311,318**	**$ 1,608,827**	**$ 24,920,145**

2015

	Level 1	**Level 2**	**Total**
Registered Investment Companies	$ 19,484,871	$ -	$ 19,484,871
Money Market Fund	-	1,683,119	1,683,119
Total Investments at Fair Value	$ 19,484,871	$ 1,683,119	$ 21,167,990

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 4 **Party-in-Interest Transactions**

Certain Plan investments are funds maintained and managed by the Trustee. The Trustee qualifies as a party-in-interest and transactions involving these investments qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.

Note 5 **Tax Status**

The Plan has adopted a volume submitter profit sharing plan sponsored by Fidelity. The volume submitter profit sharing plan document received its latest determination letter, dated March 31, 2014, from the Internal Revenue Service (IRS). In the determination letter, the IRS stated that the volume submitter profit sharing plan is in compliance with the applicable requirements of the IRC. The volume submitter profit sharing plan's opinion letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the Internal Revenue Code. As of the date of these financial statements, the Plan has not completed the operational compliance testing for the 2016 plan year.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 **Prohibited Transactions**

During 2016, 2015, 2014, 2013, 2012 and 2011 the Company failed to deposit $727,258, $137,423, $14,670, $86,534, $171,095, and $432,858, respectively, of participant deferrals within the required timeframe as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. During 2016, the Company corrected the 2011 - 2015 late deposits outside of the DOL's Voluntary Fiduciary Correction Program (VCFP). The Company is working to correct the 2016 late deposits and is expecting to complete this during 2017.

INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of the
Lewis Tree Service Save Money and Reduce Taxes (SMART) Plan

Report on the Financial Statements
We have audited the accompanying financial statements of the Lewis Tree Service Save Money and Reduce Taxes (SMART) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2016 and 2015, and the changes in net assets available for benefits for the year ended December 31, 2016, in accordance with accounting principles generally accepted in the United States of America.

Other Matter - Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2016 and schedule of delinquent participant contributions for the year ended December 31, 2016, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

LEWIS TREE SERVICE SAVE MONEY AND REDUCE TAXES (SMART) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016 AND 2015

Note 1 Description of Plan

General

The following brief description of the Lewis Tree Service Save Money and Reduce Taxes (SMART) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan was established effective September 1, 1989 and is a defined contribution plan which covers certain salaried and hourly employees of Lewis Tree Service, Inc. and other related employers (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

The Plan is administered by a Benefits Committee (the Committee) elected by the Board of Directors (the Board) of the Company. The Committee is composed of at least three members. The Plan Administrator, as selected by the Committee, is a member of the Committee. The trustee of the Plan is Fidelity Management Trust Company (the Trustee), a subsidiary of FMR Corp. (FMR).

Participation

All employees over the age of 21 that are not a member of a collective bargaining unit, except the International Brotherhood of Electrical Workers (Local Union 42 and Local Union 3) and the Utility Workers Union of America AFL - CIO Local 1-2 (Local Union 1-2), are eligible to participate in the Plan upon completion of 6 months of continuous service. Participation commences on the first entry date, as defined in the Plan document, following attainment of eligibility requirements.

Contributions

Upon enrollment in the Plan, participants may contribute from 1% to 60% of their pre-tax earnings to the Plan, subject to statutory limitations. Employee contributions are allocated between investment options at the discretion of the participant.

Effective March 26, 2010, the Company signed a new contract with Local Union 42 requiring the Company to make an employer contribution. Effective January 29, 2012, the contribution is equal to 2% of each participant’s gross wages.

Effective January 1, 2012, the Company signed a new contract with Local Union 1-2 requiring the Company to make an employer contribution. Effective December 29, 2013, the employer contribution is equal to 50% of the first 5% contributed by the employee.

The Plan also allows for discretionary employer contributions. The Company has elected not to make any discretionary contributions to the Plan since December 31, 1998.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016 AND 2015

Note 1 **Description of Plan - Continued**

Vesting
Participants are 100% vested in their contributions, matching employer contributions and earnings thereon. Prior to February 25, 2016, participants vested in matching employer contributions after three years of service.

Normal retirement date is the first day of the month following a participant's 65th birthday. Upon retirement, disability, or death, participants automatically become 100% vested, and the total amounts allocated to their accounts shall be distributed to them in accordance with plan provisions.

Payment of Benefits
The Plan provides for normal retirement benefits upon reaching the age of 65 and has provisions for disability, death and termination benefits for those participants who are eligible to receive such benefits. A participant may elect either a lump sum distribution or installment payments. Withdrawals upon attainment of age 59 ½ or for hardship are permitted by the Plan, provided the participant is still employed by the Company at that time.

Plan Termination
Although it is the expressed intention of the Company to continue the Plan for an indefinite period of time, the Company reserves the right to terminate the Plan at any time. In the event of Plan termination, participants will become 100% vested in the amounts credited to their accounts and the net assets will be distributed as prescribed by ERISA.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the highest outstanding loan balance in previous 12 month period or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 3% above the prime rate. Principal and interest are paid ratably through payroll deductions.

Forfeitures
In accordance with the Plan document, forfeitures can be used to pay the expenses of the Plan or to reduce future employer contributions. The Plan had a forfeiture balance of $59,549 and $51,798 at December 31, 2016 and 2015, respectively.

Note 1 **Description of Plan - Continued**

Investments
A participant has the option to direct employee and employer contributions into any of twenty investment options.

Fidelity Fund – A growth and income fund which seeks long-term capital growth. The fund invests mainly in common stock of large, well-established companies in a variety of industries.

Fidelity Contrafund – A growth fund which seeks long-term capital appreciation by investing mainly in the securities of companies believed to be out of favor or undervalued, many of which are small companies. The stock of small companies may be subject to more frequent and greater price changes than other companies.

Fidelity Growth Company Fund – A growth fund which seeks long-term capital appreciation by investing primarily in common stocks and securities convertible into common stocks. Growth is most often sought in smaller, less well-known companies in emerging areas of the economy.

Fidelity Growth & Income Portfolio – A growth and income fund which seeks high total return through a combination of current income and capital appreciation. It invests primarily in U.S. and foreign stocks, focusing on those that pay current dividends and offer potential growth of earnings.

Fidelity Government Income Fund – An income fund which seeks a high level of current income consistent with preservation of principal. The Fund invests primarily in securities issued by U.S. government agencies.

Fidelity Money Market Retirement Government II – A money market fund which seeks as high a level of current income as is consistent with the preservation of capital and liquidity. It invests primarily in high quality, short-term securities of the U.S. government, and is a relatively conservative, low-risk investment.

Fidelity Puritan Fund – A balanced mutual fund which seeks as much income as possible, consistent with preservation of capital, by investing in a broadly diversified portfolio of domestic and foreign common stocks, preferred stocks, and bonds, including lower-quality, high-yield debt securities.

Fidelity Low-Priced Stock Fund – A growth fund which seeks capital appreciation and invests mainly in U.S. and foreign low-priced stocks that may be undervalued, overlooked, or out of favor. These often are stocks of smaller, less well-known companies and may be subject to erratic price changes.

Note 1 **Description of Plan - Continued**

Investments - Continued

Fidelity Diversified International Fund – An international fund which seeks capital growth by investing primarily in equity securities of companies located anywhere outside the U.S.

Fidelity Value Fund – A growth fund which seeks to provide capital appreciation that normally invests primarily in common stock. The Fund invests in securities of companies that possess valuable fixed assets or that FMR believes are undervalued in relation to factors such as assets, earnings, or growth potential.

Fidelity Mid-Cap Stock Fund – A growth fund which seeks to provide long-term growth of capital. The Fund normally invests at least 80% of total assets in common stocks of companies with medium market capitalizations. The Fund may potentially invest in companies with smaller or larger market capitalizations.

Fidelity Small-Cap Stock Fund – A growth fund which seeks to provide long-term growth of capital. The Fund normally invests at least 80% of total assets in common stocks of companies with small market capitalizations.

Oakmark International I Fund – A foreign blend fund which seeks long-term capital appreciation by investing primarily in a diversified portfolio of common stocks of non-U.S. companies.

Fidelity Small-Cap Value Fund – An income fund which seeks to provide capital appreciation by investing primarily in common stocks. The Fund normally invests at least 80% of assets in securities of companies with small market capitalizations, which are believed to be undervalued in the marketplace in relation to factors such as assets, sales, earnings, growth potential or cash flows.

Fidelity Short-Term Bond Fund – An income fund which seeks to provide a high level of current income that is consistent with the preservation of capital. The Fund normally invests at least 80% of total assets in investment-grade debt securities (those of medium and high-quality).

Fidelity Equity Income Fund – An income fund which seeks a yield that exceeds the yield of the S&P 500, which is composed of common stocks. The Fund normally invests at least 80% of assets in income producing equity securities.

Note 1 **Description of Plan - Continued**

Investments - Continued

Fidelity Freedom Funds – Income funds which seek high current income and capital appreciation. The Funds invest in a combination of Fidelity equity, fixed-income, and short-term funds, using a moderate allocation strategy, designed for investors already in retirement or expected to retire around certain target dates.

PIMCO Real Return Bond Fund – An income fund which seeks maximum real return. The fund normally invests at least 80% of net assets in inflation-induced bonds of varying maturities and is non-diversified.

T. Rowe Price Dividend Growth Advantage Fund – A growth and income fund which seeks to provide increasing dividend income over time, long-term growth of capital, and a reasonable level of current income through investments primarily in dividend paying stocks.

Fidelity 500 Index Fund – A mutual fund which seeks to provide investment results that correspond to the total return of common stocks publicly traded in the United States. The Fund normally invests at least 80% of total assets in common stocks included in the S&P 500 Index.

Administrative Expenses
The Company pays all administrative expenses of the Plan with the exception of loan transaction fees, which are paid by the respective participants.

Note 2 **Summary of Significant Accounting Policies**

Basis of Accounting
The financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Subsequent Events
In preparing the financial statements, management has evaluated events and transactions for potential recognition or disclosure through October 13, 2017, the date that the financial statements were available to be issued.

Use of Estimates
The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 **Summary of Significant Accounting Policies - Continued**

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties
The Plan invests in investment securities, which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these securities, it is at least reasonably possible that changes in their values will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of Benefits
Benefit distributions are recorded when paid.

Note 3 **Investment Valuation and Income Recognition**
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan follows the fair value measurement guidance required by accounting principles generally accepted in the United States of America for financial and nonfinancial assets and liabilities. This guidance defines fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements.) The three levels of fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 3 **Investment Valuation and Income Recognition - Continued**

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Registered Investment Companies: These investments are valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Money Market Fund: Valued at the NAV of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

2016

	Level 1	**Level 2**	**Total**
Registered Investment Companies	**$ 23,311,318**	**$ -**	**$ 23,311,318**
Money Market Fund	**-**	**1,608,827**	**1,608,827**
Total Investments at Fair Value	**$ 23,311,318**	**$ 1,608,827**	**$ 24,920,145**

2015

	Level 1	**Level 2**	**Total**
Registered Investment Companies	$ 19,484,871	$ -	$ 19,484,871
Money Market Fund	-	1,683,119	1,683,119
Total Investments at Fair Value	$ 19,484,871	$ 1,683,119	$ 21,167,990

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 4 **Party-in-Interest Transactions**

Certain Plan investments are funds maintained and managed by the Trustee. The Trustee qualifies as a party-in-interest and transactions involving these investments qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.

Note 5 **Tax Status**

The Plan has adopted a volume submitter profit sharing plan sponsored by Fidelity. The volume submitter profit sharing plan document received its latest determination letter, dated March 31, 2014, from the Internal Revenue Service (IRS). In the determination letter, the IRS stated that the volume submitter profit sharing plan is in compliance with the applicable requirements of the IRC. The volume submitter profit sharing plan's opinion letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the Internal Revenue Code. As of the date of these financial statements, the Plan has not completed the operational compliance testing for the 2016 plan year.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 **Prohibited Transactions**

During 2016, 2015, 2014, 2013, 2012 and 2011 the Company failed to deposit $727,258, $137,423, $14,670, $86,534, $171,095, and $432,858, respectively, of participant deferrals within the required timeframe as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. During 2016, the Company corrected the 2011 - 2015 late deposits outside of the DOL's Voluntary Fiduciary Correction Program (VCFP). The Company is working to correct the 2016 late deposits and is expecting to complete this during 2017.
