(1) Description of plan

The following description of the Resolve Marine Group 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document or summary plan description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a defined contribution plan sponsored by Resolve Towing & Salvage, Inc. (the "Company") for the benefit of its employees and the employees of Resolve Fire & Hazard Response, Inc. and Resolve Salvage, Inc. dba Resolve Operations Services who have completed at least 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The plan administrator and plan trustee have the overall responsibility for the operation and management of the Plan. The plan administrator and plan trustee determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Employees who have satisfied the eligibility requirements may begin participating in the Plan. The Plan entry dates are January 1 and July 1.

Contributions - Participants may contribute up to the maximum permissible amount established by law, as defined in the plan document. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older who are making contributions to the Plan are allowed to make catch-up contributions as defined in the plan document.

The Plan is a safe harbor plan and the Company matches 100% of the first 3% of compensation that a participant contributes to the Plan, plus 50% of the amount between 3% to 5% of compensation that a participant contributes to the Plan. For the years ended December 31, 2016 and 2015, the Company made safe harbor matching contributions totaling approximately $358,000 and $422,000, respectively. Approximately $103,000 and $102,000 of the safe harbor matching contributions were included in employer contributions receivable at December 31, 2016 and 2015, respectively. In addition to the safe harbor matching contributions, the Company may make discretionary profit sharing contributions. In order to be eligible for a profit sharing contribution the participant must be employed on the last day of the plan year and have completed at least 500 hours of service. For the year ended December 31, 2015, the Company did not make any discretionary profit sharing contributions. Subsequent to yearend, the Company made a discretionary profit sharing contributions totaling approximately $35,000 for the year ended December 31, 2016 using available forfeitures at December 31, 2016. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts as investment options.

(1) Description of plan (continued)

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants' contributions and employer safe harbor contributions, plus actual earnings, are 100% vested immediately.

All other employer contributions are subject to the following vesting schedule:

Years of Service	Vested %
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notwithstanding the above, a participant shall become fully vested upon his date of death or upon the date of his total or permanent disability.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants may have no more than one note outstanding at any one time. Note terms are limited to five years from the date of the note. However, if the note is for the purchase of the participant's principal residence, the Plan permits a longer repayment term not to exceed fifteen years. The notes are secured by the balance in the participant's account. Notes receivable bore interest at prime rate plus one percentage point during the year ended December 31, 2015 and for the period December 15, 2016 to December 31, 2016. Notes receivable bore interest of 4.25% during the period January 1, 2016 to December 14, 2016. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability, retirement, other reasons, or qualifying under certain "hardship" rules as prescribed by the Internal Revenue Service ("IRS"), a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited accounts - Forfeitures of non-vested accounts are retained in the Plan and may be used to pay the Plan's administrative expenses or reduce employer contributions. During the years ended December 31, 2016 and 2015, the Plan used approximately $15,000 and $10,000, respectively, to reduce the employer contributions. At December 31, 2016 and 2015 forfeited non-vested accounts were approximately $35,000 and $13,000, respectively. The available forfeitures at December 31, 2016 were allocated to eligible participants as a 2016 discretionary profit sharing contributions.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Recent accounting pronouncement - In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, "*Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*." The ASU removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value per share as a practical expedient provided by FASB Accounting Standards Codification ("ASC") 820 *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under this ASU to investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. The Plan's management is currently evaluating the impact of ASU 2015-07 and does not expect the adoption of this ASU to have a material impact on the Plan's financial statements.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policy utilizing information provided by the investment custodian. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make note repayments and the plan administrator deems the note to be in default, the participant note is reduced and a benefit payment is recorded.

Payment of benefits - Benefits are recorded when paid.

(2) Summary of significant accounting policies (continued)

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

(3) Information prepared and certified by the custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company (U.S.A.) ("John Hancock" or "Custodian") has certified that the following data included in the financial statements and supplemental schedules are complete and accurate with respect to the investments:

- Investments at fair value
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Interest income
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in financial statements and supplemental schedules.

(4) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(4) Fair value measurements (continued)

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2016 and 2015.

Pooled separate accounts: Valued at the Net Asset Value ("NAV") of units of the separate account. The NAV, as provided by the Custodian, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding method described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

	Investments at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:	$ -	$ 8,285,487	$ -	$ 8,285,487

	Investments at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:	$ -	$ 7,585,773	$ -	$ 7,585,773

(4) Fair value measurements (continued)

The fair value of the investments in the pooled separate accounts has been estimated using the NAV of the investments. The pooled separate accounts listed in the above charts are redeemed on a daily basis and do not have any redemption restrictions. Additionally, there are no unfunded commitments.

(5) Related party transactions and party-in-interest transactions

The Plan's investments are in units in pooled separate accounts managed by John Hancock. John Hancock is the Plan's custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment.

Additionally, certain recordkeeping, custodial and other services to the Plan were provided by John Hancock, and fees paid by the Plan to John Hancock for these services amounted to approximately $47,000 and $44,000 for the years ended December 31, 2016 and 2015, respectively. The Plan made direct payments to its third party administrator of approximately $6,000 and $4,000 for the years ended December 31, 2016 and 2015, respectively. These fees were not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

(6) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

(7) Tax status

The IRS has determined that the prototype 401(k) plan is designed in accordance with applicable sections of the IRC and informed the third party administrator of such in a letter dated March 31, 2008. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

(8) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(9) Reconciliation of financial statements to Schedule H of Form 5500

Certain assets and investment income line items reported on Schedule H of Form 5500 as of and for the year ended December 31, 2016 have been reclassified on the accompanying statements of net assets available for benefits and statements of changes in net assets available for benefits. These reclassifications have no impact on net assets available for benefits at December 31, 2016 or changes in net assets available for benefits for the year then ended.

(10) Delinquent participant contributions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets. While the Company remitted all employee contributions to the Plan, contributions of $2,760 were not remitted within the required time period for the year ended December 31, 2016. The Company remitted these delinquent employee contributions in 2016. The lost earnings have been calculated and deposited in the amount of $7 on October 20, 2017.

(11) Subsequent events

The Plan has evaluated subsequent events through December 28, 2017, which is the date the financial statements were available to be issued. Except as noted in Note 10, no significant matters were identified for disclosure during this evaluation.
