Report on the Financial Statements

We have audited the accompanying financial statements of MCH Electric, Inc. Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of June 30, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended June 30, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Trustees

Independent Auditor's Report

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of MCH Electric, Inc. Employee Stock Ownership Plan as of June 30, 2015 and 2014, and the changes in its net assets available for benefits for the year ended June 30, 2015, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year), referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MCH Electric, Inc.
Employee Stock Ownership Plan
Notes to the Financial Statements
June 30, 2015 and 2014

Note 1: Plan Description and Basis of Presentation:

The following description of MCH Electric, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

MCH Electric, Inc. (the Company) established the Plan effective July 1, 2001. The Plan was amended in July 2003 to revise certain eligibility and participation provisions. The Plan is a combination of two Plans. The first is a Stock Bonus Plan under which annual contributions are made at the discretion of the Company's Board of Directors. The second is a Money Purchase Pension Plan under which annual contributions were fixed at ten percent of eligible payroll for the Plan year ending June 30, 2002, and zero percent for subsequent Plan years. Both Plans are designed to meet the requirements of an Employee Stock Ownership Plan. The Plan was established to qualify under Section 401(a) and 4975(e)(7) of the Internal Revenue Code (IRC) of 1986, and Section 407(d)(6) of the Employee Retirement Income Security Act (ERISA) 1974. The Plan's Trustees are James Humphrey and Gary Tennyson. The Company also established a Plan Committee, led by James Humphrey and Gary Tennyson. The Company also retains a third party administrator, Menke & Associates, Inc., who performs all compliance testing, maintains participant accounts, prepares and distributes participant statements and prepares distribution packages.

In April 2003, the majority stockholders of the Company sold all of their shares to *MCH Electric, Inc. Employee Stock Ownership Plan* (ESOP) for $4,400,000 via four promissory notes between each of the majority stockholders and one with the Company. The proceeds of the notes were used to partially finance the purchase of MCH Electric, Inc. shares, for which shares are held by the Trustees as collateral for the notes.

Plan Merger:

Effective June 30, 2008, the Money Purchase Pension Plan was amended to eliminate the Company's fixed contribution and merged with the existing Stock Bonus Plan. All Trust assets acquired under this Plan as a result of contributions, income and other additions to the Trust will be administered, distributed, forfeited and otherwise governed by the provisions of this Plan, which is administered by the Plan Committee for the exclusive benefit of participants in the Plan and their beneficiaries.

Eligibility:

Employees of the Company are eligible to participate in the Plan retroactively to the first day of the Plan year (July 1) during the Plan year in which they complete 1,000 hours of service and one year (twelve months) of employment. Employees may also voluntarily elect not to participate in the Plan. Excluded employees include employees whose retirement benefits are subject to good faith collective bargaining and leased employees.

Note 1: Plan Description and Basis of Presentation, continued:

Payment of Benefits:

Distributions to participants who have reached age 65, died or have become totally and permanently disabled will begin no later than one year after the end of the Plan year in which the participant becomes eligible for the distribution. Participants with vested balances under $5,000 will receive their distributions in a single lump sum as soon as administratively feasible after the close of the Plan year in which they terminated their employment. Participants with vested balances over $5,000 will receive their distributions over a five-year period. Participants with vested balances in excess of $915,000 will receive their distributions over a longer period, up to five additional years, as prescribed by the Internal Revenue Service.

Distributions to participants who terminate employment for reasons other than retirement, death or disability will begin one year after the end of the fifth Plan year following their date of termination. Participants with vested balances under $5,000 will receive their distributions in a single lump sum as soon as administratively feasible after the close of the Plan year in which they terminated their employment. Participants with vested balances over $5,000 will receive their distributions over a five-year period, commencing during the sixth Plan year following the Plan year in which they terminated their employment. Participants with vested balances over $915,000 will receive their distributions over a longer period, up to five additional years, as prescribed by the Internal Revenue Service. Effective July 1, 2010, participants who terminate employment on or after July 1, 2010, for reasons other than death, disability, or retirement shall not receive a distribution of any employer securities acquired with the proceeds of an ESOP loan until the close of the Plan year in which the ESOP note is paid in full, regardless of a participant's account balance.

Distributions will be made in cash or, if a participant elects, in the form of Company common stock shares plus cash for any fractional shares. Under the provisions of the Plan, the Company is obligated to repurchase participant shares that have been distributed under the terms of the Plan as long as the shares are not publicly traded or subject to trading limitations.

Voting Rights:

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account only with respect to certain extraordinary transactions such as merger, consolidation, recapitalization, reclassification, liquidation, dissolution or sale of all or substantially all of the Company assets. If a participant does not provide the Trustees with timely written directions as to the manner in which such Company stock is to be voted, the Trustees will decide, in its own discretion, as to the manner in which to vote. The Trustees are also required to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Note 1: Plan Description and Basis of Presentation, continued:

Participant Accounts:

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustees from the unallocated account and forfeitures of terminated participants' non-vested accounts. Effective for Plan years on or after July 1, 2007, only participants who have completed 1,000 or more hours of service during the Plan year and are employed on the last day of the Plan year are eligible to share in the allocation of contributions and forfeitures. Allocations are based on a participant's covered compensation, relative to total covered compensation of all such participants.

Vesting:

If a participant's employment with the Company ends for any reason other than retirement, death or disability, he or she will vest in the balances in his or her account based on total years of service with the Company during which the Plan is in effect (i.e., July 1, 2001). The vesting schedule is as follows:

Years of Service	Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

Put Option:

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. A put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. Participants receiving distributions of Company stock will be offered a put option allowing them the right for sixty days after the Company stock is distributed to require the Company or the Trust to purchase the stock at fair market value. If the initial put option is not exercised within the first sixty-day period, a subsequent sixty-day period will be granted in the following Plan year. The payment terms for the purchase of such shares of Company stock may be either in a single payment or in five equal annual installments of principal together with interest on the unpaid principal balance.

Note 1: Plan Description and Basis of Presentation, continued:

Right of First Refusal:

Participants who elect to receive distributions of Company stock are subject to a right of first refusal, provided that the shares are not publicly traded. Should such shares be sold or transferred after their initial distribution, they must first be offered to the Trust and if refused by the Trust, then next offered to the Company. The offer to the Trust or the Company shall be the greater of: (1) fair market value, as determined by an independent appraiser as of the latest fiscal year end, or (2) the price offered by the prospective bona fide purchaser.

Diversification:

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments, which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account. In the sixth year, the percentage increases to 50 percent. Participants who elect to diversify may elect to receive a lump-sum distribution, or the rights to direct the investment of the market value of the shares, in one or more of at least three investment options, should the Plan Committee establish such investment options under the Plan.

Forfeitures:

Participants returning to employment with the Company prior to incurring five consecutive one-year breaks in service will not incur forfeitures of their account balance. A break in service is a Plan year in which the participant completes less than 501 hours of service. If the participant did not receive a cash-out distribution at the time they initially separated from service, no forfeitures will be incurred. If the participant received a cash-out distribution at the time they initially separated from service, the forfeited portion of their account will be restored only after they repay in full the amount of the prior distribution. The repayment must be received by the Plan before the five-year anniversary of the participant's re-employment.

Amounts forfeited under the Plan are first used by the Plan to reinstate the prior year forfeitures of returning participants who are eligible to have their forfeitures restored. Any remaining forfeitures are allocated to the accounts of the remaining participants. For the years ended June 30, 2015 and 2014, $7,331 (117.95 shares) and $21,717 (364.86 shares) were forfeited and re-allocated to the remaining eligible participants, respectively.

Note 1: Plan Description and Basis of Presentation, continued:

Undistributed Accounts:

For all Plan years beginning on or after July 1, 2007, any part of a participant's Company stock account and other investments account which is retained in the Trust after the anniversary date coinciding with or immediately following the date on which the participant terminated employment, shall be treated as an undistributed account. In any year that a participant maintains an undistributed account, the trust shall exchange any cash or other liquid assets held in the other investment accounts of participants for the shares of Company stock held in the undistributed accounts at an exchange rate determined based on the most recent appraised fair market value of Company stock. The purpose of the exchange is to assure that the accounts of active participants are invested in Company stock, to the maximum extent possible within the assets available to the trust, and to assure that undistributed accounts are invested in assets other than Company stock, to the maximum extent possible within the assets available to the trust.

In the event that there is not sufficient cash to exchange for all of the shares of Company stock, the exchange shall be pro rata based upon the Company stock held by the undistributed accounts. For the year ended June 30, 2015, $41,930 was segregated and used to repurchase 704.46 shares of the participants' undistributed accounts.

Note 2: Summary of Significant Accounting Policies:

Basis of Accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Concentration of Credit Risk:

The Plan maintains its cash in a bank deposit account. The Plan has not experienced any losses in such account. The Plan believes it is not exposed to any significant credit risk on cash.

Investment Valuation and Income Recognition:

The common shares of the Company are valued at fair value as of June 30, 2015 and 2014. Fair value is determined by annual independent appraisals.

Note 2: Summary of Significant Accounting Policies, continued:

Operating Expenses:

The Company pays all expenses in connection with the design, establishment, or termination of the Plan. The Trust pays all costs of administering the Plan and Trust, unless paid by the Company. During the year ended June 30, 2015, all expenses of administering the Plan and Trust were paid by the Company.

Recent Accounting Pronouncements:

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2015-12, Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965: Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient. The ASU simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts, plan investment disclosures, and measurement date practical expedient. The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted and is applied retrospectively. The Plan has elected to adopt this pronouncement in the accompanying financial statements.

Subsequent Events:

Management has evaluated subsequent events through June 25, 2016, the date on which the financial statements were available to be issued.

Note 3: Fair Value Measurement of Investments:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 3: Fair Value Measurement of Investments, continued:

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at June 30, 2015 and 2014.

MCH Electric, Inc. Common Stock: Value determined by annual independent appraisals.

The method described above may produce a fair value calculation that may not be as indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2015:

	Investments at Fair Value as of June 30, 2015			
	Level 1	Level 2	Level 3	Total
MCH Electric, Inc. common stock	$ -	$ -	$ 4,661,250	$ 4,661,250
Total investments at fair value	$ -	$ -	$ 4,661,250	$ 4,661,250

Note 3: Fair Value Measurement of Investments, continued:

Level 3 Gains:

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the year ended June 30, 2015:

	MCH Electric, Inc. Common Stock
Balance, beginning of year	$ 4,464,000
Unrealized gains relating to instruments still held at the reporting date	197,250
Balance, end of year	$ 4,661,250

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2014:

	Investments at Fair Value as of June 30, 2014			
	Level 1	Level 2	Level 3	Total
MCH Electric, Inc. common stock	$ -	$ -	$ 4,464,000	$ 4,464,000
Total investments at fair value	$ -	$ -	$ 4,464,000	$ 4,464,000

Note 4: Plan Termination:

The Company reserves the right to amend or terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, each participant becomes fully vested in his or her account balance and distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Internal Revenue Code, after payment by the Trustees of all liabilities and expenses of the trust fund. Any unclaimed and unallocated shares will be treated as forfeitures and allocated to the remaining participants' accounts.

Note 5: Tax Status:

The Plan obtained its latest determination letter on May 8, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, is in compliance with the applicable requirements of the Internal Revenue Code. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code and the Plan continues to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examinations by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6: Administration of Plan Assets:

The Company provides to the Plan certain accounting and administrative services for which no fees are charged.

The Plan's assets, which consist principally of MCH Electric, Inc. common shares, are held by the Trustees of the Plan.

Company contributions are held and managed by the Trustees, which use the cash primarily for debt service of the ESOP loan and for making distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 7: Notes Payable:

The Company note of $1,427,712 provides for the note to be repaid commencing June 30, 2003 in minimum monthly principal payments necessary to enable repayment of the outstanding principal amount in full. Interest accrues at a fixed rate of 4.8% per annum.

The note between Michael Tennyson and the ESOP in the amount of $2,080,000 provided for interest only payments for the June 30, 2003 and June 30, 2004 Plan years. Equal quarterly installments of $45,729 commenced September 30, 2004 and continue until the note is fully paid. Interest accrues at the "Prime Rate" as published in the "Money Rate" section of the *Wall Street Journal* on the last business day of June of the Plan year, plus 2%.

Note 7: Notes Payable, continued:

The remaining two notes between the ESOP and James Humphrey and the ESOP and Gary Tennyson are each in the amount of $260,000 and provided for interest only payments for the June 30, 2003 and June 30, 2004 Plan years. Equal quarterly installments of $5,716 for each note commenced September 30, 2004 and continue until the note is fully paid. Interest accrues at the "Prime Rate" as published in the "Money Rate" section of the *Wall Street Journal* on the last business day of June of the Plan year, plus 2%.

Debt Refinance September 2007:

Effective September 19, 2007, the Committee executed a resolution to authorize the refinancing of both the Company note payable and the prior shareholder notes payable. The Company note payable was increased by $600,000 and the prior shareholder notes payable were decreased proportionately by $600,000, leaving an aggregate outstanding principal balance on the prior shareholder notes payable of $2,000,000 and an outstanding principal balance on the Company note payable in the amount of $925,481. The Company note payable was refinanced at a fixed interest rate of 4.8% per annum, with principal and interest payments of $91,526 to be made annually on June 30 of each year until the note is fully paid. The prior shareholder notes payable were refinanced at a fixed interest rate of 10.25% per annum with principal and interest payments due in equal quarterly installments of $65,633 until such notes are fully paid.

Debt Refinance June 2008:

Effective June 30, 2008, the Committee executed a resolution to authorize the refinancing of both the Company note payable and the prior shareholder notes payable. The Company note payable was increased by $731,266 and the prior shareholder notes payable were decreased proportionately by $731,266, leaving an aggregate outstanding principal balance on the prior shareholder notes payable of $1,268,734 and an outstanding principal balance on the Company note payable in the amount of $1,656,747. The Company note payable was refinanced at a fixed interest rate of 4.8% per annum, with principal and interest payments of $157,464 to be made on June 30 of each year, over a period of 15 years. The prior shareholder notes payable were refinanced at a fixed interest rate of 10.25% per annum with principal and interest payments due in equal quarterly installments of $41,633 over a period of 15 years. The Committee also executed a subsequent resolution to contribute $80,350 to the Plan by forgiving $80,350 of principal on the Company note.

Debt Refinance September 2008:

Effective September 15, 2008, the Committee executed a resolution to authorize the refinancing of both the Company note payable and the prior shareholder notes payable. The Company note payable was increased by $1,268,734 and the prior shareholder notes payable were decreased proportionately by $1,268,734, resulting in the complete payoff of the prior shareholder notes payable and leaving an outstanding principal balance on the Company note payable in the amount of $2,845,131. The Company note payable was refinanced at a fixed interest rate of 4.8% per annum, with principal and interest payments of $270,414 to be made on June 30 of each year, over a period of 15 years.

Note 7: Notes Payable, continued:

Effective January 15, 2010, the Committee executed a resolution to allow non-cash contributions by forgiving the debt payments, which replaces the need for having the Company pay the ESOP trust and in return having the ESOP trust make a payment back to the Company.

Long-term debt as of June 30, 2015 consists of the following:

	Interest Rate	Payable Within One Year	Payable After One Year
Note payable - MCH Electric, Inc.	4.80%	$ 186,657	$ 1,558,282
Total		$ 186,657	$ 1,558,282

Aggregate maturities on long-term debt over the next five years are as follows:

Year Ending June 30:	
2016	$ 186,657
2017	195,616
2018	205,006
2019	214,846
2020	225,159
Thereafter	717,655
	$ 1,744,939

Interest paid on the ESOP loan for the year ended June 30, 2015 was $92,306.

Note 8: Employer Contributions:

The Company is obligated to contribute to the Plan the minimum amount necessary to offset the amount of principal and interest due on its loan. See Note 7.
