Report of Independent Auditors

To the Participants and Benefit Plans Committee of the
Telex Communications, Inc. Employees' Pension Plan

We were engaged to audit the financial statements and supplemental schedules of the Telex Communications, Inc. Employees' Pension Plan (the "Plan") at December 31, 2009 and 2008 and for the years then ended, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by U.S. Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Telex Communications, Inc.
Employees' Pension Plan
Notes to Financial Statements
December 31, 2009 and 2008

1. Description of the Plan

The following brief description of the Telex Communications, Inc. Employees' Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description.

General

The Plan is a noncontributory cash-balance defined benefit plan covering substantially all employees of Telex Communications, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was frozen effective July 1, 2003, and employees hired after June 30, 2003, do not participate in the Plan.

Plan Operations

The Company is the plan sponsor and plan administrator and appointed U.S. Bank, N.A. as trustee of the Plan ("Trustee"). The Trustee holds and invests the assets of the Plan and also distributes the pension benefits upon instruction from the Company. Plan administrative costs are paid from the Plan's assets.

Eligibility

All eligible employees of the Company prior to the Plan being frozen could participate in the Plan after completing 1,000 hours of service during 12 calendar months. An eligible employee is an employee who is either a United States citizen or resident but is not an employee who is covered by a collective bargaining agreement, a leased employee, or an employee who regularly receives payment outside the United States.

Funding

The Company's funding policy is to make contributions to the Plan as determined by the Plan's independent actuary, Retirement Plan Actuaries for 2008 and Towers Watson for 2009. No voluntary employee contributions are permitted. The Plan has complied with the minimum funding requirements of ERISA for 2009 and 2008.

Benefits and Vesting

Effective July 1, 1999, a nominal, hypothetical bookkeeping account is maintained on behalf of the participants. After the establishment of an initial account balance, the participant's hypothetical account is credited with pay credits and interest credits. The initial account balance was determined by actuaries using specific actuarial assumptions. Benefits are paid to participants in a single life annuity, joint and survivor annuity, or lump sum.

Effective June 30, 2003, the Board of Directors of the Company voted to freeze the Plan. Active participants are no longer eligible to receive future pay credits, although they continue to vest and earn interest credits on their account balances. All participants were fully vested at December 31, 2009.

Administrative Expenses

All administrative expenses are paid by the Plan to the extent they are not paid by the Company.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Benefit Payments

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Marketable securities of the Plan are stated at fair value. Securities such as common stock, preferred stock, and real estate investments trusts, traded on a national securities exchange are valued at the last reported sales price on the last business day of the Plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices. The fair value of investments in registered investment companies is based on the net asset value per fund share, derived from quoted prices in active markets of the underlying securities. Fixed income securities such as corporate debt instruments and U.S. government securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for bonds, the bond is valued using matrix pricing or models from reputable pricing vendors.

Investment transactions of the Plan are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Adoption of New Accounting Pronouncements

The accounting standards described below that were adopted in 2009 affected certain note disclosures but did not impact the statements of net assets available for benefits or the statement of changes in net assets available for benefits.

Fair Value Measurements

In April 2009, the Financial Accounting Standards Board ("FASB") issued authoritative guidance clarifying that fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants under current market conditions. This new guidance requires an evaluation of whether there has been a significant decrease in the volume and level of activity for the asset or liability in relation to normal market activity for the asset or liability. This guidance was adopted for the year ended December 31, 2009. The adoption of this guidance did not result in a significant change in the techniques used by the Plan to measure the fair value of its investments.

Notes to Financial Statements
December 31, 2009 and 2008

In August 2009, the FASB issued authoritative guidance clarifying the measurement of the fair value of a liability in circumstances when a quoted price in an active market for an identical liability is not available. The guidance emphasizes that entities should maximize the use of observable inputs in the absence of quoted prices when measuring the fair value of liabilities. This guidance became effective for the Plan as of October 31, 2009 and did not have a significant impact on the Plan.

In January 2010, the FASB issued authoritative guidance intended to improve disclosures about fair value measurements. The guidance requires entities to disclose significant transfers in and out of fair value hierarchy levels and reasons for the transfers and to present information about purchases, sales, issuances and settlements separately in the reconciliation of fair value measurements using significant unobservable inputs (Level 3). Additionally, the guidance clarifies that a reporting entity should provide fair value measurements for each class of assets and liabilities and disclose the inputs and valuation techniques used for fair value measurements using significant other observable inputs (Level 2) and significant unobservable inputs (Level 3). This guidance is effective for annual periods beginning after December 15, 2009 except for disclosures about purchases, sales, issuances and settlements in the Level 3 reconciliation, which will be effective for annual periods beginning after December 15, 2010. As this guidance provides only disclosure requirements, the adoption of the standard will not impact the Plan's financial statements.

The Company has expanded disclosures in Note 5 to comply with the aforementioned fair value guidance.

Accounting Standards Codification

In June 2009, the FASB issued authoritative guidance which replaced the previous hierarchy of GAAP and establishes the FASB Codification as the single source of authoritative GAAP recognized by the FASB to be applied by nongovernmental entities. This guidance modifies the GAAP hierarchy to include only two levels of GAAP: authoritative and nonauthoritative. This guidance was effective for the Plan as of September 30, 2009. The adoption of this guidance did not impact the Plan's financial statements since the FASB Codification is not intended to change or alter existing GAAP.

Subsequent Events

In May 2009, the FASB issued authoritative guidance which established general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements were available to be issued or available to be issued. The new standard is based on the same principles as those that currently exist in auditing standards and does not change the way subsequent events are assessed. This guidance became effective for the Plan for annual periods ending after June 15, 2009.

3. Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, attributable under the Plan's provisions to the service that participants have rendered to the Company. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; and (b) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the date the benefits were frozen.

The Plan's actuary estimates the actuarial present value of accumulated plan benefits which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of January 1, 2009 was as follows:

Vested benefits	
Participants currently receiving payments	\$ 8,394,177
Other participants	<u>7,256,525</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 15,650,702</u>

Following is a summary of changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2009:

Actuarial present value of accumulated plan benefits, beginning of year	\$ 17,747,315
Increase (decrease) during the year attributable to	
Benefits accumulated and actuarial experience gain/loss	7,389
Increase due to change in discount period	1,229,121
Benefits paid	(2,768,032)
Effect of change in assumptions	<u>(565,091)</u>
Actuarial present value of accumulated plan benefits, end of year	<u>\$ 15,650,702</u>

Telex Communications, Inc.
Employees' Pension Plan
Notes to Financial Statements
December 31, 2009 and 2008

The actuarial cost method and significant assumptions used were as follows as of January 1:

Actuarial cost method used	Projected unit credit
Mortality table	IRS required mortality table for 2009 funding valuation 2008 - PPA 2008 separate annuitants and nonannuitants
Average retirement age	63
Interest rate	7.75% as of January 1, 2009 and 7.5% as of January 1, 2008

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

4. Investments

All investment information disclosed in the accompanying financial statements and schedules, including investments held at December 31, 2009 and 2008, net appreciation (depreciation) in fair value of investments, and dividends and interest for the years then ended, and the investment and investment income information presented below and in the supplemental schedules, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

The following investments represent 5% or more of the Plan's net assets as of December 31:

	2009	2008
PIMCO Total Return Fund	\$ 2,953,110	\$ 4,021,755
Julius Baer International Equity Fund	*	1,767,129

Fidelity Spartan US Equity Index Fund	2,809,005	2,219,704
Artio International Equity A	2,179,563	*

* Below 5% threshold

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by \$1,835,428 and \$(4,037,935) for the years ended December 31, 2009 and 2008, respectively, as follows:

	2009	2008
Fixed income mutual funds	\$ 290,046	\$ (21,100)
Domestic and international common stocks	454,828	(737,833)

5. Fair Value Measurements

The FASB established a framework to increase consistency and comparability in fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

For a description of the valuation methodologies used for assets measured at fair value, see Investment Valuation and Income Recognition in Note 2.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated October 17, 2008, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Subsequent to the issuance of the determination letter, the Plan was amended. The plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

On August 7, 2006, the Seventh Circuit Court of Appeals court ruled in favor of IBM's appeal of the July 31, 2003 decision by the United States District Court for the Southern District of Illinois, ruling that the IBM cash balance pension plan is age neutral. In addition, recently passed pension reform will provide prospective legal certainty for hybrid pension plans, generally effective for plan years beginning on or after June 29, 2005. While the formula for this cash balance pension plan does not meet the standard set forth in the original District Court's decision, given the newest rules, the Plan administrator believes that the cash balance plan will not violate the age discrimination rules under ERISA.

7. Plan Termination

Although it has not expressed any intention to do so, the Company may terminate the Plan at any time. In the event of such termination, the net assets available for benefits will be allocated as follows:

- First, to benefits payable to participants who have been receiving benefits for at least three years (or who would have been receiving benefits for at least three years if they had retired when they were first eligible to do so).
- Second, to vested benefits payable to other participants that are guaranteed by the Pension Benefit Guaranty Corporation (the PBGC).
- Third, to vested benefits payable to other participants that are not guaranteed by the PBGC.
- Fourth, to all other benefits payable under the Plan.

Certain benefits under the Plan are guaranteed by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

8. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. Subsequent Events

Effective August 1, 2010, the Plan merged into the Pension Plan for Discontinued Operations of Robert Bosch and net assets of the Plan totaling \$12,700,000 were transferred to the Pension Plan for Discontinued Operations of Robert Bosch on that date. Accordingly all benefits and expenses payable under the Plan as of August 1, 2010 will be payable by the Pension Plan for Discontinued Operations of Robert Bosch in accordance with Plan provisions. The actuarial present value of accumulated benefits of the Plan approximated \$14,500,000 on the date of the merger.

The Plan has evaluated the events and transactions that have occurred through September 30, 2010, the date the financial statements were available to be issued.

Changes in Methods and Assumptions Since Last Year	<p>For contribution purposes:</p> <p>The funding interest rate was changed from the full corporate bond yield curve as of January 2008 to the full corporate bond yield as of October 2008, as provided under the Pension Protection Act of 2006 (PPA).</p> <p>The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.</p> <p>The method used to calculate the minimum contribution was changed to include plan-related expenses, as provided under the PPA.</p> <p>The actuarial value of assets including contributions receivable was changed from market value to a smoothed value of assets under PPA. Investment gains and losses in excess of expected return are smoothed over 2 years subject to a 10% corridor around Market Value.</p>	
Data Sources	<p>Towers Perrin used asset data supplied by the trustee. The Company furnished participant data, the dates and amounts of the prior year contributions as well as the accrued pension cost at year-end.</p> <p>Data was reviewed for reasonableness and consistency, but no audit was performed. Towers Perrin is not aware of any errors or omissions in the data that would significantly affect the valuation results.</p>

Schedule SB, Part V – Statement of Actuarial Assumptions and Methods

The following items offer more detail with regard to the Actuarial Assumptions and Methods attachment.

- The actuarial valuation for the 2009 plan year used the “static” annuitant and non-annuitant mortality tables prescribed by the IRS for the plan year, per Reg. 1.430(h)(3)-1(e).
- The following table summarizes the optional form of payment assumptions used in the actuarial valuation with regard to the form of payment that plan participants are expected to select.

<u>Optional Form of payment</u>	<u>Payment method assumption</u>
Five-year certain and life annuity	0%
Ten-year certain and life annuity	0%
Single life annuity	0%
Joint and 50% survivor annuity	0%
Joint and 100% survivor annuity	0%
Lump Sum	100%

- The valuation interest rate is the IRS prescribed yield curve, based on bond yields applicable for the month of October preceding the valuation date.
- The actuarial value of assets is equal to a two-year smoothed value of assets including receivable contributions as prescribed under IRS regulation. The actuarial value must be within 10% of market value.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Provisions — Telex Employees' Pension Plan

Effective Date	June 1, 1989. The plan was restated generally effective July 1, 1999 and has been amended thereafter.
Eligibility	<p>An individual becomes eligible to participate upon completion of one year of service in which the individual works greater than or equal to 1,000 hours. Their participation date is the first of the month following completion of the eligibility requirements.</p> <p>Note: The plan is frozen to new entrants effective June 30, 2003. Individuals who became participants on or before June 30, 2003, continue to be participants in the plan.</p>
Definitions	
Vesting Service	A participant earns a year of Vesting Service for each calendar year in which they complete a minimum of 1000 hours of service.
Pensionable Earnings	Base pay, shift premiums, paid time off, bonuses, overtime, commissions, 401(k) salary deferrals and Section 125 reduction contributions limited to the Social Security taxable wage base in the current year.
Prior Plan Benefit	<p>A participants Prior Plan Benefit shall equal the sum of:</p> <ul style="list-style-type: none">- the actuarial equivalent present value of the participant's benefit accrued under the Plan in effect on June 30, 1999- the participant's accumulated employee contributions as of January 1, 1982 (with interest at 8% per year through June 30, 1999), if any, determined under the provisions of the Plan as it read prior to July 1, 1999.
Initial Account Balance	A participant's Initial Account Balance shall equal the participants Prior Plan Benefit. If a Participant had not accrued a benefit under the Plan as of June 30, 1999, the Initial Account Balance shall be zero.

Pay Credits

Active participants shall earn a Pay Credit to be credited to the Account Balance as of December 31 of the current year.

Pay Credit as Percentage of Eligible Earnings

<u>Age + Vesting Service on January 1</u>	<u>Eligible Earnings</u>	<u>Eligible Earnings > Integration Level*</u>
Less than 40	1.5%	1.5%
At least 40 but less than 50	2.0%	2.0%
At least 50 but less than 60	2.6%	2.6%
At least 60 but less than 70	3.2%	3.2%
At least 70 but less than 80	4.2%	4.2%
At least 80 but less than 90	5.4%	5.4%
90 and above	6.8%	5.4%

*The integration level is equal to ½ of the Social Security Taxable Wage base for the current year

Investment Credit

A participant's Investment Credit shall be an amount equal to the product of the participant's Account Balance as of the first day of the current year multiplied by the investment credit rate in effect for the current year. The investment credit rate is based on the average yield on 6-month t-bills for November of the preceding plan year but never less than the minimum of 5% or the interest rate used under the plan to convert a form of benefit to a lump sum.

Accrued Benefit

A participant's Account Balance shall consist of his or her Initial Account Balance plus any Pay Credit (for years ending prior to June 30, 2003) and Investment Credit added to his or her Account Balance. Prior to any distribution the participant's Account Balance shall never be less than the Initial Account Balance.

Eligibility for Benefits

Normal retirement

A participant is eligible for normal retirement on the first day of the month coincident with or next following attainment of age 65.

Postponed retirement

A participant may retire after his/her normal retirement date.

Vested pension

A participant is eligible for a vested pension benefit if he/she terminates for any reason other than death prior to normal retirement date and has completed 3 or more years of vesting service.

Spouse's pension

A participant's beneficiary is eligible for a death benefit upon death while an active employee or terminated vested employee.

Forms of Payment

Normal form	The normal form of benefit for a single participant is a single life annuity payable monthly. The normal form of payment for a married participant is a 100% Qualified Joint and Survivor Annuity that is actuarially equivalent to a single life annuity payable monthly.
Optional forms	Optional forms of payment may be taken on an actuarially equivalent basis if the participant does not elect the Normal Form. This includes a single life annuity, lump sum payment, joint and 50% survivor annuity, joint and 100% survivor annuity, 5-year certain and life annuity and a 10-year certain and life annuity.

Amounts of Benefits

Normal retirement	<p>A participant may elect to receive a lump sum payment or an actuarially equivalent monthly annuity payment.</p> <p>Upon Normal Retirement the pension credits are converted to a single life annuity using the applicable interest rates and mortality table under Code Section 417(e)(3).</p>
Postponed retirement	A participant will receive a benefit calculated in the same way as the Normal Retirement Benefit.
Vested pension	A participant will receive a monthly benefit calculated in the same way as the Normal Retirement Benefit upon commencement. Prior to the commencement of payments the participant's accrued benefit calculated at termination will be credited with interest annually.
Spouse's pension	The death benefit is payable as the participant's account balance or actuarially equivalent life annuity.

Other Plan Benefits

The plan also covered a group of union employees. As of December 31, 2002 there were no active union employees in the plan. The accrued benefit for each participant is based on years of service times the applicable benefit multiplier. Multipliers vary based on location and date of termination. For retirement prior to normal retirement age 65, the accrued benefits are reduced with the applicable early retirement factors. Death benefits are available for spouses only. No lump sum benefit is available for the union groups.

Changes in Plan Provisions Since Prior Valuation

Plan provisions have not changed since the prior year except to reflect any current year changes in PPA.

Schedule SB, Part V – Summary of Plan Provisions

Benefits are generally converted from the normal form of payment to the optional form of payment on an actuarially equivalent basis, which varies depending on the plan formula. Benefits accrued under multiple prior plan formulas may be converted using multiple bases.

The following actuarial equivalence bases apply to the Telex Communications, Inc. Employees' Pension Plan:

<u>Form</u>	<u>Mortality</u>	<u>Interest</u>
All but Lump Sum	417(e)(3) Applicable Mortality Table	30-year treasury securities for the month of November of the Plan Year preceding the applicable Plan Year
Lump Sum	417(e)(3) Applicable Mortality Table	417(e)(3) prescribed segment rates, with a lookback period of two months and a calendar year stability period

Note that this summary is intended to be a reasonably representative sample of the optional form conversion factors for the plan. It is not intended to be an exhaustive list of all the factors used in the conversion of benefits from the normal form of payment to any optional form of payment offered by the plan.

Schedule SB, line 25 – Change in Method

Towers Watson was appointed actuary for the valuation of this plan from Retirement Plan Actuaries, Inc. beginning with the 2009 plan year. Under IRS rules, a change in actuarial firms is deemed to be a change in actuarial cost method. This change qualifies for automatic approval under Section 4.03 of Revenue Procedure 2000-40.

Below is a summary of significant changes that were made.

Aspect of the Valuation	Old	New
Actuarial Value of Assets	Market Value	Equal to a two-year smoothed value of assets including receivable contributions as prescribed under IRS regulation. The actuarial value must be within 10% of market value
Valuation Interest Rate	IRS prescribed 24-month non-transitional segment rates for September based on bond yields through preceding August	The valuation interest rate is the IRS prescribed yield curve, based on bond yields applicable for the month of October preceding the valuation date
Target Normal Cost	Target Normal Cost not increased by plan-related expenses	Target Normal Cost increased by plan-related expenses, limited to 5% of Fair Value of Assets, as provided under the PPA

The valuation software used to produce the actuarial information submitted on this schedule has been refined to reflect evolving understanding of PPA requirements, and such modifications may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.

Schedule SB, line 22 – Description of Weighted Average Retirement Age

For each active participant, an expected retirement age was calculated weighted in proportion to the probability (as shown in the retirement rates table in the attachment to Schedule SB, Part V – Statement of Actuarial Assumptions/Methods) that the individual would remain an active participant to each age and then retire at that age. The plan's weighted average retirement age of 63 is the arithmetic average of the expected retirement ages of all participants on January 1, 2009.
