401(k) Savings and Profit Sharing Plan

Notes to Financial Statements

1. Plan Description The following description of Daiohs U.S.A. Inc. 401(k) Savings and Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was adopted effective January 1, 1987 by Daiohs U.S.A., Inc. ("Company") for the benefit of the Company's employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the Plan limited to the maximum amount allowed by law for the Plan year. Participants may also contribute amounts representing distributions from other qualified defined benefits or contribution plans. The Company matches 30% of participant's contribution up to 10% of participant's eligible compensation. The Company may also make a discretionary profit sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations of the Company contributions are based on participant contributions or eligible employee compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching contributions plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

1. Plan Description (Continued)

Participant Loans

Under the terms of the Plan, participants may borrow from their accounts a minimum of $1,000 up to the lesser of 50 percent of their vested account balance or $50,000. The loans are secured by the vested balance in the participants' accounts and bear interest at a rate determined by the plan administrator to be competitive at the inception of the loan. Loans are repayable through payroll deductions. Loan terms are limited to a maximum of 5 years or longer for the purchase of a primary residence.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, participants may elect to receive the vested interest of their accounts in the form of a single sum of cash payment, or a direct rollover to an individual retirement account or another employer plan. Hardship withdrawals are also available.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts totaled $5,346 and $0 respectively. These accounts will be used to reduce future employer contributions. Also, in 2009 no forfeited nonvested accounts were used to reduce employer contributions.

Plan Administration

The Plan is administered by the Company. The plan administrator controls and manages the operation and administration of the Plan.

MG Trust Company, LLC ("MG") was the trustee of the plan until September 21, 2009. On September 21, 2009 Frontier Trust Company ("Frontier") became the trustee. Ascensus, Inc. is the record keeper.

401(k) Savings and Profit Sharing Plan

Notes to Financial Statements

1. Plan Description (Continued)

Eligibility

The Plan covers substantially all full-time employees of the Company who have completed six months of service and are 21 years of age or older. Employees may enter the Plan on January 1 or July 1 coinciding with or following their meeting the eligibility requirements.

Investments Options

Participants may direct both employee and employer contributions to be invested amongst various investment options as made available and determined by the plan administrator which are more fully described in the plan literature.

2. Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through August 6, 2010, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

These financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Expenses of maintaining the Plan are paid by the Company (see Note 5).

Net Appreciation (Depreciation) in Fair Value of Investments

Net appreciation (depreciation) in fair value of investments is based on the fair value of the assets at the beginning of the Plan year, or at the time of purchase during the Plan year, and the related fair value on the day investment are sold with respect to realized appreciation (depreciation), or on the last day of the year with respect to unrealized appreciation (depreciation).

Realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

Recent Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued guidance under ASC 820, formerly known as FSP FAS 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly). ASC 820 reaffirms that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. The guidance also reaffirms the need to use judgment in determining if a formerly active market has become inactive and in

determining fair values when the market has become inactive. This guidance was adopted by the Plan and did not have a material impact on the Plan's financial statements.

In June 2009, the FASB issued guidance under ASC 105, Generally Accepted Accounting Principles, which was formerly referred to as FASB Statement of Financial Accounting Standards No. 168, FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles – A Replacement of FASB Statement No. 162. This guidance establishes the FASB Accounting Standards Codification (the Codification) as the source of authoritative U.S. generally accepted accounting principles (GAAP) for nongovernmental entities. The Codification supersedes all existing non-SEC accounting and reporting standards. Rules and interpretive releases of the SEC under authority of federal security laws remain authoritative GAAP for SEC registrants. This guidance and the Codification are effective for financial statements issued for annual periods ending after September 15, 2009. As the Codification did not change existing GAAP, the adoption did not have an impact on the Plan's financial statements.

During 2009, the Plan adopted FASB Statement No. 165, Subsequent Events, or ASC 855, which was issued in May 2009 and is effective for fiscal years and interim periods ending after June 15, 2009. ASC 855 requires evaluation of subsequent events through the date of financial statement issuance. The adoption of this guidance is reflected in these financial statements.

In September 2009, the FASB issued ASC Update 2009-12, Fair Value Measurements and Disclosures (Topic 820) — Investment in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent). This update provides guidance on estimating the fair value of a company's investments in investment companies when the investment does not have a readily determinable fair value. It permits the use of the investment's net asset value as a practical expedient to determine fair value. This guidance also required additional disclosure of the attributes of these investments such as: (i) the nature of any restrictions on the reporting entity's ability to redeem its investment; (ii) unfunded commitments; and (iii) investment strategies of the investees. This guidance is effective for periods ending after December 15, 2009. The adoption did not have a

material impact on the Plan's financial condition or results of operations and all applicable disclosures are included in these financial statements.

In January 2010, the FASB issued ASC Update 2010-06, Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements. This guidance requires: (i) separate disclosure of significant transfers between Level 1 and Level 2 and reasons for the transfers; (ii) disclosure, on a gross basis, of purchases, sales, issuances, and net settlements within Level 3; (iii) disclosures by class of assets and liabilities; and (iv) a description of the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. This guidance is effective for reporting periods beginning after December 15, 2009, except for the Level 3 disclosure requirements, which will be effective for fiscal years beginning after December 15, 2010 and interim periods within those fiscal years. The adoption of this guidance is reflected, where applicable, throughout these financial statements.

3. Fair Value Measurement

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. Money market is carried at cost which approximates fair value.

3. Fair Value Measurement (Continued)

Level 2 Fair Value Measurements

The fair value of the investment with the insurance company is based on the cash surrender value.

Level 3 Fair Value Measurements

Participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $ 1,101,370. All appreciation is attributed to mutual funds.

5. Related Party Transactions

The Company provides certain accounting and administrative services to the Plan for which no fees are charged. These expenses constitute exempt party-in interest transactions under ERISA.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Tax Status

The Plan currently operates under a Prototype Non-standardized Profit Sharing Plan with Cash or Deferred Arrangement offered by Planmember Services Corporation. The plan administrator and legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Notes to Financial Statements

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan is required to disclose significant concentrations of credit risk regardless of the degree of such risk. At December 31, 2009 and 2008, the financial instruments, which potentially subject the Plan to a concentration of credit risk, consisted principally of cash, investments and participant loans.

9. Trustees Certification

The investment balance and related investment information included in the financial statements, accompanying notes and supplemental schedule are derived from statements which have been certified by MG and Frontier as complete and accurate in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

10. Excess Contributions

Contributions received from participants for 2009 are net of payments of $15,225 made in 2010 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the plan's statement of net assets available for benefits as excess contributions payable at December 31, 2009.

11. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2009 and 2008:

As of December 31,	**2009**	2008
Net assets available for benefits per the financial statements	**$ 5,864,158**	$ 4,168,871
Add: Excess Contributions	**15,225**	5,213
Add: Difference in Investment with Insurance Co.	**847**	816
Net assets available for benefits per Form 5500	**$ 5,880,230**	$ 4,174,900

11. Reconciliation of Financial Statements to the Form 5500 (Continued)

For the years ended December 31, 2009 and 2008 excess contributions to be refunded were not reflected on Form 5500 and investments with National Western Life Insurance Company were stated at fair value on the financial statements, and at contract value on the Form 5500.
