INDEPENDENT AUDITOR'S REPORT

To the Trustees of
the Larry Geweke Ford, Inc.
NADART Salary Deferral 401(k) Plan

We were engaged to audit the accompanying statement of net assets available for benefits of the Larry Geweke Ford, Inc. NADART Salary Deferral 401(k) Plan as of December 31, 2009 and 2008 and the statement of changes available for benefits for the year ended December 31, 2009, and the supplementary schedules as of and for the year ended December 31, 2009, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Cardinal Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary schedules taken as a whole. The form and content of the information included in the financial statements and supplementary schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee retirement Income Security Act of 1974.

Note 1: Description of Plan

The following description of the Larry Geweke Ford, Inc. NADART Salary Deferral 401(k) Plan provides only general information. Participants should refer to the Plan agreement and Summary Plan Description for a more complete description of the Plan's provisions.

General. The Larry Geweke Ford NADART Salary 401(k) Plan is a defined contribution plan and was established to provide retirement benefits for employees of Larry Geweke Ford. Eligible employees become participants in the Plan following one year of continuous service and must complete 1,000 hours of service during the twelve month period and attainment of age twenty one, as defined in the plan agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions. Employer contributions include employer matching contributions, employer discretionary matching contributions, and employer discretionary contributions. Participant contributions consist of participant pre-tax elective deferrals, participant after-tax contributions, and rollover contributions.

Participants may make before-tax and after-tax contributions to the Plan. The Company did not make a matching contribution for the year ending December 31, 2009. Total contributions, both participant and employer, including discretionary, are subject to the limits of the Internal Revenue Code Section 415(c). Participant contributions and employer matching contributions of certain highly compensated participants may also be limited based on contribution nondiscrimination tests described in Internal Revenue Code Sections 401(k) and 401(m).

Employer discretionary contributions are allocated to participants employed on the last day of the plan year in the same ratio as each participant's eligible compensation bears to the total eligible compensation of all participants. Employer discretionary matching contributions made to the Plan are allocated as of the last day of the Plan year to the account of each participant who elects to have deferred cash contributions made under the Plan, and who is employed with the employer on the last day of the Plan year.

Participant Accounts and Vesting. Each participant's account is credited with the participant's contribution, the employer's contribution, and an allocation of the Plan's earnings. The Plan's earnings are allocated according to participants' relative account balances in the investment options.

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. That portion of the participants' account attributable to employer matching contributions vests ratably over six years of service. Participants' accounts become fully vested upon attainment of the normal retirement age of sixty five, early retirement age of fifty five with ten years of service, or in the event of death or total disability.

Net assets available for benefits includes the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in installment payments. These participants share in the earnings of the investments funding such accounts.

Forfeitures. The forfeited non-vested portion of terminated employees account balances are used to reduce employer contributions and pay administrative expenses. In 2009, $2,470 of forfeitures were generated, and $2,252 of forfeitures were used to pay plan expenses. As of December 31, 2009, there was $846 of unused forfeitures available for use in future periods.

Note 1: Description of Plan (continued)

Payment of Benefits. Benefits are recorded when paid. Amounts credited to an individual participant's account are distributed at termination of employment as a lump sum, in installments, or as an annuity. Distributions may be deferred until the participant reaches the age of seventy and one half if the value of the distribution is not less than $5,000. However, the plan agreement stipulates that distributions must commence no later than April 1 of the year in which the participant reaches the age of seventy and one half.

In certain hardship situations, as described in the plan agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to deferred account balances and may not include any interest earned thereon.

Loans to Participants. Participants may borrow up to one-half of their vested account balances up to $50,000. The minimum loan available is $1,000. Participant notes are carried at face value and are repaid through payroll deductions. Interest is earned on the participant notes at the prime rate in effect on the first day of the quarter plus one percent (4.25% at December 2009 and 6.25% at December 31, 2008).

Plan Termination. The Company has the right to terminate the Plan at any time. In the event of termination, the respective participant interest, net of any termination fees, will become fully vested and will be distributed to each participant in accordance with the Plan's provisions.

Investment Options. Upon enrollment in the Plan, a participant may direct employee contributions in various increments to the investments administered by the National Automobile Dealers Association Investment Trusts. Participants may change their investment options among various mutual funds and bank common collective trusts.

Amendments. Effective October 1, 2008, the Plan was amended to discontinue the plan sponsor's matching contribution. There were no amendments for the year ending December 31, 2009.

Subsequent Events. Plan management has evaluated subsequent for disclosure in these financial statements through October 4, 2010, the date the financial statements were available to be issued.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition. The Plan's investments in common/collective trusts are stated at fair value as determined by Cardinal Bank, the trustee of the Plan. The Plan's investments in mutual funds are stated at fair market value, based upon quoted market prices. Participant loans are valued at their unpaid principal balances, which approximate fair value.

Note 2: Summary of Significant Accounting Policies (continued)

Investment income from the common/collective trusts includes dividends, interest, and gains or losses on investments resulting from the net change in market or fair value. The investment income allocated to the Plan from common/collective trust is net of investment management fees.

Note 3: Information Certified by Trustee

In 2009, the Plan received a rebate of plan fees of $4,041 previously charged against investment income. Cardinal Bank, the trustee of the Plan, has certified as to the completeness and accuracy of all investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008, the investment activities reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2009, with the exception of the investment fee rebate, and all investment information reflected in the supplemental Schedule of Investments Held at December 31, 2009, in accordance with 29 CFR 2520.103-8(c) of the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This information has been certified as complete and accurate to the best of their knowledge.

Note 4: Significant Investments

Significant investments represent more than five percent of the Plan's assets. The following represents significant investments of the Geweke Ford Inc., NADART Salary Deferral 401(k) Plan as of December 31, 2009 and 2008.

	2009	2008
Investments at Fair Value as Reported by Cardinal Bank:		
NADART Fund	$ 812,258	$ 694,963
Income Fund at Contract Value	335,802	322,801
Gabelli Small Cap Growth Fund	156,939	141,810
T. Rowe Price Equity Income Fund	182,335	186,463
PIMCO Total Return Fund	162,818	*
Gabelli Small Cap Growth Fund	156,939	*
International Investors Fund	156,105	*
S&P 500 Large Cap Fund	147,257	*
Vanguard Growth Index Fund	140,723	*
S&P 400 MidCap Fund	132,174	
Longleaf Partners Fund	*	182,159
Participant Loans	146,788	210,387

* Represents less than 5% of Plan's Net Assets

Note 5: Net Appreciation In Fair Values of Assets

For the year ended December 31, 2009, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

Fair value as determined by quoted market prices or Cardinal Bank:	
Common/Collective Trusts	$ 365,011
Mutual Funds	63,438
Net depreciation in fair value of investments	$ 428,449

Note 6: Fair Value Measurements

Financial Accounting Standards Board ASC 820-10 (formerly FASB Statement No. 157, Fair Value Measurements), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets:

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset of liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input hat is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value ('NAV') of shares held by the plan at year end based on quoted market prices

Common/Collective Trusts (CCTs): Valued at net asset value ('NAV') as provided by Cardinal Bank, the trustee of the Plan. The NAV for most CCTs is quoted on a private market that is not active; however, the unit price is based on quoted market prices of the underlying investments which are traded on an active market.

The Income Fund: Valued at net asset value ('NAV') as provided by Cardinal Bank, the trustee of the Plan. The Income Fund is the CCT that contains synthetic guaranteed investments contracts (GICs). The fair value of a synthetic GIC is calculated by valuing each component of the structure separately. The fixed income securities component in the underlying account are valued at quoted market prices. The value of the wrapper contract component is determined by the issuer using a standard discounted replacement cost methodology, using the duration and period end yields of the issuer's comparable sector credit curve as valuation inputs. See note 7 regarding the contract value of the Income Fund.

Participant loans: Valued at their unpaid value, which approximates fair value.

Note 6: Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Fair Value
Mutual Funds	$ 176,137	$ -	$ -	$ 176,137
Common/Collective Trust	-	2,187,064	-	2,187,064
Participant loans	-	-	146,788	146,788
Total assets at fair value	$ 176,137	$ 2,187,064	$ 146,788	$ 2,509,989

	Assets at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Fair Value
Mutual Funds	$ 187,307	$ -	$ -	$ 187,307
Common/Collective Trust	-	1,734,427	-	1,734,427
Participant loans	-	-	210,387	210,387
Total assets at fair value	$ 187,307	$ 1,734,427	$ 210,387	$ 2,132,121

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

	Participant Loans
Balance, beginning of year	$ 210,387
Interest Income	11,445
New loans issued, principal payments, deemed distributions (net)	(75,044)
Balance, end of year	$ 146,788

Note 7: The Income Fund

The Income Fund is a common collective trust that invests in guaranteed investment contacts and wrap (synthetic) contracts which are designed to help preserve principle and provide a stable crediting rate. The Income Fund is fully benefit responsive and withdrawals are made at contract value for qualified benefit payments including participant directed transfers. Under certain circumstances, non-benefit related withdrawals from the fund, such as the termination of a participating plan, may be transacted at fair value which may be lower than contract value.

The average yield earned by the Fund at December 31, 2009, representing the annualized earnings of all investments in the Fund divided by the average market value of all investments in the Fund, was 4.42%. The average yield credited to participants in the fund (the crediting rate) as of the last day of the period was 4.29%. The average end of period crediting rate net of various fees was 4.19%

Investment contracts held by a defined contribution plan are required to reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Income fund investment held by the Plan contains underlying investment contracts whose fair value is different from their contract value. The Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008 present the fair value of the Income Fund as well as the adjustment from fair value to contract value for the fund. The Statement of Changes in Nets Assets Available for Benefits is prepared on a contract value basis.

Note 8: Tax Status

The NADART master prototype documents were amended to comply with the statutory requirements of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) of 2001 and received favorable opinion letters from the Internal Revenue Service on March 31, 2008. The Plan's adoption agreement has been restated to reflect the EGTRRA plan changes and is effective December 31, 2008. In accordance with Revenue Procedure 2002-6, the Plan administrator has chosen to rely on the current opinion letter that has been issued to the prototype. Once qualified, the Plan is required to operate in conformity with the Internal Revenue Code (the Code) to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Note 9: Investment and Administrative Fees

Investment management fees are charged to participants based on their investment elections. The unit values of the common/collective trusts are adjusted for fees of 45 basis points, 35 basis points prior to June 1, 2009, for record keeping services. Participants who use the Vanguard Growth Index Fund and/or Longleaf Partners Fund are charged 45 basis points, 35 basis points prior to June 1, 2009, against their account for that fund.

The Plan sponsor paid $2,742, net of forfeitures used, and $$4,830 respectively for administrative fees on behalf of the Plan for years ended December 31, 2009 and 2008. These administrative fees charged to the Sponsor by the Trustee include a base rate per plan, a charge per participant, service fees, and audit fees.

Note 10: Risks and Uncertainties

The Plan provides for various investment options which are exposed to a various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is possible that changes in the values of investments will occur in the near term and would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11: Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits and investment income per the financial statements at December 31, 2009 and 2008 to the amounts shown on schedule H of the Form 5500. The financial statements show the Nadart Income Fund at contract value whereas the form 5500 shows investments at fair value.

	2009	2008
Net assets available for benefits per financial statements	$ 2,521,486	$ 2,175,691
Adjustment to fair value for Income Fund	8,304	(26,315)

INDEPENDENT AUDITOR'S REPORT

To the Trustees of
the Larry Geweke Ford, Inc.
NADART Salary Deferral 401(k) Plan

We were engaged to audit the accompanying statement of net assets available for benefits of the Larry Geweke Ford, Inc. NADART Salary Deferral 401(k) Plan as of December 31, 2009 and 2008 and the statement of changes available for benefits for the year ended December 31, 2009, and the supplementary schedules as of and for the year ended December 31, 2009, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Cardinal Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary schedules taken as a whole. The form and content of the information included in the financial statements and supplementary schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee retirement Income Security Act of 1974.

Note 1: Description of Plan

The following description of the Larry Geweke Ford, Inc. NADART Salary Deferral 401(k) Plan provides only general information. Participants should refer to the Plan agreement and Summary Plan Description for a more complete description of the Plan's provisions.

General. The Larry Geweke Ford NADART Salary 401(k) Plan is a defined contribution plan and was established to provide retirement benefits for employees of Larry Geweke Ford. Eligible employees become participants in the Plan following one year of continuous service and must complete 1,000 hours of service during the twelve month period and attainment of age twenty one, as defined in the plan agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions. Employer contributions include employer matching contributions, employer discretionary matching contributions, and employer discretionary contributions. Participant contributions consist of participant pre-tax elective deferrals, participant after-tax contributions, and rollover contributions.

Participants may make before-tax and after-tax contributions to the Plan. The Company did not make a matching contribution for the year ending December 31, 2009. Total contributions, both participant and employer, including discretionary, are subject to the limits of the Internal Revenue Code Section 415(c). Participant contributions and employer matching contributions of certain highly compensated participants may also be limited based on contribution nondiscrimination tests described in Internal Revenue Code Sections 401(k) and 401(m).

Employer discretionary contributions are allocated to participants employed on the last day of the plan year in the same ratio as each participant's eligible compensation bears to the total eligible compensation of all participants. Employer discretionary matching contributions made to the Plan are allocated as of the last day of the Plan year to the account of each participant who elects to have deferred cash contributions made under the Plan, and who is employed with the employer on the last day of the Plan year.

Participant Accounts and Vesting. Each participant's account is credited with the participant's contribution, the employer's contribution, and an allocation of the Plan's earnings. The Plan's earnings are allocated according to participants' relative account balances in the investment options.

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. That portion of the participants' account attributable to employer matching contributions vests ratably over six years of service. Participants' accounts become fully vested upon attainment of the normal retirement age of sixty five, early retirement age of fifty five with ten years of service, or in the event of death or total disability.

Net assets available for benefits includes the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in installment payments. These participants share in the earnings of the investments funding such accounts.

Forfeitures. The forfeited non-vested portion of terminated employees account balances are used to reduce employer contributions and pay administrative expenses. In 2009, $2,470 of forfeitures were generated, and $2,252 of forfeitures were used to pay plan expenses. As of December 31, 2009, there was $846 of unused forfeitures available for use in future periods.

Note 1: Description of Plan (continued)

Payment of Benefits. Benefits are recorded when paid. Amounts credited to an individual participant's account are distributed at termination of employment as a lump sum, in installments, or as an annuity. Distributions may be deferred until the participant reaches the age of seventy and one half if the value of the distribution is not less than $5,000. However, the plan agreement stipulates that distributions must commence no later than April 1 of the year in which the participant reaches the age of seventy and one half.

In certain hardship situations, as described in the plan agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to deferred account balances and may not include any interest earned thereon.

Loans to Participants. Participants may borrow up to one-half of their vested account balances up to $50,000. The minimum loan available is $1,000. Participant notes are carried at face value and are repaid through payroll deductions. Interest is earned on the participant notes at the prime rate in effect on the first day of the quarter plus one percent (4.25% at December 2009 and 6.25% at December 31, 2008).

Plan Termination. The Company has the right to terminate the Plan at any time. In the event of termination, the respective participant interest, net of any termination fees, will become fully vested and will be distributed to each participant in accordance with the Plan's provisions.

Investment Options. Upon enrollment in the Plan, a participant may direct employee contributions in various increments to the investments administered by the National Automobile Dealers Association Investment Trusts. Participants may change their investment options among various mutual funds and bank common collective trusts.

Amendments. Effective October 1, 2008, the Plan was amended to discontinue the plan sponsor's matching contribution. There were no amendments for the year ending December 31, 2009.

Subsequent Events. Plan management has evaluated subsequent for disclosure in these financial statements through October 4, 2010, the date the financial statements were available to be issued.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition. The Plan's investments in common/collective trusts are stated at fair value as determined by Cardinal Bank, the trustee of the Plan. The Plan's investments in mutual funds are stated at fair market value, based upon quoted market prices. Participant loans are valued at their unpaid principal balances, which approximate fair value.

Note 2: Summary of Significant Accounting Policies (continued)

Investment income from the common/collective trusts includes dividends, interest, and gains or losses on investments resulting from the net change in market or fair value. The investment income allocated to the Plan from common/collective trust is net of investment management fees.

Note 3: Information Certified by Trustee

In 2009, the Plan received a rebate of plan fees of $4,041 previously charged against investment income. Cardinal Bank, the trustee of the Plan, has certified as to the completeness and accuracy of all investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008, the investment activities reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2009, with the exception of the investment fee rebate, and all investment information reflected in the supplemental Schedule of Investments Held at December 31, 2009, in accordance with 29 CFR 2520.103-8(c) of the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This information has been certified as complete and accurate to the best of their knowledge.

Note 4: Significant Investments

Significant investments represent more than five percent of the Plan's assets. The following represents significant investments of the Geweke Ford Inc., NADART Salary Deferral 401(k) Plan as of December 31, 2009 and 2008.

	2009	2008

* Represents less than 5% of Plan's Net Assets

Note 5: Net Appreciation In Fair Values of Assets

For the year ended December 31, 2009, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

Fair value as determined by quoted market prices or Cardinal Bank:	
Common/Collective Trusts	$ 365,011
Mutual Funds	63,438
Net depreciation in fair value of investments	$ 428,449

Note 6: Fair Value Measurements

Financial Accounting Standards Board ASC 820-10 (formerly FASB Statement No. 157, Fair Value Measurements), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets:

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset of liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input hat is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value ('NAV') of shares held by the plan at year end based on quoted market prices

Common/Collective Trusts (CCTs): Valued at net asset value ('NAV') as provided by Cardinal Bank, the trustee of the Plan. The NAV for most CCTs is quoted on a private market that is not active; however, the unit price is based on quoted market prices of the underlying investments which are traded on an active market.

The Income Fund: Valued at net asset value ('NAV') as provided by Cardinal Bank, the trustee of the Plan. The Income Fund is the CCT that contains synthetic guaranteed investments contracts (GICs). The fair value of a synthetic GIC is calculated by valuing each component of the structure separately. The fixed income securities component in the underlying account are valued at quoted market prices. The value of the wrapper contract component is determined by the issuer using a standard discounted replacement cost methodology, using the duration and period end yields of the issuer's comparable sector credit curve as valuation inputs. See note 7 regarding the contract value of the Income Fund.

Participant loans: Valued at their unpaid value, which approximates fair value.

Note 6: Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Fair Value
Mutual Funds	$ 176,137	$ -	$ -	$ 176,137
Common/Collective Trust	-	2,187,064	-	2,187,064
Participant loans	-	-	146,788	146,788
Total assets at fair value	$ 176,137	$ 2,187,064	$ 146,788	$ 2,509,989

	Assets at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Fair Value
Mutual Funds	$ 187,307	$ -	$ -	$ 187,307
Common/Collective Trust	-	1,734,427	-	1,734,427
Participant loans	-	-	210,387	210,387
Total assets at fair value	$ 187,307	$ 1,734,427	$ 210,387	$ 2,132,121

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

	Participant Loans
Balance, beginning of year	$ 210,387
Interest Income	11,445
New loans issued, principal payments, deemed distributions (net)	(75,044)
Balance, end of year	$ 146,788

Note 7: The Income Fund

The Income Fund is a common collective trust that invests in guaranteed investment contacts and wrap (synthetic) contracts which are designed to help preserve principle and provide a stable crediting rate. The Income Fund is fully benefit responsive and withdrawals are made at contract value for qualified benefit payments including participant directed transfers. Under certain circumstances, non-benefit related withdrawals from the fund, such as the termination of a participating plan, may be transacted at fair value which may be lower than contract value.

The average yield earned by the Fund at December 31, 2009, representing the annualized earnings of all investments in the Fund divided by the average market value of all investments in the Fund, was 4.42%. The average yield credited to participants in the fund (the crediting rate) as of the last day of the period was 4.29%. The average end of period crediting rate net of various fees was 4.19%

Investment contracts held by a defined contribution plan are required to reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Income fund investment held by the Plan contains underlying investment contracts whose fair value is different from their contract value. The Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008 present the fair value of the Income Fund as well as the adjustment from fair value to contract value for the fund. The Statement of Changes in Nets Assets Available for Benefits is prepared on a contract value basis.

Note 8: Tax Status

The NADART master prototype documents were amended to comply with the statutory requirements of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) of 2001 and received favorable opinion letters from the Internal Revenue Service on March 31, 2008. The Plan's adoption agreement has been restated to reflect the EGTRRA plan changes and is effective December 31, 2008. In accordance with Revenue Procedure 2002-6, the Plan administrator has chosen to rely on the current opinion letter that has been issued to the prototype. Once qualified, the Plan is required to operate in conformity with the Internal Revenue Code (the Code) to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Note 9: Investment and Administrative Fees

Investment management fees are charged to participants based on their investment elections. The unit values of the common/collective trusts are adjusted for fees of 45 basis points, 35 basis points prior to June 1, 2009, for record keeping services. Participants who use the Vanguard Growth Index Fund and/or Longleaf Partners Fund are charged 45 basis points, 35 basis points prior to June 1, 2009, against their account for that fund.

The Plan sponsor paid $2,742, net of forfeitures used, and $$4,830 respectively for administrative fees on behalf of the Plan for years ended December 31, 2009 and 2008. These administrative fees charged to the Sponsor by the Trustee include a base rate per plan, a charge per participant, service fees, and audit fees.

Note 10: Risks and Uncertainties

The Plan provides for various investment options which are exposed to a various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is possible that changes in the values of investments will occur in the near term and would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11: Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits and investment income per the financial statements at December 31, 2009 and 2008 to the amounts shown on schedule H of the Form 5500. The financial statements show the Nadart Income Fund at contract value whereas the form 5500 shows investments at fair value.

	2009	2008
Net assets available for benefits per financial statements	$ 2,521,486	$ 2,175,691
Adjustment to fair value for Income Fund	8,304	(26,315)
Net Assets per schedule H of form 5500	$ 2,529,790	$ 2,149,376

Total investment income per the financial statements	$ 445,968
Change in adjustment to fair value for the Income Fund	34,619
Total investment income per form 5500	$ 480,587
