Independent Auditor's Report

To the Administrative Committee of the
Mitchell Martin, Inc. 401(k) Profit Sharing Plan,

Report on the Financial Statements

We were engaged to audit the accompanying Statements of Net Assets Available for Benefits (Modified Cash Basis) of Mitchell Martin, Inc. 401(k) Profit Sharing Plan as of December 31, 2016 and 2015, and the related Statement of Changes in Net Assets Available for Benefits (Modified Cash Basis) and supplemental schedules for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D which was certified by Principal Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2016 and 2015 and for the year ended December 31, 2016, that the information provided to the plan administrator by the trustee is complete and accurate.

As described in Note B, these financial statements and supplemental schedules were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Assets Held for Investment Purposes, Assets Both Acquired and Disposed Within the Plan Year, and Delinquent Participant Contributions as of and for the year ended December 31, 2016, which are the responsibility of plan management, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A - Description of Plan

Mitchell Martin, Inc. (the Company) established the Mitchell Martin, Inc. 401(k) Profit Sharing Plan (the Plan). The Plan was originally effective as of June 1, 1984 and was amended by the Company as of July 1, 2014. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full time employees of the Company who are age twenty-one and over and have completed 30 days of employment. Part-time employees are also covered by the Plan in the event that they are working approximately 20 hours per week. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective July 1, 2014, employees were automatically enrolled in the Plan at a 4 percent deferral rate as soon as they become eligible for participation. Employees must opt out if they wish not to participate in the Plan.

Employee Contributions

The Plan provides for employee elective salary deferral contributions under Section 401(k) of the Internal Revenue Code. Participants have the option of having up to 75 percent of their annual pre-tax compensation "deferred" and contributed to the Plan instead of being received currently, subject to the maximum annual limitation prescribed by the Internal Revenue Service ($18,000 for calendar years 2016 and 2015). Additional "catch up" contributions of $6,000 for calendar years 2016 and 2015 can also be made by participants age 50 or older.

Employer Contributions

The Company may make non-elective contributions to the Plan as decided on a year by year basis. No non-elective contributions were made by the Company to the Plan for the years ended December 31, 2016 and 2015.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' non-vested accounts and charged with an allocation of investment losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their elective salary deferral contributions plus actual earnings thereon. Participants are also immediately vested in qualified nonelective contributions allocated to their accounts, if applicable, and rollover contributions. Vesting in the Company's nonelective contribution portion of their accounts, if any, is based on years of continuous service, with increments of 20% between the second and sixth years. A participant is 100% vested after six years of credited service.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan transactions are treated as a transfer to (from) participant funds. Loan terms range from 6 months to 5 years with longer terms available for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates for similarly secured loans (ranging from 3.25% to 3.75% for loans outstanding as of December 31, 2016). Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service, participants with vested balances over $5,000 may elect to receive benefits in one of the following forms: (a) a lump-sum amount equal to the value of his or her account; (b) monthly installments over a period not extending beyond the life expectancy of the participant or the joint life expectancy of the participant and a designated individual; or (c) the purchase of an annuity. If participants with vested balances over $5,000 do not make an election after 60 days, then the vested balance will stay in the Plan as vested terminated status. For vested balances of $1,000-$5,000, the participant has 60 days to make an election, otherwise an IRA account will be created and the balance rolled into the account. For vested balances less than $1,000, the vested balance is automatically paid in a single sum. Participants are then required to comply with Federal laws pertaining to individual retirement account rollovers.

Risks and Uncertainties

The Plan provides for various investment annuity contracts with any underlying combination of stock funds, bond funds, fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the modified cash method of accounting. Under this method, employee loan principal repayments are recorded when received by the Plan. All other significant accounting policies are in conformity with generally accepted accounting principles.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Certification

The Principal Life Insurance Company has certified that the transactions and list of securities it has provided to the Company are complete and accurate. The information was provided on the modified cash basis of accounting.

Investment Valuation

Investments in separate accounts (pooled funds), collective investment trusts, and insurance company guaranteed interest accounts under group annuity contracts are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements. Participant loans are valued at cost which approximates fair value.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 3, 2017, the date the financial statements were available to be issued.

Note C - Investment Contract with Insurance Company

During the plan year ended December 31, 1998, the Plan entered into a group annuity contract with the Principal Life Insurance Company, which maintains contributions either in separate account investments (pooled accounts), a collective investment trust, or in insurance company general Guaranteed Interest Investment accounts. Investment options under separate accounts allow for investment among approximately 24 different mutual funds sub-advised by various mutual fund managers.

Participant sub-accounts are self directed and include their deferrals and any employer matching contributions. Each participant's account is credited with actual earnings on the underlying investments and is reduced by participant withdrawals, investment depreciation, and administrative expenses charged by the Principal Life Insurance Company.

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

Investments	2016	2015
Pooled Separate Accounts	$ 12,785,432	$ 10,251,432
Collective Investment Trust, at contract value	$ 830,942	$ 636,516
Guaranteed Interest Contracts	$ -	$ 51,301

Note D - Investments

The Plan's investments consist of separate accounts (pooled accounts) under a group annuity contract, a collective investment trust, and guaranteed interest contracts.

The following table presents investments at fair value. Investments that represent 5% or more of the Plan's net assets as of December 31, 2016 and 2015 are separately identified.

Participant Directed Investments:

Investment in separate accounts (pooled funds) under group annuity contracts

	2016	2015

	2015	2014
Principal Stable Value Fund Guaranteed Interest	$ 830,942	$ 638,194

* Balance was less than 5% of the Plan's net assets available for Plan benefits.

During the Plan year ended December 31, 2016, the Plan's investments (including investments bought, sold and held during the year) appreciated by $1,049,871.

Note E - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1), and the lowest priority to unobservable inputs that are supported by little or no market activity (Level 3). The three levels of the fair value hierarchy under the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "*Fair Value Measurements and Disclosures*" are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- ◊ Quoted prices for similar assets or liabilities in active markets;
- ◊ Quoted prices for identical or similar assets or liabilities in inactive markets;
- ◊ Inputs other than quoted prices that are observable for the asset or liability;
- ◊ Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Shares in pooled separate accounts, common collective investment trusts, and registered investment companies are valued at the net asset value of the units held by the Plan at year end, which approximates fair value.

Notes receivable from participants are valued at their outstanding balances plus any accrued interest, which approximates fair value.

The Guaranteed Interest Accounts are presented at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair values as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Shares in pooled separate accounts	$ -	$12,785,432	$ -	$12,785,432
Collective investment trust	-	830,942	-	830,942
Guaranteed interest accounts	-	-	-	-
Total, at fair value	$ -	$13,616,374	$ -	$13,616,374

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair values as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Shares in pooled separate accounts	$ -	$10,251,432	$ -	$10,251,432
Collective investment trust	-	638,194	-	638,194
Guaranteed interest accounts	-	-	51,301	51,301
Total, at fair value	$ -	$10,889,626	$ 51,301	$10,940,927

The table below sets forth a summary of changes in fair value of the Plan's Level 3 assets for the years ended December 31, 2016 and 2015.

	2016	2015
Balance, beginning of year	$ 51,301	$ 80,832
Unrealized gains (losses)	-	338
Interest credited	-	52
Purchases	-	-
Sales	-	(29,921)
Rollovers	(51,301)	-
Balance, end of year	$ -	$ 51,301

Note F - Guaranteed Investment Contract with Principal Life Insurance

In 2005, the Plan entered into a non-benefit-responsive guaranteed investment contract with Principal Life Insurance (Principal). Principal maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

The guaranteed interest account promised contract value for a benefit event (termination, death, disability, and retirement); however, there is a possible surrender charge when funds are withdrawn prior to their maturity. Thus, the guaranteed interest account is considered non-benefit-responsive.

The guaranteed investment contract matured on December 31, 2015. As a result, the balance of $51,301 was rolled into the Principal Stable Value Fund on January 1, 2016, which is presented on the face of the statement of net assets available for benefits at fair value which approximates contract value.

Note G - Investment in Principal Stable Value Fund

The Principal Stable Value Fund is a stable value fund that is a common/collective trust fund, and is considered a benefit responsive investment contract. The fund may invest in synthetic investment contracts, with underlying investments in asset-backed securities, corporate bonds, mortgage-backed securities, money market instruments, and other fixed income securities. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals and administrative expenses.

The statements of net assets available for benefits present an investment contract at fair value, as well as an additional line item showing an adjustment of the fully benefit-responsive contract from fair value to contract value. Fair value of the contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

The Fund's crediting rate is the effective annual rate of interest credited to an individual Stable Value Investment Contract, using the equivalent daily rate. It is calculated based on the blended crediting rates of all the Stable Value Investment Contracts and other assets held by the Fund.

The average yield at fair value and weighted average crediting rate for the Principal Stable Value fund at December 31, 2016 and 2015 are as follows:

	2016	2015
Average yield at fair value:	1.99%	1.92%
Weighted average crediting rate:	1.77%	1.68%

The creditworthiness of any Stable Value Investment Contract issuer may deteriorate, which could result in the loss of book value accounting under the contract due to accounting rules and standards, possible loss of book value coverage as a result of a breach of the contract's terms, or the possibility that the Stable Value Investment Contract provider defaults on its other obligations under the contract. The Fund may not be able to obtain sufficient additional or replacement Stable Value Investment Contracts, which could result in a reduction of the crediting rate if Fund assets remain in cash. In addition, Stable Value Investment Contract issuers may not provide contract coverage for certain events that present a risk of large Fund redemptions. The events include: complete or partial plan termination or merger with another plan; failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; transfer of assets from the Fund directly into a competing investment option; or any communication given to Plan participants designed to influence a participant not to invest in the Fund or to transfer assets out of the Fund. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value is not probable.

Note H - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balances.

Note I - Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and accordingly, the trust's net investment income is exempt from income taxes.

The Plan obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was acceptable in form as to compliance with applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by Federal or State taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

Note J - Administrative Expenses

For the Plan years ended December 31, 2016, and 2015 record keeping fees of $23,888 and $20,136, respectively, were paid by the Plan while all other trust, accounting, and other fees were paid by the Plan sponsor.

Note K - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note L - Parties in Interest

Mitchell Martin, Inc. is the plan sponsor of the Plan. The Principal Financial Group, which is the parent company of Union Bond & Trust Company, is the custodian of the Plan and holds the Plan assets. Rosemarie Giovinazzo-Barnickel, CPA and Potter & LaMarca LLP are the auditors of the Plan for the years ended December 31, 2017 and 2016, respectively. Therefore, they constitute parties in interest to the Plan.

Note M - Prohibited Transactions

During the year ended December 31, 2013, the Company failed to remit $146,059 of participant contributions and $5,806 of loan repayments to the Plan within the time period prescribed by the Department of Labor regulations. The failure to remit participant contributions and loan repayments to the Plan on a timely basis represents a prohibited transaction under ERISA. All delinquent contributions have since been paid into the Plan. The Company has filed the IRS Form 5330 for the year ended December 31, 2013 and has paid the related excise taxes. However, the Company did not apply the lost earnings on the untimely contributions in the amount of $58 until 2017. As a result, the amount is reported in the Schedule of Delinquent Participant Contributions.

During the year ended December 31, 2015, the Company failed to remit $69,894 of participant contributions and $1,084 of loan repayments to the Plan within the time period prescribed by the Department of Labor regulations. The failure to remit participant contributions and loan repayments to the Plan on a timely basis represents a prohibited transaction under ERISA. The Company has filed the IRS Form 5330 for the year ended December 31, 2015 and has paid the related excise taxes as of the date of the auditor's report. However, the Company did not apply the lost earnings on the untimely contributions in the amount of $46 until 2016. As a result, the amount is reported in the Schedule of Delinquent Participant Contributions.
