Note 2 – Description of the Plan

The following description of The Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan covers all employees of Banker Lopez Gassler P.A. (the Company) and is a defined contribution plan originally effective February 1, 2009. The Plan was last amended and restated effective August 1, 2017 .The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The board of directors is responsible for oversight of the Plan. Plan management and its designated independent investment advisor collectively determine the appropriateness of the Plan's investment offerings, monitor investment performance, and reports to the board of directors.

Eligibility - Employees are eligible to participate in the salary reduction arrangement, Employer matching contributions, and Employer discretionary non-elective contributions in the Plan after reaching the age of 21 and completing 6 months of employment. Employees may enter the Plan upon the completion of the eligibility requirements. Prior to November 1, 2016, employees receive credit for purposes of eligibility for time worked at Fowler White Boggs Banker P.A., the predecessor law firm to Banker Lopez Gassler P.A.

Contributions - The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code (IRC). Eligible participants are permitted to elect to have a percentage, limited by Plan provisions, of their compensation contributed as pre-tax or Roth (post tax) 401(k) contributions to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Company may make qualified non-discretionary matching contributions during the year. For the years ended October 31, 2017 and 2016, the Company's matching contribution was 50% of deferral contributions subject to a maximum of the lesser of 6% of eligible employee compensation contributed to the plan or $500.

Note 2 – Description of the Plan (Continued)

Contributions (continued) - The Company may also, at the board of director's discretion, elect to make a qualified discretionary non-elective profit sharing contributions to the Plan. The Company has authorized a contribution for the year ended October 31, 2017, in the amount of $611,685. This amount is based on 3% of participants' compensation and is reflected in the accompanying statement of net assets available for benefits.

Participants may also rollover as contributions amounts representing distributions from other qualified defined benefit or contribution plans or conduit IRA's.

Participants direct the investment of their elective contributions as well as the Company's matching contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a collective fund as investment options for participants. The Plan also offers a service that allows Plan participants the opportunity to invest in a wide array of securities. Participants can elect to invest their plan assets in individual securities by establishing a plan level Fidelity brokerage account. Contributions are subject to certain limitations.

For all qualified discretionary non-elective profit sharing contributions an Investment Manager has been appointed to control all investment purchases and sales. The trustee, under direction of the investment manager, will direct investable proceeds into various mutual funds in an attempt to bring added value to the trust fund in the form of interest, dividends and capital growth.

Participant Accounts - Each participant's account is credited with the participant's contributions, the Company's matching contribution, the Company's non-elective profit sharing contribution, and an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching portion, the Company's non-elective profit sharing contribution portion, plus actual earnings thereon, is based on years of continuous service. A participant is 100% vested after six years of credited service. Notwithstanding above, a participant is fully vested upon reaching normal retirement age or becoming permanently disabled or death during their time of employment. For the purposes of vesting, years of service with the Company and Fowler White Boggs Banker P.A. prior to November 1, 2016 are counted towards years of vesting in the Plan.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested 401(k) account balance (reduced by the highest outstanding note balance in the participants account during the prior 12-month period). Principal and interest is paid ratably through payroll deductions. Note terms are up to five years, except for notes to fund the purchase of a principal residence, for which the note may be repaid over a reasonable period that may exceed five years. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates ranging from (5.25% - 6.5%).

Note 2 – Description of the Plan (Continued)

Benefit Payments - Upon termination of service, death, disability, or retirement (age 65), the participant may elect to receive the value of the vested interest in his or her account in the form of a lump sum or installment distribution if the vested account balance is greater than $1,000. The Plan allows for in-service distributions if a participant reaches age 59½ and hardship distributions subject to Plan provisions. If a participant terminates employment and the participant's account balance does not exceed $1,000, the Plan Administrator will authorize the benefit payment without the participant's consent.

Forfeited Accounts - Forfeited non-vested accounts are first used to reduce administrative expenses and then are used to reduce future Company contributions. For the year ended October 31, 2017, no expenses were paid from forfeitures. As of October 31, 2017 and 2016, the forfeiture account had an ending balance of $42,775 and $8,500, respectively.

Note 3 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting. Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed as they are incurred. No allowance for credit losses has been recorded as of October 31, 2017 and 2016. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document. Borrowings are limited in accordance with provisions in the Plan's Agreement.

Note 3 - Significant Accounting Policies (Continued)

Administrative Expenses - The Company pays certain administrative expenses on behalf of the Plan. Fees related to the administration of notes receivable and benefit payments are charged directly to the participant's account and are included in administrative expenses. Investment related fees are included in net appreciation in fair value of investments.

Note 4 - Certification of Investment Information

Fidelity Management Trust Company has supplied the plan administrator with certain information utilized in preparing the financial statements and supplemental schedule. The plan administrator has obtained certifications from Fidelity that such information is complete and accurate and, accordingly, such information is not covered by the independent auditors' report.

Note 6 – Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Note 6 – Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. The Plan did not have any assets which were valued using Level 2 inputs.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at October 31, 2017 and 2016.

Mutual Funds - Investments in the mutual funds are valued at the unadjusted quoted prices for identical assets in active markets.

Self-Directed Brokerage Accounts - Investments in Self-Directed Brokerage Accounts are comprised of certificates of deposit, common stock, corporate bonds and U.S. treasury notes valued at the unadjusted quoted prices for identical assets in active markets.

Common/collective trust fund investments - The investments underlying the common/collective trust funds generally include shares of common stock and fixed income investments whose values are determined on the basis of quoted prices in an active market. The Plan's common/collective trust fund investments are valued based on net asset value (NAV) per share or unit as a practical expedient as reported by the fund manager, multiplied by the number of shares or units held as of the measurement date. Accordingly, these NAV-based investments have been excluded from the fair value hierarchy.

The common/collective trust funds also include the Fidelity Managed Income Portfolio II (MIP II). The objective of the MIP II is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital. Under the terms of the MIP II's Declaration of Trust, withdrawals directed by the Company must be preceded by a 12 month written notice to the MIP II. As of December 31, 2017, the Plan had not provided the MIP II with advance written notice to terminate the Plan's investment in the MIP II.

As of December 31, 2017, the Plan had no unfunded commitments related to the common/collective trusts. There are no participant redemption restrictions for these investments.

Note 6 – Fair Value Measurements (Continued)

Life Insurance Contracts: Life insurance contracts are considered Level 3 investments and their fair value is based on the policies' cash surrender value.

Below are the Plan's financial instruments carried at fair value on a recurring basis at October 31, 2017 and 2016. As of October 31, 2017 and 2016, investments using the fair value hierarchy described above have been classified as valued using Level 1 inputs. In accordance with AWD 820-10, certain investments that are measured at fair value using the NAV per share practical expedient are not classified in the fair value hierarchy, but have been presented in this table to permit reconciliation of the fair value hierarchy to the fair value of the Plan's assets at the end of each respective year.

October 31, 2017	Quoted Prices in Active Markets for Identical Assets (Level 1)	Unobservable Inputs (Level 3)	Valued using NAV Per Share Practical Expedient	Total Fair Value

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended October 31, 2017:

Balance, October 31, 2016	$ -
Merger of Profit Sharing Plan	633,562
Increase in cash value	5,239
Balance, October 31, 2017	$ 638,801

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100% vested in their Company contributions.

Note 9 – Plan Tax Status

The Plan is placing reliance on an opinion letter dated March 31, 2014, received from the Internal Revenue Service on the prototype plan indicating that the Plan is qualified under Section 401 of the Internal Revenue Code (IRC) and is therefore not subject to tax under current income tax law. Although the Plan has been amended since receiving the determination letter the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan's income tax returns for the past three years are subject to examination by taxing authorities and may change upon examination.

Note 10 – Party in Interest Transactions

The Plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

Note 11 – Reconciliation of Financial Statements to Schedule H Form 5500

The financial statements have been prepared using the accrual method of accounting while the Plan's Form 5500 has been prepared on the modified-cash basis method of accounting. Reconciliation between the financial statements and Form 5500 is as follows:

Change in net assets for benefits per the Form 5500	$ 6,458,583

Note 12– Subsequent Events

For the year ended October 31, 2017, the Plan has evaluated subsequent events for potential recognition and disclosure through August 13, 2018 the date the financial statements were available to be issued. No events occurred subsequent to October 31, 2017, and through August 13, 2018, that would require adjustment to, or disclosure in, the financial statements.
